The Australian Meat and Live-stock Corporation (AMLC) has power under Section 16K of the AMLC Act to make orders, with the approval of the Minister for Primary Industry, in accordance with which contracts for the carriage of meat, by sea, from Australia to countries and places outside Australia are to be made by the holder of meat export licences.

The AMLC is currently reviewing whether it will exercise this statutory power in relation to the carriage of meat to the United States of America and Canada after the expiry of the current designation arrangements at the end of February 1988. The AMLC therefore invites both container and conventional shipping lines to submit detailed proposals for their designation by the AMLC to participate in the carriage of Australia's meat exports to the United States of America and Canada from 1 March 1988 for a period to be determined.

Shipping lines should make their submissions in writing to the following by 14 August 1987:

The Managing Director  
Australian Meat and Live-stock Corporation  
G.P.O. Box 4129  
Sydney 2001.

The AMLC is currently examining the role of centralisation arrangements and their influence on the trade. These arrangements may need to be modified or removed to reflect the meat industry's changing requirements. The lines' submissions should therefore take into account the possibility of services being provided with, or without, centralisation costs and pan-Australian maximum rates included in the freight rates. In addition, the submissions could include recommendations on the introduction of innovative handling procedures or other advances in technology which would generate greater efficiencies in the trade.

The AMLC will arrange meetings, which are currently scheduled for September 1987, with interested lines at its head office in Sydney to discuss the lines proposals. Final arrangements will be advised in due course and further consultations may be required.

#### PART IV - MISCELLANEOUS

##### Ward Differentials

24. (1) The Secretary shall, subject to subprinciple (2), determine a uniform scale of fees for all wards in a nursing home.
- (2) The Secretary shall, in the case of a Participating Home Type 1 or 2 which had a scale of fees determined under subparagraph 40AA(6)(c)(i) of the Act in force in relation to the home on 30 June 1987 which distinguished between wards offering different standards of accommodation, determine a scale of fees which distinguishes between those wards.
- (3) For the purposes of subparagraph (2), the difference between a higher fee determined for ordinary care patients in a particular ward and the lowest fee determined for ordinary care patients in a ward in the nursing home shall be the difference between the fees applying to ordinary care patients in those wards under the scale of fees in force in relation to that nursing home on 30 June 1987 multiplied by the factor declared

by the Minister to be the component B for the purposes of subsection 40AG(8) of the Act in respect of the financial year in relation to which the scale of fees is determined.

### Loadings

25. (1) In determining a scale of fees in relation to a Participating Home Type 1 or 2, the Secretary shall take into account as a loading, any income from fees which has been foregone or gained by a nursing home proprietor due to the period of delay between a cost being incurred or saved during the financial year commencing on 1 July 1986 or an earlier financial year and the determination of a scale of fees in which the cost incurred or saved is taken into account.
- (2) In determining a scale of fees in relation to a Participating Home Type 1 or 2, the Secretary shall take into account as a loading, any income from fees which has been foregone or gained by a proprietor taken into account as a loading in the scale of fees in force under subparagraph 40AA(6)(c)(i) of the Act in relation to the nursing home on 30 June 1987, other than an amount of such income which has been recovered by or from the proprietor.
- (3) In determining a scale of fees in relation to a Participating Home Type 1 or 2, the Secretary shall take into account as a loading any income from fees which has been foregone or gained by a nursing home proprietor due to a cost being incurred or saved during the financial year commencing on 1 July 1986 or an earlier financial year where the cost has not been taken into account in the scale of fees in force in relation to the nursing home under subparagraph

40AA(6)(c)(i) of the Act on 30 June 1987 but would have been so taken into account in accordance with the Nursing Homes Fees Determination Principles if a scale of fees had been determined on that day and that scale of fees had taken into account all income foregone or gained due to costs being incurred or saved before that day.

