NOTICE OF APPLICATION FOR CONSENT TO THE
CHANGE OF THE DESCRIPTION OF THE INDUSTRY
IN CONNEXION WITH WHICH AN ORGANIZATION
IS REGISTERED.

NOTICE is hereby given that application has been made to me under the *Conciliation and Arbitration Act 1904-1952* for consent to the change of the description of the industry in

connexion with which The Federated Rubber and Allied Workers Union of Australia is registered from the following:—

"Rubber industry" to the following:—

"The industry of all persons engaged on any operation in or in connexion with or incidental to the handling preparation, manufacture or repair of rubber and/or rubber goods and/or goods containing rubber or in the manufacture of which rubber is used, cables, duparite, bakelite, casein or other similar compositions, all classes of plastics and plastic powders, synthetic rubberlike, guttaperchalikes, rubberlike plastics, thermoplastics and thermo setting plastics, nitro-cellulose cellophane, un-degenerated cellulose and elastomers and the laying and fixing of rubber material to any surface".

Any person who desires to object to the proposed change may do so by lodging with me a notice of objection in the prescribed form and a statutory declaration in support thereof within thirty-five days after the publication of this advertisement and by serving on the organization copies of the notice of objection and statutory declaration so lodged.

J. E. TAYLOR, Industrial Registrar.

NOTICE OF APPLICATION FOR CONSENT TO THE CHANGE OF THE CONDITIONS OF ELIGIBILITY FOR MEMBERSHIP OF AN ORGANIZATION.

NOTICE is hereby given that application has been made to me under the *Conciliation and Arbitration Act 1904-1952* for consent to the change of conditions of eligibility for membership of The Federated Rubber and Allied Workers Union of Australia from the following:—

"The Union shall consist of all persons engaged in or in connexion with the manufacture or repair of rubber goods of every description in the Commonwealth or goods comprising rubber components or constituents; in the manufacture of substitutes for rubber or any kind of linos; in the insulating of cables or similar articles or the impregnating insulating or spreading all classes of fabric (including leathercloth) with rubber or substitutes therefor; in the manufacture of duperite, bakelite, zylonite, celluloid or similar compositions or substitutes therefor, together with such other persons whether employed as aforesaid or not who have been appointed officers of the Union and admitted as members thereof" to the following:—

"The Union shall consist of all persons engaged in or in connexion with the manufacture or repair of rubber goods of every description or goods comprising rubber components or constituents; the manufacture of substitutes for rubber and/or cables and the processes connected with the manufacture of cables in the cable making industry; the processing and/or spreading of all classes of fabric (including leathercloth) in which plastic, rubber, or similar compositions or substitutes therefor are used; the manufacture of nitro-cellulose cellophane, un-degenerated cellulose, plastic powders and similar compositions; the manufacture spreading and/or covering of all classes of plastic articles which are manufactured processed or made from synthetic resins and without limiting the generality of the foregoing including casein or similar compositions, synthetic rubberlike, gutta perchalikes, rubberlike plastics, thermoplastics, thermosetting plastics, celluloid, elastomers and/or similar compositions or substitutes therefor; together with such other persons whether employed as aforesaid or not who have been appointed officers of the Union and admitted as members thereof.

Provided that notwithstanding anything herein contained persons covered by the conditions of eligibility for membership of the Australian Leather and Allied Trades Employees Federation, the Australian Boot Trade Employees Federation, the Printing Industry Employees Union of Australia and the Federated Artificial Fertilizers and Chemical Workers Union of Australia as registered on the 31st day of December, 1954, shall not be admitted to membership".

Any person who desires to object to the proposed change may do so by lodging with me a notice of objection in the prescribed form and a statutory declaration in support thereof within thirty-five days after the publication of this advertisement and by serving on the organization copies of the notice of objection and statutory declaration so lodged.

*Public Service Act 1922-1954.*DETERMINATION OF THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE OF REPRESENTATIVES
PURSUANT TO SECTION 32.

THE President of the Senate and the Speaker of the House of Representatives pursuant to Section 32 of the *Public Service Act 1922-1954*, amends the conditions of advancement specified in the Schedule hereunder made pursuant to Section 32 of the said Act and notified in *Commonwealth Gazette* No. 24 of 23rd April, 1953.

SCHEDULE.

