Special Information

Independent Air Fares Committee Act 1981

INDEPENDENT AIR FARES COMMITTEE

DETERMINATIONS AND DECISIONS

THE Independent Air Fares Committee notifies that it has made the following determinations and decisions:

Decisions

Operator: Ansett Airlines of Australia
Trans Australia Airlines.

Section of Act: 17.

Date notified: 17.6.83.

Brief particulars of terms and reasons: Approval of applications by Ansett Airlines of Australia (AAA) and Trans Australia Airlines (TAA) for a discount return fare (rounded to nearest dollar) at 45% off the normal economy fare on nominated jet routes under specified conditions, applicable during the period 1 July 1983 to 30 June 1984 inclusive with sales to commence on 20 June 1983.

Special booking conditions for both the forward and return journeys, and minimum and maximum stay-away requirements, are applicable to this discount fare. Subject to completion of the special booking process and to seats being available at the discount fare on the route and the day nominated by the passenger, the operator will guarantee carriage on a particular day, but the allocation to individual flights will not occur until the day before the accepted day of travel. Cancellation fees apply in specified circumstances.

With the introduction of the new 45% discount return fare from 1 July 1983, the following discount fares will be withdrawn:

AAA and TAA—20% discount fare on night flights ex Perth

—30% discount Queensland 'weekender' fare

TAA—20% discount Sydney/Canberra off-peak fare.

Following the Cost Allocation Reviews Report of August 1982, the Committee commenced discussions with AAA and TAA to review discount air fares and to consider whether alternative long term discount fares could be introduced. The 45% discount return fare was proposed by the airlines in the course of consultations under clause 7 (10) of the Schedule to the *Airlines Agreement Act 1981*. Discussions on discount fares generally are continuing.

Information provided separately by the operators indicated that the new discount fare was likely to generate additional traffic and improve the profitability of AAA and TAA. The Committee was also satisfied that the fare met the other requirements of section 17 (4) of the IAFCA Act.

Because certain of the approved conditions have not been applicable to previous long term discount fares on trunk routes, the operators have been advised that it is the Committee's intention that the 45% discount return fare be reviewed under section 17 (5) of the IAFCA Act after it has been in operation for six months.

Operator: Ansett Airlines of Australia
Trans Australia Airlines.

Section of Act: 17.

Date notified: 17.6.83.

Brief particulars of terms and reasons: Approval of applications by Ansett Airlines of Australia (AAA) and Trans Australia Airlines (TAA) for a revised 'standby fare' at a 20% discount (rounded to nearest dollar) off the normal economy fare on nominated jet routes under specified conditions, effective from 1 July 1983.

The specified conditions for the approved fare include the requirement that tickets must be purchased at airports and that passengers will be allocated seats on a 'space available' basis.

Information provided separately by the operators indicated that the discount fare was likely to improve the profitability of AAA and TAA and the Committee was satisfied that the proposal met the other criteria of section 17 (4).

DETERMINATION

Operators: Ansett Airlines of Australia, Trans Australia Airlines.

Section of Act: 16.

Date notified: 17 June 1983.

Brief particulars of terms and reasons: Determination of the following formulae for setting economy air fares over related routes operated by Ansett Airlines of Australia (AAA) and Trans Australia Airlines (TAA), effective 1 July 1983.

Jet Services

The formula for AAA and TAA jet services incorporating a flagfall plus a distance rate will be:

Fare (\$) = A + BX + CX² + DX³ where:

A is the flagfall (value 41.40)

B, C, D, are the distance coefficients (values B = 131.39, C = -18.13, D = 1.39)

X is the journey distance expressed in thousands of kilometres

For multistage journeys, the distance rate for kilometres in excess of 3611, where applicable, will be calculated at 5.472 cents per kilometre.

F27 Services

The formula for AAA and TAA F27 services incorporating a flagfall plus a distance rate will be:

Fare (\$) = A + BX where:

A is the flagfall (value 42.20)

B is the distance coefficient (value 0.13759)

X is the journey distance in kilometres

The Committee also determined that first-class air fares will be 150 per cent of the relevant economy air fare.

For TAA the 'Business Class' air fare will be 115 per cent of the relevant economy air fare.

The determination will result in fare increases of 1.3 per cent.

This variation in air fares is due to the unavoidable cost increase which will be incurred by both AAA and TAA owing to the Commonwealth Government's pronouncement of an increase of two cents per litre on all aviation turbine fuel with effect from 1 July 1983.

Alternatively, that person may become liable to pay, as additional tax by way of penalty, an amount not exceeding the amount of the tax assessed.
