- (c) give Customs returns at such intervals, not exceeding 2 months, as are specified in the permission, providing particulars in accordance with section 71K or 71L in relation to those goods or to goods of that kind that have, during the periods to which the returns relate, been delivered into home consumption; and

- (d) at the time when each return is given to Customs, pay any duty owing at the rate applicable when the goods were delivered into home consumption; and
- (e) comply with any conditions to which the permission is subject.

Penalty: \$5,000.

(6) Where an officer of Customs is satisfied that a person to whom a permission has been granted under this section has failed to comply with any condition to which the permission is subject, the officer may:

- (a) if the permission related to particular goods—at any time before those goods are delivered into home consumption; and
- (b) if the permission related to goods of a particular kind—at any time while the permission remains in force;

by notice in writing, revoke the permission and set out in the notice the reasons for that revocation.

Special clearance goods

70. (1) In this section, “special clearance goods” means goods to which section 68 applies comprising:

- (a) goods reasonably required for disaster relief or for urgent medical purposes; or
- (b) engines or spare parts that are unavailable in Australia and are urgently required for ships or aircraft, or for other machinery that serves a public purpose; or
- (c) perishable food.

(2) A person who has imported or proposes to import goods referred to in paragraph (a) of the definition of “special clearance goods” may apply to Customs at any time, in writing, for permission to deliver the goods into home consumption without entering them for that purpose.

(3) A person who has imported goods referred to in paragraph (b) or (c) of the definition of “special clearance goods” may apply to Customs, in writing, for permission to deliver the goods into home consumption without entering them for that purpose:

- (a) if the goods become subject to Customs control outside the hours of business for dealing with import entries; and
- (b) the application is made before those hours of business resume.

(4) Subject to subsection (5), an officer of Customs may, on receipt of an application under subsection (2) or (3), by notice in writing:

- (a) grant permission for the goods to which the application relates to be delivered into home consumption without entering them for that purpose; or
- (b) refuse to grant such a permission and set out in the notice the reasons for so refusing.

(5) A permission granted in respect of goods is subject to any condition, specified in the permission, that Customs considers appropriate.

(6) Where an application is made in respect of perishable food, an officer of Customs must not grant the permission unless he or she is satisfied that, if he or she refused to do so, the food would be of little or no commercial value when the hours of business for dealing with import entries resumed.

(7) Where permission is granted in respect of goods, the person to whom the permission is granted must:

- (a) give Customs a return, within 7 days of the delivery of the goods into home consumption, providing particulars in accordance with section 71K or 71L in relation to the goods; and
- (b) at the time when the return is given to Customs, pay any duty or sales tax owing at the rate applicable when the goods were delivered into home consumption; and
- (c) comply with any condition to which the permission is subject.

Penalty: \$5,000.

(8) Where an officer of Customs is satisfied that a person to whom a permission has been granted under this section has failed to comply with any of the conditions to which the permission is subject, the officer may, at any time before goods are delivered into home consumption, by notice in writing, revoke the permission and set out in the notice the reasons for that revocation.

(9) In this section, a reference to the hours of business for dealing with import entries is a reference:

- (a) if an applicant is a registered COMPILE user—to a time when, under regulations made for the purposes of section 28, the applicant would be able to give a documentary import entry, or transmit a computer import entry, to Customs; and
- (b) if an applicant is not a registered COMPILE user—to a time when, under those regulations, the applicant would be able to give a documentary import entry to Customs.

Information in relation to goods not requiring import entry

71. (1) The owner of the goods of a kind referred to in paragraphs 68 (1) (d), (e), (f) or (i) must, in any circumstances specified in the regulations, provide such information:

- (a) at such time; and
- (b) in such manner and form;

as the regulations specify.

(2) Where goods of a kind referred to in subsection (1) are imported into Australia, Customs must, having regard to any information given to Customs in accordance with the regulations and any further information supplied under section 196C, by notice in writing:

- (a) authorise the delivery of those goods into home consumption; or
- (b) refuse to authorise the delivery of those goods into home consumption and give reasons for its refusal.

Making an import entry

71A. (1) An import entry is a communication to Customs of information concerning goods to which section 68 applies that are intended to be entered for home consumption, for warehousing, or for transshipment, that is effected:

- (a) by document; or
- (b) except so far as goods intended to be entered for transshipment are concerned—by computer.

(2) A documentary import entry must:

- (a) be made by the owner of the goods concerned; and
- (b) be communicated to Customs:
 - (i) by giving it to an officer doing duty in relation to entries under this Part; or
 - (ii) by leaving it at a place that has been allocated for lodgment of import entries in a Customs Office;

at the place at which the goods are to be delivered for home consumption, warehousing, or transshipment.

(3) A computer import entry must be transmitted by a registered COMPILE user as the owner, or on behalf of the owner, of the goods concerned.

s. 71B

(4) Despite the fact that any law of the Commonwealth, including this Act, provides that the importation of particular goods into Australia is prohibited unless a permission (however it is described) to import those goods is produced to an officer of Customs, that obligation will, in such cases as are prescribed, be taken to have been complied with if the permission obtained in respect of those goods is adequately identified in the information communicated to Customs in an import entry relating to those goods.

(5) Nothing in subsection (4) affects any power of an officer of Customs, under this Act, to require the production of such permission.

(6) When an import entry is, or is taken under section 71L to have been, communicated to Customs, and the goods to which the entry relates have been imported or have been brought to the first port or airport in Australia at which any goods are to be discharged, the goods are taken to have been entered.

(7) When an import entry is, or is taken under section 71L to have been, communicated to Customs before the goods to which the entry relates have been brought to the first port or airport in Australia at which any goods are to be discharged, the goods are taken to have been entered only when they are brought to that port or airport.

Authority to deal with goods entered under section 71A

71B. (1) Where an entry in respect of goods has been given or transmitted to Customs, Customs must give an import entry advice, by document or computer, in accordance with this section.

(2) An import entry advice relating to goods entered by documentary import entry:

(a) must be given to the owner of the goods or be made available for collection by leaving it at a place in a Customs office that has been allocated for collection of such advices; and

(b) must contain:

(i) a statement to the effect that the goods are cleared for home consumption, warehousing, or transshipment; or

(ii) a statement that the goods are directed for further examination.

(3) An import entry advice relating to goods entered by a computer import entry:

(a) must refer to the entry number given by the COMPILE computer system to the particular import entry; and

(b) must be transmitted to the registered COMPILE user whose PIN number was transmitted in relation to the entry; and

(c) must include:

- (i) a statement to the effect that the goods are cleared for home consumption or warehousing; or
- (ii) a statement that the goods are directed for further examination.

(3A) An authority to deal may not be issued unless a cargo clearance advice authorising the goods the subject of the import entry advice to be released for home consumption or warehousing has first been issued under section 74A.

(4) Where:

- (a) an import entry advice is given or transmitted under this section; and
- (b) a payment of any duty, sales tax or other charge payable at the time of entry on the goods covered by the import entry advice together with all administrative charges associated with the making of that entry;

Customs must:

- (c) if the advice was given under subsection (2)—give the person to whom the advice was given an authority, in writing, to take the goods into home consumption, to warehouse them or to tranship them, as the case requires; and
- (d) if the advice was given under subsection (3)—give the person to whom the advice was transmitted, by message transmitted to the person, an authority to take the goods into home consumption or to warehouse them, as the case requires.

(4A) Without limiting the generality of the reference in subsection (4) to administrative charges associated with the making of an entry, that reference includes, in relation to a documentary import entry, an amount specified in the regulations as a fee payable for assistance provided in preparing the entry for use in a Customs computer system.

(5) Where goods are authorised to be taken into home consumption, to be warehoused or to be transhipped, the authority to deal, whether given by document or computer, must set out:

- (a) any condition, of the kind referred to in subsection (6), to which the authority is subject; and
- (b) the date on which the authority is given; and
- (c) such other information as is prescribed.

(6) An authority to deal with goods may be expressed to be subject to a condition that a specified permission for the goods to be dealt with (however it is described) be obtained under another law of the Commonwealth.

s. 71C

(7) Where an authority to deal with goods is expressed to be subject to the condition that a specified permission be obtained, the authority is taken not to have been given until the permission has been obtained.

(8) An officer may, at any time before goods authorised to be taken into home consumption, to be warehoused or to be transhipped are so dealt with, cancel that authority:

- (a) if the authority was given in respect of a documentary entry—by signing a notice stating that the authority is cancelled and setting out the reasons for that cancellation and serving a copy of that notice on the person who made the entry or, if that person does not have possession of the goods, on the person who has possession of the goods; and
- (b) if the authority was given in respect of a computer entry:
 - (i) by transmitting to the registered COMPILE user to whom the authority was given a cancellation notice setting out the same particulars as are required to be included in a notice referred to in paragraph (a); or
 - (ii) by signing and serving a notice of the kind referred to in paragraph (a) on the registered COMPILE user to whom the authority was given, or, if that person does not have possession of the goods, on the person who has possession of the goods;

and the cancellation has effect from the moment the notice is served or transmitted, as the case requires.

Visual examination in presence of officer of Customs

71C. (1) If a person permitted or required to make an import entry in respect of goods to which section 68 applies does not have the information to complete the entry, the person may make application to Customs, by document, for permission to examine the goods in the presence of an officer of Customs.

(2) An application must be communicated to Customs by giving it to an officer of Customs doing duty in relation to import entries.

(3) When an application is given to Customs under subsection (2), an officer of Customs must, by notice in writing, give the applicant permission to examine the goods to which the application relates on a day and at a place nominated in the notice.

(4) A person who has received a visual examination permission may examine the goods in accordance with the permission in the presence of an officer of Customs.

An officer of Customs may request additional information

71D. (1) Without limiting the generality of the information that may be required to be included in an import entry, where goods have been entered, authority to deal with the goods in accordance with the entry may be refused until an officer doing duty in relation to import entries:

- (a) has verified particulars of the goods shown in the entry; or
- (b) is satisfied of any other matter that may be relevant to the granting of an authority to deal.

(2) An officer doing duty in relation to import entries may, by document or by computer, require the owner of goods entered under section 71A:

- (a) to deliver to the officer the commercial documents in respect of the goods that are in the owner's possession or under the owner's control (including any such documents that had previously been delivered to an officer and had been returned to the owner); or
- (b) to deliver to the officer such information, in writing, relating to the goods, being information of a kind specified in the notice, as is within the knowledge of the owner or as the owner is reasonably able to obtain.

(3) A documentary requirement for the delivery of documents or information in respect of an import entry must:

- (a) be communicated to the person by whom, or on whose behalf, the entry was communicated; and
- (b) be in an approved form and contain such particulars as the form requires.

(4) A computer requirement for the delivery of documents or information in respect of an import entry must:

- (a) be transmitted to the registered COMPILE user by whom, or on whose behalf, the entry was communicated; and
- (b) be transmitted using the COMPILE computer system; and
- (c) communicate such particulars as are set out in an approved statement.

(5) An officer doing duty in relation to import entries may ask the owner of goods entered under section 71A and, if another person communicated the entry on behalf of the owner, that other person, any questions relating to the goods.

(6) An officer doing duty in relation to import entries may require the owner of any goods entered under section 71A to verify the particulars shown in the entry by declaration or the production of documents.

s. 71E

(7) Where:

- (a) the owner of goods has been required to deliver documents or information in relation to the goods under subsection (2); or
- (b) the owner of, or the person giving an entry in respect of, goods has been asked a question in respect of the goods under subsection (5); or
- (c) the owner of goods has been required to verify a matter in respect of the goods under subsection (6);

authority to deal with the relevant goods in accordance with the entry must not be granted unless the requirement has been complied with or revoked, the question has been answered or withdrawn, or the requirement has been complied with or withdrawn, as the case may be.

(8) Subject to section 215, where a person delivers a commercial document to an officer doing duty in relation to import entries under this section, the officer must deal with the document and then return the document to that person.

Application for movement permission

71E. (1) Where particular goods, or goods of a particular kind, are, or after their importation will be, subject to Customs control, application may be made to Customs, by document or by computer, in accordance with this section, for permission to move those goods, or goods of that kind, or to move them after their importation, to a place specified in the application.

(2) A documentary movement application must:

- (a) be made by the owner of the goods concerned; and
- (b) be communicated to Customs by giving it to an officer doing duty in relation to import entries or to the movement of goods subject to Customs control.

(2A) A computer movement application must be transmitted by a registered user of a cargo automation system, or a registered COMPILE user, as the owner, or on behalf of the owner, of the goods concerned.

(3) When an application is communicated to Customs under subsection (2) or (2A), an officer of Customs must, by notice in writing:

- (a) give the applicant permission to move the goods to which the application relates in accordance with the application either absolutely or subject to such conditions as are specified in the notice; or
- (b) refuse the application and set out in the notice the reasons for that refusal.

(3A) A person to whom a permission has been given under subsection (3) must not, without reasonable excuse, move the goods to which the permission relates otherwise than in accordance with the permission.

Penalty: \$50,000.

(3B) If a person moves goods otherwise than in accordance with the requirement of a permission to which the goods relate, the movement of the goods is, for the purposes of paragraph 229 (1) (g), taken not to have been authorised by this Act.

(4) Where goods are moved to a place other than a warehouse in accordance with a permission under subsection (3), an officer of Customs may, at any time while the goods remain under Customs control, direct in writing that they be moved from that place to a warehouse specified in the direction within a period specified in the direction.

(5) If goods are not moved in accordance with such a direction, an officer of Customs may arrange for the goods to be moved to the warehouse specified in the direction or to any other warehouse.

(6) Where an officer of Customs has arranged for goods to be moved to a warehouse, Customs has a lien on the goods for any expenses incurred in connection with their removal to the warehouse and for any warehouse rent and charges incurred in relation to the goods.

Withdrawal of import entries

71F. (1) At any time after an import entry is communicated to Customs and before the goods to which it relates are dealt with in accordance with the entry, a withdrawal of the entry may be communicated to Customs by document or computer.

(2) A documentary withdrawal of an import entry must:

- (a) be communicated by the person by whom, or on whose behalf, the entry was communicated; and
- (b) be communicated to Customs by giving it to an officer doing duty in relation to import entries.

(3) A computer withdrawal of an import entry in respect of particular goods must be transmitted by a registered COMPILE user as, or on behalf of, the owner of the goods.

(4) A withdrawal of an import entry has no effect during any period while a requirement under subsection 71D (2) in respect of the goods to which the entry relates has not been complied with.

s. 71G

(5) A withdrawal of an entry is effected when it is, or is taken under section 71L to have been, communicated to Customs.

(6) If:

- (a) an import entry is communicated to Customs; and
- (b) duty remains unpaid in respect of goods covered by the entry for 30 days starting on the day on which the import entry advice in respect of those goods is communicated; and
- (c) after that period ends, the Collector gives written notice to the owner of the goods requiring payment of duty within a further period set out in the notice; and
- (d) duty is not paid within the further period;

the import entry is taken to have been withdrawn under subsection (1).

Goods not to be entered while an entry is outstanding

71G. Where goods have been entered for home consumption under subsection 68 (2) or (3), a person must not communicate a further import entry to Customs in respect of those goods or of any part of those goods unless the first-mentioned entry is withdrawn.

Penalty: \$1,500.

Effect of withdrawal

71H. (1) When a withdrawal of an import entry takes effect, any authority to deal with the goods to which the entry relates is revoked.

(2) Despite the withdrawal of an import entry:

- (a) a person may be prosecuted, or action taken under section 243T, in respect of the entry; and
- (b) a penalty may be imposed on a person who is convicted of an offence in respect of the entry;

as if it had not been withdrawn.

(3) The withdrawal of a documentary entry does not entitle the person who communicated it to have it returned.

Change of import entry treated as withdrawal

71J. Where a person who has communicated an import entry changes information included in that entry, the person is taken, at the time when an import entry advice is given or transmitted in respect of the altered entry, to have withdrawn the entry as it previously stood.

Manner of communicating with Customs by document

71K. An import entry, a withdrawal of an import entry, a visual examination application, a movement application, or a return for the purposes of subsection 69 (5) or 70 (7), that is communicated to Customs by document:

- (a) must be in an approved form; and
- (b) must include such information as the approved form requires; and
- (c) must be signed in the manner indicated in the approved form.

Manner and effect of communicating with Customs by computer

71L. (1) An import entry, a withdrawal of such an entry, or a return for the purposes of subsection 69 (5) or 70 (7) that is transmitted to Customs by computer:

- (a) must be transmitted using the COMPILE computer system during a time when, under regulations made for the purpose of section 28, a person can transmit a computer import entry to Customs; and
- (b) must be signed by transmitting, in relation to the entry or the withdrawal, the registered COMPILE user's PIN number; and
- (c) must communicate such information as is set out in an approved statement relating to that communication.

(2) For the purposes of this Act, an import entry, a withdrawal of such an entry, or a return for the purposes of subsection 69 (5) or 70 (7) is taken to have been communicated to Customs by computer when an import entry advice or an acknowledgment of the withdrawal or of the return is transmitted by Customs using the COMPILE computer system to the registered COMPILE user whose PIN number was transmitted in relation to the entry or withdrawal.

(3) A movement application that is transmitted to Customs by computer:

- (a) must be transmitted using a cargo automation system or the COMPILE computer system during a time when, under regulations made for the purposes of section 28, a person can transmit a computer entry to Customs; and
- (b) must be signed by transmitting, in relation to the application, the registered user's identifying code under the cargo automation system or the registered COMPILE user's PIN number, as the case requires; and
- (c) must communicate such information as is set out in an approved statement relating to that communication.

(4) For the purposes of this Act, a movement application is taken to have been communicated to Customs by computer:

- (a) when an acknowledgment of the application is transmitted by Customs using a cargo automation system to the registered user of that system whose identifying code was transmitted in relation to the application; or
- (b) when an acknowledgment of the application is transmitted by Customs using the COMPILE computer system to the registered COMPILE user whose PIN number was transmitted in relation to the application;

as the case requires.

Failure to make entries

72. (1) Where:

- (a) imported goods are required to be entered; and
- (b) an entry is not made in respect of the goods within such period commencing on the importation of the goods as is prescribed, or any further period allowed by a Collector;

a Collector may cause or permit the goods to be removed to a warehouse or such other place of security as the Collector directs or permits.

(2) Where goods that have been, or may be, removed under subsection (1) are live animals or are of a perishable or hazardous nature and a Collector considers it expedient to do so without delay, the Collector may sell, or otherwise dispose of, the goods.

(3) A Collector has a lien on goods for any expenses incurred by him in connection with their removal under subsection (1) and for any warehouse rent or similar charges incurred in relation to the goods.

(4) Where:

- (a) goods (other than goods to which subsection (2) applies) have been, or may be, removed under subsection (1); and
- (b) all things that are required to be done to enable authority to deal with the goods to be given under section 71B, including the making of an entry in respect of the goods, are not done within:
 - (i) if the goods have been removed—such period as is prescribed commencing on the removal of the goods;
 - or

- (ii) if the goods have not been removed—such period as is prescribed commencing on the expiration of the period applicable under paragraph (1) (b) in relation to the goods;

a Collector may sell, or otherwise dispose of, the goods.

(5) A period prescribed for the purposes of subsection (1) or subparagraph (4) (b) (i) or (ii) may be a period prescribed in relation to all goods or in relation to goods in a class of goods.

Breaking bulk

73. (1) Subject to subsection (3), except with the permission of a Collector, a person shall not break the bulk cargo of a ship arriving in, or on a voyage to, Australia while the ship is within 12 nautical miles of the base line of the territorial sea of Australia or within 12 nautical miles of the coast of an island forming part of Australia.

Penalty: \$25,000.

(2) Subject to subsection (3), except with the permission of a Collector, a person shall not break the bulk cargo of an aircraft arriving in, or on a flight to, Australia while the aircraft is:

- (a) flying over Australia;
- (b) in, or flying over, the waters within 12 nautical miles of the base line of the territorial seas of Australia; or
- (c) in, or flying over, the waters within 12 nautical miles of the coast of an island forming part of Australia.

Penalty: \$25,000.

(3) Subsections (1) and (2) do not apply in respect of goods authority to deal with which has been given under section 71B.

Authority for unshipment

74. (1) Except as prescribed, the master or owner of a ship or the pilot or owner of an aircraft must not unship goods at a port or airport otherwise than in accordance with a Collector's permit to unship the goods.

Penalty: \$25,000.

(2) A Collector's permit to unship goods may be subject to such conditions as are specified in the permit.

(3) Subject to subsection (4), a permit to unship must be communicated:

- (a) to the person who communicated to Customs the cargo report covering the goods to which the permit relates; and

s. 74A

- (b) to any other person responsible for the physical removal of the cargo covered by the report from the ship or aircraft.

(4) If a permit to unship goods is communicated to a person other than the person who communicated to Customs that cargo report covering the goods, Customs may inform that other person of any conditions attaching to the grant of the permit that directly affect the physical removal of goods covered by the cargo report but must not disclose any other conditions or the reasons for the imposition of any of the conditions to which the grant of the permit is subject.

Cargo clearance

74A. If:

- (a) a person has lodged a cargo report in respect of goods intended to be discharged at a port or airport in Australia; and
- (b) a permit to unship the goods has been issued under section 74; and
- (c) an officer of Customs doing duty in relation to cargo is satisfied that there is no reason why the goods cannot be released for home consumption or warehousing;

the Customs officer may, by document or by computer, grant a cargo clearance advice authorising the goods to be so released.

Goods landed on permit at ship's risk etc.

76. Goods unshipped and landed under a Collector's permit shall be placed by and at the expense of the master or owner of the ship or the pilot or owner of the aircraft from which they were unshipped in a place of security approved by the Collector, and shall until lawfully removed therefrom be at the risk of the master or owner of the ship or the pilot or owner of the aircraft as if they had not been unshipped.

Repacking on wharf

77. Any goods may by authority be repacked or skipped on the wharf.

*Division 4A—The use of computers for import entry purposes***Registered COMPILE users**

77A. (1) To communicate with Customs by computer for a purpose identified in Division 4, a person must be a registered COMPILE user.

(2) A person wishing to become a registered COMPILE user may apply to the Comptroller to be so registered.

(3) An application must:

- (a) be in writing; and
- (b) be in an approved form; and
- (c) contain such information as the form requires; and
- (d) be signed in the manner indicated in the form.

(4) The Comptroller may require an applicant for registration to give such additional information as the Comptroller considers necessary for the purposes of this Act and may refuse to register the person until the information is given to the satisfaction of the Comptroller.

(5) Where an application is made to the Comptroller under this section, the Comptroller must, having regard to that application and, where additional information is supplied in response to a request under subsection (4), to that additional information:

- (a) register the applicant as a registered COMPILE user by signing a notice stating that the applicant is a registered COMPILE user; or
- (b) refuse to register the applicant as a registered COMPILE user by signing a notice stating that the Comptroller has refused to register the applicant and setting out the reasons for the refusal.

(6) Without limiting the generality of subsection (5), the Comptroller may refuse to register an applicant as a registered COMPILE user if the Comptroller is satisfied that the applicant does not have and is not likely to acquire within a reasonable time after making the application, computer facilities of the kind referred to in paragraph (8) (a).

(7) Where the Comptroller registers a person as a registered COMPILE user, the registration has effect from the day on which the relevant notice was signed.

(8) Each registered COMPILE user must, as soon as practicable after registration, enter into an agreement with Customs, setting out the terms and conditions of computer access to Customs for the purpose of communications relating to the importation of goods including:

- (a) a condition that the user will use computer facilities of a kind specified in the agreement for all computer communications with Customs relating to import entries; and
- (b) a condition that the user, when assigned a personal identification number by the Comptroller, will ensure the security of the number in a manner indicated in the agreement.

s. 77B

(9) Where a registered COMPILE user enters into a COMPILE user agreement, the Comptroller must forthwith allocate to the user:

- (a) if the user is a natural person—a PIN number or sufficient PIN numbers for the user and each employee of the user who is nominated to Customs in accordance with the agreement; or
- (b) if the user is not a natural person—sufficient PIN numbers for each employee of the user who is nominated to Customs in accordance with the agreement.

(10) A registered COMPILE user who is a licensed customs agent under Part XI of this Act must not allocate a PIN number to an employee of that agent unless the employee is himself or herself a licensed customs agent under that Part.

(11) Where, at any time the Comptroller becomes satisfied that a person who is a registered COMPILE user has failed to comply:

- (a) with an obligation imposed on the user under this Act; or
- (b) with a term of the applicable COMPILE user agreement;

the Comptroller may cancel the allocation of all or any of the PIN numbers allocated to the user by sending a notice that the allocation has been cancelled and setting out the reasons for that cancellation.

(12) The cancellation of the allocation to a registered COMPILE user of a PIN number or PIN numbers has effect from the day the relevant notice was signed.

(13) The Comptroller must, as soon as practicable after signing a notice under subsection (5) or (11), serve a copy of the notice on the person concerned but a failure to do so does not alter the effect of the notice.

Unauthorised use of registered COMPILE user's PIN number

77B. Where a computer import entry or a withdrawal of such an entry is communicated to Customs using a registered COMPILE user's PIN number:

- (a) without the authority of the user to whom the number was assigned; and
- (b) before notification to Customs by the user of a possible breach of security;

that entry or withdrawal will be taken, subject to any evidence of the user to the contrary, to have been communicated by the user.

What happens if the COMPILE computer system is down?

77C. (1) Where, because the COMPILE computer system is inoperative:

- (a) a registered COMPILE user cannot transmit an import entry to Customs; or
- (b) Customs cannot transmit an import entry advice to the user;

the user may prepare a contingency entry in respect of those goods.

(2) A contingency entry must:

- (a) be in an approved form; and
- (b) contain at least so much of the information that would be required if the COMPILE computer system were operative as the approved form requires; and
- (c) be signed in the manner indicated in the approved form.

(3) Where a contingency entry has been prepared and given to Customs, this Act applies to it in the same manner as it applies to any other documentary entry.

(4) Without limiting by implication the operation of section 71D under subsection (3) in respect of a contingency entry, an officer of Customs may require a registered COMPILE user who submits such an entry to give to the officer any other information that would have been required to be included in a computer import entry relating to those goods had such an entry been able to be dealt with in the COMPILE computer system and, where the officer does so, an authority to deal with the goods in accordance with the contingency entry must not be granted unless the requirement has been complied with.

(5) If:

- (a) a contingency entry has been delivered to Customs in respect of particular goods; and
- (b) before Customs has given an import entry advice in respect of that entry, the COMPILE computer system becomes operative again;

(12) Where the proprietor of an outwards duty free shop to which a permission under subsection (2) relates does not produce the proof required by paragraph (10) (b) that goods delivered by him to a relevant traveller in accordance with the permission have been exported by that traveller, the goods shall be deemed to have been entered, and delivered, for home consumption by the proprietor, as owner of the goods, on the day on which the goods were delivered to that traveller.

(13) A Collector may, in accordance with the regulations, revoke a permission given under subsection (2) in relation to the sale of goods occurring after the revocation.

