CHRISTMAS/NEW YEAR PERIOD

Commonwealth of Australia Gazette

The last regular *Gazette* for 1988 will be the Public Service issue to be published on 22 December 1988 with normal closing times. There will be no regular issues of the *Gazette* on 27 December 1988, 28 December 1988, 29 December 1988, 3 January 1989, 4 January 1989 and 5 January 1989.

The Government Notices Issue of 11 January 1989 will have normal closing times.

Friday, 6 January 1989 at 10.00 a.m.

Departments are requested to note the dates upon which regular issues will not appear and to make every effort to avoid the need for *Special Issues* during the holiday period by making arrangements for all necessary administrative and executive material to be gazetted by Wednesday 21 December 1988. Where possible all other material should be held over until the first regular issue of 1989.

Special issues include notices which require urgent publication. All costs associated with producing Specials will be borne by the responsible department or authority. A limited number of *Special Gazettes* will be made available for sale from the Commonwealth Government Bookshop, Canberra, on the day of publication. General distribution of these notices will be by their inclusion in the next published issue of the Government Notices *Gazette* or *Business Gazette* as well as in the next published issue of the series of the *Gazette* in which the notice would normally have been published.

Tariff concessions issues contain notices of tariff concessions proposed, granted or revoked in accordance with the provisions of Part XVA of the *Customs Act 1901*. These issues are published each Wednesday and are sold at \$1.95 or on subscription only at \$115.00 for 50 issues including surface postage.

Periodic issues contain lengthy notices of a non-urgent nature, including the following: certificates of Australian

citizenship; registered tax agents; authorised celebrants; unclaimed deposits and moneys; Australian Public Service conditions of entry and advancement; appointments to the Australian Public Service; holders of import licences and tariff quotas. Issues are made at irregular intervals as required, at individual prices according to size. Advice of availability is given in the Government Notices, Business and Public Service issues immediately following the day of publication. Periodic issues are not available on subscription, but standing orders are accepted for all selected issues.

Purchasing and Disposals issues of the *Gazette* provide information on Commonwealth purchases and disposals and other matters of general interest to persons buying from or selling to the Commonwealth. These issues are published

each Wednesday and sold at \$3.95 or on subscription of \$200.00 including postage for 50 issues.

Index issues contain references to entries in the Government Notices issues and entries in the Orders in Council, Notices under the Superannuation Act, Notices under the Public Service Act, and Determinations under the Public Service Act sections of the Public Service issues. Index issues are published quarterly, are available over the counter from Commonwealth Government Bookshops and are supplied without charge to annual subscribers to the Government Notices issues.

Determination

MISSIONARY AVIATION FELLOWSHIP (A38/88)

15

7.12.88

Determination of the following one-way economy air fares, representing an average increase of 8 per cent on its network fares, effective 1 January 1989:

	\$		\$
Gove-Elcho Island	70	Elcho Is-Lake Evella	38
-Lake Evella	59	-Milingimbi	43
-Milingimbi	97	-Ramininging	43
-Ramininging	97	Lake Evella-Milingimbi	59
Milingimbi-Ramininging	24	-Ramininging	57

Determination reflects increases in costs incurred by the operator since its last fares review in December 1987.

Consultations took place with the Northern Territory Government prior to the Committee making the above determination.

Decisions

ANSETT WA (D209/88)

17 (4)

14.12.88

Approval to offer a \$450 return discount fare on the Perth-Broome route, representing a discount of 36.2 per cent off the normal economy air fare for travel on specified flights on Saturdays between 6 May and 21 October 1989 available under specified conditions as proposed by the operator and only in conjunction with a seven day accommodation package.

Approved on basis of estimates provided by the operator that the discount fare will generate additional traffic and improve profitability.

AIR NSW (D210/88)

17 (4)

14.12.88

Approval to offer Christmas backloading discount fares at 50 per cent off the normal economy fares on nominated flights and routes, available between 23 and 28 December 1988 under specified conditions as proposed by the operator.

Approved on basis of estimates provided by the operator that the discount fares will generate additional traffic and improve profitability.

COMMONWEALTH OF AUSTRALIAGreat Barrier Reef Marine Park Act 1975
Great Barrier Reef Marine Park RegulationsNOTICE OF DECLARATION OF REEF APPRECIATION AREAS AT NORMAN REEF,
HASTINGS REEF AND WATSON'S BAY (LIZARD ISLAND)

In pursuance of the powers delegated to the Chairman by the Great Barrier Reef Marine Park Authority on 26th June 1985 under Section 61 of the Great Barrier Reef Marine Park Act 1975 and in pursuance of sub-regulation 12 (2) of the Great Barrier Reef Marine Park Regulations, I, Donald William Kinsey, Acting Chairman of the Great Barrier Reef Marine Park Authority hereby declare each of the areas specified in the Schedule to be a REEF APPRECIATION AREA for the period from and including 1 January 1989 to either 1 January 1991, or the date a revised Zoning Plan for the Cairns Section comes into effect, whichever is the earlier.

