(The list of such offices will be that appearing in the latest issue of the Commonwealth Post Office Guide.)

Five hundred of these envelopes will be drawn by the examining officers to be sorted by the candidates in the maximum time of 14 minutes.

The Divisions into which these envelopes must be sorted will be the actual sorting Divisions used in the Mail Branch of the State. The envelopes are to be sorted to the pigeon-holes which represent the final sorting positions from which letters to the places in question are despatched. If, when the 500 envelopes have been sorted, the candidate has a balance of time available, he will not be permitted to utilize such time to re-sort any envelopes which may have been wrongly sorted.

A candidate whose errors at the initial sortation have not exceeded the number shown hereunder will be recorded as having passed in Section 1 of the examination:—

New South Wales	10

The number of envelopes in respect of each State to comprise the primary sorting test will be determined and selected on the following basis:—

- (a) The total number for each State to be determined on the basis of the normal volume of correspondence despatched from the section to interstate destinations.
- (b) The envelopes to comprise each primary sorting test will be prepared by the examining officers.
- (c) The addresses placed on the envelopes in respect of each State to be such as to ensure that each relative pigeon-hole of the Primary Press will be used, but as far as practicable the addresses are to be confined to place-names, the memorizing of which is necessary for accuracy in primary sorting.

The envelopes to comprise the overseas portion of the test will be addressed to 100 places and/or countries which a Mail Officer is expected to memorize for the purpose of primary sorting. The addresses will be selected on a basis which will ensure that each relative pigeon-hole on the press will be used proportionately to the normal volume of traffic handled under working conditions.

In Sydney the primary sorting test is to be conducted in the following manner:—

- (a) The 500 envelopes (interstate and overseas envelopes inter-mixed) are to be sorted on the Interstate Primary Press in a maximum time of 14 minutes.
- (b) The 100 overseas envelopes are then to be sorted on the Overseas Primary Press in a maximum time of 3 minutes.
- (c) A candidate whose errors in the two primary sorting tests combined have not exceeded twelve is to be recorded as having passed in Section 1 of the examination.