(14) Where a Collector makes a decision under subsection (2) refusing to give permission to the proprietor of an outwards duty free shop or under subsection (13) revoking a permission given under

subsection (2), he shall cause to be served, either personally or by post, on the proprietor of the shop, a notice in writing setting out the Collector's findings on material questions of fact, referring to the evidence or other material on which those findings were based and giving the reasons for the decision.

Inwards duty free shops

96B. (1) In this section:

"international flight" means a flight, whether direct or indirect, by an aircraft between a place outside Australia from which the aircraft took off and a place in Australia at which the aircraft landed;

"inwards duty free shop" means a warehouse in respect of which the relevant warehouse licence authorises the sale in the warehouse of airport shop goods to relevant travellers;

"proprietor", in relation to an inwards duty free shop, means the holder of the warehouse licence that relates to the inwards duty free shop;

"relevant traveller" means a person who:

- (a) has arrived in Australia on an international flight, whether as a passenger on, or as the pilot or a member of the crew of, an aircraft; and
- (b) has not been questioned, for the purposes of this Act, by an officer of Customs in respect of goods carried on that flight.

(2) A warehouse licence is not to authorise the sale in the warehouse of airport shop goods to relevant travellers unless the warehouse:

- (a) is situated at an airport; and
- (b) is so located that passengers on international flights who arrive at that airport would normally have access to the warehouse before being questioned for the purposes of this Act by officers of Customs.

(3) Subject to the regulations (if any), a Collector may give permission, in accordance with subsection (4), for airport shop goods that are specified in the permission and are sold to a relevant traveller in an inwards duty free shop that is specified in the permission to be:

- (a) delivered to the relevant traveller; and
- (b) taken by the relevant traveller for reporting to an officer of Customs doing duty in relation to clearance through Customs of the personal baggage of the relevant traveller.

(4) Permission under subsection (3) is given in accordance with this subsection if it is in writing and is delivered to the proprietor of the inwards duty free shop to which the permission relates.

s. 96B

(5) Without limiting the matters that may be prescribed in regulations referred to in subsection (3), those regulations:

- (a) may prescribe circumstances in which permission under that subsection may be given;
- (b) may prescribe matters to be taken into account by a Collector when deciding whether to give permission under that subsection; and
- (c) may prescribe conditions to which a permission under that subsection is to be subject.

(6) A Collector may, when giving permission under subsection (3) or at any time while a permission under that subsection is in force, impose conditions to which the permission is to be subject, being conditions that, in the opinion of the Collector, are necessary for the protection of the revenue or for the purpose of ensuring compliance with the Customs Acts, and may, at any time, revoke, suspend or vary, or cancel a suspension of, a condition so imposed.

(7) Without limiting the generality of paragraph (5) (c) or subsection (6), a condition referred to in that paragraph or that subsection to which a permission is to be subject may be:

- (a) a condition to be complied with by the proprietor of the inwards duty free shop to which the permission relates or by relevant travellers to whom goods to which the permission relates are sold; or
- (b) a condition that the proprietor of the inwards duty free shop to which the permission relates will keep records specified in the regulations.

(8) A condition imposed in respect of a permission under subsection (6) or a revocation, suspension or variation, or a cancellation of a suspension, of such a condition takes effect when notice in writing of the condition or of the revocation, suspension or variation, or of the cancellation of the suspension, is served on the proprietor of the inwards duty free shop to which it relates, or at such later time (if any) as is specified in the notice, but does not have effect in relation to any goods delivered to a relevant traveller before the notice was served.

(9) A condition imposed in respect of a permission under paragraph (5) (c) or subsection (6) or a revocation, suspension or variation, or a cancellation of a suspension, of a condition under subsection (6) may relate to all goods to which the permission relates or to particular goods to which the permission relates and may apply either generally or in particular circumstances.

(10) A permission under subsection (3) is subject to the condition that the proprietor of the inwards duty free shop to which the permission relates will ensure that relevant travellers to whom goods are delivered in accordance with the permission are aware of any conditions of the permission with which they are required to comply.

(11) If a person who is required to comply with a condition imposed in respect of a permission under subsection (3) fails to comply with the condition, the person is guilty of an offence against this Act punishable upon conviction by a fine not exceeding \$5,000.

(12) A Collector may, in accordance with the regulations, revoke a permission given under subsection (3) in relation to the sale of goods occurring after the revocation.

(13) Where a Collector makes a decision under subsection (3) refusing to give permission to the proprietor of an inwards duty free shop or a decision under subsection (12) revoking a permission given under subsection (3), the Collector shall cause to be served, either personally or by post, on the proprietor of the shop, a notice in writing setting out the Collector's findings on material questions of fact, referring to the evidence or other material on which those findings were based and giving the reasons for the decision.

Goods for public exhibition

97. (1) Subject to subsection (3), a Collector may, by writing signed by him, grant to the owner of warehoused goods permission to take those goods out of the warehouse for the purpose of public exhibition, testing or a similar purpose without entering the goods for home consumption.

(2) Permission under subsection (1) shall specify the period during which the owner of the relevant goods may keep the goods outside the warehouse.

(3) Permission under subsection (1) for the taking of warehoused goods out of a warehouse shall not be granted unless security has been given to the satisfaction of the Collector for the payment, in the event of the goods not being returned to the warehouse before the expiration of the period specified in the permission, of the duty that would have been payable if the goods had been entered for home consumption on the day on which they were taken out of the warehouse.

Goods blended or packaged in warehouse

98. Subject to the regulations, where a warehouse licence authorizes blending or packaging in the warehouse, goods may be blended or packaged in the warehouse in accordance with, and subject to any relevant conditions of, the licence, and goods so blended or

99. (1) Warehoused goods may be entered:

- (a) for home consumption; or
- (b) for export.

(2) Subject to sections 69 and 70, warehoused goods shall not be delivered for home consumption unless:

- (b) an authority to deal with the goods in accordance with that entry has been given under section 71B.

(3) Subject to section 96A, warehoused goods shall not be taken from the warehouse for export unless:

- (a) they have been entered for export; and
- (b) an authority to deal with the goods in accordance with that entry has been given under section 114C.

Constructive warehousing

100. (1) Where goods have been entered for warehousing, they may, without being warehoused in accordance with the entry, be further entered in accordance with section 99 and be dealt with in accordance with that further entry as if they had been so warehoused.

(2) Where a person makes a further entry in accordance with subsection (1) in respect of goods that have been entered for warehousing, he shall:

- (a) at the time of lodging the further entry, give the Collector particulars of the entry for warehousing; and

Penalty: \$1,000.

101. Where the owner of goods receives written authority for warehousing goods in pursuance of an entry for warehousing or written permission under this Act to warehouse the goods, he shall, as soon as practicable, before the goods are delivered to the warehouse nominated in the authority or permission, deliver the authority or

permission to the holder of the warehouse licence by leaving it at the warehouse with a person apparently participating in the management or control of the warehouse.

Penalty: \$1,000.

Holder of licence to inform Collector of certain matters

102. (1) Where goods are delivered to a warehouse but documents relating to those goods required to be delivered to the holder of the warehouse licence in accordance with this Act are not so delivered or such documents are so delivered but do not contain sufficient information to enable the holder to make a record relating to the goods that he is required to make under this Act, the holder shall, as soon as practicable, inform a Collector of the non-delivery or inadequacy of those documents, as the case may be.

(2) Where documents relating to goods to be warehoused in a warehouse are delivered to the holder of the warehouse licence in accordance with this Act but those goods are not received at the warehouse within 7 days after the delivery of the documents, the holder shall, as soon as practicable, inform a Collector of the non-delivery of those goods.

s. 114

What is an export entry?

114. (1) An export entry is a communication to Customs of information concerning goods intended for export that is effected either by document or by computer.

(2) A documentary export entry must:

- (a)** be made by the owner of the goods concerned; and
- (b)** be communicated to Customs by sending or giving it to an officer doing duty in relation to export entries; and
- (c)** be in an approved form; and
- (d)** contain such information as is required by the form; and
- (e)** be signed in the manner specified in the form.

(3) A computer export entry must:

- (a)** be transmitted by a registered EXIT user as the owner, or on behalf of the owner, of the goods concerned; and
- (b)** be transmitted to Customs using the EXIT computer system; and
- (c)** be signed by transmitting, in relation to the entry, the registered EXIT user's identifying code; and
- (d)** communicate such information as is set out in an approved statement.

(4) Despite the fact that any law of the Commonwealth, including this Act, provides that the exportation of particular goods from Australia is prohibited unless a permission (however it is described) to export those goods is produced to an officer of Customs, that obligation will be taken to have been complied with if the permission obtained in respect of those goods is adequately identified in the information communicated to Customs in an export entry relating to those goods.

(5) Nothing in subsection (4) affects any power of an officer of Customs, under this Act, to require the production of such permission.

(6) When, in accordance with section 119D, an export entry is taken to have been communicated to Customs, the goods to which the entry relates are taken to have been entered.

Information and documents relating to export entries etc.

114A. (1) Without limiting the generality of section 114C, where goods have been entered under section 114, authority to deal with the goods in accordance with the entry may be refused until an officer doing duty in relation to export entries has verified particulars of the goods shown in the entry:

- (a) by reference to information contained in commercial documents relating to the goods that have been given to Customs by the owner of the goods on, or at any time after, the communication of the entry to Customs; or
- (b) by reference to information, in writing, in respect of the goods that has been so given to Customs.

(2) An officer doing duty in relation to export entries may, by notice in writing, require the owner of goods entered under section 114:

- (a) to deliver to the officer the commercial documents in respect of the goods that are in the owner's possession or under the owner's control (including any such documents that had previously been delivered to an officer and had been returned to the owner); or
- (b) to deliver to the officer such information, in writing, relating to the goods, being information of a kind specified in the notice, as is within the knowledge of the owner or as the owner is reasonably able to obtain.

(3) An officer doing duty in relation to export entries may ask the owner of goods entered under section 114 and, if another person communicated the entry on behalf of the owner, that other person, any questions relating to the goods.

(4) An officer doing duty in relation to export entries may require from the owner of any goods entered under section 114 proof of the particulars shown in the entry by declaration or the production of documents.

(5) Where:

- (a) the owner of goods has been required to deliver documents or information under subsection (2) in relation to the goods; or
- (b) the owner of, or person giving an entry in respect of goods has been asked a question under subsection (3) in respect of the goods; or
- (c) the owner of goods has been required under subsection (4) to produce proof of a matter in respect of the goods;

authority to deal with the relevant goods in accordance with the entry must not be granted unless the requirement has been complied with or revoked, the question has been answered or withdrawn or the requirement has been complied with or withdrawn, as the case may be.

(6) Subject to section 215, where a person delivers a commercial document to an officer doing duty in relation to export entries under this section, the officer must deal with the document and then return the document to that person.

s. 114B

Confirming exporters

114B. (1) A person who:

- (a) proposes to communicate an export entry relating to particular goods or is likely to communicate, from time to time, export entries in relation to goods of a particular kind; and
- (b) will be unable to include in that export entry or those export entries particular information in relation to those goods because the information cannot be ascertained until after the exportation of those goods;

may apply to the Comptroller for confirming exporter status in respect of that information and those goods.

(2) An application under subsection (1) must:

- (a) be in writing; and
- (b) be in an approved form; and
- (c) contain such particulars as are required by the form including the reasons the information referred to in subsection (1) cannot be ascertained before exportation.

(3) Where a person applies for confirming exporter status in respect of particular information and particular goods or goods of a particular kind, the Comptroller must:

(a) if the Comptroller is satisfied that the information cannot be ascertained before exportation—grant the applicant that status by signing a notice stating:

- (i) that the applicant is granted that status in respect of that information and those goods; and
- (ii) that the grant is on such conditions as are specified in the notice; or

(b) if the Comptroller is not so satisfied—refuse to grant the applicant that status by signing a notice stating that the Comptroller has refused to grant the applicant that status and setting out the reasons for the refusal.

(4) A grant of confirming exporter status has effect from the day on which the relevant notice is signed.

(5) Without limiting the generality of the conditions to which a grant of confirming exporter status may be subject, those conditions must be expressed to include:

- (a) a requirement that the appropriate confirming exporter status will be specified in any export entry relating to the goods in respect of which the status was granted where the confirming exporter proposes to rely on that status; and

- (b) a requirement that full details of the information in respect of which the status was granted will be provided as soon as practicable after exportation and not later than the time the Comptroller indicates in the notice granting the status; and
- (c) a requirement that, if information in respect of which the status was granted becomes, to the knowledge of the confirming exporter, able to be ascertained before the exportation of goods in respect of which the status was granted, the confirming exporter will notify the Comptroller forthwith.

(6) Where the Comptroller is satisfied that information in respect of which confirming exporter status was granted is now able to be ascertained before exportation, he or she must sign a notice in writing:

- (a) cancelling the confirming exporter status forthwith; or
- (b) modifying the confirming exporter status so that it no longer relates to that information.

(7) Where a person granted a confirming exporter status is respect of information and goods fails, without reasonable excuse, to comply with a condition to which the grant is subject, the person is guilty of an offence.

Penalty: \$1,000.

(8) Where:

- (a) a person who is a confirming exporter in respect of information and goods of a particular kind is convicted of an offence against subsection (7); or
- (b) the Comptroller becomes satisfied that a person who is such a confirming exporter has failed to comply with a condition of a grant of confirming exporter status although no proceedings for an offence against subsection (7) have been brought against the person;

the Comptroller may:

- (c) cancel that person's status in respect of that information and those goods; or
- (d) modify that person's status so that it no longer relates to specified information or goods or so that the conditions to which it is subject are altered in a specified respect;

by signing a notice stating that that status has been so cancelled or modified and setting out the reasons for that cancellation or modification.

(9) A cancellation or modification of the confirming exporter status of a person has effect on the day the relevant notice was signed.

s. 114C

(10) The Comptroller must, as soon as practicable after signing a notice under subsection (3), (6) or (8), serve a copy of the notice on the person concerned but a failure to do so does not alter the effect of the notice.

Authority to deal with goods entered under section 114

114C. (1) Subject to this Act, where an entry in respect of goods has been sent, given or transmitted to Customs, the Customs must give an export entry advice, in a manner and form specified in the regulations, that constitutes either an authority to deal with the goods to which the entry relates in accordance with the entry or a refusal to provide such an authority.

(2) Without limiting the generality of subsection (1), regulations specifying the form of an export entry advice must include in the information set out in that advice a number, called the export entry advice number, by which the advice can be identified.

(3) An authority under this section to deal with goods may be expressed to be subject to a condition that a specified permission for the goods to be dealt with (however it is described) be obtained under another law of the Commonwealth.

(4) Where an authority under this section to deal with goods is expressed to be subject to a condition that a specified permission be obtained, the authority is taken not to have been given until the permission has been obtained.

(6) An officer may, at any time before goods authorised to be dealt with in accordance with an export entry are so dealt with, cancel that authority:

- (a) if the authority was given in respect of a documentary entry—by signing a notice stating that the authority is cancelled and setting out the reasons for that cancellation and serving a copy of that notice on the person who made the entry, or, if that person does not have possession of the goods, on the person who has possession of the goods; and
- (b) if the authority was given in respect of a computer entry:
 - (i) by transmitting to the registered EXIT user to whom the authority was given a cancellation notice setting out the same particulars as are required to be included in a notice referred to in paragraph (a); or
 - (ii) by signing and serving a notice of the kind referred to in paragraph (a);

and the cancellation has effect from the moment the notice is served or transmitted as the case requires.

Goods to be dealt with in accordance with export entry

114D. (1) The owner of goods in respect of which an export entry has been communicated to Customs:

- (a) must, as soon as practicable after an authority to deal with the goods is granted, deal with the goods in accordance with the entry; and
- (b) must not remove any of the goods from the possession of the person to whom they are delivered or of any person to whom they are subsequently passed in accordance with the entry unless the entry has been withdrawn, or withdrawn insofar as it applies to those goods.

Penalty: \$1,000.

(2) Where excisable goods on which excise duty has not been paid have been delivered to a place prescribed for the purposes of paragraph 30 (d) of this Act and the export entry that applies to those goods is withdrawn, or withdrawn insofar as it applies to those goods, then:

- (a) despite any implication to the contrary in subsection (1), the goods become, on the communication to Customs of the withdrawal, goods under Customs control under section 61 of the *Excise Act 1901*; and
- (b) the withdrawal constitutes a permission, under section 61A of that Act, to move the goods back to the place from which they were first moved in accordance with the entry.

(3) Where goods are goods on which Customs duty is payable but has not been paid and the export entry that applies to those goods is withdrawn, or withdrawn insofar as it applies to those goods, then:

- (a) despite any implication to the contrary in subsection (1), the goods remain under Customs control; and
- (b) the withdrawal constitutes a permission, under section 71E of this Act, to move the goods back to the place from which they were first moved in accordance with the entry.

Goods not to be taken on board without authority to deal

115. The owner of a ship or aircraft must not permit goods required to be entered for export to be taken on board the ship or aircraft for the purpose of exportation unless an authority to deal with the goods has been granted under section 114C.

Penalty: \$10,000.

s. 116

What happens when goods are not dealt with in accordance with an export entry?**116. (1) Where:**

- (a) goods are entered for export under section 114; and
- (b) none of the goods or some only of the goods have been exported in accordance with the entry at the end of a period of 30 days after the intended day of exportation notified in the entry;

the authority to deal with the goods in accordance with the entry, so far as it relates to goods not exported before the end of the period, is, at the end of the period, taken to have been revoked.

(2) Where an authority to deal with goods entered under section 114 is taken, under subsection (1), to have been totally or partially revoked, the owner of the goods must, within 7 days after the end of the period referred to in that subsection:

- (a) if the authority to deal was taken to be totally revoked—withdraw the entry relating to the goods; and
- (b) if the authority to deal was taken to be partially revoked—amend the entry so that it relates only to those goods exported before the end of the period.

Penalty: \$5,000.

(3) Where the owner of goods entered under section 114 amends the original entry in accordance with paragraph (2) (b), the owner is, in accordance with subsection 119C (1), taken to have withdrawn the original entry but this Act has effect:

- (a) as if the amended entry had been communicated to Customs under section 114; and
- (b) as if an authority to deal with the goods to which the amended entry relates in accordance with the amended entry had been granted under section 114C;

on the day, or the respective days, on which the original entry was communicated and the original authority to deal was granted.

Security

117. The Collector may require the owner of any goods entered for export and subject to the control of the Customs to give security that the goods will be landed at the place for which they are entered or will be otherwise accounted for to the satisfaction of the Collector.

Submanifests may be prepared before goods are exported

117A. - (a) register the applicant as a registered EXIT user by signing a notice stating that the applicant is a registered EXIT user; or
- (b) refuse to register the applicant as a registered EXIT user by signing a notice stating that the Comptroller has refused to register the applicant and setting out the reasons for the refusal.

(6) Where the Comptroller registers a person as a registered EXIT user, the registration has effect from the day on which the relevant notice was signed.

(7) Each registered EXIT user must, as soon as practicable after registration, enter into an agreement with Customs, setting out the terms and conditions of computer access to Customs for the purpose of communications relating to the exportation of goods including:

- (a) a condition that the user will use computer facilities of a kind specified in the agreement for all computer communications with Customs relating to export entries; and

(2) Where an application is made to an officer in respect of particular goods in the circumstances set out in subsection (1), he or she must, having regard to the information supplied:

- (a) if he or she is satisfied that, were a computer export entry in respect of those goods able to be processed in the normal manner, the goods would be cleared for export in an export entry advice—give the registered EXIT user concerned a provisional clearance containing similar details to those that would be given in an export entry advice constituting an authority to deal with the goods; and
- (b) if he or she is not so satisfied—refuse to give such a provisional clearance.

(3) Where:

- (a) a provisional clearance is given in respect of particular goods; and

s. 122D

- (b) the goods are exported before an export entry advice is given in respect of the goods;

the goods are treated, for the purposes of this Part, as if the provisional clearance were an export entry advice constituting an authority to deal with the goods in the manner set out in the clearance, whether or not such an advice is ultimately given on an acquittal of the clearance under section 122D.

Acquittal of provisional clearance

122D. (1) Where a registered EXIT user is given a provisional clearance in respect of particular goods, the user must, within 48 hours after the EXIT computer system is restored to operability, whether or not the goods have been exported:

Where, before goods are entered for home consumption, an amount is paid to a Collector in respect of duty that may become payable in respect of the goods, the amount shall, upon the goods being entered for home consumption, be deemed, for the purposes of this Act, to be an amount of duty paid in respect of the goods.

Declared period quotas—effect on rates of import duty

132B. (1) If at any time the Comptroller is of the opinion that, for the reason that persons are anticipating, or may anticipate, an increase in the rate of duty applicable to goods of a particular kind, the quantity of goods of that kind that may be entered for home consumption during a period is likely to be greater than it would otherwise be, the Comptroller may, by notice published in the *Gazette*, declare that that period is, for the purposes of this section, a declared period with respect to goods of that kind.

s. 132B

(2) The Comptroller shall, in a notice under subsection (1) declaring that a period is a declared period for the purposes of this section, specify in the notice another period being a period ending before the commencement of the declared period, as the base period in relation to the declared period.

(4) Where, during a declared period, a person enters goods for home consumption, being goods of a kind in respect of which there is no quota order in force that is applicable to that person for the declared period, the Comptroller may, before authority to deal with the goods is given under section 71B and whether or not the declared period has expired, make, under subsection (3), a quota order that is applicable to that person for that declared period in respect of goods of that kind, and a quota order so made shall, unless the contrary intention appears in the order, be deemed to have come into force immediately before the time of entry of the goods..

(5) In making a quota order under subsection (3), or revoking or varying a quota order under section 132C, with respect to a person, the Comptroller shall have regard to the quantity of goods (if any) of the kind to which the order relates that, at any time or times during the period that is the base period with respect to the declared period to which the order relates or during any other period that the Comptroller considers relevant, the person has entered for home consumption, and to such other matters as the Comptroller considers relevant.

(6) If:

- (a) at any time during a declared period, a person has entered any goods (in this section referred to as the "relevant goods") for home consumption, being goods of a kind in respect of which there is in force at the time of entry of the goods a quota order that states that the person's quota in respect of goods of that kind is a quantity specified in the order;
- (b) the quantity of the relevant goods so entered, together with goods (if any) of that kind previously entered for home consumption by the person during the declared period, exceeds the quota; and

- (c) the amount of import duty paid or payable on the relevant goods at the rate of duty in force at the time of entry of the goods is less than the amount of duty applicable to those goods in accordance with the rate of duty in force on the day immediately following the last day of the declared period;

the rate of import duty payable on the relevant goods, or on so much of the relevant goods as, together with goods (if any) of that kind previously entered for home consumption by the person during the declared period, exceeds the quota, is the rate of duty in force on the day immediately following the last day of the declared period.

(7) If:

- (a) at any time during a declared period, a person has entered any goods for home consumption, being goods of a kind in respect of which there is in force at the time of entry of the goods a quota order that states that the person's quota in respect of goods of that kind is nil; and
- (b) the amount of import duty paid or payable on those goods at the rate of duty in force at the time of entry of the goods is less than the amount of duty applicable to those goods in accordance with the rate of duty in force on the day immediately following the last day of the declared period;

the rate of import duty payable on the goods is the rate of duty in force on the day immediately following the last day of the declared period.

(8) Where at any time during a declared period, a person enters any goods for home consumption, being goods of a kind in respect of which there is in force at the time of entry of the goods a quota order that is applicable to that person for the declared period, the Customs shall have the right, before authority to deal with the goods is given under section 71B, in addition to requiring import duty to be paid on the goods at the rate in force at that time of entry of the goods, to require and take, for the protection of the revenue of the Customs in relation to any additional amount of duty that may become payable on the goods, or on a part of the goods, by virtue of the operation of subsection (6) or (7), security by way of cash deposit of an amount equal to the amount of duty payable on the goods, or on that part of the goods, at the rate in force at the time of entry of the goods.

whichever last occurs.

(2) Where a quota order is revoked by the Comptroller under this section, the revocation shall be deemed to have taken effect on the day on which the order came into force.

(3) The revocation of a quota order under this section does not prevent the making of a further quota order that is applicable to the person to whom the revoked quota order was applicable and that has effect with respect to the declared period in respect of which the revoked quota order had effect, whether or not the kind of goods to which the further quota order relates is the same as the kind of goods to which the revoked quota order related.

the variation has effect on and from the day on which it is made.

Service of quota orders etc.

*Division 1A—Rules of origin of preference claim goods***Purpose of Division**

153A. (1) The purpose of this Division is to set out rules for determining whether goods are the produce or manufacture:

- (a) of a particular country other than Australia; or
- (b) of a Developing Country but not of a particular Developing Country.

(2) Goods are not the produce or manufacture of a country other than Australia unless, under the rules as so set out, they are its produce or manufacture.

(3) Diagrams and explanatory notes illustrating certain operations of this Division in relation to New Zealand are set out in Schedule VII. Details are as follows:

- (a) Diagram 1 is a decision diagram for working out whether goods are the produce or manufacture of New Zealand;
- (b) Diagram 2 gives an example of goods that are last processed in New Zealand to show, in particular, how allowable expenditure on materials, allowable factory cost and total factory cost are worked out.

Definitions

153B. In this Division:

“allowable factory cost”, in relation to preference claim goods and to the factory at which the last process of their manufacture was performed, means the sum of:

- (a) the allowable expenditure of the factory on materials in respect of the goods worked out under section 153D; and
- (b) the allowable expenditure of the factory on labour in respect of the goods worked out under section 153F; and
- (c) the allowable expenditure of the factory on overheads in respect of the goods worked out under section 153G;

“Developing Country” has the same meaning as in the *Customs Tariff Act 1987* and includes a place that, for the purposes of that Act, is to be treated as a Developing Country;

“factory”, in relation to preference claim goods, means:

- (a) if the goods are claimed to be the manufacture of a particular preference country—the place in that country where the last process in the manufacture of the goods was performed; and

s. 153B

- (b) if the goods are claimed to be the manufacture of a preference country that is a Developing Country but not a particular Developing Country—the place in Papua New Guinea or in a Forum Island Country where the last process in the manufacture of the goods was performed;

“Forum Island Country” has the same meaning as in the *Customs Tariff Act 1987*;

“inner container” includes any container into which preference claim goods are packed, other than a shipping or airline container, pallet or other similar article;

“manufacturer”, in relation to preference claim goods, means the person undertaking the last process in their manufacture;

“materials”, in relation to preference claim goods, means:

- (a) if the goods are unmanufactured raw products—those products; and
- (b) if the goods are manufactured goods—all matter or substances used or consumed in the manufacture of the goods (other than that matter or those substances that are treated as overheads); and
- (c) in either case—the inner containers in which the goods are packed;

“person” includes partnerships and unincorporated associations;

“preference claim goods” means goods that are claimed, when they are entered for home consumption, to be the produce or manufacture of a preference country;

“preference country” has the same meaning as in the *Customs Tariff Act 1987*;

“qualifying area”, in relation to particular preference claim goods, means:

- (a) if the goods are claimed to be the manufacture of New Zealand—New Zealand and Australia; or
- (b) if the goods are claimed to be the manufacture of Canada—Canada and Australia; or
- (c) if the goods are claimed to be the manufacture of Papua New Guinea—Papua New Guinea, the Forum Island Countries, New Zealand and Australia; or
- (d) if the goods are claimed to be the manufacture of a Forum Island Country—the Forum Island Countries, Papua New Guinea, New Zealand and Australia; or
- (e) if the goods are claimed to be the manufacture of a particular Developing Country—the Developing Country, Papua New Guinea, the Forum Island Countries, the other Developing Countries and Australia; or

- (f) if the goods are claimed to be the manufacture of a Developing Country but not a particular Developing Country—Papua New Guinea, the Forum Island Countries, the Developing Countries and Australia; or
- (g) if the goods are claimed to be the manufacture of a country that is not a preference country—that country and Australia;

“total factory cost”, in relation to preference claim goods, means the sum of:

- (a) the total expenditure of the factory on materials in respect of the goods, worked out under section 153C; and
- (b) the allowable expenditure of the factory on labour in respect of the goods, worked out under section 153F; and
- (c) the allowable expenditure of the factory on overheads in respect of the goods, worked out under section 153G.

