Special Information

Independent Air Fares Committee Act 1981

INDEPENDENT AIR FARES COMMITTEE

DETERMINATIONS AND DECISIONS

The Independent Air Fares Committee notifies that it has made the following determinations and decisions:

Determination

Operators: Ansett Airlines of Australia; Trans Australia Airlines.

Section of Act: 15.

Date Notified: 4.1.83.

Brief particulars of Terms and Reasons: Determination of the following formulae for setting economy air fares over related routes operated by Ansett Airlines of Australia (AAA) and Trans Australia Airlines (TAA), effective 6 January 1983.

Jet services

The formula for AAA and TAA jet services incorporating a flag-fall plus a distance rate will be:

$$\text{Fare (\$)} = A + BX + CX^2 + DX^3 \text{ where}$$

A is the flag-fall (value 40.9)

B, C, D, are the distance coefficients (values B = 129.7, C = -17.9, D = 1.37)

X is the journey distance expressed in thousands of kilometres

For multistage journeys, the distance rate for kilometres in excess of 3611, where applicable, will be calculated at 5.402 cents per kilometre.

F27 Services

The formula for AAA and TAA F27 services incorporating flag-fall plus a distance rate will be:

$$\text{Fare (\$)} = A + BX \text{ where:}$$

A is the flag-fall (value 41.70)

B is the distance coefficient (value 0.13582)

X is the journey distance in kilometres.

First Class air fares will be 150 per cent of the relevant economy air fare.

For TAA the 'Business Class' air fare will be 115 per cent of the relevant economy air fare.

The Determination will result in a weighted average fare increase of about 5.5 per cent.

The Committee approves the implementation by AAA and TAA, at their own discretion, of the following formula for the construction of combined Jet/F27 through fares on their own routes:

To the fare calculated over the entire journey using the jet formula, add the difference between the fare calculated by the Jet formula and the F27 formula over the sector (or sectors) flown by the F27 plus a Jet flag fall minus an F27 flag fall.

The Committee received a request for a major air fares review from AAA on 30 November 1982, which, under the provisions of section 15 (3) of the IAFCA Act, enjoined TAA in a review of air fares over both operators' route networks. Each operator sought a different level of increase in economy air fares.

The Committee is concerned that continuing increases in air fares on trunk routes can only have an adverse effect on demand. Section 15 (11) of the IAFCA Act requires the Committee to have regard, inter alia, to the need to ensure that air services are provided over trunk routes by two economically viable passenger operators. This consideration was the prime reason for the Committee's determination of new air fare formulae for AAA and TAA, effective from 6 January 1983, providing for a weighted average fare increase of 5.5 per cent on their route networks which was substantially less than the level of increase sought by one of the operators.

Both airlines continue to incur substantial increases in costs for the year ending 30 June 1983 (including salaries and wages, air navigation charges, catering, fuel and oil), the effect of which has been aggravated by significantly higher capital servicing costs and a marked overall decrease in passenger demand. Improvements in efficiency and productivity have not been sufficient to compensate for the above factors although there are notable differences in realised and budgeted revenue yields and passenger load factors for both operators.

The introduction of new aircraft by both AAA and TAA and the lack of passenger traffic growth on trunk routes are the principal reasons for the continuing increases in air fares by these operators. There is evidence that excess capacity is likely to continue for some time. This situation will be exacerbated as additional 'wide bodied' aircraft are brought into service towards the end of the present financial year, which will lead to higher costs being incurred.

Determination

Operator: Airlines of Northern Australia.

Section of Act: 15.

Date Notified: 10.1.83.

Brief Particulars of Terms and Reasons: The Committee received a request for a major air fares review from Airlines of Northern Australia (ANA) on 6 December 1982, and has determined the following new air fare formulae:

F28 Services

Flagfall \$40.70

Distance Rate 12.714 c/km

F27 Services

Flagfall \$29.90

Distance Rate 17.609 c/km

The new air fare formulae represent a 3 per cent increase over existing fares which is a substantially lower increase than that sought by ANA.

In its previous determination of September 1982, the Committee expressed concern at the effect on costs of continuing low load factors on certain of ANA's routes, and awaited the outcome of proposals before the Northern Territory Government regarding the rationalisation of services.

This rationalisation has not occurred and the airline continues to operate some routes at uneconomical load factors with aircraft that may not be the most suitable in all instances. The Committee has now been advised that a decision by the Northern Territory Government could be expected by about mid-February.

Section 15 (11) of the IAFCA Act requires the Committee to have regard to, inter alia, the need to ensure that air services are operated on an efficient and economic basis, and in the light of the continuing uneconomic load factors on certain routes, the Committee assessed that the increase in fares be limited to 3 per cent.

The Committee appreciates that given the nature of some intra territory air services and the significance of those services to the communities and tourist industry of the territory, there may be a limit to the extent of rationalisation that is achievable. However, where services are required by local communities and public authorities to be at a standard such that economic load factors are not possible, it may also be appropriate, given the requirements of the IAFCA Act, for governments to provide explicit subsidies. The Committee advocated this in its report of the Cost Allocation Reviews of Ansett Transport Industries Ltd and the Australian National Airlines Commission.