(4) In determining a scale of fees in relation to a nursing home, the Secretary shall take into account as a loading, the difference between:

(a) the sum of the amount paid to the proprietor under section 49 of the Act and the income from fees which represents  $(NPC-ECB)/ABE$  in the relevant formula in subsection 40AG(5) or (6) of the Act, in relation to a period; and

(b) the actual expenditure on nursing and personal care costs in that period determined in accordance with subprinciples (5), (6) and (7).

(5) In determining the actual expenditure on nursing and personal care costs in relation to a period, the Secretary shall take into account:

(a) the actual cost during that period at the relevant award rates of the salaries, wages and allowances for approved levels of nursing and personal care staff, determined subject to subprinciple (6) in accordance with principles 8 and 9;

(b) the actual cost during that period at the relevant award rates of long service leave payments for nursing and personal care staff, determined subject to subprinciple (6) in accordance with principle 10;

(c) the actual cost during that period at the relevant award rates of superannuation payments for nursing and personal care staff where the expenditure on superannuation:

- (i) was required under relevant awards applying to the staff member or by law;
- (ii) in the case of a Participating Home Type 1 or 2, was taken into account in the determination of the scale of fees in force in relation to the nursing home under subparagraph 40AA(6)(c)(i) of the Act on 30 June 1987 in relation to a particular staff member or members although not required under relevant awards or by law and that member or those members continued to provide nursing and personal care in the home; or
- (iii) in the case of a Transferred Home Type 1 or 2, was taken into account in relation to the nursing home and, in a case where the nursing home provides approved services, the proportion of the expenditure on superannuation in relation to the approved services that equals the proportion of the services that are provided to patients of a nursing home, taken into account in the budget approved in relation to the nursing home under clause 6.1 of the agreement entered into under subsection 15(1) of the Nursing Homes Act and in force in relation to the nursing home on 30 June 1987;

(d) the actual cost during that period at the relevant award rates of payroll tax for all staff of the nursing home, determined subject to subprinciple (6) in accordance with principle 11; and

(e) the actual cost during that period at the relevant award rates of workers' compensation insurance premiums for all staff of the nursing home, determined subject to subprinciple (6) in accordance with principle 12.

(6) For the purposes of subprinciple (5):

(a) the references to "subprinciple 7(1)" in principles 8, 9, 10, 11 and 12 have effect as if they were references to "subprinciple 25(5)"; and

(b) the references to "estimated cost" in principles 9, 10, 11 and 12 have effect as if they were references to "actual cost".

(7) Subprinciples 13 (1), (2) and (3) apply to a determination of actual expenditure on nursing and personal care costs under subprinciple 25(5) as if the references in those subprinciples to "the basic nursing and personal care cost under principle 7" were references to "the actual expenditure on nursing and personal care costs under subprinciple 25(5)".

(8) Where there is a difference between:

(a) the sum of the amount paid to the proprietor under section 49 of the Act and the income from fees which represents (NPC-ECB)/ABE in the relevant formula in subsection 40AG(5) or (6) of the Act in relation to a period in relation to a nursing home; and

- (b) the actual expenditure on nursing and personal care costs in that period determined in accordance with subprinciples (5), (6) and (7);

due to a change in a particular cost item taken into account under subprinciple (5), and the Secretary determines a scale of fees during a financial year which does not take effect at the beginning of the financial year, the Secretary shall, in determining that scale of fees, take into account as a loading, any income from fees which has been foregone or gained by a nursing home proprietor due to the period of delay between the change in the particular cost item and the determination of a scale of fees in which the change is taken into account.

(9) Where:

- (a) the Secretary makes a further determination during a financial year of the standard ordinary care fee for an approved nursing home under subsection 40AG(2) of the Act in accordance with paragraph 40AG(3)(b); and
- (b) the amount which represents  $AIA/ABD$  in the formula in subsection 40AG(5) of the Act is different to the amount which represented that component of the formula in the determination of the standard ordinary care fee which took effect at the beginning of the financial year;

the Secretary shall, in determining a scale of fees in relation to the nursing home, take into account as a loading, any income from fees which has been foregone or gained by a nursing home proprietor due to the difference between the two amounts.

