Roads Grants Act 1981

I, PETER FREDERICK MORRIS, Minister of State for Transport of the Commonwealth of Australia, in pursuance of section 13 of the *Roads Grants Act 1981*, have entered into an agreement with Julian Fletcher Grill, Minister for Transport, and Regional Development and the North West of the State of Western Australia, relating to allocations for local roads. The principles formulated pursuant to the said agreement are as follows:

Commonwealth grants to Western Australia, which are made annually for construction and maintenance of local roads, will be distributed in accordance with the following principles for 1983-84 and 1984-85:

- 13.98% — for metropolitan councils.
- 8.90% — for country town councils including the City of Bunbury.
- 69.98% — for country shire councils.
- 7.14% — for special projects.

The principles for distributing funds to individual councils within the three council groups will be:

1. Metropolitan Councils
 - ‡ of the funds will be distributed in proportion to population.
 - ‡ of the funds will be distributed in proportion to weighted pavement area (see note below).

These grants are referred to as Base Grants in the Statutory Grants Scheme.

For 1984-85 updated statistics may be applied in determining council Base Grants.

2. Country Town Councils including the City of Bunbury

For 1983-84 each council will retain an amount equivalent to 75% of its 1982-83 Statutory Grant. The remaining 25% plus the 6% increase being provided for these councils will be distributed as follows:

 - ‡ of the funds will be distributed in proportion to population.
 - ‡ of the funds will be distributed in proportion to weighted road length.

These grants are referred to as Statutory Grants.

In 1984-85 each council's grant will be marked up by the percentage by which local road funds increase.

3. Country Shire Councils

Each council's share will be made up of three components called Element A, Element B and Element C.

Element A—Every council will receive a base amount which will be \$34 000 in 1983-84.

Element B—Every council will receive a routine maintenance grant for unclassified roads in 1983-84 determined as follows:

- Shires in Agricultural areas \$15.20 per weighted km
- Shires in Pastoral areas (excl. Pilbara and Kimberley) \$13.50 per weighted km
- Shires in Pilbara \$16.80 per weighted km
- Shires in Kimberley \$23.90 per weighted km

Element C—Every council will receive a Statutory Grant distributed in proportion to population and weighted road length (see note below) determined as follows:

In 1983-84 every Rural Shire Council will receive a Statutory Grant calculated as follows:

- Each council will retain an amount equivalent to 75% of its 1982-83 Statutory Grant. The remaining 25% plus the 6% increase in the funds being provided will be distributed by formula using updated population and road length statistics.
- The formulae provided for distribution in accordance with population, weighted road length within clearly defined groups:

| Local authority grouping | Proportion to be allocated according to | |
|---|---|----------------------|
| | Population | Weighted road length |
| Agricultural Shires grouped on a ward basis | ‡ | ‡ |
| Kimberley Shires on a regional basis | ‡ | ‡ |
| Shires in Mining and Pastoral areas with population densities between 1 and 6 persons per 100 square kilometres | ‡ | ‡ |
| Shires in Mining and Pastoral areas with large towns | ‡ | ‡ |
| East and West Pilbara Shires on a regional basis | ‡ | ‡ |
| Shires in Mining and Pastoral areas with population densities below 1 person per 100 square kilometres | ‡ | ‡ |

For the Shires of East Pilbara and West Pilbara, a subsidy of \$232 830 has been made in recognition of the increased responsibility that these councils now have for town streets following normalisation of the company towns in Newman, Paraburdoo and Tom Price. The total amount for these two councils, made up of their 1982-83 Statutory Grants, the 6% increase and the subsidy has been distributed by formula.

Statutory Grants are subject to a minimum grant provision that no Shire should receive less than \$29.00 per weighted kilometre.

In 1984-85 elements A, B and C will be marked up by the percentage by which local road funds increase.

4. Special Projects

These funds will be allocated to special projects outside the Perth Metropolitan Region. They would comprise bridges, flood damage and roadworks that are beyond the financial or technical capacity of councils.

Note: The weighting referred to in these principles for pavement area and road length is two for a sealed road and one for an unsealed road.

Dated this 30th day of November 1983.