Designation of Office.	Conditions of Advancement of Officer.
Archives Officer, Grade 1 (£890-£1,310)	(1) He shall be paid not less than £974 per annum if he has successfully completed a library course approved by the President and the Speaker or a course of training which, in the opinion of the President and the Speaker, is the equivalent.
Film Officer, Grade 1 (£890-£1,310)	(2) He shall not be advanced beyond £974 per annum or, if his salary at the date of his appointment, transfer, or promotion exceeds £974 per annum, he shall not be advanced beyond the salary payable to him at that date unless the President and the Speaker are satisfied that he has successfully completed a library course approved by the President and the Speaker or a course of training which, in the opinion of the President and the Speaker, is the equivalent.
Librarian, Grade 1 (£890-£1,310)	(3) Subject to (2) above, he shall be paid not less than £1,058 per annum if (a) he has served for two years as Archives Officer, Grade 1, Film Officer, Grade 1, or Librarian, Grade 1; and (b) the President and the Speaker are satisfied that the class of work upon which he is wholly or mainly engaged is of such quality and importance, and his efficiency is of such standard, as to warrant payment of that salary.
Assistant Librarian (£270-£974)	(4) He shall not be advanced beyond £1,058 per annum or, if his salary at the date of his appointment, transfer, or promotion exceeds £1,058 per annum, he shall not be advanced beyond the salary payable to him at that date unless the President and the Speaker are satisfied that he is capable of performing efficiently the duties of his office.
	(1) He shall, if he has attained the age of 21 years, be paid not less than £806 per annum if:— (a) he has trained to the satisfaction of the President and the Speaker as an Assistant Librarian for a period of three years; and (b) the President and the Speaker are satisfied that his diligence, conduct and progress during the period of training warrant payment of that salary.
	(2) He shall be designated Librarian, Grade 1, and paid not less than £890 per annum on completion of a University degree in subjects considered suitable by the President and the Speaker, or the completion of such other academic courses as may be determined.

PART 2.—Provisions relating to Advancement of Library Assistant (Female), Grade 2, are repealed.

A. M. McMULLIN,
President of the Senate.

24.5.1955.

Applications, on the prescribed form, should be lodged with the Director, Posts and Telegraphs, Sydney, not later than Wednesday, 15th June, 1955.

Examination No. NP7.

FOR APPOINTMENT AS MAIL OFFICER, POSTMASTER-GENERAL'S DEPARTMENT, SYDNEY.

AN examination for appointment as Mail Officer, Postmaster-General's Department, Sydney, will be held on Saturday, 25th June, 1955, in accordance with conditions notified in *Gazette*, No. 72, of 25th November, 1954. Applications, on the prescribed form, should be lodged with the Director, Posts and Telegraphs, Sydney, not later than Wednesday, 15th June, 1955.

Examination No. 4340.

FOR APPOINTMENT OR TRANSFER AS TECHNICIAN-IN-TRAINING, OR APPRENTICE, FOURTH DIVISION, POSTMASTER-GENERAL'S DEPARTMENT AND DEPARTMENT OF CIVIL AVIATION.

A COMPETITIVE examination for appointment or transfer to the above-mentioned positions will be held subject to the following conditions:—

DATE OF EXAMINATION.—Saturday, 10th September, 1955.

EXAMINATION CENTRES.—Canberra, all State capital cities, and such other centres in the States as the Board determines.

PERSONS ELIGIBLE TO ENTER.—

- (a) Males not on the permanent staff of the Commonwealth Public Service who are British subjects (or whose British naturalization will be completed within the period of eligibility for appointment, and who were born not earlier than 31st December, 1937, and not later than 31st December, 1940.
- (b) Officers (Male) of the Commonwealth Public Service who were born not earlier than 31st December, 1937, and not later than 31st December, 1940.

Applicants should note that successful candidates will not be eligible for appointment or transfer unless they possess normal vision in both eyes.

Candidates who are not officers of the Commonwealth Public Service will qualify for appointment in the State in which they attend the examination.

Officers of the Commonwealth Public Service will qualify for transfer in the State in which they are permanently stationed on the date of the examination. Officers in the Australian Capital Territory will qualify for the State specified in their applications, and will undergo examination on the papers set for that State.

HOW TO MAKE APPLICATION.—Applications must be made on printed forms which are obtainable from the Commonwealth Public Service Inspector, Phillip House, Phillip-street, Sydney; 8 Elizabeth-street, Melbourne; Commonwealth Offices, Adelaide-street, Brisbane; A.M.P. Buildings, 23 King William-street, Adelaide; Commonwealth Bank Buildings, Perth; Customs House, Hobart; and Broughton-street, Canberra.

When obtaining these forms, applicants must state whether they are—

- (a) Officers of the Service.
- (b) Not on the permanent staff of the Commonwealth Public Service.

