ANNEX

3. **Background:**

- (a) Co-operation between the Ministry of Education of the United Arab Emirates and UNESCO has been very active through the past few years. It consists for UNESCO to provide the Ministry with advisory services, experts and consultants and also the provision of equipment for the secondary schools. The cost of such assistance is provided for under self-financed Funds-in-Trust agreements in

addition to a small scale UNDP/Government cost-sharing project. The Ministry of Education, in its drive to further develop education in the country, has now requested UNESCO to provide nine experts in the following fields: Legal and Administrative Affairs, Documentation, Libraries and Archives, Cultural and Educational Activities, Renovation of Programmes and Educational Methods, Youth Activities, School Buildings, Audio-Visual Aids, Social Services in Schools, Training of Teachers and Administrators, plus an Administrative Officer. This UNESCO Team will be attached directly to the Office of the Minister.

(b) **National Character of the Project:**

Operational projects benefiting from UNESCO assistance, are national projects and it is up to the beneficiary country to assume responsibility for directing the project as well as ensuring its proper implementation.

The national authority will also be responsible for the utilisation of equipment including supplies and vehicles, as far as the activities defined in the project document are concerned.

Consequently, the international specialists will carry out their mission under the guidance of the Minister of Education and Youth.

Under the supervision of the Chief Technical Adviser, the specialists, as staff members of UNESCO, are placed under the authority of the Director-General of the Organisation and will answer to him for the manner in which they carry out their functions.