Total expenditure of factory on materials

153C. The total expenditure of a factory on materials in respect of preference claim goods is the cost to the manufacturer of the materials in the form they are received at the factory, worked out under section 153E.

Allowable expenditure of factory on materials

Allowable expenditure of a factory on materials to be worked out under subsections (2) to (8)

153D. (1) The allowable expenditure of a factory on materials in respect of preference claim goods in the form those materials are received at the factory is to be worked out under subsections (2) to (8) inclusive.

Goods wholly or partly manufactured from materials imported from outside the qualifying area

- (2) If:
 - (a) preference claim goods (other than goods wholly manufactured from unmanufactured raw products) are manufactured, in whole or in part, from particular materials; and
 - (b) those particular materials, in the form they are received at the factory, are imported from a country outside the qualifying area;

there is no allowable expenditure of the factory on those particular materials.

s. 153D

Goods wholly or partly manufactured from unmanufactured raw products of a country inside the qualifying area

(3) If:

- (a) preference claim goods are manufactured, in whole or in part, from particular materials; and
- (b) those particular materials, in the form they are received at the factory, are the unmanufactured raw products of a country inside the qualifying area;

the allowable expenditure of the factory on those particular materials is the cost to the manufacturer of those particular materials, worked out under section 153E.

Goods wholly or partly manufactured from materials imported from outside the qualifying area—intervening manufacture

(4) If:

- (a) preference claim goods are manufactured, in whole or in part, from particular materials; and
- (b) other materials (“contributing materials”) have been incorporated in those particular materials; and
- (c) those contributing materials were imported into a country in the qualifying area from a country outside the qualifying area; and
- (d) after their importation and to achieve that incorporation, those contributing materials have been subjected to a process of manufacture, or a series of processes of manufacture, in the qualifying area without any intervening exportation to a country outside that area;

the allowable expenditure of the factory on those particular materials in the form they are received at the factory does not include any part of the cost of those particular materials to the manufacturer, worked out under section 153E, that is attributable to the cost of those contributing materials in the form in which the contributing materials were received by the person who subjected them to their first manufacturing process in the qualifying area after importation.

Intervening export of contributing materials

(5) If contributing materials within the meaning of subsection (4) are, after their importation into a country in the qualifying area and before their incorporation into the particular materials from which preference claim goods are manufactured, subsequently exported to a country outside that area, then, on their reimportation into a country in the qualifying area, subsection (2) or (4), as the case requires, applies as if that subsequent reimportation were the only importation of those materials.

Goods claimed to be the manufacture of New Zealand—special rule

(6) If:

- (a) goods claimed to be the manufacture of New Zealand are manufactured, in whole or in part, from particular materials; and
- (b) under subsection (4), the allowable expenditure of the factory on those particular materials would be at least 50% of the total expenditure of the factory on those particular materials worked out in accordance with section 153C;

then, despite subsection (4), the allowable expenditure of the factory on those particular materials is taken to be that total expenditure.

Waste or scrap

(7) If:

- (a) materials are imported into a country; and
- (b) the subjecting of those materials to a process of manufacture gives rise to waste or scrap; and
- (c) that waste or scrap is fit only for the recovery of raw materials;

any raw materials that are so recovered in that country are to be treated, for the purposes of this section, as if they were unmanufactured raw products of that country.

Transshipment

(8) If, in the course of their exportation from one country to another country, materials are transhipped, that transshipment is to be disregarded for the purpose of determining, under this section, the country from which the materials were exported.

Calculation of the cost of materials received at a factory

Purpose of section

153E. (1) This section sets out, for the purposes of sections 153C and 153D, the rules for working out the cost of materials in the form they are received at a factory.

General rule

(2) Subject to this section, the cost of materials received at a factory is the amount paid or payable by the manufacturer in respect of the materials in the form they are so received.

Customs and excise duties and certain other taxes to be disregarded

(3) Any part of the cost of materials in the form they are received at a factory that represents:

- (a) a customs or excise duty; or

s. 153E

- (b) a tax in the nature of a sales tax, a goods and services tax, an anti-dumping duty or a countervailing duty;

imposed on the materials by a country in the qualifying area is to be disregarded.

Comptroller may require artificial elements of cost to be disregarded

(4) If the Comptroller is satisfied that materials in the form they are received at a factory incorporate other materials solely for the purpose of artificially raising the cost of the first-mentioned materials, the Comptroller may, by written notice given to the importer of preference claim goods in which those other materials are incorporated, require the part of the cost that is, in the Comptroller's opinion, reasonably attributable to those other materials to be disregarded.

Comptroller may require cost over normal market value to be disregarded

(5) If the Comptroller is satisfied that the cost to the manufacturer of materials in the form they are received at a factory exceeds, by an amount determined by the Comptroller, the normal market value of the materials, the Comptroller may, by written notice given to the importer of preference claim goods in which those materials are incorporated, require the excess to be disregarded.

Comptroller may determine cost of certain materials received at a factory

- (6) If the Comptroller is satisfied:
- (a) that materials in the form they are received at a factory are so received:
 - (i) free of charge; or
 - (ii) at a cost that is less than the normal market value of the materials; and
 - (b) that the receipt of the materials free of charge or at a reduced cost has been arranged, directly or indirectly, by a person who will be the importer of preference claim goods in which those materials are incorporated;

the Comptroller may, by written notice given to the importer, require that an amount determined by the Comptroller to be the difference between the cost, if any, paid by the manufacturer and the normal market value be treated as the amount, or a part of the amount, paid by the manufacturer in respect of the materials.

Effect of determination

(7) If the Comptroller gives a notice to the importer of preference claim goods under subsection (4), (5) or (6) in respect of materials incorporated in those goods, the cost of the materials to the manufacturer must be determined having regard to the terms of that notice.

Allowable expenditure of factory on labour

Calculation of allowable expenditure of factory on labour

153F. (1) Allowable expenditure of a factory on labour in respect of preference claim goods means the sum of the part of each cost prescribed for the purposes of this subsection:

- (a) that is incurred by the manufacturer of the goods; and
- (b) that relates, directly or indirectly, and wholly or partly, to the manufacture of the goods; and
- (c) that can reasonably be allocated to the manufacture of the goods.

Regulations may specify manner of working out cost

(2) Regulations prescribing a cost for the purposes of subsection (1) may also specify the manner of working out that cost.

Allowable expenditure of factory on overheads

Calculation of allowable expenditure of factory on overheads

153G. (1) Allowable expenditure of a factory on overheads in respect of preference claim goods means the sum of the part of each cost prescribed for the purposes of this subsection:

- (a) that is incurred by the manufacturer of the goods; and
- (b) that relates, directly or indirectly, and wholly or partly, to the manufacture of the goods; and
- (c) that can reasonably be allocated to the manufacture of the goods.

Regulations may specify manner of working out cost

(2) Regulations prescribing a cost for the purposes of subsection (1) may also specify the manner of working out that cost.

Unmanufactured goods

153H. Goods claimed to be the produce of a country are the produce of that country if they are its unmanufactured raw products.

Modification of section 153J in special circumstances*When 50% in subsection 153J (3) can be read as 48%*

153K. (1) If the Comptroller is satisfied:

- (a) that the allowable factory cost of preference claim goods in a shipment of such goods that are claimed to originate in New Zealand is at least 48% but not 50% of the total factory cost of those goods; and
- (b) that the allowable factory cost of those goods would be at least 50% of the total factory cost of those goods if an unforeseen circumstance had not occurred; and
- (c) that the unforeseen circumstance is unlikely to continue;

the Comptroller may determine, in writing, that section 153J has effect:

- (d) for the purpose of the shipment of goods that is affected by that unforeseen circumstance; and

- (e) for the purposes of any subsequent shipment of similar goods that is so affected during a period specified in the determination;

as if the reference in subsection 153J (3) to 50% were a reference to 48%.

Effect of determination

(2) If the Comptroller makes a determination then, in relation to all preference-claim goods imported into Australia that are covered by that determination, section 153J has effect in accordance with the determination.

Comptroller may revoke determination

- (3) If:
 - (a) the Comptroller makes a determination; and
 - (b) the Comptroller becomes satisfied that the unforeseen circumstance giving rise to the determination no longer continues;

the Comptroller may, by written notice, revoke the determination despite the fact that the period referred to in the determination has not ended.

Definition of "similar goods"

- (4) In this section:

"similar goods", in relation to goods in a particular shipment, means goods:

- (a) that are contained in another shipment that is imported by the same importer; and

- (b) within the 45 days immediately before, or the 45 days immediately after, the day on which the other event occurs.

(3) For the purposes of this Division, 2 persons shall be deemed to be related to each other if, and only if:

- (a) both being natural persons:

- (i) they are connected by a blood relationship or by marriage or by adoption; or
- (ii) one of them is an officer or director of a body corporate controlled, directly or indirectly, by the other;
- (b) both being bodies corporate:
 - (i) both of them are controlled, directly or indirectly, by a third person (whether or not a body corporate);
 - (ii) both of them together control, directly or indirectly, a third body corporate;
 - (iii) the same person (whether or not a body corporate) is in a position to cast, or control the casting of, 5% or more of the maximum number of votes that might be cast at a general meeting of each of them;
- (c) one of them, being a body corporate, is, directly or indirectly, controlled by the other (whether or not a body corporate);
- (d) one of them, being a natural person, is an employee, officer or director of the other (whether or not a body corporate); or
- (e) they are members of the same partnership.

(4) A person, whether or not a body corporate, shall be taken to control another body corporate for the purposes of subsection (3) if that person has the capacity to impose any restraint or restrictions upon, or to exercise any direction over, that other body corporate.

(5) Without, by implication, affecting the meaning of any reference to an owner of goods in any other provision of this Act, a reference in this Division to the owner of goods, being a ship or aircraft, shall not be taken to include a person acting as agent for the owner or receiving freight or other charges payable in respect of the ship or aircraft.

Interpretation—Buying commission

155. (1) Subject to subsection (2), a reference in this Division to a buying commission in relation to imported goods is a reference to an amount paid or payable by or on behalf of the purchaser of the goods directly or indirectly to a person who, as an agent of the purchaser, represented the purchaser in the purchase of the goods in the import sales transaction.

(2) An amount paid by a purchaser of imported goods to another person in the circumstances referred to in subsection (1) shall be taken not to be a buying commission unless a Collector is satisfied that that other person did not and does not:

- (a) produce, in whole or in part, or control the production, in whole or in part of:

- (i) the imported goods, or any other goods whose value would be taken into account in determining, or attempting to determine, the transaction value of the imported goods; or
 - (ii) any other goods of the same class as goods referred to in subparagraph (i);
- (b) supply, or control the supply of, any services:
 - (i) whose value would be taken into account in determining, or attempting to determine, the price of the imported goods; or
 - (ii) any other services of the same class as the services referred to in subparagraph (i);
- (c) transport the imported goods, or any other goods referred to in subparagraph (a) (i), within any foreign country, between a foreign country and Australia, or within Australia, for any purpose associated with the manufacture or importation of those imported goods;
- (d) purchase, exchange, sell, or otherwise trade any of the goods referred to in subparagraph (a) (i) or supply any of the services referred to in subparagraph (b) (i) other than in the capacity of an agent of the purchaser;
- (e) in relation to any of the goods referred to in subparagraph (a) (i) or any of the services referred to in subparagraph (b) (i):
 - (i) act as an agent for, or in any other way represent, the producer, supplier, or vendor of the goods or services; or
 - (ii) otherwise be associated with any such person except as the agent of the purchaser; or
- (f) claim or receive, directly or indirectly, the benefit of any commission, fee or other payment, in the form of money, letter of credit, negotiable instruments, or any goods or services, from any person as a consequence of the import sales transaction, other than commission received from the purchaser for the services rendered by that person in that transaction.

Interpretation—Identical goods and similar goods

156. (1) Subject to subsection (2), a reference in this Division to identical goods, in relation to imported goods is a reference to goods that a Collector is prepared, or is required by their owner, to treat as identical goods in relation to the imported goods, being goods that the Collector is satisfied:

- (a) are the same in all material respects, including physical characteristics, quality and reputation, as the imported goods;
- (b) were produced in the same country as the imported goods; and

s. 156

- (c) were produced by or on behalf of the producer of the imported goods;

but not being goods in relation to which:

- (d) art work, design work, development work, engineering work undertaken, or substantially undertaken, in Australia; or
- (e) models, plans or sketches prepared, or substantially prepared, in Australia;

was or were supplied directly or indirectly by or on behalf of the purchaser free of charge or at a reduced cost for use in relation to their production.

(2) Where a Collector, after reasonable inquiry, is not aware of any goods that may be treated under subsection (1) as identical goods in relation to the goods to be valued, the Collector shall disregard the requirement in paragraph (1) (c) for the purpose of treating goods as identical goods in relation to the imported goods.

(3) Subject to subsection (4), a reference in this Division to similar goods, in relation to imported goods, is a reference to goods that a Collector is prepared, or is required by their owner, to treat as similar goods in relation to the imported goods, being goods that the Collector is satisfied:

- (a) closely resemble the imported goods in respect of component materials and parts and in respect of physical characteristics;
- (b) are functionally and commercially interchangeable with the imported goods having regard to the quality and reputation (including any relevant trade marks) of each lot of goods;
- (c) were produced in the same country as the imported goods; and
- (d) were produced by or on behalf of the producer of the imported goods;

but not being goods in relation to which:

- (e) art work, design work, development work or engineering work undertaken, or substantially undertaken, in Australia; or
- (f) models, plans or sketches prepared, or substantially prepared, in Australia;

was or were supplied directly or indirectly by or on behalf of the purchaser free of charge or at a reduced cost for use in relation to their production.

(4) Where a Collector, after reasonable inquiry, is not aware of any goods that may be treated under subsection (3) as similar goods in relation to the goods to be valued, the Collector shall disregard the requirement in paragraph (3) (d) for the purpose of treating goods as similar goods in relation to the imported goods.

Interpretation—Royalties

157. (1) A reference in this Division to a royalty includes a reference to an amount paid or credited (however described or computed and whether the payment or credit is periodical or not) to the extent to which the amount is paid or credited as consideration for:

- (a) the making, use, exercise or vending of an invention or the right to make, use, exercise or vend an invention;
- (b) the use of, or the right to use:
 - (i) a design or trade mark;
 - (ii) confidential information; or
 - (iii) machinery, implements, apparatus or other equipment;
- (c) the supply of scientific, technical, industrial, commercial or other knowledge or information;
- (d) the supply of any assistance that is ancillary and subsidiary to, and is furnished as a means of enabling the application or enjoyment of, any matter falling within any of the foregoing paragraphs; or
- (e) a total or partial forbearance in respect of any matter falling within any of the foregoing paragraphs (including paragraph (d)).

(2) Where:

- (a) a person pays an amount of royalty in respect of goods at a time when the goods are not imported goods;
- (b) the goods are imported goods before or after the payment; and
- (c) the payment is made in connection with a scheme entered into or carried out for the purpose of the payment not being royalty for the purposes of this Division;

the payment shall be deemed, for the purposes of this Division, to have been made at a time when the goods were imported goods.

(3) In this section:

“design” means a design of a kind capable of being registered under the *Designs Act 1906*, whether or not it is registered under that Act or any other law;

“payment”, in relation to an amount, includes the incurring of a liability to pay, and the crediting of, the amount;

“scheme” means:

- (a) an agreement, arrangement, understanding, promise or undertaking, whether formal or informal, whether express or implied and whether or not enforceable, or intended to be enforceable, by legal proceedings; or
- (b) a plan, proposal, action, course of action or course of conduct, whether unilateral or otherwise;

s. 158

"use", includes hire-out, lease-out, rent-out, sell, market, distribute or otherwise trade in or dispose of.

(4) For the purposes of this section, a scheme shall be taken to be entered into or carried out for a particular purpose if the person who has, or one or more of the persons who have, entered into or carried out the scheme or a part of the scheme did so for that purpose or for purposes including that purpose.

Interpretation—Transportation costs

158. Where the purchaser of imported goods:

- (a) has supplied any production material, production tooling or work goods in relation to those imported goods to a person in a foreign country for the purposes related to the production of those imported goods; or
- (b) has supplied any subsidiary goods to a person in a foreign country for purposes related to the production of production materials, production tooling, work goods or work services in relation to those imported goods;

references in this Division to the cost of transporting that production material or production tooling or those work goods or subsidiary goods, after its or their acquisition or production by the purchaser, to the place of production in that foreign country shall be taken to include:

- (c) the packing costs for materials and labour paid or payable by or on behalf of the purchaser in relation to that production material, or production tooling or those work goods or subsidiary goods including, but without limiting the generality of the foregoing, costs of fumigating, cleaning, coating, wrapping or otherwise preparing the material tooling or goods for transportation to the place of production of the imported goods;
- (d) any amount paid or payable by or on behalf of the purchaser in relation to that production material or production tooling or those work goods or subsidiary goods that would:
 - (i) if that foreign country were Australia;
 - (ii) if any other country from which that material or tooling or those goods were exported were a foreign country; and
 - (iii) if that material or tooling or those goods were imported goods;

be an amount of foreign inland freight or foreign inland insurance, overseas freight or overseas insurance, or Australian inland freight or Australian inland insurance; and

- (e) all duties of Customs, sales tax, or other duties or taxes paid or payable in consequence of the importation of that production tooling or those work goods or subsidiary goods or in consequence of any other use, sale or disposition in that foreign country.

Value of imported goods

159. (1) Unless the contrary intention appears in this Act or in another Act, the value of imported goods for the purposes of an Act imposing duty is their customs value and the Collector shall determine that customs value in accordance with this section.

(2) Where a Collector can determine the transaction value of imported goods, their customs value is their transaction value.

(3) Where a Collector cannot determine the transaction value of imported goods but can determine their identical goods value, their customs value is their identical goods value.

(4) Where a Collector:

- (a) cannot determine the transaction value of imported goods; and
- (b) cannot determine their identical goods value;

but can determine their similar goods value, their customs value is their similar goods value.

(5) Where a Collector:

- (a) cannot determine the transaction value of imported goods, not being computed valued goods;
- (b) cannot determine their identical goods value; and
- (c) cannot determine their similar goods value;

but can determine their deductive (contemporary sales) value, their customs value is their deductive (contemporary sales) value.

(6) Where a Collector:

- (a) cannot determine the transaction value of imported goods, not being computed valued goods;
- (b) cannot determine their identical goods value;
- (c) cannot determine their similar goods value; and
- (d) cannot determine their deductive (contemporary sales) value;

but can determine their deductive (later sales) value, their customs value is their deductive (later sales) value.

(7) Where a Collector:

- (a) cannot determine the transaction value of imported goods, not being computed valued goods but being request goods;

s. 159

- (b) cannot determine their identical goods value;
- (c) cannot determine their similar goods value;
- (d) cannot determine their deductive (contemporary sales) value; and
- (e) cannot determine their deductive (later sales) value;

but can determine their deductive (derived goods sales) value, their customs value is their deductive (derived goods sales) value.

(8) Where a Collector:

- (a) cannot determine the transaction value of exporter's goods, not being computed valued goods;
- (b) cannot determine their identical goods value;
- (c) cannot determine their similar goods value;
- (d) where they are request goods, cannot determine any of their deductive values; and
- (e) where they are not request goods:
 - (i) cannot determine their deductive (contemporary sales) value; and
 - (ii) cannot determine their deductive (later sales) value;

but can determine their computed value, their customs value is their computed value.

(9) Where a Collector:

- (a) cannot determine the transaction value of imported goods, being computed valued goods;
- (b) cannot determine their identical goods value; and
- (c) cannot determine their similar goods value;

their customs value is their computed value.

(10) Where a Collector:

- (a) cannot determine the transaction value of imported goods;
- (b) cannot determine their identical goods value;
- (c) cannot determine their similar goods value;
- (d) where they are request goods, cannot determine any of their deductive values;
- (e) where they are not request goods:
 - (i) cannot determine their deductive (contemporary sales) value; and
 - (ii) cannot determine their deductive (later sales) value; and

- (f) where they are exporter's goods, cannot determine their computed value;

their customs value is their fall-back value.

Inability to determine a value of imported goods by reason of insufficient or unreliable information

160. (1) Where a Collector is not satisfied that there is sufficient reliable information available to the Collector, being information of a kind referred to in subsection (2), to enable him or her to determine a value of imported goods in accordance with a provision of this Division for determining their customs value, the Collector may determine, in writing, that he or she is not so satisfied and the Collector shall thereupon be taken to be unable to determine that first-mentioned value.

(2) Where a Collector is not satisfied that there is sufficient reliable information available to the Collector to enable him or her to determine the quantity and correctness of any amount that is required to be taken into account in determining a value of those goods in accordance with a provision of this Division for determining the customs value of imported goods, then:

- (a) where that amount would ordinarily form part of their customs value under the particular valuation method set out in that provision—the Collector shall determine, in writing, that he or she is not so satisfied and the Collector shall thereupon be taken to be unable to use that method;
- (b) where that amount would ordinarily be deducted from the amount that would otherwise be their customs value under the particular valuation method set out in that provision:
 - (i) if the Collector determines, in writing, that he or she is not so satisfied and that he or she does not desire to use the method—the Collector shall thereupon be taken to be unable to use that method; and
 - (ii) if the Collector determines, in writing, that he or she is not so satisfied but that he or she desires to use the method—the Collector may use the method but no deduction shall be allowed on account of that amount.

Transaction value

161. (1) The transaction value of imported goods is an amount equal to the sum of their adjusted price in their import sales transaction and of their price related costs to the extent that those costs have not been taken into account in determining the price of the goods.

s. 161A

(2) In this section:

“adjusted price”, in relation to imported goods, means the price of the goods determined by a Collector who deducts from the amount that, but for this subsection, would be the amount of that price, such amounts as the Collector considers necessary to take account of the following matters:

- (a) deductible financing costs in relation to the goods;
- (b) any costs that the Collector is satisfied:
 - (i) are payable for the assembly, erection, construction or maintenance of, or any technical assistance in respect of, the goods;
 - (ii) are incurred after importation of the goods into Australia; and
 - (iii) are capable of being accurately quantified by reference to the import sales transaction relating to the goods;
- (c) Australian inland freight and Australian inland insurance in relation to the goods;
- (d) deductible administrative costs in relation to the goods;
- (e) overseas freight and overseas insurance in relation to the goods.

Identical goods value

161A. (1) The identical goods value of imported goods is their value calculated as if the value of each of their units were:

- (a) the unit price of comparable identical goods; or
- (b) if, because 2 or more lots of goods are treated as comparable identical goods, there are 2 or more such unit prices—the lower or lowest of those unit prices.

(2) In this section:

“comparable identical goods”, in relation to imported goods, means identical goods that a Collector is satisfied:

- (a) were exported to Australia about the same time as the imported goods; and
- (b) either:
 - (i) were sold in the same, or substantially the same, quantities, as the imported goods in an import sales transaction at the same trade level as the import sales transaction of the imported goods; or
 - (ii) are of a kind that reasonable inquiry by the Collector has not shown to be so sold;

“unit price”, in relation to comparable identical goods, means their transaction value:

- (a) adjusted to such extent as a Collector considers necessary so that that value is what it would have been if:
 - (i) their foreign inland freight and foreign inland insurance had been what that freight and insurance would have been if the goods had been transported, and only transported, over the distances over which, and in the modes in which, the imported goods with which they are comparable identical goods were transported;
 - (ii) the trade levels of the import sales transactions of the comparable identical goods had been those of the import sales transaction of the imported goods; and
 - (iii) the comparable identical goods had been sold in their import sales transactions in the quantity in which the imported goods were sold in their import sales transaction; and
- (b) divided by the number of units of the comparable identical goods.

Similar goods value

161B. (1) The similar goods value of imported goods is their value calculated as if the value of each of their units were:

- (a) the unit price of comparable similar goods; or
- (b) if, because 2 or more lots of goods are treated as comparable similar goods, there are 2 or more such unit prices—the lower or lowest of those unit prices.

(2) In this section:

“comparable similar goods”, in relation to imported goods, means similar goods that a Collector is satisfied:

- (a) were exported to Australia about the same time as the imported goods; and
- (b) either:
 - (i) were sold in the same, or substantially the same, quantities, as the imported goods in an import sales transaction at the same trade level as the import sales transaction of the imported goods; or
 - (ii) are of a kind that reasonable inquiry by the Collector has not shown to be so sold;

“unit price”, in relation to comparable similar goods, means their transaction value:

- (a) adjusted to such extent as a Collector considers necessary so that that value is what it would have been if:

s. 161C

- (i) their foreign inland freight and foreign inland insurance had been what that freight and insurance would have been if the goods had been transported, and only transported, over the distances over which, and in the modes in which, the imported goods with which they are comparable similar goods were transported;
 - (ii) the trade levels of the import sales transactions of the comparable similar goods had been those of the import sales transaction of the imported goods; and
 - (iii) the comparable similar goods had been sold in their import sales transactions in the quantity in which the imported goods were sold in their import sales transaction; and
- (b) divided by the number of units of the comparable similar goods.

Deductive (contemporary sales) value

161C. (1) The deductive (contemporary sales) value of imported goods is their value calculated as if the value of each of their units were the unit price of comparable goods sold in the reference sale or sales.