APPLICATIONS CLOSE.—Applications from persons who are not permanent officers of the Commonwealth Public Service must be lodged with the Commonwealth Public Service Inspector in the State in which they desire to compete. Applications from officers of the Service (except those located in the Australian Capital Territory) must be lodged with the Commonwealth Public Service Inspector in the State in which they will be permanently stationed on the date of the examination. Officers in the Australian Capital Territory should nominate in their applications the State for which they desire to compete and must forward their applications to the Commonwealth Public Service Inspector, Sydney. Applications must be lodged not later than 20th July, 1955.

Applications received after 20th July, 1955, will be rejected unless the applicant has advised the Commonwealth Public Service Inspector with whom he is lodging the application by letter or telegram arriving not later than 20th July, 1955, that he is forwarding an application, and he has actually posted his application before or on that date.

The receipt of applications will not be formally acknowledged. An applicant should therefore make a record of the posting of his application. If he does not receive advice to attend the examination at latest ten (10) days before the date

of the examination, he should at once communicate with the Commonwealth Public Service Inspector, and at the same time furnish evidence of the date, time and place of posting of his application.

(NOTE.—Candidates who for any reason are prevented from attending the examination must notify the Commonwealth Public Service Inspector at the earliest possible date before the examination.)

CHANGE OF ADDRESS.—A candidate who changes his address after submitting his application should at once furnish his new address to the Commonwealth Public Service Inspector with whom he lodged the application.

EXCLUSION OF CANDIDATES FROM EXAMINATIONS.—The Board may determine that a person shall not be allowed to sit for an examination if it is satisfied, after consideration of the available evidence, that a person is not a fit and proper person for appointment to the Public Service of the Commonwealth.

SALARY.—The following are the actual rates of salary payable:—

	Apprentice.	Technician-in-training.
	£	£
Under 18 years of age	354	354
At 18 years of age	416	416
At 19 years of age	509	509
At 20 years of age	601	601
At 21 years of age	708	722

LIVING ALLOWANCE.—A candidate who, on appointment, is obliged to live away from home will be paid an allowance, in addition to salary, sufficient to provide a net remuneration of approximately £137 per annum after deductions have been made for suitable board and lodging, superannuation and other expenses. The allowance will be reduced by the amount of any increase in salary granted subsequent to appointment.

ADVANCEMENT.—(a) *Technician-in-Training.*—A technician-in-training shall become a Technician upon the satisfactory completion of the five years' prescribed course of training.

A Technician-in-training who has satisfactorily completed two years of the prescribed course of training, but whose lack of progress thereafter necessitates discontinuance of training, may receive consideration for transfer to a position of Technician's Assistant if the Chief Officer certifies that he is suited to such work.

(b) *Apprentice.*—An apprentice shall be afforded an opportunity of passing a test for advancement as Journeyman determined by the Board on or before the completion of six years' service as apprentice, or on reaching the age of 21 years, whichever is the earlier, and upon passing that test he shall be advanced as Journeyman in the trade in which he is employed and paid salary at the minimum rate prescribed for that office on and from the date of completion of that service or on reaching the age of 21 years, as the case may be.

An Apprentice who has completed six years' service or has attained the age of 21 years and who fails to pass the test referred to in the last preceding paragraph shall, subject to satisfactory reports as to conduct, diligence and efficiency be paid at the rate of £708 per annum on the approval of the Board.

A Technician-in-training or an Apprentice who is not making satisfactory progress in his training may be transferred at any time to another position in the Fourth Division at such salary as the Board determines.

SUBJECTS OF EXAMINATION.—The standard in each subject is that which would be reached by students one year before taking the Intermediate or Junior Public Examination of the State concerned.

ALL STATES.

Elementary Mathematics (maximum marks, 300; pass marks, 180).—Questions may be set on such of the under-listed items as are taught generally prior to the completion of the sub-Intermediate or sub-Junior, in secondary schools in the State concerned:—

A. Arithmetic and Mensuration—

1. The four rules applied to simple and compound quantities in common use.
2. Vulgar fractions and decimals.
3. Metric system.
4. Averages.
5. Ratio and proportion.
6. Percentages.
7. Profit and loss.
8. Simple interest.
9. Square root and its applications.
10. Mensuration of rectangles, squares, triangles and circles.
11. Formulae and mensuration of prisms and cylinders.