SCHEDULE(1) Norman Reef (Reef 16-030)

The area within the General Use "A" zone of the Cairns Section of the Great Barrier Reef Marine Park on the north-western side of the Norman Reef (Reef 16-030) that is bounded by the line:

- a) commencing point of intersection of the western most point of the reef edge exposed at mean low-water by the meridian of Longitude which passes through that point;
- b) running thence north along that meridian for a distance of 250 metres;
- c) thence north-easterly at a bearing of 31° true for a distance of 950 metres;
- d) thence north-easterly at a bearing of 60° true for a distance of 1170 metres;
- e) thence south along the meridian to its intersection by the northernmost point of the reef edge exposed at mean low-water; and
- f) thence south-westerly along the geodesic to the point of commencement.

(2) Hastings Reef (Reef 16-057)

The area within the General Use "B" zone of the Cairns Section of the Great Barrier Reef Marine Park at the western end of Hastings Reef (Reef 16-057) that is bounded by the line:

- a) commencing at the point of Latitude $16^{\circ}31'.4$ South, Longitude $146^{\circ}00'$ East;

- b) running thence south along the meridian of Longitude $146^{\circ}00'$ East to its intersection by the parallel of Latitude $16^{\circ}32'.1$ South;
- c) thence south-westerly along the geodesic to the point of Latitude $16^{\circ}32'.4$ South, Longitude $145^{\circ}59'$ East;
- d) thence north along the meridian of Longitude $145^{\circ}59'$ East to its intersection by the parallel of Latitude $16^{\circ}31'.85$ South; and
- e) thence north-easterly along the geodesic to the point of commencement.

(3) Watson's Bay (Lizard Island)

The area within the Marine National Park "A" zone of the Cairns Section of the Great Barrier Reef Marine Park at Watson's Bay, Lizard Island, bounded by the line:

- a) commencing at the point of intersection of the parallel of Latitude $14^{\circ}39'34"$ South by the western coastline of Lizard Island at mean low-water;
- b) running thence generally south-easterly, south-westerly and north-westerly along that coastline at mean low-water to its intersection by the meridian of Longitude $145^{\circ}26'53"$ East;
- c) thence north-westerly along the geodesic to the point of Latitude $14^{\circ}39'52"$ South, Longitude $145^{\circ}26'47"$ East; and
- d) thence north-easterly along the geodesic to the point of commencement.

Dated this 14th day of December 1988.

The Common Seal of the Great Barrier Reef Marine Park Authority was hereunto affixed in the presence of:

Ruth Harrold-Thompson
Witness

Donald W Kinsey
Acting Chairman

NOTE: The objective of Reef Appreciation Areas is to provide for a specified period of time, small areas on heavily used reefs, in which the public may observe and appreciate relatively undisturbed marine life. Fishing and collecting will not be allowed in Reef Appreciation Areas.

NON-DECLARATION OF TWO PROPOSED REEF APPRECIATION AREAS

Following public representations (particularly those from commercial fishermen and aquarium fish collectors), and discussions with other agencies, the Great Barrier Reef Marine Park Authority decided not to proceed with the proposals for Reef Appreciation Areas on **MILLN REEF** or **FLYNN REEF**.

COMMONWEALTH OF AUSTRALIA

ELIZABETH THE SECOND, by the Grace of God, Queen of Australia and Her other Realms and Territories, Head of the Commonwealth:

To:

THE HONOURABLE DANIEL JOHN O'DEA

GREETING:

WHEREAS by Letters Patent issued in Our name by Our Governor-General of the Commonwealth of Australia on 27 October 1988 We appointed you to be a Commissioner to inquire into and report upon certain deaths in Australia since 1 January 1980 of Aborigines and Torres Strait Islanders whilst in police custody, in prison or in any other place of detention and into certain matters relating thereto:

AND WHEREAS it is desirable that those Letters Patent be varied in a certain respect:

NOW THEREFORE We do, by these Our Letters Patent issued in Our name by Our Governor-General of the Commonwealth of Australia on the advice of the Federal Executive Council and pursuant to the Constitution of the Commonwealth of Australia, the *Royal Commissions Act 1902* and every other enabling power, declare that the Letters Patent issued on 27 October 1988 shall have effect as if for the words 'in police custody, in prison or in any other place caused or contributed to that death' there were substituted 'in police custody, in prison or in any other place of detention caused or contributed to that death'.

NOTICE OF INQUIRY

Submissions Invited

The Australian Broadcasting Tribunal has commenced an inquiry into the acquisition by Shepparton Broadcasting Services Pty Ltd, from Associated Broadcasting Services Limited of all issued share capital of Hanor Pty Ltd and Ellamone Pty Ltd, licensees of commercial radio 3SR Shepparton and 3UL Gippsland respectively.

The Tribunal has received an application from Shepparton Broadcasting Services Pty Ltd and others acquiring an interest in these licences.

The issues to be considered in the inquiry are whether, if the application was for consent to the transfer of the licence

under section 89A of the *Broadcasting Act 1942*, the Tribunal should refuse consent having regard particularly to:

- (a) whether it would be advisable in the public interest because:
 - (i) the applicants are not fit and proper persons to hold the licences;
 - (ii) the applicants do not have the necessary financial, technical and management capabilities;
 - (iii) the applicants are not capable of complying with the conditions of the licence.
- (b) the applicants' compliance with undertakings to provide the adequate and comprehensive services and to use and encourage the use of Australian creative resources;
- (c) whether if consent was given, contraventions of section 90C (limitation of interests), section 90F (limitations of directorships), section 90G (foreign ownership provisions), section 92FAB (cross-media ownership) or section 92FAD (cross-media directorship) would occur.

Any person wishing to make a submission on these issues may lodge it with the Tribunal by 3.2.89.

Before you lodge a submission, it would assist you to inspect the relevant inquiry file (containing the applications and other useful background information) and read the Tribunal's Guide for Submitters (copies are available from the Tribunal and are attached to the inquiry files). NOTICE OF INQUIRY

Submissions invited

The Australian Broadcasting Tribunal has commenced an inquiry into the acquisition by Sunraysia Television Limited

(Sunraysia) of 1 455 946 fully paid ordinary shares in Tricom Corporation Limited (Tricom). As a result of this transaction Sunraysia now holds shares representing 11.43 per cent of the issued share capital in Tricom. Tricom holds 100 per cent of shares in the Victorian Broadcasting Network (1983) Pty Ltd which is the licensee of BCV-9 Bendigo and GLV-8 Traralgon.

The Tribunal has received applications from Sunraysia and others acquiring an interest in these licences. The issues to be considered in the inquiry are whether, if the application was for consent to the transfer of the licences under section 89A of the *Broadcasting Act 1942*, the Tribunal should refuse consent having regard particularly to:

- (a) whether it would be advisable in the public interest, because:
 - (i) the applicant is not a fit and proper person to hold the licences;
 - (ii) the applicant does not have the necessary financial, technical and management capabilities to provide an adequate and comprehensive service pursuant to the licences;
 - (iii) the applicant is not capable of complying with the conditions of the licences;
- (b) the applicant's compliance with undertakings to provide adequate and comprehensive services, and to use and encourage the use of Australian creative resources;
- (c) whether if consent was given, contraventions of section 92 (limitation of interests), sections 92C (limitation of directors) or section 92D (foreign ownership provisions) would occur.
- (d) whether, if consent was given, contraventions of section 92FAB (cross media ownership) or section 92FAD (cross media directorship) would occur.

Any person wishing to make a submission on these issues may lodge it with the Tribunal by 3.2.89.

Before you lodge a submission, it would assist you to inspect the relevant inquiry file containing applications and other useful background information and read the *Tribunal's Guide for Submitters* (copies are available from the Tribunal and are attached to the inquiry files). NOTICE OF INQUIRY

ADVERTISEMENTS RELATING TO BETTING OR GAMBLING ON COMMERCIAL TELEVISION AND RADIO

IP/88/212

The Australian Broadcasting Tribunal is inquiring into whether its television and radio regulations relating to betting and gambling advertisements should be amended so that each advertisement carries an educational or warning message concerning compulsive gambling.

This inquiry follows a request from the New Life Ministry at Street Level Incorporated of Broadbeach, Queensland, to vary the advertising conditions for commercial radio and television because of its concern at the possible effects of gambling and betting on families and their health and welfare.

The issues to be considered in this inquiry are:

1. (a) Whether advertisements on commercial television relating to betting and gambling should carry an educational and/or health warning; and

(b) if so, in what form and manner?

2. (a) Whether advertisements on commercial radio relating to betting and gambling should carry an educational and/or health warning; and

(b) if so, in what form and manner?

3. Such other matters relevant to the inquiry as the Tribunal sees fit.

Written submissions are invited from the public addressing these issues. A brief information paper and a guide to help you prepare a submission are available from the Tribunal's Sydney office, and its offices in each state (except Tasmania). Submissions should reach The General Manager, Australian Broadcasting Tribunal, Tandem House, 76 Berry St, North Sydney NSW 2060, no later than 24 February 1989. Each submission will become a public document and will be attached to the inquiry file unless access is restricted by the Tribunal for the whole or part of it. Copies of the inquiry file can be examined at all Tribunal offices between 9.00 a.m. and 5.00 p.m. on weekdays and at the State Library in Hobart and the State Reference Library in Darwin.

FAI GROUP ACQUISITION OF AND INCREASE TO PRESCRIBED INTERESTS IN QINTEX GROUP COMMERCIAL TELEVISION SERVICES ATN-7 SYDNEY, HSV-7 MELBOURNE, BTQ-7 BRISBANE, MVQ-6 MACKAY AND SEQ-8 WIDE BAY-BURNETT

Notice of Inquiry

Submissions Invited

The Australian Broadcasting Tribunal has commenced an inquiry into the acquisition of and increase to prescribed interests in commercial television services ATN-7 Sydney, HSV-7 Melbourne, BTQ-7 Brisbane, MVQ-6 Mackay, and SEQ-8 Wide Bay-Burnett by:

FAI Insurances Ltd
Lader Pty Ltd
Bobrod Pty Ltd

The prescribed interests result from shares acquired by FAI Insurances Ltd and certain wholly owned subsidiaries in Qintex Ltd and Qintex Australia Ltd.

The issues to be considered in the inquiry are whether, if the application were for consent to the transfer of the licences under s.89A of the *Broadcasting Act 1942*, the Tribunal should refuse consent having regard to:

1. (a) whether the giving of approval would be contrary to a provision of the Act;
- (b) whether it would be advisable in the public interest to refuse approval on the grounds that the applicants:
 - (i) are not fit and proper persons to hold these licences;
 - (ii) do not have the financial, technical and management capabilities necessary to provide the services to which the licences relate; or
 - (iii) are not otherwise capable of complying with the conditions of the licence;
- (c) whether the circumstances are such that, if the Tribunal gave approval:
 - (i) the Tribunal would have reasonable grounds for believing that a person would be contravening the multiple interest or cross media limits (s.92 and or 92FAB) in circumstances which would constitute an offence;
 - (ii) a person would be contravening the multiple or cross-media directorship limits (s.92C or 92FAD);
 - (iii) a condition specified in s.92D would be contravened (foreign ownership); and
- (d) matters relating to the undertakings given by the licensees that they will provide an adequate and comprehensive service pursuant to the licence and encourage the provision of programs wholly or substantially produced in Australia, and use and encourage the use of Australian creative resources in and in connection with the provision of programs.

2. Such other matters relevant to the inquiry as the Tribunal sees fit.

Any person wishing to make a submission on these issues may lodge it with the Tribunal by 3 February 1989.

Before you lodge a submission, it would assist you to inspect the relevant inquiry file (10/88/170) containing the applications and other useful background information, and

to read the *Tribunal's Guide for Submitters* (copies are available from the Tribunal and are attached to the inquiry files). A background paper on the transaction may be obtained and inquiry files can be inspected during business hours at the following addresses:

Notice of Inquiry

Submissions Invited

The Australian Broadcasting Tribunal has commenced an inquiry into the acquisition of and increase to prescribed interests in commercial television services ATN-7 Sydney, HSV-7 Melbourne, BTQ-7 Brisbane, MVQ-6 Mackay and SEQ-8 Wide Bay-Burnett by the Australian Mutual Provident Society (AMP).

The prescribed interests result from shares acquired by AMP in Qintex Australia Ltd.

The issues to be considered in the inquiry are whether, if the application were for consent to the transfer of the licences under s.89A of the *Broadcasting Act 1942*, the Tribunal should refuse consent having regard to:

1. (a) whether the giving of approval would be contrary to a provision of the Act;

VIOLENCE ON TELEVISION NOTICE OF INQUIRY

Background

The Australian Broadcasting Tribunal (ABT) is holding an Inquiry into the portrayal, presentation and reporting of violence on television.

The Inquiry is being conducted by two full-time members of the ABT and three associate members appointed for the duration of the inquiry. The full-time members are Deirdre O'Connor, Chairman of the ABT and Michael Ramsden. The part-time members are George Negus, television journalist and host of the *Today* program, Dr Patricia Edgar, Director of the Australian Children's Film and Television Foundation and Professor Peter Sheehan, Professor of Psychology at the University of Queensland.

The inquiry was initiated by the Federal Minister for Transport and Communications. The Terms of Reference, as set out by the Minister, are:

- (a) The portrayal, presentation and reporting of violence on television including general entertainment programs, news and current affairs programs, cartoons, advertisements and other programs
- (b) The most appropriate method of ensuring that proper consideration is given by licensees to the suitability for inclusion, and the manner of portrayal, of violent material in television programming prior to such material being transmitted; and

- (c) The adequacy of the powers under the *Broadcasting Act 1942* to prevent unacceptable levels of violence in television programs.

When he announced the Inquiry, the Minister directed the Tribunal to consider six major points:

- the concern of the Australian community that recent incidents of extreme violence represent an erosion of human sensibilities and respect for life
- the role and influence of television in this
- the particular susceptibility of children
- the media's responsibility to report events faithfully and accurately
- the concerns expressed at the Special Premier's Conference on 22 December 1987 regarding the continuous, graphic display of violence through the visual media and
- any action by the Attorney-General regarding the control and classification of films and video material.

The Australian Broadcasting Tribunal is to report its findings and make any recommendations to the Minister by 31 August 1989.

Submissions

Written submissions are invited from members of the public, industry groups and other interested organisations.

An information paper has been prepared to assist people wishing to make a submission to the inquiry. This paper notes the background to the inquiry, examines some of the issues involved in television violence and details the relevant Program Standards currently applying. This paper is available from the ABT's offices in Sydney, Melbourne, Adelaide, Perth and Brisbane. A guide to help you prepare a submission is also available at these offices.

Submissions will be regarded as public documents and will become part of the publicly available inquiry file, unless confidentiality is granted by the Tribunal for the whole or part of a submission.

Copies of the Television Violence Inquiry file can be examined during weekday hours at the Tribunal's offices. The files are also available at the Department of Communications library in Canberra, the State Reference Library in Darwin and the State Library of Tasmania.