(2) In this section:

“contemporary sale”, in relation to comparable goods comparable with imported goods, means a sale known to a Collector of the comparable goods in Australia in the condition in which they were imported, being a sale:

- (a) at about the same time as the time of importation of the imported goods;
- (b) at the first trade level at which the comparable goods were sold after their importation;
- (c) in circumstances where, in the opinion of the Collector, the purchaser of the comparable goods:
 - (i) was not, at the time of the sale, related to the vendor of the comparable goods; and
 - (ii) did not incur any production assist costs in relation to the comparable goods; and
- (d) that was, in the opinion of the Collector, a sale of a sufficient number of units of comparable goods as to permit an appropriate determination of their price per unit;

“reference sale”, in relation to comparable goods, means:

- (a) where there was only one contemporary sale of the goods—that sale;

(b) where:

- (i) there were 2 or more such sales; and
- (ii) the comparable goods were sold in those sales at the one unit price;

each of those sales;

(c) where:

- (i) there were 2 or more such sales;
- (ii) the comparable goods were sold in those sales at 2 or more unit prices; and
- (iii) a higher number of units of comparable goods were sold in those sales at one of those unit price than were sold in those sales at any other single particular unit price;

the sale, or each of the sales, in which comparable goods were sold at the particular unit price first-mentioned in subparagraph (iii);

(d) where:

- (i) there were 2 or more such sales;
- (ii) the comparable goods were sold in those sales at 2 or more unit prices; and
- (iii) an equal number of units of comparable goods were sold in those sales at each of those unit prices;

the sale or sales in which the comparable goods were sold at the lower or lowest of the unit prices; and

(e) where:

- (i) there were 2 or more such sales;
- (ii) the comparable goods were sold in those sales at 2 or more unit prices; and
- (iii) an equal number of units of comparable goods were sold in those sales at 2 or more of those unit prices and that number was not exceeded by the number of units of comparable goods sold in those sales at any other single particular unit price;

the sale, or sales, at which comparable goods were sold at the lower or lowest of the unit prices first-mentioned in subparagraph (iii);

“unit price”, in relation to comparable goods sold in a contemporary sale, means the price of the goods in that sale:

- (a) reduced by the sum of value unrelated amounts, deductible administrative costs, and deductible financing costs, in relation to the comparable goods; and

s. 161C

(b) divided by the number of units of the comparable goods.

(3) The following example illustrates the operation of paragraph (c) of the definition of "reference sale" in subsection (2):

Facts:

There were 2 contemporary sales of 5 units of comparable goods at a unit price of \$100.

There were 6 contemporary sales of 3 units of comparable goods at a unit price of \$40.

There was one contemporary sale of 4 units of comparable goods at a unit price of \$40.

There was one contemporary sale of 7 units of comparable goods at a unit price of \$60.

There were 3 contemporary sales of 2 units of comparable goods at a unit price of \$60.

This means that:

10 units of comparable goods were sold in contemporary sales at \$100.

22 units of comparable goods were sold in contemporary sales at \$40.

13 units of comparable goods were sold in contemporary sales at \$60.

Result:

More units of comparable goods were sold in contemporary sales at \$40 than were sold in such sales at any other unit price.

Therefore, the reference sales are the sales at the unit price of \$40.

(4) The following example illustrates the operation of paragraph (e) of the definition of "reference sale" in subsection (2):

Facts:

There was one contemporary sale of 10 units of comparable goods at a unit price of \$60.

There were 2 contemporary sales of 2 units of comparable goods at a unit price of \$20.

There was one contemporary sale of 6 units of comparable goods at a unit price of \$20.

There were 8 contemporary sales of 1 unit of comparable goods at a unit price of \$80.

There was one contemporary sale of 5 units of comparable goods at a unit price of \$70.

There were 2 contemporary sales of 2 units of comparable goods at a unit price of \$70.

There were 2 contemporary sales of 1 unit of comparable goods at a unit price of \$50.

There were 2 contemporary sales of 4 units of comparable goods at a unit price of \$50.

Result:

An equal number of units of comparable goods (10) were sold in contemporary sales at 3 unit prices (\$60, \$20, \$50).

This number is not exceeded by 8 units of comparable goods sold in contemporary sales at \$80 or by 9 units of comparable goods sold in contemporary sales at \$70.

Therefore, reference sales are the sales at the unit price of \$20.

Deductive (later sales) value

161D. (1) The deductive (later sales) value of imported goods is their value calculated as if the value of each of the units were the unit price of comparable goods sold in the reference sale or sales.

(2) In this section:

"later sale", in relation to comparable goods compared with imported goods, means a sale known to a Collector of the comparable goods in Australia in the condition in which they were imported, being a sale:

- (a) during the 90 days that began on the day of importation of the imported goods;
- (b) at the first trade level at which the comparable goods were sold after their importation;
- (c) in circumstances where, in the opinion of the Collector, the purchaser of the comparable goods:
 - (i) was not, at the time of the sale, related to the vendor of the comparable goods; and
 - (ii) did not incur any production assist costs in relation to the comparable goods; and
- (d) was, in the opinion of the Collector, a sale of a sufficient number of units of comparable goods as to permit an appropriate determination of their price per unit;

s. 161E

“reference sale”, in relation to comparable goods, means:

- (a) where there was only one later sale of the goods—that sale;
- (b) where there were 2 or more such sales and one of them was on an earlier day than the other or others—that sale; or
- (c) where there were 2 or more such sales on a common day and no such sale occurred on an earlier day:
 - (i) if one of the sales on the common day was of a higher number of units of the comparable goods than the other or others on the common day—that sale of a higher number; or
 - (ii) if 2 or more of the sales on the common day were of the same number of units of comparable goods and no other sale on the common day was of a higher number of such units—whichever of those 2 or more sales of the same number of units was the sale in which comparable goods were sold at the lower or lowest unit price;

“unit price”, in relation to comparable goods sold in a later sale, means the price of the goods in that sale:

- (a) reduced by the sum of value unrelated amounts, deductible administrative costs, and deductible financing costs, in relation to the comparable goods; and
- (b) divided by the number of units of the comparable goods.

Deductive (derived goods sales) value

161E. (1) The deductive (derived goods sales) value of imported goods is their value calculated as if the value of each of their units were the unit price of derived goods derived from them sold in the reference sale or sales.

(2) In this section:

“derived goods”, in relation to imported goods, means the imported goods after they have been assembled, packaged or further processed in Australia;

“derived goods sale”, in relation to derived goods derived from imported goods, means a sale known to a Collector of derived goods in Australia, being a sale:

- (a) during the 90 days that began on the day of importation of the imported goods;
- (b) at the first trade level at which the derived goods were sold after that importation;
- (c) in circumstances where, in the opinion of the Collector, the purchaser of the derived goods:

- (i) was not related to the vendor of the derived goods at the time of the sale; and
- (ii) did not incur any production assist costs in relation to the derived goods; and
- (d) that was, in the opinion of the Collector, a sale of a sufficient number of units of derived goods as to permit an appropriate determination of the price per unit of the goods;

“reference sale”, in relation to derived goods, means:

- (a) where there was only one derived goods sale—that sale;
- (b) where:
 - (i) there were 2 or more such sales; and
 - (ii) derived goods were sold in those sales at the one unit price;

each of those sales;

- (c) where:
 - (i) there were 2 or more such sales;
 - (ii) the derived goods were sold in those sales at 2 or more unit prices; and
 - (iii) a higher number of units of derived goods were sold in those sales at one of those unit prices than were sold in those sales at any other single particular unit price;

the sale, or each of the sales, in which derived goods were sold at the particular unit price first-mentioned in subparagraph (iii);

- (d) where:
 - (i) there were 2 or more such sales;
 - (ii) derived goods were sold in those sales at 2 or more unit prices; and
 - (iii) an equal number of units of derived goods were sold in those sales at each of those unit prices;

the sale or sales in which the derived goods were sold at the lower or lowest of the unit prices; and

- (e) where:
 - (i) there were 2 or more such sales;
 - (ii) derived goods were sold in those sales at 2 or more unit prices; and
 - (iii) an equal number of units of derived goods were sold in those sales at 2 or more of those unit prices and that number was not exceeded by the number of units of derived goods sold in those sales at any other single particular unit price;

s. 161F

the sale, or sales, at which derived goods were sold at the lower or lowest of the unit prices first-mentioned in subparagraph (iii);

"unit price", in relation to derived goods derived from imported goods and sold in a derived goods sale, means the price of the derived goods in that sale:

- (a) reduced by the sum of:
 - (i) value unrelated amounts, in relation to the derived goods;
 - (ii) deductible administrative costs in relation to the derived goods;
 - (iii) deductible financing costs in relation to the derived goods; and
 - (iv) the amount of the value added to the derived goods that is attributable to the assembly, packaging or further processing of the imported goods in Australia; and
- (b) divided by the number of units of the derived goods.

Computed value

161F. (1) The computed value of imported goods is such part of the sum of the following amounts as a Collector considers should be apportioned to their production:

- (a) Australian arranged material costs;
- (b) Australian arranged subsidiary costs;
- (c) Australian arranged tooling costs;
- (d) Australian arranged work costs;
- (e) the value of all other goods used in their production and not included in paragraphs (a) to (d), inclusive;
- (f) the costs, charges and expenses incurred by their producer in relation to their production and not included in paragraphs (a) to (e), inclusive;
- (g) the profit and expenses (including all costs, direct or indirect, of marketing but not including costs and expenses included in paragraphs (a) to (f), inclusive) that are usually added to the sale for export to Australia of goods of the same class as the imported goods from the country of export of the imported goods, being a sale of goods by their producer to a purchaser who is not, at the time of sale, related to the producer;
- (h) packing costs for materials and labour incurred in respect of the goods (including, but without limiting the generality of the foregoing, costs of fumigating, cleaning, coating, wrapping or otherwise preparing the goods for their exportation from a foreign country or otherwise placing them in the condition in

which they are imported into Australia but not including the costs of any exempted pallet or exempted container concerned in their exportation), being costs that are not included in paragraphs (a) to (g), inclusive;

- (j) foreign inland freight and foreign inland insurance that is usually added to a sale referred to in paragraph (g) and that is not included in paragraphs (a) to (h), inclusive.

(2) In this section, "Australian arranged material costs", "Australian arranged subsidiary costs", "Australian arranged tooling costs" and "Australian arranged work costs", in relation to imported goods, have the meanings that "purchaser's material costs", "purchaser's subsidiary costs", "purchaser's tooling costs" and "purchaser's work costs" respectively, would have, in relation to imported goods, if the references in the 4 last-mentioned definitions to purchaser were references to a person in Australia.

Fall-back value

161G. The fall-back value of imported goods is such value as a Collector determines, having regard to the other methods of valuation under this Division in the order in which those methods would ordinarily be considered under section 159 and of such other matters as the Collector considers relevant, but not having regard to any of the following matters:

- (a) the selling price in Australia of goods produced in Australia;
- (b) any system that provides for the acceptance for Customs purposes of the higher of 2 alternative values;
- (c) the price of goods on the domestic market of the country from which the imported goods were exported;
- (d) the cost of production of goods, other than the computed value of identical goods or similar goods;
- (e) the price of goods sold for export to a country other than Australia and not imported into Australia;
- (f) any system that provides for minimum values for Customs purposes;
- (g) arbitrary or fictitious values.

When transaction value unable to be determined

161H. (1) Without limiting section 160, a Collector cannot determine the transaction value of imported goods for the purposes of this Division, including, but without limiting the generality of the foregoing, section 161A or 161B, if the Collector:

- (a) after reasonable inquiry, is not aware of any import sales transaction in relation to the goods;

s. 161H

- (b) has, in accordance with subsection (3), (5) or (7), decided that the transaction value of the goods cannot be determined; or
- (c) is satisfied that the disposition or use of the goods by the purchaser is subject to restrictions, not being restrictions of the following kinds:
 - (i) restrictions imposed or required by, or by any public officer or authority acting in accordance with, any law in force in Australia;
 - (ii) restrictions that limit the geographical area in which the goods may be sold;
 - (iii) restrictions that do not substantially affect the commercial value of the goods.

(2) Where, in relation to goods required to be valued, a Collector:

- (a) is satisfied that the purchaser and the vendor of imported goods were, at the time of the goods' import sales transaction, related persons; and
- (b) considers that that relationship may have influenced the price of the goods;

the Collector shall, by notice in writing served, personally or by post, on the purchaser of the goods:

- (c) advise the purchaser of:
 - (i) the view that the Collector has formed of the possible effect on the price of the goods of the relationship between the purchaser and the vendor;
 - (ii) the reasons for forming that view; and
 - (iii) the fact that, because of that view, the Collector may be required to decide under subsection (3) that the transaction value of the goods cannot be determined; and
- (d) invite the purchaser to put before the Collector, within a period specified in the notice (not being a period of less than 28 days), such further information as the purchaser considers might serve to satisfy the Collector as to any of the matters set out in subsection (3).

(3) On the expiration of the period specified in a notice under subsection (2), the Collector shall, unless the purchaser of the imported goods has satisfied the Collector that:

- (a) a relationship between the purchaser and the vendor of the goods did not influence the price of the goods; or

- (b) the amount of the transaction value that would be determined in respect of the goods if the purchaser and the vendor had not been related at the time of the import sales transaction for the goods divided by the number of the units of the goods closely approximates, having regard to all relevant factors:
 - (i) the unit price within the meaning of section 161A of identical goods that were exported to Australia about the same time as the imported goods;
 - (ii) the unit price within the meaning of section 161B of similar goods that were exported to Australia about the same time as the imported goods;
 - (iii) the unit price of identical goods or similar goods sold in a contemporary sale within the meaning of section 161C as determined in accordance with that section; or
 - (iv) the computed unit price of identical goods or similar goods that were imported into Australia about the same time as the imported goods being the computed value of those identical or similar goods determined in accordance with section 161F divided by the number of units of those identical or similar goods;

be taken to be unable to determine the transaction value of the goods.

(4) Where, in relation to goods required to be valued, a Collector is of the opinion that the price at which the goods were sold in their import sales transaction is different from the price at which goods that are identical goods or similar goods to the first-mentioned goods would normally be sold in an import sales transaction similar to the first-mentioned import sales transaction, the Collector shall, by notice in writing served, personally or by post, on the purchaser:

- (a) advise the purchaser of the Collector's opinion; and
- (b) require the purchaser to satisfy the Collector, within the period specified in the notice, not being a period of less than 28 days, that the price difference was not designed to obtain a reduction of, or to avoid duty.

(5) On the expiration of the period specified in a notice under subsection (4) in relation to imported goods, the Collector shall, unless the purchaser of the goods to whom the notice was given has satisfied the Collector as required by the notice, be taken to be unable to determine the transaction value of the goods.

(6) Where, in relation to services provided in respect of goods required to be valued, a Collector is of the opinion that the services were provided in relation to the goods under the terms of their import sales transaction at a price different from the price normally paid for the provision of identical or similar services in relation to goods that

s. 161J

are identical goods or similar goods to the first-mentioned goods, sold in an import sales transaction similar to the first-mentioned import sales transaction, the Collector shall, by notice in writing served, personally or by post, on the purchaser:

- (a) advise the purchaser of the Collector's opinion; and
- (b) require the purchaser to satisfy the Collector, within the period specified in the notice, not being a period of less than 28 days, that the price difference was not designed to obtain a reduction of, or to avoid duty.

(7) On the expiration of the period specified in a notice under subsection (6) in relation to imported goods, the Collector shall, unless the purchaser of the goods to whom the notice was given has satisfied the Collector as required by the notice, be taken to be unable to determine the transaction value of the goods.

Value of goods to be in Australian currency

161J. (1) Where an amount that is, in accordance with this Division, required to be taken into account for the purpose of ascertaining a value of any imported goods is an amount in a currency other than Australian currency, the amount to be so taken into account shall be the equivalent in Australian currency of that amount, ascertained according to the ruling rate of exchange in relation to that other currency in respect of the day of exportation of the goods.

(2) For the purposes of this section, the Comptroller may specify, by notice published in the *Gazette*:

- (a) a rate that is to be deemed to be, or to have been, the ruling rate of exchange, in relation to any currency, in respect of a day, or of each day occurring during a period, preceding the day of publication of the notice; or
- (b) a rate that is to be deemed to be, or to have been, the ruling rate of exchange, in relation to any currency, in respect of each day occurring during a period commencing on the day of publication of the notice, or on an earlier day specified in the notice, and ending on the revocation of the notice;

after having regard:

- (c) where the ruling rate of exchange is specified in respect of a day—to commercial rates of exchange that prevailed on or about that day;
- (d) where the ruling rate of exchange is specified in respect of a period commencing before the day of publication of the notice—to commercial rates of exchange that prevailed during so much of that period as preceded the day of publication of the notice; and

- (e) where the ruling rate of exchange is specified in respect of any other period—to commercial rates of exchange that last prevailed before the publication of that notice.

(3) At any time, the ruling rate of exchange in relation to a particular foreign currency, in respect of a particular day, shall be:

- (a) if a rate of exchange has been specified at that time under subsection (2) as the ruling rate of exchange, in relation to that currency, in respect of that day, or in respect of a period that includes that day—the rate so specified; and
- (b) if a rate of exchange has not been so specified at that time—such a rate of exchange as the Comptroller determines to be the ruling rate of exchange, in relation to that currency, in respect of that day, after having regard to commercial rates of exchange prevailing on or about that day and to such other matters as the Comptroller considers relevant.

(4) In this section:

“day of exportation”, in relation to imported goods, means:

- (a) where the goods were exported by post from the place of export and a Collector is satisfied as to the day of posting—that day;
- (b) where the goods departed or were transported from their place of export in any other way and a Collector is satisfied as to the day of their departure or transportation—that day; and
- (c) in any other case—a day determined by the Collector.

Owner to be advised of value of goods

161K. (1) Where the Comptroller or a Collector has determined the customs value of goods in accordance with this Division, the Comptroller or the Collector shall cause the value to be recorded on the entry in respect of them or otherwise advise their owner of the amount.

(2) Where a Collector signifies, in a manner prescribed by the regulations, his or her acceptance of an estimate of the value of the goods, whether that estimate appears on the entry in respect of those goods or in any other statement of information provided in respect of those goods, the Collector shall, by so signifying, be taken for the purposes of subsection (1) to have determined the customs value of the goods and to have advised their owner of that amount.

(3) If, within 28 days after being advised under subsection (1) of the customs value of goods determined in accordance with this Division, an owner of the goods requests a Collector, in writing, to give

s. 161L

the owner particulars of the valuation, the Collector shall, within 28 days after the making of the request, give the owner a notice in writing setting out:

- (a) the method by which the customs value of the goods was determined;
- (b) the findings of material questions of fact relating to that determination, the evidence or other material on which those findings were based and the reasons for that determination; and
- (c) the calculations by which the determination of the value was made and the information on which those calculations were based.

(4) Nothing in this section requires, or permits, the giving of information that:

- (a) relates to the personal affairs or business affairs of a person, other than the person making the request because of which information was given; and
- (b) is information:
 - (i) that was supplied in confidence;
 - (ii) the publication of which would reveal a trade secret;
 - (iii) that was given in compliance with a duty imposed by an enactment; or
 - (iv) the giving of which in accordance with the request would be in contravention of an enactment, being an enactment that expressly imposes on the person to whom the information was given a duty not to divulge or communicate to any person, or to any person other than a person included in a prescribed class of persons, or except in prescribed circumstances, information of that kind.

(5) In this section, "enactment" has the same meaning as in the *Administrative Decisions (Judicial Review) Act 1977*.

Review of determinations and other decisions

161L. (1) At any time after the making of a determination or other decision by an officer under this Division in relation to goods, the Comptroller may review the determination or other decision and may:

- (a) an amount of duty that was levied is less than the amount that should have been levied; or
(b) an amount of duty that was refunded is greater than the amount that should have been refunded; or

section 165 applies in relation to any demand by a Collector for the payment of the amount of duty so short levied or so erroneously refunded, as the case may be.

162. (1) Where goods the property of a person included in a prescribed class of persons are imported or a person imports goods included in a prescribed class or goods intended for a prescribed purpose and intends to export those goods, the Collector may grant to the person importing the goods permission to take delivery of those goods upon giving a security or an undertaking, to the satisfaction of the Collector, for the payment of the duty on those goods.

(2) The regulations may prescribe provisions to be complied with in relation to goods in respect of which permission has been granted under the last preceding subsection.

(2A) Without limiting the generality of subsection (2), regulations under that subsection may provide that conditions, restrictions or requirements specified in the permission granted under subsection (1) in relation to goods are to be complied with in relation to the goods.

(3) Where the Collector has granted permission to a person to take delivery of goods upon giving a security or an undertaking referred to in subsection (1), the duty is not payable if:

s. 162A

- (b) the goods are exported within a period of 12 months after the date on which the goods were imported or within such further period as the Comptroller, on the application of the person who imported the goods, allows;

and, if security was given by way of deposit of cash or of an instrument transferable by delivery, the amount deposited or the instrument shall be returned to the person by whom the security was given.

(4) Where the regulations are not complied with or the goods are not exported from Australia within that period of twelve months or that further period allowed by the Comptroller, the security may be enforced according to its tenor or, where an undertaking to pay the amount of the duty has been given, that amount may be recovered at any time in a court of competent jurisdiction by proceedings in the name of the Collector.

Delivery of goods on the giving of a general security or undertaking for payment of duty

162A. (1) The regulations may provide that:

(1B) Without limiting the generality of paragraph (1A) (b), conditions, restrictions or requirements referred to in that paragraph that apply to goods may specify, or relate to:

- (a) the time during which the goods may remain in Australia; or
- (b) the purposes for which the goods may be used while they are in Australia.

(2) The Comptroller may accept a security given by a person for the payment of, or an undertaking by a person to pay, any duty that may become payable on goods to which the security or undertaking relates, being goods in relation to which regulations under the last

preceding subsection apply, that may be imported after a particular date or during a particular period and, where the Comptroller has accepted such security or undertaking, a Collector may grant to a person who imports goods to which the security or undertaking relates permission to take delivery of those goods without payment of duty.

(3) Goods delivered under this section shall, for the purposes of this Act, be deemed to be entered for home consumption on being so delivered.

(4) The regulations may prohibit a person to whom goods are delivered under this section from dealing with the goods in a manner, or in a manner other than a manner, specified in the regulations, or from so dealing with the goods except with the consent of the Comptroller.

- (a) the goods have been dealt with in contravention of the regulations; or
- (b) the goods are not exported within such period, not exceeding 12 months, after the date on which the goods were imported as is notified to the person who imported the goods by the Collector when he grants permission to take delivery of the goods, or within such further period as the Comptroller, on the application of the person who imported the goods and of the person who gave the security or undertaking with respect to the goods, allows.

(6) A Collector may give permission for goods delivered under this section to be taken on board a ship or aircraft for export and, on permission being so given, the goods shall, for the purposes of this Act, be deemed to be entered for export.

(7) Where security under this section is given by way of a payment of money or a deposit of an instrument transferable by delivery, the money shall not be repaid or the instrument shall not be returned, as the case may be, until no duty is, or may become, payable on any goods to which the security relates that have been imported.

(8) Where goods have been dealt with in contravention of the regulations or goods are not exported from Australia within the period notified under paragraph (5) (b) or within such further period as is allowed by the Comptroller under that paragraph, a security in respect of the goods may be enforced according to its tenor or, where an undertaking to pay the amount of the duty on the goods has been given, that amount may be recovered at any time in a court of competent jurisdiction by proceedings in the name of the Comptroller or the Collector of Customs for a State or Territory.

s. 162B

Pallets used in international transport

162B. (1) Where pallets are delivered under the last preceding section and it would be a contravention of the Convention by the Commonwealth to collect duty on the pallets, duty is not payable on the pallets.

(2) Where pallets are to be exported and it would be a contravention of the Convention by the Commonwealth to require the goods to be entered for export, the pallets may be exported without being entered for export.

(3) This section is in addition to, and not in derogation of, the provisions of subsections (5) and (6) of section 162A.

(2) Where a person:

- (a) purchases diesel fuel for use by him in a manner referred to in subsection (1); and
- (b) uses the diesel fuel otherwise than in a manner referred to in that subsection;

then:

- (c) if rebate has not been paid under subsection (1) to the person in respect of the diesel fuel—rebate is not payable to the person in respect of the diesel fuel; or

- (d) if rebate has been paid under subsection (1) to the person in respect of the diesel fuel—the person shall, on demand in writing made by the Comptroller, pay to the Commonwealth an amount equal to the amount of rebate paid to him in respect of the diesel fuel and, if the person fails to pay to the Commonwealth the amount demanded within such period as is specified in the demand, the amount may be recovered in a court of competent jurisdiction as a debt due to the Commonwealth.

(3) Subject to subsection (4), a Collector may refuse to consider an application for rebate under this section if:

(4A) Without limiting the regulations that may be made for the purposes of subsection (1), those regulations may provide that, subject to subsection (4B), rebate is not payable to a person in respect of diesel fuel purchased by the person unless, when the application for the rebate is given to a Collector, the applicant gives the Collector a document of a kind, containing information of a kind, prescribed by the regulations.

(4B) Where regulations for the purposes of subsection (1) provide that a rebate is not payable to a person in respect of diesel fuel unless the applicant for the rebate gives a Collector a document of a kind prescribed by the regulations for the purposes of subsection (4A), then, notwithstanding those regulations, rebate may be granted to an applicant if a Collector is satisfied that the applicant is unable to give the document because of circumstances beyond the applicant's control.

(4C) Where a Collector is not satisfied that particulars, or estimates, relating to diesel fuel set out in an application by a person for rebate are correct, the Collector may:

- (a) refuse to consider an application by that person for rebate the ascertaining of whose amount could be affected by those particulars or estimates; or
- (b) approve the payment, as the only rebate referred to in paragraph (a), of such amount as the Collector, without having regard to those particulars or estimates but having regard to such matters relating to the use of diesel fuel by the person as are prescribed, considers to be appropriate.

(4D) If a person who has applied for rebate under this section is to be paid rebate in respect of some or all the diesel fuel to which the application relates, the Collector must inform the person in writing of the amount of rebate payable to the person under the application.

(5) Subject to subsection (5AA), the rebate payable under subsection (1) to a person in respect of any diesel fuel purchased by the person for use in a manner referred to in a paragraph of that subsection is payable at the rate of:

(5A) The Minister may, by notice in writing published in the *Gazette*, declare that the rate of rebate payable under subsection (1) to a person in respect of any diesel fuel for use in a manner referred to in a paragraph of that subsection and specified in the notice is, on and after a day specified in the notice, a rate specified in the notice, being a rate higher than the rate specified in subsection (5) in relation to that paragraph, and, where the Minister makes such a declaration, the declaration has effect accordingly.

(5AA) The rebate payable to a person in respect of diesel fuel purchased by the person for use in a manner referred to in a paragraph of subsection (1) is payable at a rate equal to the average of the

s. 164

- (b) in relation to other months—the rates in force under declarations made under subsection (5A).