B. Algebra—

1. Notation of algebra.
2. Simple operations including use of brackets.
3. Simple linear equations involving one or two unknowns.
4. Problems on such simple equations.
5. Multiplication of binomials.
6. Squaring binomials.
7. Factors of standard types.
8. Simplification of easy expressions involving fractions.
9. Use of squared paper, graphs applied to simple equations.
10. Transformation of formulae, substitution in formulae and construction of formulae from numerical data. Simple cases only.

(Sections 7 and 9 do not apply in New South Wales.)

C. Geometry—

1. Conceptions of point, straight line, and angle.
2. Angles which one line makes with another.
3. Parallels.
4. Angles which a transversal makes with parallel lines.
5. Triangle, the isosceles triangle, congruence of triangles (without formal proofs).
6. Properties of parallelograms.
7. Practical geometry of lines, angles, triangles, circles.
8. Construction of triangles, parallelograms and other quadrilaterals from sufficient data.

Elementary Science (Physics and Chemistry) (maximum marks, 300; pass marks, 180).—In the examination of this subject, questions will be set that are designed to test the candidate's knowledge in two directions; (1) a test of knowledge of scientific facts and processes, within the range of the syllabus; (2) a test of knowledge about some of the applications of these scientific facts and processes, particularly those applications that affect the everyday life of the people; and in this connexion, the test may include questions on natural processes and phenomena that are of importance to man, again within the scope of the syllabus.

While no deep knowledge of a technical character will be expected in either of these directions, candidates are expected to exhibit clear ideas about the topics they have studied; and to be able to express these ideas in good English.

Legibility of writing and a good arrangement of work are also regarded as important.

NEW SOUTH WALES.**Physics Section.**

Measurement. Measurement of length in metric and British units; parallax; value of π found experimentally. Volume of solids, by direct measurement, and by water displacement. Volume of liquids, measuring cylinder. Use of chemical balance.

Atmospheric pressure. Weight of air. Simple barometer, aneroid barometer, pumps, siphons. Fluid pressure; Pascal's principle, hydraulic press.

Archimedes' principle. Relative density of solids and liquids. Flotation; illustrated by ships, submarines, balloons and hydrometers. Density of solids and liquids. Specific gravity.

Heat. Simple facts about heat to be correlated with the course in chemistry. Expansion and contraction of solids, liquids and gases. Applications. Thermometers. Fixed points. Conduction, convection, radiation. Davy safety lamp, thermos flask. Centigrade and Fahrenheit scales; conversion. Effect of pressure on boiling point.

Lever. Examples of levers. Moments. Balance. Pulleys, single, fixed and movable. Block and tackle. Mechanical advantage.

Magnetism. Properties of magnets; compass needle; action of like and unlike poles; methods of magnetising; electro-magnets; electric bell.

Current electricity. Action of a current on a magnetic needle. Heat and light from a current. Simple explanation of terms volt, ampere, ohm. Applications: telephone, electro-plating; immersion heater.

Chemistry Section.

Combustion in air of carbon, sulphur, phosphorus and magnesium.

Characteristics of physical and chemical changes.

Removal of oxygen from air by burning phosphorus.
Nitrogen. Composition of the air. Water vapour and carbon dioxide. Preparation and properties of oxygen. Metals and non-metals. Oxidation, slow and rapid. Oxides, basic and acidic. Properties of common mineral acids. Preparation and properties of hydrogen. Composition of water by synthesis and by analysis. Action of heat and acids on calcium carbonate. Preparation and properties of carbon dioxide. Uses of carbon dioxide. Air conditioning. Basic hydroxides and neutralization by common mineral acids. Preparation of salts; acids on metals; acids on bases; acids on carbonates. Solubility: hard and soft waters. Purification of water; filtration; softening; sterilizing by boiling and by chlorination; distillation.

VICTORIA.**Physics Section.**

Matter exists in three forms. General properties of solids, liquids and gases.

Measurement: length, area, volume, mass. Density of solids and of liquids (simple treatment only). Use of appropriate measuring instrument such as burette, pipette, graduated jar, beam balance.

Air: weight, compressibility, elasticity; air pressure barometers (simple mercury and aneroid), syringe, pumps (common and force).

Water and its uses: the water cycle, vaporization and condensation, water supply; reservoirs and reticulation, sedimentation, filtration, distillation. Water as a solvent—effect of temperature in the solubility of solids. Water level; pressure, and the laws of pressure. Upward thrust of a liquid; Archimedes' principle. Application of the principle of floating bodies, ships, submarines. Use of direct reading hydrometer to determine relative density of liquids.