Closing dates

Submissions should reach the Tribunal's Sydney Office by 5.00 p.m. on Friday, 3 March 1989.

- (ii) In the Parish of Alexandra, bounded by NP.164, TR.165, Lots 173, 226, 144, R.98, Lots 179, 147, 8, 148, 272, 257, 33, 32, 186, 126, 189, 130, 191, 30V, 31V, 36V, 188, 38V, 42V, 43V, 46V and 202;
- (iii) In the Parish of Alexandra bounded by NP.164, Parish of Noah, Lot 203, Cooper Creek and Lot 202;
- (iv) In the Parish of Alexandra bounded by Lots 54V, R.79, High Water Mark of the Coral Sea, Lots 62 and 203;
- (v) In the Parish of Alexandra bounded by Lot 78, Hutchinson Creek, Lots 187, 44V, 43V, 46V, 54V, R.79 and the High Water Mark of the Coral Sea;
- (vi) In the Parish of Alexandra bounded by Lot 78, High Water Mark of the Coral Sea, Lot 77, R.52, Lots 65V, 18, 17, 11, 57V, 35, 37, 82, 190, 6V, 13V, 23V, 22V, 29V, 28V, 21V, 26V, 25V, and 79;
- (vii) In the Parish of Ashton, to the west of NP 547 bounded by Oak Hills Holding;
- (viii) In the Parish of Berwick, east of a line commencing at the southernmost point of Lot 24V on Car.124.272, Parish of Berwick, thence south-westerly to E396000, N7910600, and thence easterly to the crest of Seaview Range at the junction of the parish boundary (Kangaroo Hills and Blackfriars) with the county boundary (Cardwell and Wilkie Gray) and bounded on the east by SF.268;
- (ix) In the Parish of Dulanban, containing an area of about 8 hectares, approximately 400 metres south of Lot 23 on Nr.5250, Parish of Dulanban and bounded on the north-west and south-west by TR.315 and on the north-east and south-east by R.899;
- (x) In the Parishes of Gadgarra and Grafton bounded by SF.310, SF.675 and Lot 123, Parish of Grafton excluding Lots 86, 87, 90, 91, 96, 97, 99 and 101, Parish of Gadgarra;
- (xi) In the Parishes of Glady and Russell, bounded on the east by the High Water Mark of the Coral Sea, between the south-eastern corner of Lot 108, Parish of Russell, and the north-eastern corner of Lot 10V, Parish of Glady and generally on the south by the said Lot 10V and Lots 198, 197, 196, 90V, 76V, 77V, Parish of Glady and generally on the west by Lots 239V, 64V, 282, 88V, 95, 280 and 86V, Parish of Glady, Lots 89 and 88, Parish of Russell, Lot 54V, Parish of Glady, Lot 43V, 49V, 87, 86, 85, 84, NP.1357, Lots 45V, 44V and 331, Parish of Russell and again on the east generally by Lots 40, 41, 33, 42 and 8, Parish of Russell, and on the north generally by Lot 8, Parish of Russell and an unsurveyed line north-easterly from the easternmost corner of the said Lot 8 to the High Water Mark of the Coral Sea and thence bounded again on the east generally from the High Water Mark to the north-eastern corner of Lot 108, Parish of Russell, by the High Water Mark of the Coral Sea, thence bounded again on the south, east and north by Lot 108;
- (xii) In the Parish of Glady, commencing at the south-western corner of Lot 224, being a point on the left bank of the Johnstone River, generally westerly upstream by the left bank to its intersection with McMillan Track being an eastern corner of the Parish of Palmerston, generally westerly and northerly by SF.755 to the western boundary of Lot 187, Parish of Glady and generally easterly and southerly by the said Lot 187 and Lots 220, 201, 288, 205, 192, 193, 195, 180, 178, 135, 176, 177, 270, 174, 162, 171, 170, 169, 168, 167, 12, 153, 16, 125A, 17, 15, 97, 279, 9, 224, 271 and 224 again, Parish of Glady, to the point of commencement, excluding Lots 291, 255, 263, 266, 267, 272 and 277, Parish of Glady;
- (xiii) In the Parish of Hull, between the High Water Mark of the Coral Sea and a line commencing at a point on the north-eastern bank of an inlet north-east of the northern corner of R.979 and proceeding north-north-westerly to the southern boundary of NP.1608 on a straight line projection to the junction point of the westernmost boundary of NP. 1608 and the southern boundary of Lot 486 on Nr.5779 Parish of Hull, and thence easterly by the southern boundary of NP. 1608 to the High Water Mark of the Coral Sea;
- (xiv) In the Parish of Leefe excluding Leefe Holding;
- (xv) In the Parishes of Marathon and Pitt, bounded by the southern boundary of NP645, Hinchinbrook Channel, Enterprise Channel, the Herbert River, Lots 41, 522, 31V, 78, 77, 15, 49, 2, 1, 2, 9, 63, 25V, 76, 29V, and 64 in the Parish of Marathon, thence by the Railway Reserve generally north-westerly to the southern boundary of NP.645;
- (xvi) In the Parish of Mourilyan, north and east of the town of Mourilyan Harbour to the southern boundary of R.554;