(5AB) Where an average of rates referred to in subsection (5AA) has more than 5 decimal places, the rate equal to that average shall, for the purposes of that subsection, be taken to be:

- (a) if the average calculated to 6 decimal places would end in a number less than or equal to 4—a rate equal to the average calculated to 5 decimal places; or

- (a) if the defendant so satisfies the Court in respect of the whole of the excess—subsection (3) does not apply to the excess; or

(7) The Court, in quantifying the value of a benefit for the purposes of this section, may treat as the value of the benefit the value that the benefit would have had if derived at the time when the valuation is being made and, without limiting this, may have regard to any decline in the purchasing power of money between the time when the benefit was derived and the time when the valuation is being made.

(8) For the purposes of this section, where property of a person vests in a trustee in bankruptcy, the property shall be taken to continue to be the property of the person.

Court may lift corporate veil etc.

243CA. (2) Where the Court makes, or has made, an order (in this section called "**a pecuniary penalty order**") that the defendant pay a pecuniary penalty under section 243B, the Court may:

- (a) on application by the Minister, the Commissioner of Police, the Comptroller or the Director of Public Prosecutions; and

- (a) the order may be enforced against the property as if it were the defendant's; and

Presumption of illegality of importation

243D. Where, in a proceeding under section 243B against a person, the Court is satisfied that the narcotic goods in relation to which the person is alleged to have engaged in a prescribed narcotics dealing or in prescribed narcotics dealings are goods reasonably suspected of having been imported into Australia in contravention of this Act, the Court shall, for the purposes of the proceeding, treat the narcotic goods as narcotic goods which have been imported into Australia in contravention of this Act unless it is established to the satisfaction of the Court that the narcotic goods were not imported into Australia or were not imported into Australia in contravention of this Act.

Court may make restraining order against property

243E. (1) Where the Minister, the Commissioner of Police, the Comptroller or the Director of Public Prosecutions has instituted a proceeding under section 243B for an order that a person (in this section referred to as the "**defendant**") pay a pecuniary penalty in relation to a particular prescribed narcotics dealing, or in relation to prescribed narcotics dealings during a particular period, the Minister, the Commissioner of Police, the Comptroller or the Director of Public Prosecutions may make application to the Court, *ex parte*, for an order under paragraph (2) (c) against one or more of the following:

(b) the Court considers that, having regard to the matters contained in that affidavit or those affidavits, there are reasonable grounds for holding those beliefs;

the Court:

(3) Paragraph (2) (d) does not authorize the Court to include in the order a provision postponing the operation of the order.

(4) Without limiting the power of the Court under paragraph (2) (d), the order against property:

- (a) may set out conditions subject to which the order is to apply to all of that property, or to a specified part of that property;

(6) For the purposes of an application under subsection (1), the Minister, the Commissioner of Police, the Comptroller or the Director of Public Prosecutions may, on behalf of the Commonwealth, give to the Court such undertakings with respect to the payment of damages or costs, or both, as are required by the Court.

(10) Neither paragraph (8) (c) nor subsection (9) limits the generality of the other.

(11) In proceedings dealing with an application for an order under paragraph (2) (c), a witness shall not be required to answer a question or to produce a document if the Court is satisfied that the answering of the question or the production of the document may prejudice the investigation of, or the prosecution of a person for, an offence.

(1) A scheme may provide for the transfer, with the approval of the Comptroller, from one person to another of a right to enter for home consumption during a period, or each of a number of periods, a specified quantity of particular goods, or particular goods of a specified value, at concessional rates of duty.

(2) The Comptroller shall not give an approval to a transfer under a scheme of a right to enter for home consumption a specified quantity of particular goods, or particular goods of a specified value, unless the transferee:

- (a) gives an undertaking, in writing, in terms satisfactory to the Comptroller, that, if by virtue of a determination under section 273 the items, or proposed items, of a Customs Tariff to which the undertaking given by the transferor in relation to the goods related were to apply to goods entered for home consumption by the transferee in the exercise of the right, the transferee

will, in the exercise of that right, enter for home consumption those goods, or the quantity of those goods having that value, under any of those items or proposed items or under any appropriate item, or proposed item, of a Customs Tariff that is not expressed to apply to goods as prescribed by by-law; and

Interpretation—core criteria

269C. For the purposes of this Part, a TCO application is to be taken to meet the core criteria if, on the day occurring 28 days before the day on which the application was lodged:

- (a) no substitutable goods were produced in Australia in the ordinary course of business; or
- (b) substitutable goods were produced in Australia in the ordinary course of business but the granting of the TCO was not likely to have a significant adverse effect on the market for the substitutable goods.

Interpretation—goods produced in Australia

269D. (1) For the purposes of this Part, goods, other than unmanufactured raw products, are taken to be produced in Australia if:

- (a) the goods are wholly or partly manufactured in Australia; and
- (b) not less than $\frac{1}{4}$ of the factory or works costs of the goods is represented by the sum of:
 - (i) the value of Australian labour; and
 - (ii) the value of Australian materials; and
 - (iii) the factory overhead expenses incurred in Australia in respect of the goods.

(2) For the purposes of this Part, goods are to be taken to have been partly manufactured in Australia if at least one substantial process in the manufacture of the goods was carried out in Australia.

s. 269E

(3) Without limiting the meaning of the expression "substantial process in the manufacture of the goods", any of the following operations or any combination of those operations does not constitute such a process:

- (a) operations to preserve goods during transportation or storage;
- (b) operations to improve the packing or labelling or marketable quality of goods;
- (c) operations to prepare goods for shipment;
- (d) simple assembly operations;
- (e) operations to mix goods where the resulting product does not have different properties from those of the goods that have been mixed.

(4) For the purposes of this section, the Comptroller may, by instrument in writing published in the *Gazette*:

- (a) direct that the factory or works cost of goods is to be determined in a specified manner; and
- (b) direct that the value of Australian labour, the value of Australian materials or the factory overhead expenses incurred in Australia in respect of goods is to be determined in a specified manner;

and those directions have effect accordingly.

(5) The provisions of sections 48 (other than paragraphs (1) (a) and (b) and subsection (2)), 48A, 48B, 49A and 50 of the *Acts Interpretation Act 1901* apply in relation to directions given under subsection (4) as if:

- (a) references in those provisions to regulations were references to directions; and
- (b) references in those provisions to the repeal of a regulation were references to the revocation of a direction.

Interpretation—the ordinary course of business

269E. (1) For the purposes of this Part, other than section 269Q, goods (other than made-to-order capital equipment) that are substitutable goods in relation to goods the subject of a TCO application are taken to be produced in Australia in the ordinary course of business if:

- (a) they have been produced in Australia in the 2 years before the application was lodged; or
- (b) they have been produced, and are held in stock, in Australia; or

- (c) they are produced in Australia on an intermittent basis and have been so produced in the 5 years before the application was lodged;

and a producer in Australia is prepared to accept an order to supply them.

- (2) For the purposes of this Part, goods that:

- (a) are substitutable goods in relation to goods the subject of a TCO application; and
- (b) are made-to-order capital equipment;

are taken to be produced in Australia in the ordinary course of business if:

- (c) a producer in Australia:

- (i) has made goods requiring the same labour skills, technology and design expertise as the substitutable goods in the 2 years before the application was lodged; and
- (ii) could produce the substitutable goods with existing facilities; and

- (d) the producer is prepared to accept an order to supply the substitutable goods.

- (3) In this section:

“made-to-order capital equipment” means capital equipment that is made in Australia to meet a specific order rather than being the subject of regular or intermittent production.

- (a) if he or she is satisfied that the application complies with section 269F, by notice in writing given to the applicant, inform the applicant that the application is accepted as a valid application; and
- (b) if he or she is not so satisfied, by notice in writing given to the applicant, inform the applicant that the application is rejected and of the reasons for the rejection.

(2) If the Comptroller has not, within that period, accepted or rejected the application, this Part has effect as if the Comptroller had, immediately before the end of that period, informed the applicant, by notice in writing, that the application is accepted as a valid application.

Applications taken to be lodged in certain circumstances

269J. (1) If the Comptroller decides that it is desirable to consider making a TCO despite the absence of a TCO application, the Comptroller may declare, in writing, that he or she has so decided.

(2) A declaration under subsection (1) must include a proposal for the issue of the TCO in respect of the goods referred to in the declaration.

(3) If the Comptroller makes a declaration under this section, this Part has effect as if:

- (a) the proposal contained in the declaration were a TCO application lodged under section 269F on the day on which the declaration is made; and
- (b) the application had been accepted under section 269H as a valid application on that day.

Processing a valid application

269K. (1) As soon as practicable after accepting a TCO application as a valid application, the Comptroller must publish a notice in the *Gazette*:

- (a) stating that the application has been lodged; and
- (b) providing a description of the goods to which the application relates including a reference to the Customs tariff classification that, in the opinion of the Comptroller, applies to the goods; and
- (c) inviting any persons who consider that there are reasons why the TCO should not be made to lodge a submission with the Comptroller not later than 50 days after the gazettal day.

s. 269L

(2) A submission must:

- (a) be in writing; and
- (b) be in an approved form; and
- (c) contain such information as the form requires; and
- (d) be signed in the manner indicated in the form.

(3) A submission:

- (a) must be lodged with the Comptroller in the same manner, and is taken to be lodged on the same day, as is specified in relation to a TCO application; and
- (b) must have the day of its lodgement recorded.

(4) If a person lodges a submission later than 50 days after the gazettal day in respect of a TCO application without being invited by the Comptroller to do so under section 269M, the Comptroller must not take the submission into account in determining whether to make a TCO.

Amendment of TCO applications

269L. (1) If a person lodges a submission in respect of a TCO application within 50 days after the gazettal day, the Comptroller must, within 14 days after the end of that 50 day period, give the applicant for the TCO a notice in writing setting out:

- (a) the name and address of each person who has lodged a submission within that period; and
- (b) a short statement of the grounds on which each submission is based.

(2) The applicant may, within 14 days of receiving a notice under subsection (1) and having regard to the grounds on which each submission was made, notify the Comptroller, in writing, that he or she proposes to amend the application by altering the description of the goods the subject of the application, and set out in that notice the proposed amendment.

(3) The applicant must not, under subsection (2), propose an amendment of an application that would cause the goods concerned to be covered by a different Customs tariff classification to the one notified by the Comptroller in the *Gazette* under section 269K.

(4) If the applicant notifies the Comptroller of a proposed amendment of an application:

- (a) the TCO application is to be dealt with under this Part as if:
 - (i) it had always contained the amended description of the goods; and

- (ii) the notice published in the *Gazette* in relation to the application had been a notice setting out the amended description; and
 - (b) the Comptroller must notify the proposed amendment, in writing, to each person who lodged a submission referred to in subsection (1), within 14 days after the proposed amendment is notified to the Comptroller.
- (5) If a person who lodged a submission referred to in subsection (1) notifies the Comptroller, in writing, within 14 days after being notified of a proposed amendment, that he or she no longer objects to the TCO application, the submission is taken to have been withdrawn.
- (6) If a person who lodged a submission referred to in subsection (1) does not so notify the Comptroller, he or she is taken to wish to proceed with the submission as if it were a submission made in respect of the amended application.

Customs may invite submissions or seek other information, documents or material

269M. (1) If the Comptroller considers that, in relation to a particular TCO application, a person may have reason to oppose the making of the TCO to which the application relates, he or she may, by notice in writing, invite the person to lodge a written submission with the Comptroller within a period specified in the notice ending not later than 150 days after the gazettal day.

(2) A submission must:

- (a) be in writing; and
- (b) be in an approved form; and
- (c) contain such information as the form requires; and
- (d) be signed in the manner indicated in the form.

(3) A submission:

- (a) must be lodged with the Comptroller in the same manner, and is taken to be lodged on the same day, as is specified in relation to a TCO application; and
- (b) must have the day of its lodgement recorded.

(4) If the Comptroller considers that, in relation to a particular TCO application, any person (including the applicant or a person who has lodged a submission with the Comptroller) may be able to supply information or produce a document or material relevant to the consideration of the application, the Comptroller may, by notice in writing, request the supply of the information in writing or the production of the document or material within a period specified in the notice and ending not later than 150 days after the gazettal day.

s. 269N

(5) If a person refuses or fails to lodge a submission under subsection (1) or to supply information or produce a document or material under subsection (4) within the period allowed but subsequently lodges that submission, supplies the information or produces the document or material, the Comptroller must not take that submission, information, document or material into account in determining whether to make a TCO.

Reprocessing of TCO applications

269N. (1) If, after gazettal day in respect of a TCO application but before a decision is made on the application, the Comptroller is satisfied that:

- (a) because of an amendment of a Customs Tariff; or
- (b) having regard to a decision of a court or of the Administrative Appeals Tribunal; or
- (c) having regard to written advice on the matter given by an officer or employee of the Commonwealth performing duties in the Attorney-General's Department who is entitled, under section 55D of the *Judiciary Act 1903*, to practise as a barrister and solicitor in any Territory;

the tariff classification that was stated in the notice published in the *Gazette* under section 269K to apply to the goods the subject of the application has not, with effect from the gazettal day or a later day, applied to the goods, the Comptroller must take action to reprocess the application.

(2) If the Comptroller is satisfied that, in publishing a notice in the *Gazette* under section 269K in relation to a TCO application, there has been a transcription error in the description of the goods the subject of the application including the tariff classification that is stated to apply to the goods, the Comptroller must take action to reprocess the application.

(3) Where the Comptroller is required to take action under subsection (1) or (2), he or she must, as soon as practicable after becoming so required, notify:

- (a) the applicant; and
- (b) all persons from whom submissions in relation to the application have been received; and
- (c) all persons from whom submissions in relation to the application have been sought;

that, for the reasons specified in subsection (1) or (2), it is necessary to reprocess the application and that a new notice of the application will be published in the *Gazette* for that purpose.

(4) As soon as practicable after giving a notice under subsection (3), the Comptroller must publish in the *Gazette* a new notice under subsection 269K (1) in relation to the TCO application in substitution for the notice previously published.

(5) A person who had lodged a submission in relation to the original notice published under section 269K in respect of a TCO application may notify the Comptroller in writing, not later than 50 days after the day of publication of the substituted notice under that section, that he or she wishes to proceed with the submission, or wishes to proceed with it subject to stated modifications, as if it had been provided in response to the substituted notice and, where the Comptroller is so notified, the submission is to be treated as if it had been so provided on the day of that notification.

(6) If a TCO is made in respect of a TCO application that is reprocessed in accordance with this section, the day on which the TCO is to be taken to come into force is unaffected by the decision to reprocess that application.

Division 3—Making and operation of TCOs

The making of a standard TCO

269P. (1) If a TCO application in respect of goods, other than goods sent out of Australia for repair, has been accepted as a valid application under section 269H, the Comptroller must decide, not later than 150 days after the gazettal day, whether or not he or she is satisfied, having regard to:

- (a) the application; and
- (b) all submissions lodged with the Comptroller before the last day for submissions; and
- (c) all information supplied and documents and material produced to the Comptroller in accordance with a notice under subsection 269M (4);

that the application meets the core criteria.

(2) If the Comptroller fails to make a decision under subsection (1) in respect of a TCO application within 150 days after the gazettal day, the Comptroller is taken, for the purposes of subsection (1), at the end of that period, to have made a decision that he or she is not satisfied that the application meets the core criteria.

(3) If the Comptroller is satisfied that the application meets the core criteria, he or she must make a written order declaring that the goods the subject of the TCO application are goods to which a prescribed item specified in the order applies.

s. 269Q

- (4) The TCO must include:
- (a) a description of the goods the subject of the order including a reference to the Customs tariff classification that, in the opinion of the Comptroller, applies to the goods; and
 - (b) a statement of the day on which the TCO is to be taken to have come into force; and
 - (c) if subsection 269SA (1) applies in relation to the TCO—a statement of the day on which it ceases to be in force.

The making of a TCO for goods requiring repair

269Q. (1) If a TCO application in respect of goods sent out of Australia for repair has been accepted as a valid application under section 269H, the Comptroller must decide, not later than 150 days after the gazettal day, whether or not he or she is satisfied, having regard to:

- (a) the application; and
- (b) all submissions lodged with the Comptroller before the last day for submissions; and
- (c) all information supplied and documents and material produced to the Comptroller in accordance with a notice under subsection 269M (4);

that there is no one in Australia capable of repairing those goods in the ordinary course of business.

(2) If the Comptroller fails to make a decision under subsection (1) in respect of a TCO application within 150 days after the gazettal day, the Comptroller is taken, for the purposes of subsection (1), at the end of that period, to have made a decision that he or she is not satisfied of the matters referred to in that subsection in relation to the application.

(3) If the Comptroller is satisfied of the matters referred to in subsection (1) in relation to the application, he or she must make a written order declaring that the goods the subject of the TCO application are goods to which a prescribed item specified in the order applies.

- (4) The TCO must include:
- (a) a description of the goods the subject of the order including a reference to the Customs tariff classification that, in the opinion of the Comptroller, applies to the goods; and
 - (b) a statement of the day on which the TCO is to be taken to have come into force.

(5) For the purposes of this section, a person is taken to be capable of repairing goods in the ordinary course of business if, in the ordinary course of business, the person is prepared to accept orders to repair those goods.

Notification of TCO decisions

269R. (1) As soon as practicable after the Comptroller makes a decision under subsection 269P (1) or 269Q (1), the Comptroller must:

- (a) by notice in writing, inform the applicant of the decision; and
- (b) by notice published in the *Gazette*, inform all other interested persons of the decision.

(2) If the decision has led to the making of a TCO, the notice given to the applicant and published in the *Gazette* must include full particulars of the TCO.

(3) A failure to comply with subsection (1) or (2) does not affect the validity of the TCO concerned.

Operation of TCOs

269S. (1) Subject to the operation of subsection 269SA (2), a TCO is to be taken to have come into force 28 days before:

- (a) unless paragraph (b) applies—the day on which the application for the TCO was lodged; or
- (b) if there was more than one application for the TCO—the day on which the earliest application for the TCO was lodged.

(2) Subject to section 269SG, a TCO applies in relation to the goods the subject of the TCO that were or are first entered for home consumption on or after the day on which the TCO is taken to have come into force.

(3) Subject to the operation of subsection 269SA (1), a TCO continues in force until it is revoked under section 269SC or 269SD.

Consequence of commencement or cessation of production before TCO decision

269SA. (1) If the Comptroller is satisfied, in relation to a TCO application:

- (a) that the application meets the core criteria; and
- (b) that on a day (the “**production start-up day**”) occurring later than 28 days before the application was lodged but before the making of the decision on the application, substitutable goods in relation to the goods the subject of the application commenced to be produced in Australia; and

s. 269SB

- (c) that if the production start-up day had occurred 28 days before the application was lodged, the Comptroller would not have been satisfied that the application met the core criteria;

the TCO that the Comptroller makes continues in force only until the production start-up day.

(2) If the Comptroller is satisfied, in relation to a TCO application:

- (a) that the application does not meet the core criteria; and
- (b) that on a day (the “production close-down day”) occurring later than 28 days before the application was lodged but before the making of the decision on the application, substitutable goods in relation to the goods the subject of the application ceased to be produced in Australia; and
- (c) that if the production close-down day had occurred 28 days before the application was lodged the Comptroller would have been satisfied that the application met the core criteria;

the Comptroller must make a TCO in accordance with section 269P, but the TCO is in force only from the production close-down day.

Division 4—Revocation of TCOs

Request for revocation of TCOs

269SB. (1) If:

- (a) a TCO is in force on a particular day; and
- (b) a person claiming to be a producer in Australia of substitutable goods in relation to the goods covered by the order is of the view that if:
 - (i) the TCO were not in force on that particular day; and
 - (ii) that particular day had occurred 28 days before the TCO application was lodged;

the TCO would not have been made;

the person may request the Comptroller to revoke the order.

(2) A request must:

- (a) be in writing; and
- (b) be in an approved form; and
- (c) contain such information as the form requires; and
- (d) be signed in the manner indicated in the form.

- (3) A request for revocation may be lodged with Customs:
 - (a) by leaving it at a place that has been allocated for the lodgement of TCO applications at Customs House, Canberra; or
 - (b) by posting it by prepaid post to a postal address specified by Customs in the approved form; or
 - (c) by sending it by electronic facsimile to a facsimile number specified by Customs in the approved form;

and the request is taken to have been lodged when the request, or a facsimile of the request, is first received by an officer of Customs.

- (4) The day on which the request is to be taken to be lodged, must be recorded on the request.

Processing requests for revocation of TCOs

269SC. (1) Not later than 60 days after lodgement of a request for revocation of a TCO, and after having regard to the request and to any other information, document or material given to the Comptroller under section 269SF, the Comptroller must decide whether or not he or she is satisfied:

- (a) that, on the day of lodgement of the request, the person requesting the revocation of the TCO is a producer in Australia of goods that are substitutable goods in relation to the goods the subject of the order; and
- (b) that, if the TCO were not in force on that day but that day had occurred 28 days before an application for that TCO were lodged, the Comptroller would not have made the TCO.

(1A) As soon as practicable after receiving a request for revocation of a TCO, the Comptroller must publish a *Gazette* notice stating:

- (a) that the request has been lodged; and
- (b) the date that the request was lodged; and
- (c) the full particulars of the TCO to which the request relates.

(2) If the Comptroller fails to make a decision in respect of a request for the revocation of a TCO within 60 days after lodgement of the request, the Comptroller is taken, for the purposes of subsection (1), at the end of that period, to have decided that he or she is not satisfied of the matters referred to in that subsection in relation to the request.

(3) If the Comptroller is satisfied of the matters referred to in subsection (1) in relation to a request for revocation of a TCO, the Comptroller must make an order revoking the TCO.

s. 269SD

(4) If the Comptroller is satisfied of the matters referred to in subsection (1) in relation to a request for revocation of a TCO but is also satisfied that if:

- (a) the TCO were not in force on the day of lodgement of the request; and
- (b) that day were a day occurring 28 days before an application for another TCO (the "narrower TCO") in respect only of goods covered by the TCO that are not produced in Australia by the person making the request;

the Comptroller would have made such a narrower TCO, he or she must:

- (c) revoke the TCO; and
- (d) make, in its place, such a narrower TCO.

(5) If the Comptroller is not satisfied of the matters referred to in subsection (1) in relation to a request for revocation of a TCO, the Comptroller must refuse the request.

(6) An order under subsection (3) or (4) revoking a TCO comes into force on the day on which the request to revoke the TCO was lodged.

(7) If a narrower TCO is made in place of another TCO that is revoked in subsection (4), that narrower TCO comes into force, for the purposes of this Part, from the date of effect of the revocation of the other TCO, as if it had been made under section 269P or 269Q.

Revocation at the initiative of Customs

269SD. (1) If the Comptroller is satisfied that a TCO is no longer required because the general tariff rate in respect of the goods the subject of the order has been reduced to "Free", the Comptroller may make an order revoking the TCO with effect from the day the tariff rate was so reduced.

- (2) If the Comptroller is satisfied that:
 - (a) because of an amendment of a Customs tariff; or
 - (b) having regard to a decision of a court or of the Administrative Appeals Tribunal; or
 - (c) having regard to written advice on the matter given by an officer or employee of the Commonwealth performing duties in the Attorney-General's Department who is entitled, under section 55D of the *Judiciary Act 1903*, to practise as a barrister and solicitor in any Territory;

the tariff classification that is stated in a TCO to apply to the goods the subject of the TCO has not, with effect from a particular day, applied to those goods, the Comptroller must:

- (d) make an order revoking the TCO with effect from that day; and
- (e) make a new TCO in respect of the goods with effect from the revocation.

(3) If the Comptroller is satisfied that, in making a TCO, there has been a transcription error in the description of goods the subject of the TCO including the tariff classification that is stated in the TCO to apply to the goods, the Comptroller may:

- (a) make an order revoking the TCO with effect from the day the TCO came into force; and
- (b) make a new TCO in respect of goods that corrects the error with effect from the revocation.

(4) The particular day referred to in subsection (2) may be the day on which the TCO that is revoked came into force or a later day.

Notification of revocation decisions

269SE. (1) As soon as practicable after the Comptroller makes a decision under subsection 269SC (1), the Comptroller must:

- (a) by notice in writing, inform the applicant of the decision; and
- (b) by notice published in the *Gazette*, inform all other interested persons of the decision.

(2) As soon as practicable after the Comptroller makes a decision to make an order under subsection 269SD (1) or (2), the Comptroller must, by notice published in the *Gazette*, inform all interested persons of the decision.

(3) If the decision referred to in subsection (1) or (2) has led to the making of an order revoking a TCO or both to the making of an order revoking a TCO and the making of a new TCO, the notice of that decision given to the applicant and published in the *Gazette* must include full particulars of the order or orders.

(4) A failure to comply with subsection (1), (2) or (3) does not affect the validity of the decision concerned or of any order or orders to which it has led.

Customs may seek information, documents or material relating to revocation

269SF. (1) If the Comptroller considers that, in relation to a request for revocation of a TCO, any person (including the person who made the request) may be able to supply information or produce a document or material relevant to the consideration of the request, the Comptroller may, by notice in writing, request the supply of the

s. 269SG

information or the production of the document or material within a period specified in the notice and ending not later than 60 days after receiving the request.

(2) Any information provided in satisfaction of a request under subsection (1) must be provided in writing.

(3) If a person refuses or fails to supply information or produce a document or material under subsection (1) within the period allowed but subsequently supplies the information or produces the document or material, the Comptroller must not take that information, document or material into account in determining whether to revoke a TCO.

Effect of revocation on goods in transit and capital equipment on order

269SG. (1) Subject to subsection (2), if a TCO is revoked under subsection 269SC (3) or (4), the TCO ceases to apply in relation to goods entered for home consumption on or after the day on which the revocation comes into effect.

(2) Despite the revocation of a TCO under subsection 269SC (3) or (4) in respect of goods, the TCO continues to apply in relation to:

(a) goods that:

(i) were imported into Australia on or before the day on which the revocation came into effect; and

(ii) are entered for home consumption, before, on, or within 28 days after, that day; and

(b) goods that:

(i) were in transit to Australia on that day; and

(ii) are entered for home consumption before, on, or within 28 days after, the day on which they were imported into Australia.

(3) For the purposes of subparagraph (2) (b) (i), goods shall be taken to be in transit to Australia if, and only if, they have left for direct shipment to Australia from a place of manufacture, or a warehouse, in the country from which they are being exported.

(4) Where an officer of Customs is satisfied that, after a TCO in relation to capital equipment comes into force but before its revocation under subsection 269SC (3) or (4), a firm order had been placed for the purchase of any such equipment, the TCO continues to apply in relation to the importation into Australia of that capital equipment.

*Division 5—Miscellaneous***Internal review**

269SH. (1) Not later than 28 days after gazettal of a decision (the “original decision”) on a TCO application or on a request for revocation of a TCO, any affected person within the meaning of subsection (13) who objects to the making of the decision may apply to the Comptroller for its reconsideration.

(2) An application for reconsideration must:

(a) be in writing; and

(b) include the grounds on which the person objects to the decision (whether or not those grounds had previously been considered).

(3) An application for reconsideration:

(a) must be lodged with the Comptroller in the same manner, and is taken to be lodged on the same day, as is specified in relation to a TCO application; and

(b) must have the day of its lodgement recorded.

