Yours sincerely,

ANNEX

Background:

A. Teacher Education Programme at the National University of Lesotho

The National University of Lesotho (NUL), which started in 1978, aims to provide a special training programme for persons who will become staff of the National Teacher Training College (Tutors or Internship Supervisors), Education Officers or other In-Service Teacher Trainers.

UNDP/UNESCO assistance to the programme, which began in 1978, will last four years and consists of funding of the Specialist's post (for the first three years) and a number of overseas study tours, as well as some equipment. At the end of this period, it is expected that the NUL will have the necessary resources to continue the programme.

B. National Character of the Project

Operational projects, benefiting from UNESCO assistance, are national projects and it is up to the beneficiary country to assume responsibility for directing the project as well as ensuring its proper implementation.

The national authority will also be responsible for the utilization of equipment including supplies and vehicles, as far as the activities defined in the project document are concerned.

Consequently, the international specialist will carry out his mission under the guidance of the National Director of the project.

The specialist, as a staff member of UNESCO, is placed under the authority of the Director-General of the Organization and will answer to him for the manner in which he carries out his functions.