- (xvii) In the Parish of Niagara bounded by lines commencing at the easternmost point of Kirrama Holding thence proceeding along the range generally easterly following the southern boundary of SF.350 to its intersection with the western boundary of NP.545, thence proceeding along the boundary of NP.545 along the mountain range generally southerly and westerly to the south easternmost corner of Kirrama Holding, thence north easterly along the Kirrama Holding boundary to the easternmost point of Kirrama Holding;
 - (xviii) In the Parish of Riflemead north of Lot 47 on Da.335 Parish of Riflemead, west of part of the boundaries of the Parishes of Riflemead and Garioch and south-east of part of the Brooklyn Holding boundary;
 - (xix) In the Parish of Rockingham bounded by Lots 606, 41 and 543 and NP.647;
 - (xx) In the Parish of Rockingham bounded by the road adjacent to NP.647 and Lots 586 and 40V, Lots 543, 586 and 450, NP.647, Carmoo Creek and the Hull River downstream from Carmoo Creek;
 - (xxi) In the Parish of Rockingham bounded by Lots 483D, 604, 51V, 1, 4, 5, 3, 8, 387 and 386, SF.1137 and the parish boundary;
 - (xxii) In the Parish of Rockingham bounded by Lots 1, 4, 86 and 566 and SF.190;
 - (xxiii) In the Parish of Rockingham bounded by SF.1137, Lots 483B and 271, the right bank of the North Hull River and the left bank of the Hull River;
 - (xxiv) In the Parish of Russell commencing at a point about 3 kilometres southerly along the High Water Mark of the Coral Sea, from Constantine Point and bounded by High Water Mark of the Coral Sea, SF.1185 and R.228;
 - (xxv) In the Parishes of Tribulation and Noah east of TR.165 between the eastern boundary of R.24 and the eastern and part of the northern boundary of Lot 14 Parish of Tribulation and part of the parish boundaries of Noah and Alexandra;
 - (xxvi) In the Parish of Waterview bounded on the west by the county boundary (between Wilkie Gray and Cardwell), on the east and north-east by the western boundary of NP.477 and on the south by a straight line proceeding due west to the county boundary from a corner of NP.477 at the north-western end of that boundary line of NP.477 extending north-westerly from Section 1, Town of Paluma;
 - (xxvii) In the Parish of Whyanbeel bounded by Lot 217, Daintree River, Crocodile Creek and Lot 264, excluding Lot 76, Parish of Whyanbeel;
 - (xxviii) In the Parish of Waterview bounded by NP.477, SF.268 and the county boundary between the Counties of Cardwell and Wilkie Gray.
9. (i) Sections 1 to 16, Town of Woolanmarroo;
(ii) Town of Palmerston.

PART II
PREAMBLE

Real Property Descriptions shown hereunder are taken from transparencies (numbered NI.5-273, sheets 4, 8, 9, 10 and 15), made by the Australian Surveying and Land Information Group, Commonwealth Department of Administrative Services, Brisbane, Queensland, of the 1:100000 cadastral map series, published by the Department of Geographical Information, Brisbane, Queensland. The transparencies have been modified and updated where necessary to show more clearly the boundaries of the Property. The maps used are:

DESCRIPTION OF PROPERTY

All those pieces of land in the State of Queensland, Counties of Nares and Solander; Parishes of Clerk, Danbulla, Dirran, Dulanban, Gladly, Noah and Russell, containing a total area (including roads and esplanades) of about 7.5 square kilometres, being bounded by lines edged in blue on plan catalogue numbers NI.5-273, sheets 4, 8, 9, 10 and 15, in the Australian Surveying and Land Information Group, Commonwealth Department of Administrative Services, Brisbane, Queensland, and being:

1. National Park 1053.
2. State Forest 185 (being that part enclosed by a line commencing at E354200, N8100700, thence due south to Tinaroo Falls Dam, easterly along the northern shoreline to Mobo Creek, thence north-north-westerly by a line to the point of commencement), 1073 (being that part enclosed by a line commencing at a point at the intersection of the eastward projection of the northern boundary of R.1219 and Big Rooty Creek, thence easterly to a line running east of and parallel to Big Rooty and Flaggy Creeks to a point on the eastern projection of the southern boundary of R.1219, thence westerly to the south-eastern corner of R.1219).
3. Reserve 1219 (being that part east of a line commencing at a point on the northern boundary 2.6 kilometres from the north-western corner, thence to a point on the southern boundary 2.9 kilometres from the south-western corner).
4. Freehold lands
Parish of Dirran: Lot 296 on Nr.709 (excluding that part south-west of a line 200 metres south-west of and parallel to the north-eastern boundary of Lot 296).
Parish of Gladly: That part of Lot 7 on C.157.304 north-east of the Seymour Range.