Heat.—Expansion of solids, liquids and gases with rise of temperature. Thermometers—Fahrenheit and Centigrade scales. Conversion of scales. Transference: conduction, convection, radiation. Change of state: melting, boiling, evaporation, cooling effect of evaporation, distillation, preparation of coal, gas, petrol, eucalyptus as applications. First ideas of quantity of heat as distinct from temperature. The calorie.

Energy.—Sources; varied forms; transformation of energy; simple ideas of force, and work. Use of fuels for heating and operating engines; internal combustion energy (only to the extent of illustrating a general principle).

Human inventions for doing work; simple machines; the lever, balance, single fixed and movable pulleys; machines operated by wind, water, fuels. Friction as a help and as a hindrance; means of reducing or of increasing friction; common applications.

Electricity and magnetism: Elementary examples and applications within the experience of the majority of people. Magnetic force and electromagnetic force. Current producing heat and light. Sources of energy—coal, water. State power schemes in broad outline; their purpose in having work done throughout the State in transport systems, factories, farms, homes. Natural magnets, artificial magnets, how to make a magnet; like and unlike poles; difference between soft iron and steel in making a magnet. Magnetic compass and its uses. The earth as a magnet. Electric current; common appliances in the home and in industry; magnetic effects; conductors and insulators.

Chemistry Section.

Burning of substances in air, chemical changes; release of energy; common fuels and conditions for combustion; products of combustion. Air as a mixture; chemical characteristics of main constituents of air. Preparation and properties of oxygen, nitrogen, carbon dioxide. Importance of air for living things. Burning of sulphur, phosphorus, carbon, magnesium, iron in air. Acidic and basic oxides.

Acids; formation of salts by neutralization with a base. Crystallization from a solution of a soluble salt. Salts from acids and carbonates. Action of acids on metals. Hydrogen, its preparation and properties. Burning of hydrogen to form water.

QUEENSLAND.**Physics Section.**

Air pressure. Barometers; aneroid barometer; wind and air pressure; vacuum cleaner.

Simple ideas of force. Spring balance. Measurement of weight. Simple ideas of "Force of gravity". Plumb line. The lever, beam balance; action of crowbar, pliers, scissors, see-saw, &c. Simple pendulum, length and period. Simple problems on lever action.

Density. Calculation from volume and weight; Archimedes' principle. Water pressure; town supply. Spirit level. siphon. Flotation; weight of solids in water and other liquids; explanation of results.

Expansion due to heat. Differences in amount of expansion: iron and brass. Allowances for expansions; rails, girders, steam pipes: fitting an iron tyre to wooden buggy wheels. Making a simple thermometer. Fahrenheit and Centigrade scales. Fixed points.

Evaporation: cooling effect of a water bag; rapid cooling by evaporation of methylated spirits, ether, &c. Cooling action of a refrigerator. Liberation of heat when steam is condensed. Steam heating in industry.

Conduction: examples of good and bad conductors. Davy safety lamp; use of wire gauze with a bunsen flame. Action of woollen clothing in conserving heat. Construction of an ice-chest. Lagging of steam pipes.

Convection: Illustration and applications. Ventilation.

Radiation: dull and polished surfaces in radiation. Vacuum flask.

Capillarity: simple illustrations.

Magnetism. Properties of a magnet. Like and unlike poles: methods of magnetizing; differences in magnetic properties of iron and steel; magnetic field; the earth as a magnet.

Electric current; magnetic effects of current; electric bell, electric telegraph; heating effects of a current; electric irons, radiators, cookers, &c. Use of electric fuse. Elementary ideas of ampere, volt, ohm.

Chemistry Section.

[The treatment is to be elementary and experimental as far as possible.]

Physical and chemical changes. Mixtures and compounds. Simple chemical operations: Solution, distillation, filtration, decantation, crystallization, precipitation.

Action of heat on common substances.

(a) Metals.

(b) Combustion of wood, sulphur and a candle.

Rusting and change in air produced by rusting.

Composition of air. Oxygen—the active part of air; preparation and properties. Oxides; Oxidation. Nitrogen; air a mixture, not a compound.

Water; action of metals on hard and soft waters; water softening. Action of metals on acids; zinc and dilute sulphuric acid.

Hydrogen; preparation and properties; Reduction. Composition of water; electrolysis.

Carbon and the forms of carbon; carbon dioxide produced by burning and breathing. Carbonates:—Action of heat and dilute acids.

Hydrochloric acid and chlorine. Sulphur and sulphuric acid. Nitric acid and ammonia.

Acids, bases and salts; neutralization, indicators.

Chemical Laws:—Constant Composition, Multiple Proportions, Conservation of Mass.

Elements:—Symbols for atoms. Compounds—Formulae.

