Special Information

NOTICES UNDER THE INDEPENDENT AIR FARES COMMITTEE ACT 1981

Determination

Operators: Ansett Airlines of Australia
Australian Airlines

Reference: B19 and B20/86

Section of Act: 16

Date Notified: 11 September 1986

Brief Particulars of Terms and Reasons: On 11 September 1986 the Committee determined as follows:

Economy Air Fare Formulae

Determination of the following formulae for setting economy air fares over routes operated by Ansett Airlines of Australia (AAA) and Australian Airlines (TN), effective 13 September 1986:

Jet Services:

The new formula for AAA and TN jet services incorporating a flag-fall plus a distance rate will be:

Fare (\$) = A + BX + CX² + DX³ where:

A is the flag-fall (value 50.50)

B, C, D are the distance coefficients (Values B = 173.10; C = -27.51; D = 2.62)

X is the journey distance expressed in thousands of kilometres

For multi-stage journeys the distance rate for kilometres in excess of 3611, where applicable, will be calculated at 7.695 cents per kilometre.

This determination results in an increase of 0.75% for the jet air fare formula.

Non-Jet Services:

The formulae for F27/J31 services incorporating a flag-fall plus a distance rate will continue to be:

Ansett Airlines of Australia

Fare (\$) = A + BX where:

A is the flag-fall (value 48.05)

B is the distance coefficient (value 0.15679)

X is the journey distance in kilometres.

Australian Airlines

Fare (\$) = A + BX where:

A is the flag-fall (value 51.72)

B is the distance coefficient (value 0.16876)

X is the journey distance in kilometres.

This determination results in no increase for AAA's and TN's non-jet air fare formulae.

The Committee was requested to undertake a Minor air fares review covering all services and routes operated by AAA and TN. Each airline sought a different level of increase in economy fares to recover the full additional costs of fuel and the 15% surcharge on airport charges for large jet aircraft arising from decisions in the Federal Budget on 19 August 1986.

These increased costs represent a significant variation to the estimates for the 1986/87 financial year provided by AAA and TN and taken into account by the Committee at the August 1986 Major air fares review (see *Gazette* No. G 36 dated 9.9.86). Both airlines had made various allowances in their 1986/87 estimates for changes in the price of fuel. However, neither operator had made provision for the 15% surcharge on airport landing charges applicable to their jet services only.

The Committee acknowledges that AAA and TN have achieved improvements in efficiency generally in recent years which have contained costs, and the Committee sees no lessening of their endeavours in this regard.

Accordingly, the Committee concluded that it would be inequitable for the airlines to absorb the whole of this additional cost burden (estimated to be in total some \$20m in 1986/87), and that part should be recovered through a small increase of 0.75% in air fares on jet services. No increase was considered warranted in relation to non-jet services.

The Committee approved a proposal from AAA and TN for the rounding of fares to the nearest dollar. In general terms the approved rules provide that where the calculated formula fare produces an amount in the range 50-99 cents inclusive, the fare will be rounded upwards to the next dollar, and rounded downwards to the next dollar in the case of amounts in the range 1-49 cents inclusive.

Approved one-way economy air fares for jet services on the major trunk routes from 13 September 1986 are as follows:
