### AUSTRALIAN BROADCASTING TRIBUNAL NOTICE OF INQUIRY

#### CABLE AND SUBSCRIPTION TELEVISION SERVICES AND RELATED MATTERS

THE Australian Broadcasting Tribunal hereby gives notice that in pursuance of section 18 of the *Broadcasting and Television Act 1942*, ('the Act') it has been directed by the Minister of State for Post

and Telecommunications to hold an Inquiry into the following matters to the extent that those matters relate to the operation of the Act or the regulations under that Act or otherwise to the provision of broadcasting or television services:

- (1) the social, economic, technical, and related matters that need to be taken into account in introducing cable television into Australia;
- (2) the range and diversity of services (including sound broadcasting and 'Pay-TV' and other subscription services) of an entertainment, information, educational or other kind that could be provided by means of, or in association with, cable television;
- (3) the level of interest of potential operators in providing services of kinds referred to in paragraph (2) above, and of potential consumers in receiving such services;
- (4) the means by which potential operators would propose to establish and operate systems for the provision of cable television and associated services;
- (5) optimum dates for the introduction of cable television, having regard to the present state of development of cable technology, including fibre optics;
- (6) the effect that the introduction of radiated 'Subscription Television' services would be likely to have on any 'Pay-TV' services provided by cable television systems;
- (7) the effect of the introduction of cable television on existing broadcasting and television services, including any effect on the viability of commercial broadcasting stations and commercial television stations;
- (8) the effect of the introduction of cable television on the production in Australia of programs, films and other material designed or suitable for television, and the employment of persons in connection therewith;
- (9) whether any private operators of cable television systems that might be permitted should be subject to licensing, ownership and control, and other regulatory requirements of the kind that apply in relation to commercial broadcasting stations and commercial television stations or, alternatively, whether other provisions should be made in relation to those matters;
- (10) whether any private operators of cable television systems that might be permitted should be subject to requirements relating to the Australian content of programs or the provision of channels for community services, public access services or special purpose programs, or subject to other special requirements;
- (11) the copyright and related issues to which the introduction of cable television would give rise;
- (12) the means by which the 'hardware' (including ducts, cables, and associated equipment) necessary for the establishment and operation of cable television systems might be provided and the means by which participation by Australian industry in the provision, manufacture, installation and servicing of the necessary equipment might be maximised.

#### SUBMISSIONS:

In order to properly and fully inform itself on the matters contained in the Terms of Reference the Tribunal invites written submissions from persons, corporations, groups or organisations. Such submissions must relate to one or more of the Terms of Reference for the Inquiry.

The Tribunal has prepared a Submission Registration Form which must be attached to each submission lodged. Copies of that form may be obtained from the undersigned, or any State Office of the Tribunal.

Submissions with attached Registration Form must be lodged with the undersigned no later than 15 October 1980 and 15 copies of each submission should be supplied.

Submissions received by the Tribunal will, after processing, be available for public inspection at the Tribunal's Head Office and State Offices. Other material assembled by the Tribunal in the course of the Inquiry will also be available for such inspection. The availability of submissions or other material for inspection will be subject to any directions as to confidentiality made by the Tribunal.

#### HEARINGS:

As soon as practicable after the closing date for the lodgment of submissions the Tribunal intends to hold the Public Hearings of the Inquiry. It is likely that such Hearings will take place in each Australian capital city and any such other locations as appear desirable. Dates and venues for the Hearings will be published and it is anticipated that at least 4 weeks notice will be given of the time, date and venue of each Hearing.

In the Submission Registration Form persons lodging submissions will be asked to indicate whether they desire to support their submissions with oral evidence and if so the preferred venue for the presentation of any such evidence. In certain circumstances the Tribunal may feel it necessary to invite persons who have lodged a written submission to give oral evidence at a Hearing.

Except in special circumstances the Tribunal will not consider an application by any person to give oral evidence at a Public Hearing of the Inquiry, unless a submission has been lodged in accordance with this notice relating to that person's proposed evidence.