- (10) Where the Secretary takes into account a return on expenditure in accordance with subprinciple 23(9) in relation to works that are necessary for the provision of adequate patient care to patients in a Participating Home Type 1 or 2 in determining a scale of fees in relation to the nursing home, the Secretary shall take into account as a loading any income from fees which has been foregone by the proprietor of the nursing home due to the period of delay between the receipt of the application under subsection 40AD(1B) of the Act for the determination of a scale of fees taking into account a return on that expenditure and the determination of the scale of fees.
- (11) In determining a scale of fees in relation to a Transferred Home Type 1 or 2, the Secretary shall take into account as a loading, expenditure on an item referred to in clause 11.1 of the agreement entered into under subsection 15(1) of the Nursing Homes Act and in force in relation to the nursing home on 30 June 1987 where:
- (a) the proprietor submitted particulars of the item to the Secretary in accordance with clause 11.2 or 11.4 of the agreement before 1 July 1987;
  - (b) the Secretary approves expenditure on the item before 1 July 1991;
  - (c) the Secretary has not arranged for the proprietor to be reimbursed for the expenditure under clause 11.6 of the agreement before 1 July 1987; and
  - (d) the expenditure on the item occurs before 1 July 1991.

- (12) In determining a scale of fees in relation to a nursing home, subject to subprinciples (13) and (14), the Secretary shall take into account as a loading, income received by the proprietor of the nursing home as fees paid by, or on behalf of, persons admitted to the nursing home as short-term respite care patients in respect of nursing home care received by them in the nursing home.
- (13) For the purposes of subprinciple (12), the amount of income to be taken into account is the amount by which the fees paid in relation to the person who was admitted to the nursing home as a short-term respite care patient exceed the prescribed amount.
- (14) For the purposes of subprinciple (13), the prescribed amount in relation to a person who was admitted to a nursing home as a short-term respite care patient is such amount as is ascertained in accordance with the formula -

$(AB)/2$

where -

A is the amount applicable under subparagraph 47(2)(b)(iii) of the Act; and

B is the number of days on which the person received nursing home care in the nursing home as a short-term respite care patient .

- (15) Where the Secretary, in determining a scale of fees in relation to a nursing home, has deducted an amount of income or benefit expected to be received by the proprietor of a nursing home from the Government of a State or Territory during a financial year in accordance with subprinciple 13(4), the Secretary shall, in determining a scale of fees in relation to the nursing home, take into account as a loading, any difference between the amount of income or benefit expected to be received during a period of the financial year and the actual amount of income or benefit received during that period.
- (16) In determining a scale of fees in relation to a nursing home, the Secretary shall take into account as a loading, any expenditure on a reasonable excess applying under a workers' compensation insurance contract during a period, the premiums for which are taken into account in relation to that period in determining the basic nursing and personal care cost of the nursing home under principle 7.
- (17) Where, for the first time after a person has acquired the business or undertaking carried on at a nursing home, the Secretary is determining a scale of fees in relation to the nursing home, the Secretary shall take into account
- (a) any loadings reflected in the scale of fees applying before acquisition; and

- (b) any loadings that would have been reflected in the scale of fees applying before acquisition if a scale of fees had been determined on the day before the day of acquisition and that scale of fees had taken into account all income from fees foregone or gained due to costs being incurred or saved before the day of acquisition.

#### **Extensive Care Fee**

- 26.(1) Where the Secretary determines a uniform scale of fees for all wards in a nursing home, the Secretary shall determine an extensive care fee which is equal to the sum of:
  - (a) the fee applying to ordinary care patients; and
  - (b) the amount of the Commonwealth benefit specified in section 49 of the Act or, if another amount is determined under that section, that other amount.
- (2) Where the Secretary determines a scale of fees which distinguishes between wards offering different standards of accommodation, the Secretary shall determine a scale of extensive care fees in relation to those wards, and the extensive care fee in relation to each ward shall equal the sum of:

- (a) the fee applying to ordinary care patients; and
- (b) the amount of the Commonwealth benefit specified in section 49 of the Act or, if another amount is determined under that section, that other amount.