(3A) As soon as practicable after receiving a request for reconsideration of a decision that leads to the making of a TCO or that refuses to revoke a TCO, the Comptroller must publish a *Gazette* notice stating:

(a) that the request has been lodged; and

(b) the date that the request was lodged; and

(c) the full particulars of the TCO to which the request relates.

(4) Where application is made for reconsideration of a decision made on a TCO application, the Comptroller, having regard to:

(a) the TCO application; and

(b) the submissions, information, documents and materials which the Comptroller was entitled to take into account in considering the TCO application; and

(c) any new matter produced to the Comptroller by the applicant for reconsideration which, under subsection (7), the Comptroller is not prevented from taking into account for that purpose;

must decide, not later than 90 days after the last day for lodgement of the application for reconsideration, whether to affirm the original decision or to substitute any other decision that the Comptroller might have made.

s. 269SH

(5) Where application is made for reconsideration of a decision on a request for revocation, the Comptroller, having regard to:

- (a) the request for revocation; and
- (b) the information, documents and materials which the Comptroller was entitled to take into account in considering the request; and
- (c) any new matter produced to the Comptroller by the applicant for reconsideration which, under subsection (7), the Comptroller is not prevented from taking into account for that purpose;

must decide, not later than 60 days after the last day for lodgement of the application for reconsideration, whether to affirm the original decision or to substitute any other decision that the Comptroller might have made.

(6) If the Comptroller fails to make a decision under subsection (4) or (5) within the period referred to in that subsection, the Comptroller is taken, for the purposes of the reconsideration, at the end of that period, to have made a decision to affirm the original decision.

(7) For the purposes of subsections (4) and (5), the Comptroller must not take into account any new material that is not produced to him or her by the applicant for reconsideration of an original decision within the period of 28 days after notification of the original decision in the *Gazette*.

(8) Where the Comptroller, on reconsidering an original decision, decides to substitute for that decision any decision that he or she might have made, the substituted decision is to be taken to have been made when the original decision was made.

(9) If the substituted decision involves the making of a TCO, or of an order revoking a TCO, that TCO or revocation order comes into force on the day on which, if the original decision had involved making the TCO or order revoking a TCO, that TCO or order would have come into force.

(10) As soon as practicable after the Comptroller makes a decision under subsection (4) or (5) on an application for reconsideration, the Comptroller must:

- (a) by notice in writing inform the applicant for reconsideration of the decision made on the reconsideration; and
- (b) by notice published in the *Gazette*, inform all other interested persons of the decision made on that reconsideration.

(11) If the decision on an application for reconsideration has led to the making of an order or orders, the notice of the decision given to the applicant for reconsideration and published in the *Gazette* must include full particulars of the order or orders.

(12) A failure to comply with subsection (10) does not affect the validity of any decision on a reconsideration or of any order or orders to which it has led.

(13) In subsection (1):

“affected person” means:

(a) in relation to a decision on a TCO application:

- (i) the applicant for the TCO; or
- (ii) any person who lodged a submission before the last day for submissions in relation to the TCO application; or
- (iii) any person who, in the opinion of the Comptroller, was not reasonably able to lodge a submission in relation to the TCO application within 50 days of the gazettal day; and

(b) in relation to a decision on a request for revocation:

- (i) the person requesting the revocation; or
- (ii) any other person whose interests are affected by the decision made on the request.

TCOs not to apply to prescribed goods

269SJ. (1) The Comptroller must not make a TCO in respect of goods declared by the regulations to be goods to which a TCO should not extend.

(2) If a regulation is made for the purposes of subsection (1) in respect of goods to which a TCO applies, that TCO must be taken, to the extent that it covers those goods, to have been revoked by the Comptroller on the day those regulations came into effect.

(3) Where a TCO is taken to have been revoked under subsection (2) to the extent that it covers goods the subject of a regulation made for the purposes of subsection (1), the Comptroller must, as soon as practicable after the making of the regulation, by notice published in the *Gazette*, inform interested persons:

- (a) of the fact that the regulation has been made; and
- (b) of its effect on the TCO; and
- (c) of the day on which the TCO is taken to have been so revoked.

TCOs not to contravene international agreements

269SK. If the Comptroller is satisfied that, in accordance with the obligations of Australia under an agreement (including a treaty or convention) between Australia and another country or other countries, the rate of duty attaching to the importation of goods (whether or not

s. 269SL

the produce of a particular country) is not to be less than a particular minimum rate, the Comptroller must not make a TCO that would result in a contravention of those obligations.

TCOs not to be statutory rules

269SL. A TCO is not to be taken to be a statutory rule within the meaning of the *Statutory Rules Publication Act 1903*.

s. 269TAAA

Anti-dumping measures not to apply to goods of New Zealand origin

269TAAA. (1) This Part, so far as it relates to duty that may become payable under section 8 or 9 of the Anti-Dumping Act, does not apply to goods that are the produce or manufacture of New Zealand.

(2) In subsection (1):

“goods” includes goods imported into Australia before the commencement of this section.

Arms length transactions

269TAA. (1) For the purposes of this Part, a purchase or sale of goods shall not be treated as an arms length transaction if:

- (a) there is any consideration payable for or in respect of the goods other than their price; or
- (b) the price is influenced by a commercial or other relationship between the buyer, or an associate of the buyer, and the seller, or an associate of the seller; or
- (c) in the opinion of the Minister the buyer, or an associate of the buyer, will, directly or indirectly, be reimbursed, be compensated or otherwise receive a benefit for, or in respect of, the whole or any part of the price.

(2) Without limiting the generality of subsection (1), where:

- (a) goods are exported to Australia otherwise than by the importer and are purchased by the importer from the exporter (whether before or after exportation) for a particular price; and
- (b) the Minister is satisfied that the importer, whether directly or through an associate or associates, sells those goods in Australia (whether in the condition in which they were imported or otherwise) at a loss;

the Minister may, for the purposes of paragraph (1) (c), treat the sale of those goods at a loss as indicating that the importer or an associate of the importer will, directly or indirectly, be reimbursed, be compensated or otherwise receive a benefit for, or in respect of, the whole or a part of the price.

(3) In determining, for the purposes of subsection (2), whether goods are sold by an importer at a loss, the Minister shall have regard to:

- (a) the amount of the price paid or to be paid for the goods by the importer; and
- (b) such other amounts as the Minister determines to be costs necessarily incurred in the importation and sale of the goods; and

- (c) the likelihood that the amounts referred to in paragraphs (a) and (b) will be able to be recovered within a reasonable time; and
- (d) such other matters as the Minister considers relevant.

(4) For the purposes of this Part, 2 persons shall be deemed to be associates of each other if, and only if:

- (a) both being natural persons:
 - (i) they are connected by a blood relationship or by marriage or by adoption; or
 - (ii) one of them is an officer or director of a body corporate controlled, directly or indirectly, by the other;
- (b) both being bodies corporate:
 - (i) both of them are controlled, directly or indirectly, by a third person (whether or not a body corporate); or
 - (ii) both of them together control, directly or indirectly, a third body corporate; or
 - (iii) the same person (whether or not a body corporate) is in a position to cast, or control the casting of, 5% or more of the maximum number of votes that might be cast at a general meeting of each of them; or
- (c) one of them, being a body corporate, is, directly or indirectly, controlled by the other (whether or not a body corporate); or
- (d) one of them, being a natural person, is an employee, officer or director of the other (whether or not a body corporate); or
- (e) they are members of the same partnership.

Export price

269TAB. (1) For the purposes of this Part, the export price of any goods exported to Australia is:

- (a) where:
 - (i) the goods have been exported to Australia otherwise than by the importer and have been purchased by the importer from the exporter (whether before or after exportation); and
 - (ii) the purchase of the goods by the importer was an arms length transaction;

the price paid or payable for the goods by the importer, other than any part of that price that represents a charge in respect of the transport of the goods after exportation or in respect of any other matter arising after exportation; or

- (b) where:

s. 269TAC

- (i) the goods have been exported to Australia otherwise than by the importer and have been purchased by the importer from the exporter (whether before or after exportation); and
- (ii) the purchase of the goods by the importer was not an arms length transaction; and
- (iii) the goods are subsequently sold by the importer, in the condition in which they were imported, to a person who is not an associate of the importer;

the price at which the goods were so sold by the importer to that person less the prescribed deductions; or

- (c) in any other case—the price that the Minister determines having regard to all the circumstances of the exportation.

(2) A reference in paragraph (1) (b) to prescribed deductions in relation to a sale of goods that have been exported to Australia shall be read as a reference to:

- (a) any duties of Customs or sales tax paid or payable on the goods; and
- (b) any costs, charges or expenses arising in relation to the goods after exportation; and
- (c) the profit, if any, on the sale by the importer or, where the Minister so directs, an amount calculated in accordance with such rate as the Minister specifies in the direction as the rate that, for the purposes of paragraph (1) (b), is to be regarded as the rate of profit on the sale by the importer.

(3) Where the Minister is satisfied that sufficient information has not been furnished, or is not available, to enable the export price of goods to be ascertained under the preceding subsections, the export price of those goods shall be such amount as is determined by the Minister having regard to all relevant information.

(4) For the purposes of subsection (3), the Minister may disregard any information that he or she considers to be unreliable.

(5) Paragraphs (1) (a) and (b) apply in relation to a purchase of goods by an importer from an exporter whether or not the importer and exporter are associates of each other.

Normal value of goods

269TAC. (1) Subject to this section, for the purposes of this Part, the normal value of any goods exported to Australia is the price paid for like goods sold in the ordinary course of trade for home consump-

tion in the country of export in sales that are arms length transactions by the exporter or, if like goods are not so sold by the exporter, by other sellers of like goods.

(2) Subject to this section, where the Minister:

(a) is satisfied that:

(i) by reason of the absence of sales that would be relevant for the purpose of determining a price under subsection (1); or

(ii) by reason that the situation in the relevant market is such that sales in that market that would otherwise be relevant for the purpose of determining a price under subsection (1) are not suitable for use in determining such a price;

the normal value of goods exported to Australia cannot be ascertained under subsection (1); or

(b) is satisfied, in a case where like goods are not sold in the ordinary course of trade for home consumption in the country of export in sales that are arms length transactions by the exporter, that it is not practicable to obtain, within a reasonable time, information in relation to sales by other sellers of like goods that would be relevant for the purpose of determining a price under subsection (1);

the normal value of the goods for the purposes of this Part is:

(c) except where paragraph (d) applies, the sum of:

(i) such amount as the Minister determines to be the cost of production or manufacture of the goods in the country of export; and

(ii) on the assumption that the goods, instead of being exported, had been sold for home consumption in the ordinary course of trade in the country of export:

(A) such amounts as the Minister determines would be the delivery charges and other costs necessarily incurred in that sale; and

(B) subject to subsection (13), an amount calculated in accordance with such rate, if any, as the Minister determines would be the rate of profit on that sale; or

(d) where the Minister so directs, the price determined by the Minister to be representative of the price paid for like goods sold in the ordinary course of trade in the country of export for export to a third country, being sales that are arms length transactions.

s. 269TAC

(3) Where the Minister gives a direction under paragraph (2) (d) in relation to the ascertainment of the normal value of goods for the purposes of this Part, the price determined by the Minister for the purposes of that paragraph:

- (a) is to be a price that, by reason of the quantity of goods, being like goods sold in the ordinary course of trade in the country of export for export to the third country, being sales that are arms length transactions, for which the price has been paid, is representative of the price paid in such sales of those goods; and
- (b) may be the highest price paid for like goods sold in the ordinary course of trade in the country of export for export to the third country, being sales that are arms length transactions.

(4) Subject to subsections (6) and (8), where the Minister is satisfied that it is inappropriate to ascertain the normal value of goods in accordance with the preceding subsections because the Government of the country of export:

- (a) has a monopoly, or substantial monopoly, of the trade of the country; and
- (b) determines or substantially influences the domestic price of goods in that country;

the normal value of the goods for the purposes of this Part is to be a value ascertained in accordance with whichever of the following paragraphs the Minister determines having regard to what is appropriate and reasonable in the circumstances of the case:

- (c) a value equal to the price of like goods produced or manufactured in a country determined by the Minister and sold for home consumption in the ordinary course of trade in that country, being sales that are arms length transactions;
- (d) a value equal to the price determined by the Minister to be representative of the price of like goods produced or manufactured in a country determined by the Minister and sold for export from that country to another country in the ordinary course of trade, being sales that are arms length transactions;
- (e) a value equal to the sum of the following amounts ascertained in respect of like goods produced or manufactured in a country determined by the Minister and sold for home consumption in the ordinary course of trade in that country:
 - (i) such amount as the Minister determines to be the cost of production or manufacture of the like goods in that country;
 - (ii) such amounts as the Minister determines are the delivery charges and other costs necessarily incurred in selling the like goods;

- (iii) an amount calculated in accordance with such rate, if any, as the Minister determines is to be regarded as the rate of profit on the sale of the like goods;
- (f) a value equal to the price payable for like goods produced or manufactured in Australia and sold for home consumption in the ordinary course of trade in Australia, being sales that are arms length transactions.

(5) Where the normal value of goods for the purposes of this Part is a value ascertained in accordance with paragraph (4) (d), the price determined by the Minister for the purposes of that paragraph:

- (a) is to be a price that, by reason of the quantity of goods, being like goods produced or manufactured in the country determined by the Minister and sold for export from that country to the other country in the ordinary course of trade, being sales that are arms length transactions, for which the price has been paid, is representative of the price paid in such sales of those goods; and
- (b) may be the highest price paid for like goods produced or manufactured in the country determined by the Minister and sold for export from that country to the other country in the ordinary course of trade, being sales that are arms length transactions.

(6) Where the Minister is satisfied that sufficient information has not been furnished or is not available to enable the normal value of goods to be ascertained under the preceding subsections, the normal value of those goods is such amount as is determined by the Minister having regard to all relevant information.

(7) For the purposes of subsection (6), the Minister may disregard any information that he or she considers to be unreliable.

(8) Where the normal value of goods exported to Australia is the price paid for like goods and that price and the export price of the goods exported:

- (a) relate to sales occurring at different times; or
- (b) are not in respect of identical goods; or
- (c) are modified in different ways by taxes or the terms or circumstances of the sales to which they relate;

that price paid for like goods is to be taken to be that price paid adjusted in accordance with directions by the Minister so that those differences would not affect its comparison with that export price.

(9) Where the normal value of goods exported to Australia is to be ascertained in accordance with paragraph (2) (c) or (4) (e), the Minister must make such adjustments, in determining the costs to be

s. 269TAC

determined under that paragraph, as are necessary to ensure that the normal value so ascertained is properly comparable with the export price of those goods.

(10) Where:

- (a) the actual country of export of goods exported to Australia is not the country of origin of the goods; and
- (b) the Minister is of the opinion that the normal value of the goods should be ascertained for the purposes of this Part as if the country of origin were the country of export;

he or she may direct that the normal value of the goods is to be so ascertained.

(11) For the purposes of subsection (10), the country of origin of goods is:

- (a) in the case of unmanufactured raw products—the country of which they are products; or
- (b) in any other case—the country in which the last significant process in the manufacture or production of the goods was performed.

(12) Where the Minister is satisfied, in relation to goods exported to Australia, that:

(a) the price paid for like goods:

- (i) sold for home consumption in the country of export in sales that are arms length transactions; or
- (ii) sold in the country of export for export to a third country in sales that are arms length transactions;

is, and has been for an extended period of time and in respect of a substantial quantity of goods, less than the sum of:

- (iii) such amount as the Minister determines to be the cost of production or manufacture of the goods in the country of export; and
- (iv) such other amounts as the Minister determines to be the costs necessarily incurred in the sale of the goods by the seller of the goods; and

(b) it is likely that the seller of the goods referred to in paragraph (a) will not be able to fully recover the amounts referred to in subparagraphs (a) (iii) and (iv) within a reasonable period of time;

the price so paid for the goods referred to in paragraph (a) is to be taken not to have been paid in the ordinary course of trade.

(13) Where, because of the operation of subsection (12), the normal value of goods is required to be determined under subsection (2), the Minister shall not include in his or her calculation of that normal value any profit component under sub-subparagraph (2) (c) (ii) (B).

Non-injurious price

269TACA. The non-injurious price of goods exported to Australia is the minimum price necessary:

- (a) if the goods are the subject of, or of an application for, a dumping duty notice under subsection 269TG (1) or (2)—to prevent the injury, or a recurrence of the injury, or to remove the hindrance, referred to in paragraph 269TG (1) (b) or (2) (b); or
- (b) if the goods are the subject of, or of an application for, a third country dumping duty notice under subsection 269TH (1) or (2)—to prevent the injury, or a recurrence of the injury, referred to in paragraph 269TH (1) (b) or (2) (b); or
- (c) if the goods are the subject of, or of an application for, a countervailing duty notice under subsection 269TJ (1) or (2)—to prevent the injury, or a recurrence of the injury, or to remove the hindrance, referred to in paragraph 269TJ (1) (b) or (2) (b); or
- (d) if the goods are the subject of, or of an application for, a third country countervailing duty notice under subsection 269TK (1) or (2)—to prevent the injury, or a recurrence of the injury, referred to in paragraph 269TK (1) (b) or (2) (b).

Material injury to industry

269TAE. (1) In determining, for the purposes of section 269TG or 269TJ, whether material injury to an Australian industry has been or is being caused or is threatened or would or might have been caused, or whether the establishment of an Australian industry has been materially hindered, by reason of any circumstances in relation to the exportation of goods to Australia from another country (in this subsection called the "**country of export**"), the Minister may, without limiting the generality of that section, have regard to:

- (a) the quantity of goods of that kind that, during a particular period, have been or are likely to be exported to Australia from the country of export; and
- (b) any increase or likely increase, during a particular period, in the quantity of goods of that kind exported to Australia from the country of export; and

- (g) the effect that the exportation of goods of that kind to Australia from the country of export in those circumstances has had or is likely to have on the relevant economic factors in relation to the Australian industry; and

- (h) in a case where the determination is being made for the purposes of section 269TJ and the goods are agricultural products—whether the exportation of goods of that kind to Australia from the country of export in those circumstances has given or is likely to give rise to a need for financial or other support, or an increase in financial or other support, for the Australian industry from the Commonwealth Government.

(2) In determining, for the purposes of section 269TH or 269TK, whether material injury to a producer or manufacturer in a third country has been or is being caused or is threatened or would or might have been caused by reason of any circumstances in relation to the exportation of goods to Australia from another country (in this subsection called the “country of export”), the Minister may, without limiting the generality of that section, have regard to:

Amount of subsidy may be determined by Minister for purposes of section 269TJ or 269TK

269TAF. Where the Minister is satisfied that it is inappropriate to ascertain the amount of a subsidy, bounty, reduction or remission of freight or other financial assistance referred to in subsection 269TJ (1) or (2) or 269TK (1) or (2) except in accordance with this section by reason that the Government of the country of export:

- (a) has a monopoly, or substantial monopoly, of the trade of the country; or
- (b) determines or substantially influences the domestic price of goods in that country;

the Minister may, for the purposes of section 269TJ or 269TK, as the case may be, determine the amount of that subsidy, bounty, reduction or remission of freight or other financial assistance, as the case may be, on the basis that the normal value of the goods is such value as is ascertained in accordance with subsection 269TAC (4).

Freight less than normal freight

269TAG. (1) Where the Minister is satisfied that, by reason of any circumstances, including the granting of rebates, refunds or other allowances, goods exported to Australia have been carried, whether within the country of export for the purpose of exporting the goods to Australia or from the country of export to Australia or both, freight free, or the amount of freight paid or payable in respect of the carriage of the goods is less than the normal freight in relation to the goods:

- (a) the Minister is to be taken, for the purposes of section 269TJ or 269TK, to be satisfied that a reduction of freight has been granted upon the carriage of the goods; and
- (b) where a special duty of Customs imposed by section 10 or 11 of the Anti-Dumping Act is chargeable on goods as to which the Minister is so satisfied, the Minister is to be taken, for the purposes of subsection 269TJ (8) or 269TK (3), to be satisfied that the amount of the reduction of freight that has been granted upon the carriage of the goods is an amount equal to:
 - (i) in the case of goods carried freight free—the amount of the normal freight in relation to the goods; and
 - (ii) in the case of other goods—the amount by which the normal freight in relation to the goods exceeds the amount or the net amount of the freight paid or payable in respect of the carriage of the goods.

(2) In this section:

“normal freight”, in relation to goods exported to Australia, means:

- (a) the amount of freight that would have been payable in respect of the carriage of the goods within the country of export for the purpose of exporting the goods from that country to Australia if the rate of freight applicable to that carriage were a rate determined by the Minister to be the appropriate rate in respect of that carriage having regard to the ruling rates of freight (if any), at the time of that carriage, in respect of the carriage of like goods, and to any other matter that the Minister considers relevant; or

s. 269TAH

- (b) the amount of freight that would have been payable in respect of the carriage of the goods from the country of export to Australia if the rate of freight applicable to that carriage were a rate determined by the Minister to be the appropriate rate in respect of that carriage having regard to the ruling rates of freight (if any), at the date of exportation of the goods, in respect of the carriage of like goods by sea or, if like goods are regularly carried by aircraft, by aircraft, and to any other matter that the Minister considers relevant; or
- (c) the sum of the amount of freight referred to in paragraph (a) and the amount of freight referred to in paragraph (b);

as the case may be.

Ascertainment of equivalent amount in Australian currency

269TAH. (1) For the purposes of this Part, the equivalent amount in Australian currency of an amount in a currency other than Australian currency is to be ascertained in accordance with a fair rate of exchange at the appropriate date.

(2) For the purpose of this section, the Comptroller may, where he or she considers it desirable so to do for the avoidance of doubt, specify, by notice published in the *Gazette*, a means of ascertaining a rate that is to be deemed to be, or to have been, a fair rate of exchange in relation to a currency:

- (a) on a date, or during a period, preceding the date of publication of the notice; or
- (b) from and including the date of publication of the notice, or an earlier date specified in the notice, until the revocation of the notice.

(3) The rate of exchange ascertained in relation to a currency under subsection (2) is, for the purpose of calculating the amount of duty or interim duty payable on any goods exported on the date or during the period to which the rate so specified applies, the rate of exchange that applies for the purpose of subsection (1) in respect of the currency specified in the notice.

Revocation of notices

269TAJ. (1) The Minister may, by notice published in the *Gazette*, revoke a notice published by the Minister under this Part and must do so if satisfied that, were the notice not in force, the Minister would not be authorised by this Part to cause the notice to be published.

(2) The Minister may, by notice published in the *Gazette*, partly revoke a notice published by the Minister under this Part and must do so if satisfied that, if the notice had not applied to such goods, the Minister would not be authorised to cause a notice applying to such goods to be published.

(3) The Minister may, by notice in writing, release or partly release a person from an undertaking entered into under this Part.

(4) A notice of revocation under subsection (1) or of partial revocation under subsection (2) has effect from a date specified in the notice, which may be a date earlier than the date of publication of the notice of revocation or partial revocation in the *Gazette*.

(5) A notice releasing or partly releasing a person from an undertaking under subsection (3) has effect from a date specified in the notice, which may be a date earlier than the date on which the notice was signed by the Minister.

(6) Upon the revocation of a notice that declared that a section of the Anti-Dumping Act applies to goods, the special duty on the goods ceases to be payable, and shall not be charged or collected on goods entered for home consumption on or after the date of effect of the notice of revocation.

(7) Upon the partial revocation of a notice that declared that a section of the Anti-Dumping Act applies to goods, the special duty on the goods to which the notice no longer applies ceases to be payable, and shall not be charged or collected on such goods entered for home consumption on or after the date of effect of the partial revocation.

Minister may give directions to Comptroller in relation to powers and duties under this Part

269TA. (1) The Minister may give to the Comptroller such written directions in connection with carrying out or giving effect to the Comptroller's powers and duties under this Part as the Minister thinks fit, and the Comptroller shall comply with any directions so given.

(2) A direction under subsection (1) shall not deal with carrying out or giving effect to the powers or duties of the Comptroller in relation to a particular consignment of goods or to like goods to goods in a particular consignment but shall deal instead with the general principles for carrying out or giving effect to the Comptroller's powers.

(3) Where the Minister gives a direction to the Comptroller, the Minister shall:

- (a) cause a written notice setting out particulars of the direction to be published in the *Gazette* as soon as practicable after giving the direction; and

s. 269TB

- (b) cause a copy of that notice to be laid before each House of the Parliament within 15 sitting days of that House after the publication of the notice in the *Gazette*.

(4) A notice setting out particulars of a direction is a disallowable instrument for the purposes of section 46A of the *Acts Interpretation Act 1901*.

Consideration of application

269TC. (1) The Comptroller shall, within 25 days, or, if another period is prescribed, within that other period, after Customs receives an application under subsection 269TB (1) in respect of goods, examine the application and, if the Comptroller is not satisfied, having regard to the matters contained in the application and to any other information that the Comptroller considers relevant:

- (a) that the application complies with subsection 269TB (4); or
- (b) that there is, or is likely to be established, an Australian industry in respect of like goods; or
- (c) that there appear to be reasonable grounds:
 - (i) for the publication of a dumping duty notice or a countervailing duty notice, as the case requires, in respect of the goods the subject of the application; or
 - (ii) for the publication of such a notice upon the importation into Australia of such goods;

he or she shall reject the application and inform the applicant, by notice in writing, accordingly.

s. 269TC

(2) The Comptroller shall, within 25 days, or, if another period is prescribed, within that other period, after Customs receives an application by the Government of a country under subsection 269TB (2) in respect of goods, examine the application and, if the Comptroller is not satisfied, having regard to the matters contained in the application and to any other information that the Comptroller considers relevant:

- (a) that the application complies with subsection 269TB (4); or
- (b) that there is a producer or manufacturer of like goods in that country who exports such goods to Australia; or
- (c) that there appear to be reasonable grounds:
 - (i) for the publication of a dumping duty notice or a countervailing duty notice, as the case requires, in respect of the goods the subject of the application; or
 - (ii) for the publication of such a notice upon the importation into Australia of such goods;

he or she shall reject the application and inform the applicant, by notice in writing, accordingly.

(2A) If an applicant, after lodging an application under section 269TB, decides to give Customs further information in support of that application without having been requested to do so:

- (a) the information may be lodged with Customs, in writing, in accordance with section 269TB; and
- (b) the information is taken to have been received by Customs in accordance with subsection 269TB (5); and
- (c) this Part has effect as if:
 - (i) the application had included that further information; and
 - (ii) the application had only been lodged when that further information was lodged; and
 - (iii) the application had only been received when that further information was received.

(3) Where, in accordance with subsection (1) or (2), the Comptroller rejects an application, the notice informing the applicant of that rejection:

- (a) shall state the reasons why the Comptroller was not satisfied of one or more of the matters set out in that subsection; and
- (b) shall inform the applicant of the applicant's right to refer the decision of the Comptroller in respect of the matters in respect of which the Comptroller was not so satisfied to the Authority for review.