(Chemical equations (of reactions studied in course).)

SOUTH AUSTRALIA.

Physics Section.

Density, specific gravity for solids, liquids and gases.

Thermometry; Fahrenheit and Centigrade; simple calorimetry.

Effects of heat: expansion and contraction. Changes of state. Conduction, convection and radiation. Levers. Force, illustrated by push and pull. Weight; friction; measurement by spring balance. Hooke's Law. Gravitational units.

Pressure. Flow due to pressure differences. The atmosphere, atmospheric pressure. Barometer, simple mercury and aneroid. Pumps.

Magnetism; bar magnet, and method of making by using an electric current. Simple cell. Magnetic effect of current.

Chemistry Section.

The air: Oxygen and nitrogen. Oxidation, burning of sulphur, carbon, phosphorus, magnesium. Oxidation of metals. Basic and acidic oxides. Carbon dioxide, and lime-water test.

Elements, compounds, mixtures.

Solutions; solubility of common salts. Effect of temperature on solubility. Water of crystallization.

Filtration; distillation; air and carbon dioxide in water.

Acids on metals; preparation and properties of hydrogen. Reduction by use of carbon.

Sulphur, oxides of sulphur (dioxide, trioxide), sulphurous and sulphuric acid.

WESTERN AUSTRALIA.

[The arrangement of the Elementary Science examination will be such as to enable candidates to attempt the requisite number of questions without a knowledge of Chemistry.]

Physics Section.

Heat: sources of heat; effects of heating and cooling, e.g., expansion and contraction of solids, liquids and gases; the mercury thermometer, its fixed points, uses; change of state—melting of ice, wax, &c.; cooling by evaporation; transference of heat—conduction, convection and radiation.

Pressure: applications of fluid pressure and atmospheric pressure as in pumps and syphons; the barometer.

Machines: principle of work applied in lever, pulley, wheel and axle.

Friction and its application, e.g., use of lubricants.

Magnetism: natural and artificial magnets; repulsion and attraction; the compass.

Electricity: conductors and non-conductors; effects of current (A) electro-magnetism—some applications, e.g., electric bell (B) heating and lighting—common applications—e.g., electric iron, radiator.

Chemistry Section.

Physical and chemical change.

Element, mixture, compound.

The atmosphere; its chief constituents.

Oxygen and hydrogen; their properties and common uses: oxidation, combustion, rusting, expiration, &c., metallic oxides, e.g., common ores.

Water: composition of water.

Acids, bases and salts: (simple study only); neutralization.

Carbon: its forms and occurrence; presence in food and fuels; simple study of coal.

Sulphur, phosphorus, lime, ammonia: their properties and common uses: superphosphate: quick lime and slaked lime.

TASMANIA.

Physics Section.

States of matter; solids, liquids, gases.

Mass and density.

Air: atmospheric pressure. Flotation: applications. Liquid pressure.

Force, illustrated by push or pull; friction; weight; "force of gravity"; simple machine; levers and lever action; energy.

Heat: expansion due to heat; thermometers; transference of heat; conduction, convection, radiation; change of state; steam engines; internal combustion engines.

Magnetism; magnets and magnetic field; the earth as a magnet; compass needle; magnetizing iron or steel; electromagnet; telephone; electric current; heating and chemical effects; motor, dynamo, microphone.

Chemistry Section.

Composition of the air; burning and rusting; preparation of oxygen and carbon dioxide; composition of water; preparation and properties of hydrogen solubility; filtration and distillation.

Study of flame. Wood, coal, coke, gas, oil as fuels; lime burning—chemical effects of heat on limestone; gas making.

Mineral acids: neutralization of acids; salts; the use of litmus; bases, oxides and hydroxides.

Throughout this course, the emphasis is to be on applications; frequently applications correlated with other branches of science, e.g., geology, physiography and biology.

ALL STATES.

English.—Composition, meaning of words, construction of sentences to illustrate the meanings given, and spelling. (Maximum marks, 100; pass marks, 50.)

The subject of English will, however, not be taken into account in determining the order of merit of candidates who are successful in qualifying at the examination.

General.—Candidates will also be required to sit for a general paper which will be qualifying and not competitive. No preparation is necessary for this paper.

TEXT-BOOKS.—No text-books are prescribed, but a booklet containing papers set for a past examination may be obtained from the Commonwealth Public Service Inspector in each State. No previous General Papers are available.