Parish of Noah: Lots 18 and 19 on RP.73889 (excluding those parts east of a line commencing at a point on the southern boundary of Lot 19 approximately 180 metres east of the south-western corner of Lot 19, thence due north to a point on the north-eastern boundary of Lot 18). Lot 5 on RP.26706, Lot 1 on RP.32553, Lot 1 on RP.31113. That part of Lots 5 and 6 on RP.738897 enclosed by a line commencing on the northern corner of Lot 4 on RP.738897, through the south-eastern corner of Lot 6 to a point on the south-eastern boundary of Lot 10 on RP.738897, thence northerly along the boundary of Lot 6 to its north-eastern corner, thence by a straight line to the point of commencement.

Parish of Russell: Lot 19v.

5. Leasehold Lands

Parish of Clerk: Lot 20 on Sr.505.

Dated 15 December 1988.

**AUSTRALIAN ELECTORAL COMMISSION
ELECTORAL REDISTRIBUTION IN WESTERN AUSTRALIA
PUBLIC OBJECTIONS**

The Commonwealth Electoral Act 1918 makes provision for the periodic redrawing of the boundaries of House of Representatives electoral divisions in a State or the Australian Capital Territory as directed by the Australian Electoral Commission. A redistribution has been directed in Western Australia where provision is to be made for one more Division.

The redistribution process has a number of stages and opportunities for public participation. Certain of these have already taken place. A Redistribution Committee was set up. It received suggestions and comments from interested persons and organisations, and has made a proposed redistribution. An outline of that proposed redistribution has been made public.

The Redistribution Committee for Western Australia has had prepared two maps showing the names and boundaries of each proposed Electoral Division in Western Australia and these are now exhibited at each office of the Electoral Commission in the State.

It has also made available for perusal at each of these offices copies of:

- (i) the suggestions and comments lodged under subsection 64(1) of the Commonwealth Electoral Act 1918;
- (ii) descriptions of the boundaries of each proposed Electoral Division by reference to the aforesaid maps and to the localities and local government authority areas transferred by the proposed redistribution;
- (iii) its reasons for the proposed redistribution.

The Redistribution Committee for Western Australia invites written objections relating to the Redistribution in Western Australia which must be lodged with the Committee on or before 13 January 1989.

Objections should be lodged promptly with the Redistribution Committee at the Office of the Australian Electoral Officer for Western Australia.

Such objections will then be considered at an open inquiry by the augmented Electoral Commission for Western Australia. The augmented Electoral Commission comprises the members of the Redistribution Committee sitting together with the Chairman of the Electoral Commission and the third Commissioner.

After it has considered all the initial objections lodged, the augmented Electoral Commission will make (within 60 days) a determination of the names and boundaries of the electoral Divisions in the State. If this second proposed redistribution is significantly different from the first, the augmented Electoral Commission will seek further objections from the persons or organisations who submitted initial objections.

The augmented Electoral Commission will then consider initial and further objections and make a final determination of the names and boundaries of the electoral Divisions in the State.

SPECIAL

Great Barrier Reef Marine Park Act 1975

**PARTICULARS OF A PERMIT GRANTED BY THE
GREAT BARRIER REEF MARINE PARK AUTHORITY**

Great Barrier Reef Marine Park Act 1975

GREAT BARRIER REEF MARINE PARK REGULATIONS

PARTICULARS OF PERMIT GRANTED

I, DONALD WILLIAM KINSEY, Delegate of the Great Barrier Reef Marine Park Authority, pursuant to subregulation 22(1A) of the Great Barrier Reef Marine Park Regulations, provide the following particulars of a permit granted to Magnetic Keys Limited.

Name/organisation: Magnetic Keys Limited

Permit number: G88/462

Date issued: 28 October 1988

Expiry date: 27 October 1990

Marine Park Section: Central Section

Permit type: Construction of marina facilities, Nelly Bay,
Magnetic Island

Reasons for the Decision:

The following reasons were given by the decision maker, Graeme George Kelleher, Chairman of the Great Barrier Reef Marine Park Authority, as Delegate of the Authority, for granting the permission:

"1.1 The area extending seaward of mean low water mark in Nelly Bay falls within the Central Section of the Marine Park.

1.2 The Marine Park in Nelly Bay is zoned General Use "A". That zone may be used or entered for the purposes of inter alia, carrying out of reclamation works, harbour works, and the construction or conduct of mooring facilities for vessels, with the written permission of the Authority or its delegate.

Findings on Material Questions of Facts:

- (a) The Central Section Zoning Plan sets out the purposes for which the Central Section of the Marine Park may be used or entered.
- (b) The Zoning Plan was prepared in accordance with Section 32 of the Great Barrier Reef Marine Park Act 1975 (the Act), including two public review phases prior to its acceptance by the Minister and Federal Parliament and its coming into effect in October 1987. The General Use "A" zoning in Nelly Bay which permits such development, has therefore received extensive public review and acceptance.
- (c) The reefs and waters of the Central Section are divided into six zones ranging from the least restrictive, the General Use 'A' Zone, to the Marine National Park zones which restrict or prohibit activities which disturb or remove natural resources, to the Preservation Zone where access is prohibited in all but exceptional circumstances.

2.1 In considering the application, I took into account the functions of the Authority set out in the Act, including Section 7 thereof.

2.2 In considering the application I regarded myself as being bound to consider the effects of the proposed works on the Marine Park in accordance with the Act and Regulations, including Regulation 13AC(4).