(4) Where the Comptroller does not reject an application in respect of the goods the subject of the application made under subsection 269TB (1) or (2), the Comptroller shall publish a notice in the *Gazette* and in a newspaper circulating in each State and in the internal Territories:

- (a) setting out particulars of those goods;
- (b) setting out the identity of the applicant and:
 - (i) in the case of an application under subsection 269TB (1), the identity of the producer or producers; and
 - (ii) in the case of an application under subsection 269TB (2), the identity of the producer or manufacturer who exports like goods to Australia;
- (c) stating that, within a specified period after the publication of the notice, being the period of 120 days or, if another period is prescribed by regulations for the purposes of this paragraph, that other period, the Comptroller will make a preliminary finding as to whether there are sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or there will be sufficient grounds for such publication subsequent to the importation into Australia of such goods;
- (d) stating that a preliminary finding that there are or will be such grounds may result in the imposition of provisional measures including the taking of securities under section 42 of this Act for the period specified in subsection 45 (2) of this Act in respect of interim duty that may become payable on the importation of the goods the subject of the application; and
- (e) inviting interested parties to lodge, within a specified period after publication of the notice, being a period of 40 days or, if a lesser period is indicated in the notice, that lesser period, submissions with the Comptroller, concerning the publication of the notices sought by the application;

and shall give a copy of that notice to the applicant.

Preliminary findings

269TD. (1) After the end of the period for lodging submissions in respect of an application for the imposition of dumping duty or countervailing duty but before the end of the period referred to in paragraph 269TC (4) (c), the Comptroller shall consider the application, taking into account any submissions received and any other matters that the Comptroller considers relevant.

s. 269TD

(2) If, as a result of that consideration of the application, the Comptroller makes a preliminary finding that there are sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or that there will be sufficient grounds for such publication subsequent to the importation into Australia of such goods:

- (a) the Comptroller shall, by notice in writing published in the *Gazette* and in a newspaper circulating in each State and in the internal Territories, declare that he or she has made such a preliminary finding and give a copy of that notice to the applicant;
- (b) the Comptroller shall, within 7 days of publication of that notice in the *Gazette*, refer the question whether the publication of the notice sought in the application is so justified to the Authority; and
- (c) the Comptroller may, if he or she thinks it appropriate to do so, upon the importation of goods to which the application relates, require and take securities under section 42 of this Act in respect of interim duty that may become payable.

(3) If, as a result of that consideration of the application, the Comptroller makes a preliminary finding that there are not sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or that there will not be sufficient grounds for such publication subsequent to the importation into Australia of such goods, the Comptroller shall, by notice in writing published in the *Gazette* and in a newspaper circulating in each State and in the internal Territories, declare that he or she has made such a preliminary finding and give a copy of that notice to the applicant.

(4) A notice informing an applicant that the Comptroller has made a preliminary finding that there are not sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or that there will not be sufficient grounds for such publication subsequent to the importation into Australia of such goods:

- (a) shall state the reasons why the Comptroller has made such a preliminary finding; and
- (b) shall inform the applicant of his or her right to refer the finding to the Authority for review of that finding.

Comptroller to have regard to same considerations as Minister in certain circumstances

269TE. (1) Where the Comptroller:

- (a) in making a decision under section 269TC to accept or reject an application in relation to the goods the subject of the application; or
- (b) in making a preliminary finding under section 269TD in relation to those goods;

is required to determine any matter ordinarily required to be determined by the Minister under the Anti-Dumping Act in respect of those goods, the Comptroller:

- (c) must determine the matter in like manner as if he or she was the Minister; and
- (d) must have regard to the same considerations (other than the considerations referred to in subsection 8 (5A), 8 (5B), 9 (5A), 10 (3C), 10 (3D) or 11 (5) of that Act, whichever is appropriate) to which the Minister would be required to have regard under that Act if the Minister were determining the matter.

(2) Subsection (1) applies in respect of goods that have not, at the time of the Comptroller's determination of a matter in respect of those goods, been imported into Australia, as if the Comptroller's determination of the matter were being made after an importation of those goods into Australia, being an importation occurring at the time of the anticipated importation of those goods into Australia.

(3) Nothing in subsection (1) shall be taken to imply that the determination of a matter by the Comptroller affects the power of the Minister to make a final determination in respect of that matter for the purposes of the Anti-Dumping Act.

Reviews by Authority

269TF. (1) Application may be made to the Authority by a person who has lodged an application under section 269TB in a manner and form approved by the Authority for the purposes of this subsection, and within a period prescribed for the purposes of this subsection, for the review by the Authority of:

- (a) a decision by the Comptroller under subsection 269TC (1) or (2) to reject the application so lodged; or
- (b) a decision by the Comptroller under subsection 269TD (3) to the effect that there are not sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or that there will not be sufficient grounds for such publication subsequent to the importation into Australia of such goods.

s. 269TG

(2) Where the Authority decides to revoke the decision of the Comptroller under subsection 269TC (1) or (2) to reject an application and to substitute a decision accepting that application then, with effect from the day that the Authority so decides, this Act shall have effect as if the substituted decision were a decision of the Comptroller and, accordingly, the Comptroller shall publish a notice in the *Gazette* and in a newspaper as required under subsection 269TC (4).

(3) Where the Authority decides to revoke a preliminary finding of the Comptroller that under subsection 269TD (3) there are not sufficient grounds for the publication of a dumping duty notice or a countervailing duty notice in respect of the goods the subject of the application or that there will not be sufficient grounds for such publication subsequent to the importation into Australia of such goods and to substitute a preliminary finding that there are or will be such grounds then, with effect from the day the Authority so decides, this Act shall have effect as if the substituted finding were a preliminary finding of the Comptroller the making of which had been duly published in accordance with paragraph 269TD (2) (a), which had been duly referred to the Authority under paragraph 269TD (2) (b) and in respect of which the Comptroller may exercise the powers specified in paragraph 269TD (2) (c).

Division 3—Consideration of anti-dumping matters by the Minister

Dumping duties

269TG. (1) Subject to section 269TN, where the Minister is satisfied, as to any goods that have been exported to Australia, that:

(a) the amount of the export price of the goods is less than the amount of the normal value of those goods; and

(b) because of that:

(i) material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered; or

(ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 8 of the Anti-Dumping Act—material injury to an Australian industry producing like goods would or might have been caused if the security had not been taken;

the Minister may, by notice published in the *Gazette*, declare that section 8 of that Act applies to those goods.

- (2) Where the Minister is satisfied, as to goods of any kind, that:
 - (a) the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and
 - (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by notice published in the *Gazette* (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 8 of the Anti-Dumping Act applies to like goods:

- (c) that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice; and
- (d) the amount of the export price of which is less than the amount of their normal value.

(3) Where:

- (a) a notice under subsection (1) declares particular goods to be goods to which section 8 of the Anti-Dumping Act applies; or
- (b) a notice under subsection (2) declares like goods in relation to goods of a particular kind to be goods to which that section applies;

the notice must, subject to subsection (3A), include a statement of the respective amounts that the Minister ascertained, at the time of publication of the notice:

- (c) was or would be the normal value of the goods to which the declaration relates; and
- (d) was or would be the export price of those goods; and
- (e) was or would be the non-injurious price of those goods.

(3A) If any person who has provided information to assist the Minister to ascertain the normal value, export price or non-injurious price of goods to which a declaration under subsection (1) or (2) relates claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of that value or price would adversely affect the person's business or commercial interests:

- (a) the Minister is not required to include in the notice a statement of that value or price; but

- (b) upon request the Comptroller may notify that value or price to persons who, in the Comptroller's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

(4) Where the export of a consignment of goods to Australia by an exporter has been under consideration by the Minister with a view to determining whether or not a declaration should be made under this section in relation to the goods in the consignment or to like goods, the Minister may:

- (a) give notice in writing to the exporter stating that:
 - (i) the Minister is of the opinion that it would be appropriate for the exporter to give an undertaking in accordance with paragraph (b); and
 - (ii) an undertaking in the terms set out in the notice may be satisfactory to the Minister; and
- (b) whether or not a notice has been given to the exporter in accordance with paragraph (a), suspend his or her consideration of the export of that consignment if he or she is given and accepts an undertaking by the exporter, in terms that are satisfactory to the Minister, that the exporter will so conduct future export trade to Australia in like goods as to avoid causing or threatening material injury to an Australian industry producing like goods or hindering the establishment of such an Australian industry.

(4A) The suspending by the Minister of his or her consideration of the export of a consignment of goods to Australia on the acceptance of an undertaking continues only until such time as the Minister considers that such consideration should be resumed.

(5) Where the export of a consignment of goods to Australia has been under consideration by the Minister as referred to in subsection (4) and the Minister accepts an undertaking under that subsection in respect of like goods, the Minister must, as soon as practicable after accepting that undertaking, publish in the *Gazette* particulars of:

- (a) the goods in respect of which the undertaking was accepted; and
- (b) the price below which, in accordance with the terms of the undertaking, the goods will not be sold in Australia;

unless, in the opinion of the Minister, the publication of those particulars would adversely affect the business or commercial interests of any person.

Third country dumping duties

269TH. (1) Subject to section 269TN, where the Minister is satisfied, as to any goods produced or manufactured in a particular country that have been exported to Australia, that:

- (a) the amount of the export price of the goods is less than the amount of the normal value of the goods; and
- (b) because of that:
 - (i) material injury to a producer or manufacturer in a third country of like goods has been or is being caused or is threatened; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 9 of the Anti-Dumping Act—material injury to a producer or manufacturer in a third country of like goods would or might have been caused if the security had not been taken;

the Minister, if requested by the Government of the third country so to do, may, by notice published in the *Gazette*, declare that section 9 of that Act applies to those goods.

(2) Where the Minister is satisfied, as to goods of any kind produced or manufactured in a particular country that:

- (a) the amount of the export price of like goods so produced or manufactured that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods so produced or manufactured that may be exported to Australia in the future may be less than the normal value of the goods; and
- (b) because of that, material injury to a producer or manufacturer in a third country of like goods has been or is being caused or is threatened;

the Minister, if requested by the Government of the third country so to do, may, by notice published in the *Gazette* (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods so manufactured or produced that have been exported to Australia), declare that section 9 of the Anti-Dumping Act applies to like goods so produced or manufactured:

- (c) that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice; and
- (d) the amount of the export price of which is less than the amount of their normal value.

s. 269TJ

(3) Where:

- (a) a notice under subsection (1) declares particular goods to be goods to which section 9 of the Anti-Dumping Act applies; or
- (b) a notice under subsection (2) declares like goods in relation to goods of a particular kind to be goods to which that section applies;

the notice must, subject to subsection (4), include a statement of the respective amounts that the Minister ascertained at the time of publication of the notice:

- (c) was or would be the normal value of the goods to which the declaration relates; and
- (d) was or would be the export price of those goods; and
- (e) was or would be the non-injurious price of those goods.

(4) If any person who has provided information to assist the Minister to ascertain the normal value, export price or non-injurious price of goods to which a declaration under subsection (1) or (2) relates claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of that value or price would adversely affect the person's business or commercial interests:

- (a) the Minister is not required to include in the notice a statement of that value or price; but
- (b) upon request the Comptroller may notify that value or price to persons who, in the Comptroller's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

Countervailing duties

269TJ. (1) Subject to section 269TN, where the Minister is satisfied, as to any goods that have been exported to Australia, that:

- (a) in the country of origin or the country of export of the goods, there has been paid or granted, directly or indirectly, upon the production; manufacture, carriage or export of those goods a subsidy, bounty, reduction or remission of freight or other financial assistance; and
- (b) because of that:
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is threatened or the establishment of an Australian industry producing like goods has been or may be materially hindered; or
 - (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under section 10 of the Anti-

Dumping Act—material injury to an Australian industry producing like goods would or might have been caused if the security had not been taken;

the Minister may, by notice published in the *Gazette*, declare that section 10 of that Act applies to those goods.

- (2) Where the Minister is satisfied, as to goods of any kind that:
 - (a) there has been paid or granted, directly or indirectly upon the production, manufacture, carriage or export of like goods that have already been exported to Australia, and there may be paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of like goods that may be exported to Australia in the future, a subsidy, bounty, reduction or remission of freight or other financial assistance; and
 - (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is being threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by notice published in the *Gazette* (whether or not he or she has made, or proposes to make, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 10 of the Anti-Dumping Act applies to like goods:

- (c) that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice; and
- (d) on the production, manufacture, carriage or export of which a subsidy, bounty, reduction or remission of freight or other financial assistance is paid or granted.

(3) Where the export of a consignment of goods to Australia has been under consideration by the Minister with a view to determining whether or not a declaration should be made under this section in relation to the goods in the consignment or to like goods, the Minister may:

- (a) give notice in writing to the Government of the country of origin, or of the country of export, of the goods in the consignment or to the exporter of the goods in the consignment stating that:
 - (i) the Minister is of the opinion that it would be appropriate for the Government or exporter to whom the notice is given to give an undertaking in accordance with paragraph (b); and
 - (ii) an undertaking in the terms set out in the notice may be satisfactory to the Minister; and

s. 269TJ

- (b) whether or not a notice has been given to the Government of the country of origin, or of the country of export, or to the exporter in accordance with paragraph (a), suspend his or her consideration of the export of that consignment if he or she is given and accepts:
 - (i) an undertaking by the Government of the country of origin, or of the country of export, of the goods in the consignment, in terms that are satisfactory to the Minister, that that Government will, in relation to any future export trade to Australia in like goods, review any financial assistance by that Government and make any changes that may be found to be necessary to avoid causing or threatening material injury to an Australian industry producing like goods or hindering the establishment of such an Australian industry; or
 - (ii) an undertaking by the exporter of the goods in the consignment, in terms that are satisfactory to the Minister, that the exporter will so conduct his or her future export trade to Australia in like goods as to avoid causing or threatening material injury to an Australian industry producing like goods or hindering the establishment of such an Australian industry.

(3A) The suspending by the Minister of his or her consideration of the export of a consignment of goods to Australia on the acceptance of an undertaking continues only until such time as the Minister considers that such consideration should be resumed.

- (4) Where the Minister is satisfied that:
 - (a) under the law of a country other than Australia there are imposed on goods of a particular kind that are exported from Australia to that country special duties of customs in the nature of countervailing duties; and
 - (b) those duties are imposed because it is alleged that there is paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of goods of that kind a subsidy, bounty, reduction or remission of freight or other financial assistance; and
 - (c) those duties are imposed without regard to, or without proper regard to, whether or not material injury to an industry in that country producing like goods has been or is being caused or is threatened, or the establishment of such an industry in that country has been or may be materially hindered, by reason of the payment or grant of that subsidy, bounty, reduction or remission of freight or other financial assistance;

the Minister may, by notice published in the *Gazette*, declare that section 10 of the Anti-Dumping Act applies to goods specified in the notice:

- (d) that are exported from that country to Australia after the date of publication of the notice or, if a later date is specified in the notice, that later date; and
 - (e) upon the production, manufacture, carriage or export of which there is paid or granted, directly or indirectly, a subsidy, bounty, reduction or remission of freight or other financial assistance.
- (5) Where the Minister is satisfied that:
- (a) under the law of a country other than Australia there are imposed on goods of a particular kind that are exported from Australia to that country special duties of customs in the nature of countervailing duties; and
 - (b) those duties are imposed because it is alleged that:
 - (i) prescribed assistance is paid or granted, directly or indirectly, in relation to goods of that kind that are exported from Australia to that country; and
 - (ii) material injury to an industry in that country producing like goods has been or is being caused or is threatened, or the establishment of such an industry in that country has been or may be materially hindered, by reason of the payment or grant of that prescribed assistance; and
 - (c) prescribed assistance of the same kind as, or a substantially similar kind to, the prescribed assistance by reason of which the duties referred to in paragraph (a) were imposed has been paid or granted in relation to goods exported from that country to Australia and material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of such an Australian industry has been or may be materially hindered, by reason of the payment or grant of that prescribed assistance;

the Minister may, by notice published in the *Gazette*, declare that section 10 of the Anti-Dumping Act applies to goods specified in the notice, being goods of a kind mentioned in paragraph (c):

- (d) that are exported from that country to Australia after the date of publication of the notice or, if a later date is specified in the notice, that later date; and

s. 269TJ

- (e) in relation to which there is paid or granted prescribed assistance of a kind specified in the notice, being prescribed assistance of the same kind as, or a substantially similar kind to, the prescribed assistance by reason of which the duties referred to in paragraph (a) were imposed.
- (6) Where the Minister is satisfied that:
 - (a) under the law of a country other than Australia there are imposed on goods of a particular kind that are exported from Australia to that country special duties of customs in the nature of countervailing duties; and
 - (b) those duties are imposed because it is alleged that prescribed assistance is paid or granted, directly or indirectly, in relation to goods of that kind that are exported from Australia to that country; and
 - (c) those duties are imposed without regard to, or without proper regard to, whether or not material injury to an industry in that country producing like goods has been or is being caused or is threatened, or the establishment of such an industry in that country has been or may be materially hindered, by reason of the payment or grant of that prescribed assistance;

the Minister may, by notice published in the *Gazette*, declare that section 10 of the Anti-Dumping Act applies to goods specified in the notice:

- (d) that are exported from that country to Australia after the date of publication of the notice or, if a later date is specified in the notice, that later date; and
- (e) in relation to which there is paid or granted prescribed assistance of a kind specified in the notice, being prescribed assistance of the same kind as, or a substantially similar kind to, the prescribed assistance by reason of which the duties referred to in paragraph (a) were imposed.

(7) A reference in this section to prescribed assistance in relation to goods is a reference to any assistance, incentive, exemption, privilege or benefit (whether financial or otherwise) in relation to goods other than the payment or grant of a subsidy, bounty, reduction or remission of freight or other financial assistance on the production, manufacture, carriage or export of the goods.

(8) Where the Minister is satisfied that sufficient information has not been furnished or is not available to enable the amount of any subsidy, bounty, reduction or remission of freight or other financial assistance in relation to goods to be ascertained for the purpose of this section, that amount is to be taken to be such amount as is determined by the Minister having regard to all relevant information.

(9) If the Minister is satisfied that adequate information as to the amount, cost or value of the prescribed assistance in relation to goods cannot be obtained for the purposes of this section, the amount, cost or value of that prescribed assistance is to be taken to be such amount, cost or value as is determined, in writing, by the Minister.

(10) For the purposes of this section, the benefit accruing to an exporter from the use of dual or multiple rates of exchange in relation to the proceeds of export sales is to be taken to be financial assistance paid to that exporter.

(11) If a notice under subsection (1) or (2) declares particular goods to be goods to which section 10 of the Anti-Dumping Act applies, the notice must, subject to subsection (12), include a statement setting out:

- (a) the amount of subsidy, bounty, reduction or remission of freight or other financial assistance that the Minister ascertained, at the time of publication of the notice, had been or would be paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of the goods to which the notice relates; and
- (b) the amount that the Minister has ascertained, at that time, was or would be the non-injurious price of the goods.

(12) If any person who has provided information to assist the Minister to ascertain:

- (a) the amount of any subsidy, bounty, reduction or remission of freight or other financial assistance referred to in paragraph (11) (a) that is paid or granted in relation to goods to which a declaration under subsection (1) or (2) relates; or
- (b) the non-injurious price of any goods to which a declaration under subsection (1) or (2) relates;

claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of the amount of that subsidy, bounty, reduction or remission of freight or other financial assistance or of the amount of that non-injurious price would adversely affect the person's business or commercial interests:

- (c) the Minister is not required to include a statement of that amount or that price in the notice; but
- (d) upon request the Comptroller may provide a statement of that amount or that price to persons who, in the Comptroller's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

s. 269TJA

Concurrent dumping and subsidy

269TJA. (1) Where the Minister is satisfied, as to any goods that have been exported to Australia:

- (a) that the amount of the export price of those goods is less than the amount of the normal value of those goods; and
- (b) that a subsidy has been paid in relation to those goods in the country of origin or the country of export of those goods; and
- (c) that, because of the combined effect of the difference between the 2 amounts referred to in paragraph (a) and of the subsidy referred to in paragraph (b):
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is threatened; or
 - (ii) the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may publish a notice under subsection 269TG (1), a notice under subsection 269TJ (1) or notices under both subsections 269TG (1) and 269TJ (1) at the same time in respect of the same goods.

- (2) Where the Minister is satisfied, as to goods of any kind:
 - (a) that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and
 - (b) that a subsidy has been paid in respect of like goods that have already been exported to Australia and that a subsidy may be paid in respect of like goods that may be exported to Australia in the future; and
 - (c) that, because of the combined effect of the difference referred to in paragraph (a) and of the subsidy referred to in paragraph (b):
 - (i) material injury to an Australian industry producing like goods has been or is being caused or is being threatened; or
 - (ii) the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may publish a notice under subsection 269TG (2), a notice under subsection 269TJ (2) or notices under both subsections 269TG (2) and 269TJ (2) at the same time in respect of the same goods.

(3) If the Minister has had under consideration the export of a consignment of goods to Australia with a view to determining whether or not notices should be published in accordance with subsection (1) or (2), under both section 269TG and 269TJ in respect of the same goods, the Minister may suspend consideration of the consignment under both of those sections if he or she is given and accepts:

- (a) an undertaking by the exporter under section 269TG, and an undertaking by the exporter under section 269TJ, in respect of the same goods; or
- (b) an undertaking by the exporter under section 269TG and an undertaking by the government of the country of origin, or of the country of export, of the goods in the consignment under section 269TJ.

(4) If, in respect of the same consignment of goods, the Minister accepts 2 undertakings from the exporter of the goods or an undertaking from the exporter of the goods and an undertaking from the government of the country of origin or country of export of the goods, the Minister must be satisfied that the combined effect of the undertakings is not greater than is necessary to prevent material injury or the recurrence of material injury to an Australian industry producing like goods or to remove the actual or possible hindrance to the establishment of such an Australian industry.

(5) In this section:

“subsidy”, in relation to goods, means an amount per unit of the goods that has been paid or granted, directly or indirectly, in the country of origin or the country of export of those goods, on the production, manufacture, carriage or export of the goods by way of subsidy, bounty, reduction or remission of freight or other financial assistance.

Third country countervailing duties

269TK. (1) Subject to section 269TN, where the Minister is satisfied, as to any goods produced or manufactured in a particular country that have been exported to Australia, that:

- (a) in the country of origin or the country of export of the goods, there has been paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of those goods a subsidy, bounty, reduction or remission of freight or other financial assistance; and
- (b) because of that:
 - (i) material injury to a producer or manufacturer in a third country of like goods has been or is being caused or is being threatened; or

s. 269TK

- (ii) in a case where security has been taken under section 42 in respect of any interim duty that may become payable on the goods under this section—material injury to a producer or manufacturer in a third country of like goods would or might have been caused if the security had not been taken;

the Minister, if requested by the Government of the third country so to do, may, by notice published in the *Gazette*, declare that section 11 of the Anti-Dumping Act applies to those goods.

(2) Where the Minister is satisfied, as to goods of any kind produced or manufactured in a particular country that:

- (a) there has been paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of like goods that have already been exported to Australia, and there may be paid or granted directly or indirectly, upon the production, manufacture, carriage or export of like goods that may be exported to Australia in the future, a subsidy, bounty, reduction or remission of freight or other financial assistance; and
- (b) by reason thereof material injury to a producer or manufacturer in a third country of like goods has been or is being caused or is being threatened;

the Minister, if requested by the Government of the third country so to do, may, by notice published in the *Gazette* (whether or not he or she has made, or makes, a declaration under subsection (1) in respect of like goods that have been exported to Australia), declare that section 11 of the Anti-Dumping Act applies to like goods:

- (c) that are exported to Australia after the date of publication of the notice or such later date as is specified in the notice; and
- (d) on the production, manufacture, carriage or export of which a subsidy, bounty, reduction or remission of freight or other financial assistance is paid or granted.

(3) If the Minister is satisfied that adequate information as to the amount of subsidy, bounty, reduction or remission of freight or other financial assistance in relation to goods cannot be obtained for the purposes of this section, the amount of subsidy, bounty, reduction or remission of freight or other financial assistance is to be taken to be such amount as is determined, in writing, by the Minister.

(4) For the purposes of this section, the benefit accruing to an exporter from the use of dual or multiple rates of exchange in relation to the proceeds of export sales is to be taken to be financial assistance paid to the exporter.

(5) Where a notice under subsection (1) or (2) declares particular goods to be goods to which section 11 of the Anti-Dumping Act applies, the notice must, subject to subsection (6), include a statement setting out:

- (a) the amount of subsidy, bounty, reduction or remission of freight or other financial assistance that the Minister ascertained, at the time of publication of the notice, had been or would be paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of the goods to which the notice relates; and
- (b) the amount that the Minister ascertained, at that time, was or would be the non-injurious price of the goods.

(6) If any person who has provided information to assist the Minister to ascertain:

- (a) the amount of any subsidy, bounty, reduction or remission of freight or other financial assistance paid or granted upon the production, manufacture, carriage or export of goods to which a declaration under subsection (1) or (2) relates; or
- (b) the non-injurious price of such goods;

claims, in writing, that the information is confidential or that the inclusion in a notice under that subsection of the amount of that subsidy, bounty, reduction or remission of freight or other financial assistance or of the amount of that non-injurious price would adversely affect the person's business or commercial interests:

- (c) the Minister is not required to include a statement of that amount or that price in the notice; but
- (d) upon request the Comptroller may provide a statement of that amount or that price to persons who, in the Comptroller's opinion, would be affected parties in any review of the rate of interim duty imposed on like goods to the goods to which the declaration relates.

Minister to give notice of decision not to impose duty

269TL. Where the Minister receives a recommendation from the Anti-Dumping Authority concerning the imposition of dumping duty, third country dumping duty, countervailing duty or third country countervailing duty on particular goods or on goods of a like kind to particular goods and the Minister decides, after having regard to that recommendation, not to declare those goods to be goods to which section 8, 9, 10 or 11, as the case requires, of the Anti-Dumping Act applies, the Minister shall, by notice published in the *Gazette*, state that he or she has so decided.

s. 269TM

(2) Where an undertaking is entered into after section 17 of the *Customs Legislation (Tariff Concessions and Anti-Dumping) Amendment Act 1992* commences under a relevant undertaking provision in respect of goods of a particular kind, that undertaking expires 5 years after the day on which it was entered into unless provision is made for its earlier expiration.

- (b) the undertaking is in force immediately before that section commences;

the Minister must, by notice in writing, give the person who gave the undertaking the opportunity, before the undertaking expires, to extend the undertaking so that it expires 5 years after the day on which it was entered into unless provision is made for its earlier expiration.

(3B) If a person who gave an undertaking of the kind referred to in subsection (3A) refuses or fails to extend its operation in the manner referred to in subsection (3A) before the undertaking expires, the Minister may, in substitution for the extension of the undertaking, publish a dumping duty notice or a countervailing duty notice that commences on the day after the undertaking expired and ends 2 years after that day unless it is sooner revoked.