PASS CONDITIONS.—To pass the examination a candidate must—

- (a) Obtain at least the number of pass marks shown against the subjects of Elementary Mathematics, Elementary Science, and English; or
- (b) pass in English and the General Paper and, in addition, obtain an aggregate of not less than 300 marks in the subjects of Elementary Mathematics and Elementary Science. His marks either in Elementary Mathematics or in Elementary Science must, however, be not less than 120.

VACANCIES.—The following is an estimate of the number of Technician-in-training vacancies in the Postmaster-General's Department which will be filled by candidates who qualify:—New South Wales, 230; Victoria, 180; Queensland, 80; South Australia, 53; Western Australia, 48; Tasmania, 25.

It is expected that vacancies for Technician-in-training will exist in the Department of Civil Aviation in all States and that vacancies for Apprentices will exist in the Postmaster-General's Department and the Department of Civil Aviation in some States. Full details of these vacancies will be published at a later date.

Appointments and transfers to the number required will be made at about the end of December, 1955.

ORDER OF APPOINTMENT AND TRANSFER.—Candidates who qualify will be listed in two groups—

- (i) Officers of the Service.
- (ii) Candidates from outside the Service.

Appointments and transfers will be made in order of merit on the respective lists. The order of merit in each list will be determined by the total number of marks obtained in Elementary Mathematics and Elementary Science. If two or more candidates obtain the same total number of marks in those subjects, their order of merit, respectively, will be determined by lot. Approximately one-half of the vacancies will be allotted to qualified candidates who are officers of the permanent staff of the Commonwealth Public Service, and one-half to qualified candidates who are not on the permanent staff, any shortage in one source to be made up of qualified candidates in the other source.

Two distinct orders of merit will be published for each of groups (i) and (ii) above, one for those who satisfy paragraph (a) of the Pass Conditions and one for those who qualify under paragraph (b).

ELIGIBILITY.—Candidates who qualify will be eligible for appointment or transfer for twelve months commencing on the date of the publication of the results of the examination in the *Commonwealth Gazette*.

RESULTS OF EXAMINATIONS.—The results of examinations showing the order in which successful candidates are eligible for appointment or transfer shall be published in the *Commonwealth Gazette*.

MARKS.—The marks allotted by the examiners for each subject or part of a subject shall be final.

REPORTS ON EXAMINATION PAPERS.—A candidate may at any time within three months of the date of publication in the *Gazette* of the results of an examination, upon payment to the Secretary of the Public Service Board of the sum of ten (10) shillings for each subject upon which a report is desired, obtain reports upon his English, Elementary Mathematics and Elementary Science papers showing the detailed allotment of marks in respect of each subject and a statement as to the merits and defects of his paper in respect of the subject(s) upon which he asked for a report.

CONDITIONS OF APPOINTMENT.—A qualified candidate from outside the Service must, upon appointment, produce evidence of the date of his birth, and a medical certificate satisfying

the Board in such particulars as it may determine of sound bodily health and freedom from physical defects. He should not undergo this medical examination until instructed by the Board or a Public Service Inspector to do so. Upon confirmation of his appointment, after probation, an officer will be required to contribute to the Commonwealth Superannuation Fund. A qualified candidate upon confirmation of appointment as Apprentice will, in addition, be expected to sign an Indenture.

Appointees will be given appropriate training in the Postmaster-General's Department. They will be required to attend classes at a technical college or other institution approved by the Board as part of their training. On appointment each Technician-in-training will be informed of the conditions under which his tuition fees will be paid by the Department. The conditions of the training course for Apprentices will be set out in the Indenture referred to above.

Qualified candidates who on appointment are already temporarily employed, or who take up duty within twenty-eight days of the date of issue by the Chief Officer of notification of appointment and request to report for duty, will be regarded for seniority purposes as having entered the Commonwealth Service on the date of the Public Service Inspector's appointment certificate.

Successful candidates should note that the *National Service Act 1951*, precludes the employment for more than seven days of persons liable to register under the Act and who have failed to register.

REFUSAL BY THE BOARD TO APPOINT SUCCESSFUL CANDIDATES.—The Board may, upon sufficient evidence of an adverse nature respecting the conduct, character or ability of a successful candidate or upon sufficient evidence that a successful candidate has knowingly made a false statement in respect of his application to sit for an examination for appointment, direct that that successful candidate shall not receive appointment.

REFUSAL OF APPOINTMENT.—If a successful candidate declines to accept an appointment, or fails to reply within seven days to a communication from the Board, the Public Service Inspector, or the Director of Posts and Telegraphs, respecting nomination to the Public Service, the candidate's name may be removed from the "Register of Persons Qualified for Appointment".

POSTMASTER-GENERAL'S DEPARTMENT.

CONDITIONS GOVERNING TRANSFER OR PROMOTION TO OFFICES OF POSTAL ASSISTANT (MAIL), SENIOR POSTAL ASSISTANT (MAIL), GRADES 1 AND 2, AND POSTAL ASSISTANT IN MAIL ROOMS AT POST OFFICES, AND ADVANCEMENT IN POSITIONS OF POSTAL ASSISTANT (MAIL).

NOTIFICATION of the above conditions which appeared in the *Commonwealth Gazette*, No. 6, of 3rd February, 1955, and which were amended in the *Commonwealth Gazette*, No. 16, of 6th April, 1955, are hereby further amended as follows:—

Part 1.—For Transfer or Promotion as Postal Assistant (Mail) with Salary not Exceeding £758 Per Annum.

2. Date of Examination.—Delete section and insert in its stead—"The examination will be conducted during February, May, August and November of each year."

5. Advancement.—Delete sub-section (a) and insert in its stead—" (a) The advancement of successful candidates will not take effect earlier than the first day of the month fixed for holding the examination, i.e., 1st February, 1st May, 1st August or 1st November of each year, whichever is applicable. Upon passing the first barrier test, increases as under shall be payable:—

Postal Assistant (Mail) under 21 years of age.—An allowance at the rate of £20 per annum with advancement to the second sub-division of the adult scale on attaining 21 years of age.

Adult Postal Assistant (Mail).—If in receipt of salary of less than £758 per annum, accelerated advancement to the next higher sub-division with next increment from the due date.

Example.—A Postal Assistant (Mail) in receipt of salary of £692 from 1st February, 1955, passes the test held in August, 1955. He would be entitled to £718 as from 1st August, 1955, with eligibility to advance to £738 as from 1st February, 1956.

A Postal Assistant (Mail) who does not pass the examination until in receipt of salary of £758 per annum will not receive accelerated advancement but will be advanced by way of the normal incremental scale.

Public Service Board.

NOTIFICATION OF VACANCIES.

APPLICATIONS are invited from permanent officers of the Commonwealth Public Service for promotion or transfer to the positions named in the appended schedule. Where so indicated, applications will also be received from persons not on the permanent staff of the Commonwealth Service.

Applicants should state fully their qualifications for the position sought, and must, to ensure consideration, forward their applications to the officer indicated in the last column in time to reach him not later than the appointed date.

Applications submitted by telegram prior to the closing date will be accepted, but these should be followed up immediately by full written application.

Where an applicant desires to be considered for two or more vacancies a separate application should be forwarded in respect of each position sought except where the position applied for are of similar classification and in the same Branch of the Department, e.g., positions of Postmaster, Lines Staff positions, &c., when one application covering such positions will be accepted.

In the case of applicants who are permanent officers of the Public Service of the Commonwealth or of a State, the following particulars should be set out at the foot of the application:—

Full name (block letters)
Designation
Salary scale
Office or Branch
Date and place of birth
Length of service
Salary (per annum)
Date granted last increment

Other applicants should state full names, date, year and place of birth, and whether they are natural-born or naturalized British subjects. Returned soldiers should give particulars of war service. Copies only of diplomas, references, testimonials, or certificates should be forwarded. If the originals are required they will be asked for.

The range of salary indicates the classified value of a position, but appointments may be made at any salary within such range. The rate shown in the advertisement hereunder may be varied by regulation or awards.

Should a female officer be promoted or transferred to a position named in the appended schedule, and not designated a "Female" position, the salary payable will be—

- (a) in the case of an adult, £154 less
- (b) at age 20, £111 less
- (c) at age 19, £62 less
- (d) at age 18, £31 less

than the prescribed rate.

Successful applicants must comply with the provisions of the Superannuation Act.

At offices where quarters are shown, a deduction at the rate of 10 per cent. of the minimum salary of the position will be made unless otherwise stated. Particulars of existing quarters are furnished merely for the information of officers. It is not incumbent on Departments to provide quarters, which, if provided, may be wholly or partially withdrawn at any time.

Officers of the Commonwealth Public Service, who may be transferred without promotion, as the result of an application for an advertised vacancy, will be required to pay their own expenses of removal unless the transfer comes within the conditions prescribed in Public Service Regulation No. 119.

Fares to locality of appointment of appointees who are not permanent officers of the Commonwealth Public Service will not be paid by the Commonwealth unless such fares (including, if the applicant is married, those of his wife and family) exceed £3, when such allowance as the circumstances justify may be granted.