(7) In this section:

"relevant notification provision" means subsection 269TG (2), 269TH (2), 269TJ (2), (4), (5) or (6) or 269TK (2);

Retrospective notices

269TN. (1) Subject to this section, the Minister must not cause a notice to be published under subsection 269TG (1), 269TH (1), 269TJ (1) or 269TK (1) in respect of goods that have been entered for home consumption.

(2) Subsection (1) does not prevent the publication of a notice under subsection 269TG (1), 269TH (1), 269TJ (1) or 269TK (1) in respect of goods that have been entered for home consumption in relation to which security has been taken under section 42 in respect of any interim duty that might become payable under section 8, 9, 10 or 11 of the Anti-Dumping Act, as the case may be (not being security that has been cancelled), by reason of the publication of such a notice or in relation to which the Customs had the right to require and take such security (not being security that would have been cancelled under this Act if it had been taken).

(3) Subsection (1) does not prevent the publication of a notice under subsection 269TG (1) in respect of goods that have been entered for home consumption to which, by virtue of subsection (4) of this section, this subsection applies, if:

- (a) within 90 days after the entry of the goods for home consumption, security has been taken under section 42 in respect of any interim duty that might be payable on goods of the same kind under section 8 of the Anti-Dumping Act or, within that period, the Customs had the right to require and take such security; and
- (b) material injury has been caused to an Australian industry by the export to Australia during a short period of large quantities of goods of the same kind, being injury arising by reason of the amount of the export price of the goods exported being less than the amount of the normal value of the goods exported, and the Minister considers that the publication of the notice is necessary to prevent the recurrence of the injury.

s. 269TN

(4) Subsection (3) applies to goods:

- (a) that have been imported into Australia by an importer who knew, or ought to have known, that the amount of the export price of the goods was less than the normal value of the goods and that by reason thereof material injury would be caused to an Australian industry; or
- (b) that are goods of a kind the exportation of which to Australia on a number of occasions has caused, or, but for the publication of a notice under section 269TG in respect of goods of that kind, would have caused, material injury to an Australian industry by reason of the amount of the export price of the goods exported being less than the normal value of the goods exported.

(5) Subsection (1) does not prevent the publication of a notice under subsection 269TJ (1) in respect of goods that have been entered for home consumption if:

- (a) within 90 days after the entry of the goods for home consumption, security has been taken under section 42 in respect of any interim duty that might be payable on goods of the same kind under section 10 of the Anti-Dumping Act or, within that period, the Customs had the right to require and take such security; and
- (b) material injury has been caused to an Australian industry by the export to Australia during a short period of large quantities of goods of the same kind, being injury arising by reason that, in the country of origin or the country of export of the goods, there has been paid or granted, directly or indirectly, upon the production, manufacture, carriage or export of the goods a subsidy, bounty, reduction or remission of freight or other financial assistance (including financial assistance of the kind referred to in subsection 269TJ (10)).

(6) Where:

- (a) the Minister is satisfied that an act or omission of an exporter who has given an undertaking in accordance with subsection 269TG (4) is a violation of that undertaking; and
- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 8 of the Anti-Dumping Act on goods of the kind to which the undertaking relates or the Customs had the right to require and take such security;

subsection (1) does not prevent the publication of a notice under subsection 269TG (1) of this Act in respect of goods that:

- (c) have been exported by the exporter;

- (d) are of the kind to which the undertaking relates; and
- (e) have been entered for home consumption on a day that:
 - (i) was not earlier than the day on which that act or omission occurred; and
 - (ii) was not more than 90 days before the day on which that security was taken or there was a right to require and take such security.

(7) Where:

- (a) the Minister is satisfied that an act or omission of the Government of a country that has given an undertaking in accordance with subsection 269TJ (3) is a violation of that undertaking; and
- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 10 of the Anti-Dumping Act on goods of the kind to which the undertaking relates or the Customs had the right to require and take such security;

subsection (1) does not prevent the publication of a notice under subsection 269TJ (1) in respect of goods that:

- (c) are the produce or manufacture of that country or have been exported from that country, as the case may be; and
- (d) are of the kind to which the undertaking relates; and
- (e) have been entered for home consumption on a day that:
 - (i) was not earlier than the day on which that act or omission occurred; and
 - (ii) was not more than 90 days before the day on which that security was taken or there was a right to require and take such security.

(8) Where:

- (a) the Minister is satisfied that an act or omission of an exporter who has given an undertaking in accordance with subsection 269TJ (3) is a violation of that undertaking; and
- (b) at the time of, or at any time after, that act or omission, security has been taken under section 42 in respect of any interim duty that might be payable under section 10 of the Anti-Dumping Act on goods of the kind to which the undertaking relates or the Customs had the right to require and take such security;

subsection (1) does not prevent the publication of a notice under subsection 269TJ (1) in respect of goods that:

s. 269TP

- (a) goods of that kind exported from a particular country; or
- (b) goods of that kind exported by a particular exporter.

Inquiries in relation to undertakings

269U. (1) Where the Minister is considering, in relation to goods the subject of an application under section 269TB:

- (a) whether to give a notice, in accordance with paragraph 269TG (4) (a), to the exporter of the goods in the consignment in relation to an undertaking in relation to an Australian industry; or

the Comptroller may authorize an officer in writing to convene a meeting of representatives of the Australian industry for the purpose of obtaining information and submissions from those representatives in relation to the question what terms of undertaking should be set out in the notice, if it is to be given, as the terms that may be satisfactory to the Minister.

(2) An officer authorized under subsection (1) to convene a meeting of representatives of an Australian industry shall give notice in writing to such persons as, in his opinion, represent the Australian industry, setting out:

(5) Nothing in subsection (4) shall be taken to prevent a representative of an Australian industry who attends a meeting convened in pursuance of subsection (2) from providing information or making a submission, in relation to the question considered or to be considered at the meeting, to the officer convening the meeting otherwise than at the meeting or to the Minister.

(6) The officer convening a meeting in pursuance of subsection (2) may, subject to subsection (7), put before the meeting information in relation to the question being considered by the meeting.

*Division 4—Dumping duty or countervailing duty assessment***Importers may apply for duty assessment in certain circumstances**

269V. (1) An importer of goods on which, under the Anti-Dumping Act, an interim duty has been paid may, subject to subsection (2), by application lodged with the Comptroller, request that the Minister make an assessment of the liability of those goods to duty under that Act.

(2) An application for an assessment of duty under subsection (1) may only be made if:

- (a) the application is made not more than 6 months after the end of the particular importation period in which the goods the subject of the application were entered for home consumption; and
- (b) the importer contends that the total amount of duty payable in respect of those goods under the Anti-Dumping Act is less, by a specified amount, than the total amount of interim duty that has been paid on those goods under that Act.

Manner of making application for duty assessment

269W. (1) An application for an assessment of duty on goods of a particular kind entered for home consumption during a particular importation period must be in writing and contain:

- (a) a full description of the goods of that kind in each consignment imported during the particular importation period; and
- (b) information concerning the amount of interim duty paid on the goods of that kind in each such consignment; and
- (c) if an interim dumping duty has been imposed—a statement of the amounts that, in the opinion of the applicant, are the normal value and the export price of goods of that kind in each such consignment and information to establish those amounts; and
- (d) if an interim countervailing duty has been imposed—a statement of the amounts that, in the opinion of the applicant, are:
 - (i) the amount of the subsidy, bounty, reduction or remission of freight or other financial assistance paid or granted on the goods of that kind in each such consignment; and
 - (ii) the amount of the export price of goods of that kind in each such consignment;

- and information to establish those amounts; and
- (e) a statement of the amount by which the applicant contends that the total interim duty paid on those goods exceeds the total duty payable under the Anti-Dumping Act.
 - (2) An application must be lodged with the Comptroller:
 - (a) by leaving it at a place that has been allocated for lodgment of duty assessment applications at Customs House in Canberra; or
 - (b) by posting it by pre-paid post to a postal address notified by Customs in the *Gazette*; or
 - (c) by sending it by electronic facsimile to a facsimile number notified by Customs in the *Gazette*;

and the application is taken to have been lodged when the application, or a facsimile of the application, is first received by an officer of Customs doing duty in relation to final duty assessment applications.

(3) The day on which an application is taken to have been lodged must be recorded on the application.

Consideration of duty assessment applications

269X. (1) The Comptroller must, as soon as practicable after the lodgment of an application for assessment of duty in respect of goods that were entered for home consumption during a particular importation period but not more than 180 days after the lodgment of that application, examine the application and decide what recommendation to make to the Minister under subsection (6).

(2) If the Comptroller considers that any person (including the applicant) may be able to supply information relevant to the consideration of the application, the Comptroller may, by notice in writing, request the supply of that information, in writing:

- (a) if the information is sought from a person other than the applicant—within a period specified in the notice ending not later than 150 days after the lodgment of the application; and
- (b) if the information is sought from the applicant—within a period specified in the notice ending not later than 180 days after the lodgment of the application.

(3) Where the Comptroller proposes to take into account any relevant information that was not supplied to the Comptroller by the applicant, the Comptroller must:

s. 269X

- (a) give the applicant a copy of the information that he or she proposes to take into account unless, in the opinion of the Comptroller, the provision of that information would adversely affect the business or commercial interests of a person supplying the information; and
- (b) invite the applicant, within a specified period ending not later than 180 days after the lodgment of the application, to make any further submission the applicant considers appropriate in relation to that information.

(4) If a person refuses or fails to supply information or to make a submission within the period allowed but subsequently supplies that information or makes that submission, the Comptroller may disregard that information or submission in considering the application.

(5) On the basis of the information contained in the application, any other information provided under subsection (2) or (3) that is not disregarded under subsection (4) and any other information the Comptroller considers relevant, the Comptroller must:

- (a) provisionally ascertain, in relation to each consignment of goods to which the application relates, each variable factor relevant to the determination of duty payable on the goods under the Anti-Dumping Act; and
- (b) having regard to those variable factors as so provisionally ascertained and, where appropriate, to the non-injurious price of goods of that kind—provisionally calculate, in respect of each such consignment, the amount of duty payable under the Anti-Dumping Act.

(6) On the basis of the provisional calculation of duty referred to in paragraph (5) (b), the Comptroller must decide:

- (a) if satisfied that the total interim duty paid on the goods the subject of the application exceeds the total duty payable under the Anti-Dumping Act by at least the amount contended in the application—to recommend to the Minister:
 - (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; and
 - (ii) that the Minister order a repayment of the amount of interim duty overpaid; or
- (b) if satisfied that the total interim duty paid on the goods the subject of the application exceeds the total duty payable under the Anti-Dumping Act but not to the extent contended in the application—to recommend to the Minister:

- (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; and
 - (ii) that the Minister order a repayment of the amount of interim duty overpaid; or
- (c) if satisfied that the total amount of duty payable under the Anti-Dumping Act on the goods the subject of the application is equal to or exceeds the total of interim duty that was paid on the goods—to recommend to the Minister:
 - (i) that the Minister make an assessment of duty by ascertaining, for each consignment of those goods, the variable factors as so provisionally ascertained; but
 - (ii) that the Minister order that any duty in excess of the interim duty paid on those goods be waived.
- (7) As soon as practicable, but not later than 7 days after making a decision under subsection (6), the Comptroller must:
 - (a) notify the applicant, in writing, of the decision made; and
 - (b) if the decision is a negative preliminary decision:

Duty assessments

269Y. (1) As soon as practicable after receiving a recommendation from the Comptroller or from the Authority in relation to goods the subject of an application, the Minister must, having regard to the terms of that recommendation, by notice in writing:

s. 269Y

- (a) ascertain, for the purposes of this Act and the Anti-Dumping Act, the variable factors relevant to the determination of duty payable under the Anti-Dumping Act in respect of each consignment; and
- (b) order that the total interim duty overpaid in respect of all consignments to which the application relates be repaid or that the total unpaid duty in excess of the interim duty already paid be waived, as the case requires.

(2) As soon as practicable after issuing a notice under subsection (1) the Minister must ensure that a copy of that notice is provided to the applicant.

(3) If the Minister issues a notice under subsection (1) ordering that an amount of interim duty be repaid to an applicant the Commonwealth is liable to make a repayment to the applicant accordingly.

(4) If:

- (a) one or more consignments of goods of a particular kind that are the subject of a dumping duty notice or a countervailing duty notice are entered for home consumption during an importation period; and
- (b) interim duty is paid on those goods under the Anti-Dumping Act; and
- (c) application is not made under section 269V of this Act for an assessment of duty payable on those goods under the Anti-Dumping Act;

then:

- (d) the Minister is taken, for the purposes of this Act and the Anti-Dumping Act, to have ascertained each variable factor relevant to the determination of duty on each such consignment at the level at which that factor was ascertained or last ascertained by the Minister for the purpose of the dumping duty notice or countervailing duty notice; and
- (e) the interim duty paid on those goods is taken to be the duty payable.

*Division 5—Review of interim duty***Circumstances in which review may be sought****269Z. (1) If:**

- (a) a dumping duty notice or a countervailing duty notice has been published in respect of goods; and
- (b) an affected party considers that it is appropriate to review the rate of interim duty imposed on goods of that kind because one or more of the variable factors relevant to the determination of interim duty has changed;

the affected party may, by application lodged with the Comptroller, request a review of the rate of interim duty.

(2) If:

- (a) a dumping duty notice or a countervailing duty notice has been published in respect of goods; and
- (b) the Minister considers that it may be appropriate to vary the rate of interim duty because one or more of the variable factors relevant to the determination of interim duty may have changed;

the Minister may, at any time, by notice in writing, request the Comptroller to review the rate of interim duty.

(3) An application under subsection (1) must not be made earlier than 12 months after:

- (a) the day of publication of the dumping duty notice or countervailing duty notice to which the application relates; or
- (b) if a review has, or reviews have, already been undertaken under subsection (1) or (2)—the day on which the Minister published the result of the last such review to be undertaken.

Application for review of interim duty by affected party

269ZA. (1) An application under subsection 269Z (1) for review of interim duty must be in writing and contain:

- (a) a description of the kind of goods to which the dumping duty notice or countervailing duty notice the subject of the application relates; and
- (b) a statement of the variable factor or factors relevant to the determination of interim duty that, in the opinion of the applicant, have changed; and
- (c) a statement of the amount by which each such factor has changed and information to establish that amount.

s. 269ZB

- (2) An application may be lodged with Customs:
- (a) by leaving it at a place that has been allocated for lodgment of review applications at Customs House in Canberra; or
 - (b) by posting by pre-paid post to a postal address specified by Customs in the *Gazette*; or
 - (c) by sending it by electronic facsimile to a facsimile number specified by Customs in the *Gazette*;

and the application is taken to have been lodged when the application, or a facsimile of the application, is first received by an officer of Customs doing duty in relation to applications for review of interim duty.

(3) The day on which an application is taken to have been lodged must be recorded on the application.

Consideration of the application or request for review

269ZB. (1) As soon as practicable after:

- (a) the lodgment of an application under subsection 269Z (1); or
- (b) the receipt of a request under subsection 269Z (2);

but not later than 25 days after the lodgment of the application or receipt of the request, the Comptroller must publish a notice in the *Gazette* and in a newspaper circulating in all States and internal Territories stating that it is proposed to review the rate of interim duty attaching to the goods the subject of the application or request.

(2) The notice must invite interested parties to make submissions within a period of 40 days after the day of publication of the notice.

(3) The Comptroller may disregard any submission received after the end of that period.

(4) The Comptroller must, not later than 100 days after the day of publication of the notice, after considering the application for review any submissions made and any other material he or she considers relevant, give the Minister a report recommending:

- (a) that the rate of interim duty remain as originally calculated; or
- (b) that the rate of interim duty be altered;

and setting out the Comptroller's reasons for so recommending.

Minister to consider recommendations

269ZC. (1) After considering the recommendation of the Comptroller and the reasons for that recommendation, the Minister must, subject to subsection (2) by notice in writing published in the *Gazette*:

- (a) declare that, with effect from the day of publication of the notice, this Act and the Anti-Dumping Act are taken to have had effect as if the Minister had, in the dumping duty notice or countervailing duty notice, as the case requires, fixed each of the variable factors relevant to the determination of interim duty at the respective amounts specified in the notice; or
- (b) declare that, for the purposes of this Act and the Anti-Dumping Act, each of the variable factors relevant to the determination of interim duty is to remain unchanged;

and where the Minister does so, he or she must notify the applicant accordingly.

(2) If the applicant or any other person who has provided information for the purpose of a review under this Division claims, in writing, that the information is confidential or that the inclusion in a notice under subsection (1) of a particular variable factor relevant to the determination of interim duty would adversely affect the person's business or commercial interests:

- (a) the Minister is not required to include in the notice a statement of that factor; but
- (b) upon request the Comptroller may notify that factor to persons who, in the opinion of the Comptroller, would be affected parties in any further review of the rate of interim duty.

(3) If the Minister publishes a declaration under paragraph (1) (a), this Act has effect, with effect from the day of publication of the declaration, as if each of the variable factors relevant to the determination of interim duty as so fixed under that paragraph had been ascertained for the purpose of the dumping duty notice or the countervailing duty notice.

Effect of review of interim duty on entitlement to seek duty assessment

269ZD. If, as a result of the review of a rate of interim duty, that rate is altered with effect from a particular day, that does not affect in any way the entitlement of an importer to apply under section 269V for a final assessment of the duty payable on goods imported into Australia on or after that day.

PART XVI—REGULATIONS AND BY-LAWS

(4) The power to make regulations for the purposes of paragraph 96B (3) (b) or (c) extends to making regulations that prescribe quantities in relation to airport shop goods that are local use goods.

the Comptroller may, subject to the succeeding sections of this Part, make by-laws for the purposes of that item or proposed item.

By-laws specifying goods

272. The Comptroller may specify in a by-law made for the purposes of an item, or a proposed item, of a Customs Tariff that is expressed to apply to goods, or to a class or kind of goods, as prescribed by by-law:

- (c) such other matters as are necessary to determine the goods to which that item or proposed item applies.

Determinations

273. (1) The Comptroller may determine, by instrument in writing, that, subject to the conditions, if any, specified in the determination, an item, or a proposed item, of a Customs Tariff that is expressed to apply to goods, or to a class or kind of goods, as prescribed by by-laws shall apply, or shall be deemed to have applied, to the particular goods specified in the determination.

(2) The Comptroller may make a determination under the last preceding subsection for the purposes of an item, or a proposed item, of a Customs Tariff whether or not he has made a by-law for the purposes of that item or proposed item.

By-laws and determinations for purposes of repealed items

273A. The Comptroller may make a by-law or determination for the purposes of an item of a Customs Tariff notwithstanding that the item has been repealed before the making of the by-law or determination, but the by-law shall not apply to, and the determination shall not be made in respect of, goods entered for home consumption after the repeal of that item.

Publication of by-laws and notification of determinations

273B. (1) A by-law made under this Part:

(a) shall be published in the *Gazette*, and has no force until so published;

This Part does not authorize the making of a by-law or determination which has the effect of imposing duty, in relation to goods entered for home consumption before the date on which the by-law is published in the *Gazette* or the determination is made, as the case may be, at a rate higher than the rate of duty payable in respect of those goods on the day on which those goods were entered for home consumption.

the by-law or determination shall have effect for the purposes of that Customs Tariff or of that Customs Tariff as so altered, as the case may be, as if the by-law or determination had been made for those purposes and the proposed Customs Tariff or the Customs Tariff as proposed to be altered, as the case may be, had been in force on the day on which the by-law or the determination was made.

Notification of proposals when House of Representatives is not sitting

- (b) in any other case—a time earlier than 6 months before the time of publication of the notice.

(2) Where notice of intention to propose a Customs Tariff or a Customs Tariff alteration has been published in accordance with this section, the Customs Tariff or Customs Tariff alteration shall, for the purposes of this Act (other than section 226) and any other Act, be deemed to be a Customs Tariff or Customs Tariff alteration, as the case may be, proposed in the Parliament.

Commissioned ships and aircraft may be searched

275. Ships or aircraft under commission from His Majesty or any foreign State having on board any goods other than ship's or aircraft's stores laden in a place outside Australia or in Australia may be boarded and searched by the Comptroller or an authorised officer in the same manner as other ships or aircraft, and the Comptroller or the authorised officer may secure any such goods and for that purpose bring them ashore.

Direction not to move a ship or aircraft from a boarding station

275A. (1) Where a Collector considers that it is desirable, for the purposes of the Customs, to hold a ship or aircraft at a boarding station, the Collector may, by notice in writing delivered to the master of the ship or the pilot of the aircraft before it leaves the boarding station, direct the master or pilot not to move the ship or aircraft from the boarding station until the master or pilot receives permission, in writing, from a Collector to do so.

(2) A person shall not disobey a direction given to him, and in force, under this section.

Penalty: \$10,000.

(3) Where a direction not to move a ship or aircraft from a boarding station has been given under subsection (1):

- (a) the direction ceases to have any force or effect at the expiration of a period of 3 days after the day on which the direction is given; and
- (b) no further direction in respect of the ship or aircraft shall be given while the ship or aircraft remains at the boarding station.

(4) Where a Collector (not being the Comptroller or the Collector of Customs for a State or Territory) gives a direction under subsection (1) not to move a ship or aircraft from a boarding station, the Collector shall forthwith notify:

- (a) where the boarding station is in the Australian Capital Territory—the Comptroller;
- (b) where the boarding station is in a State—the Collector of Customs for the State; or
- (c) where the boarding station is in the Northern Territory—the Collector of Customs for the Northern Territory;

of the giving of the direction.

(5) Where:

- (a) a ship or aircraft is held at a boarding station by virtue of a direction given under subsection (1); and
- (b) the Comptroller or the Collector of Customs for a State or Territory is satisfied that no purpose of the Customs is served by holding the ship or aircraft at the boarding station;

he shall forthwith revoke the direction.

(6) In proceedings for an offence under this section with respect to a direction, a certificate by a person referred to in the last preceding subsection that he is satisfied that, up to the time the offence is alleged to have been committed:

- (a) the permission referred to in the direction had not been given; and
- (b) the direction had not been revoked;

is evidence of the matters as to which the person has certified that he is satisfied.

Collector's sales

276. As to sales by the Collector:

- (a) The goods shall be sold by auction or by tender and after such public notice as may be prescribed, and where not prescribed after reasonable public notice.
- (b) The goods may be sold either subject to duty and charges or at a price that includes duty and charges and the price shall be paid in cash on the acceptance of the bidding or tender.
- (c) No bidding or tender shall be necessarily accepted and the goods may be re-offered until sold at a price satisfactory to the Collector.

s. 277

Proceeds of sales

277. (1) The proceeds of any goods sold by the Collector shall be applied as follows:

Firstly, in the payment of the expenses of the sale.

Secondly, where the price for the goods includes duty, in payment of the duty.

Thirdly, in payment of the warehouse rent and charges.

Fourthly, in payment of the harbour and wharfage dues and freight if any due upon the goods if written notice of such harbour and wharfage dues and freight shall have been given to the Collector.

And the balance if any shall be paid to the Minister for Finance on account of the person entitled thereto.

(2) For the purposes of section 132, goods to which subsection (1) of this section applies on which duty has not been paid shall be taken to have been entered for home consumption on the day on which the goods are sold by the Collector.

Jurisdiction of courts

277A. (1) A provision of the *Judiciary Act 1903* by which a court of a State is invested with federal jurisdiction has effect, in relation to matters arising under this Act, as if that jurisdiction were so invested without limitation as to locality other than the limitation imposed by section 80 of the Constitution.

(2) Subject to the Constitution, jurisdiction is conferred on the several courts of the Territories, within the limits of their several jurisdictions, other than limits as to locality, with respect to matters arising under this Act.

(3) The trial of an offence against a provision of this Act not committed within a State may be held by a court of competent jurisdiction at any place where the court may sit.

Examination of goods

278. The right of a person under this Act to examine goods includes the right to count, measure, weigh or gauge the goods.

SCHEDULE VII—continued

Notes relating to diagram 2

Goods imported into Australia after last process in the factory (ie Plant 7) are claimed to be the manufacture of New Zealand. This claim will be correct if the allowable factory cost of these preference claim goods is at least 50% of their total factory cost.

To work out both of these factory costs, we must first work out the allowable expenditure of the factory on the 3 manufactured materials that make up the preference claim goods. We will also need to take into account 3 other amounts, namely the total expenditure of the factory on materials, and the allowable expenditure of the factory on labour, and on overheads.

Working out allowable expenditure on materials (see section 153D)

- The allowable expenditure of the factory on particular manufactured materials in the form they are received from Plant 4 is nil because the materials are imported from outside the qualifying area (ie Hong Kong). (See subsection 153D (2)). This is so even though the manufactured materials themselves incorporate goods originating inside the qualifying area (ie Plant 1 in Australia).
- The allowable expenditure of the factory on particular manufactured materials in the form they are received from Plant 5 is not \$25 but \$5. This is because:
 - the cost of contributing materials imported into the qualifying area from outside that area (ie Plant 2 in Italy) and subsequently processed is excluded under subsection 153D (4) from the working out of that allowable expenditure; and
 - subsection 153D (6) does not apply.
- The allowable expenditure of the factory on particular manufactured materials in the form they are received from Plant 6 is the full cost to the manufacturer of \$45. It is true that contributing materials are imported into the qualifying area from outside that area (ie Plant 3 in Fiji) and subsequently processed. However, the cost of those contributing materials is not required to be excluded under subsection 153D (4) from the working out of that allowable expenditure because subsection 153D (6) applies.

Working out allowable factory cost (see section 153B)

Allowable expenditure of the factory on materials from Plants 4, 5 and 6 (Nil + \$5 + \$45)	\$50
PLUS allowable expenditure of the factory on labour	\$60
PLUS allowable expenditure of the factory on overheads	\$20
TOTAL	\$130

Working out total factory cost (see section 153B)

Total expenditure of the factory on materials from Plants 4, 5 and 6 (\$105 + \$25 + \$45)	\$175
PLUS allowable expenditure of the factory on labour	\$60
PLUS allowable expenditure of the factory on overheads	\$20
TOTAL	\$255

CONCLUSION: Since allowable factory cost is at least 50% of total factory cost, goods are the manufacture of New Zealand. (See subsection 153J (2)).

Re: Customs Act 1901 Reprint 11

Fred,

Further to our telephone conversation this afternoon, I bring to your attention what appears to be a transcription error in the incorporation of a 1982 amendment to the Customs Act in the Current Reprint.

Paragraph 245(1)(d) of the Act allows Customs prosecutions to be brought:

"in a County Court or District of a State; or"

Act No. 81 of 1982 repealed and substituted section 245 which included paragraph 245(1)(d) in the following terms:

"in a County Court or District Court of a State; or"

If possible, it would be appreciated if this could be rectified in the upcoming reprint.

Regards

Sharon