2.3 On the basis of advice from the Attorney General's Department of 25 June 1986 and 31 August 1988, in assessing this application, I considered that the Authority's powers to consider the application were limited to consideration of:

- . The effects of the proposed development within the Marine Park on the Marine Park.
- . The effects of the proposed development in the Marine Park on adjacent areas, whether inside or outside the Marine Park.
- . The effects of the proposed activities occurring outside the Marine Park to the extent that the activity may involve use of or entry into the Marine Park such as the discharge of waste into the Marine Park.
- . The use or management of an area (which may be a Queensland marine park) the use or management of which might affect or relate to the Marine Park (s.7(1A) of the Act refers).

3.1 At its meeting of 24 October 1988 the Authority considered the application by Magnetic Keys Limited and decided that:

- . The proposal as put would be likely to have unacceptable environmental impacts on the GBRMP and that therefore the Authority could not support the issue of a permit on the basis of the existing proposal.
- . The main potential adverse effect would be sedimentation from construction and the effect of those sediments on the living coral reef communities in Nelly Bay and Geoffrey Bay.
- . It should be practicable to modify the engineering proposal to reduce these risks significantly.
- . An ancillary concern would be the effects of pollutants (including sediment) from the development (especially from the marina basin and entrance channel) on the area in the long-term and that the proponent should be required to propose ways to reduce that risk.
- . Discussions should be held with the proponent as soon as possible with a view to establishing a code of environmental practice which would incorporate a reactive environmental monitoring program.
- . Any permit issued by the Authority must ensure that no progress of the project, in or affecting the GBRMP, could occur without being under the full control of the Authority.
- . It was probable that any permit the Authority may issue for the development could not specify precise conditions but must provide a framework within which detailed conditions were required to be determined by the Authority as the design progressed.

3.2 I considered that environmental safeguards agreed to by the Magnetic Keys Limited and imposed as conditions in the permit issued would minimise the inevitable environmental damage to be caused by the proposed development as much as practicable and to the extent that such damage would not be sufficient to justify prohibiting the proposed development.

Finding on Material Questions of Fact:

- (a) A Public Environment Report (PER) on this proposal was prepared and submitted at the direction of the Minister for the Arts, Sport, the Environment, Tourism and Territories (the Minister). The PER was prepared by the proponent and presented for public review from 18 May to 25 June 1988. In its assessment of that PER, the Department of the Arts, Sport, the Environment, Tourism and Territories (the Department) concluded that insufficient information had been presented to enable an adequate assessment to be made of the likely environmental impacts of the proposal.
- (b) Having considered the Department's assessment, the Minister, Senator Richardson, recommended that further baseline and modelling information will be required to ensure that no over-riding environmental reasons exist for not granting permits for the project.
- (c) In accordance with the recommendations made by the Minister, the Authority required the proponent to undertake a number of further investigations. The resultant information was presented for public review during the period 2-29 September 1988. During the period of public review, staff of the Authority also obtained written advice from fifteen scientific advisors.
- (d) At its meeting of 24 October 1988 the Authority considered the application by Magnetic Keys Limited and decided:
 - . The proposal as put would be likely to have unacceptable environmental impacts on the Marine Park and that therefore the Authority could not support the issue of a permit on the basis of the existing proposal.
 - . The main potential adverse effect would be sedimentation from construction and the effect of those sediments on the living coral reef communities in Nelly Bay and Geoffrey Bay.
 - . It should be practicable to modify the engineering proposal to reduce these risks significantly.
 - . An ancillary concern would be the effects of pollutants (including sediment) from the development (especially from the marina basin and entrance channel) on the area in the long-term and that the proponent should be required to propose ways to reduce that risk.
 - . Discussions should be held with the proponent as soon as possible with a view to establishing a code of environmental practice which would incorporate a reactive environmental monitoring program.

- . Any permit issued by the Authority must ensure that no progress of the project, in or affecting the Marine Park, could occur without being under the full control of the Authority.
 - . It was probable that any permit the Authority may issue for the development could not specify precise conditions but must provide a framework within which detailed conditions were required to be determined by the Authority as the design progressed.
- (e) The environmental safeguards imposed in the permit are as follows:
- . Documentation of the design of facilities and structures, and details of any assumptions made on environmental conditions, is to be provided to the Authority or its nominated agent in sufficient time to allow full review before going to tender. Tendering shall not commence until that review is completed and the Authority has agreed to the documents forming the basis for tenders.
 - . Stages of the construction which involve manipulation of the environment at Nelly Bay and the techniques used in such manipulation are to be discussed and agreed with the Authority or its agent. Such manipulation is to be kept to a necessary minimum. No site works shall take place until the relevant procedures and techniques have been agreed to by the Authority. Works must be carried out in accordance with the agreed procedures.
 - . No decomposed granite or other similar material which will release sediment is to be placed into open water.
 - . Dredging is to be undertaken only in a manner which uses the best practicable available technology to minimise impacts on the Nelly Bay fringing reef, and no maintenance dredging to commence without the prior written permission of the Authority.
 - . All wet excavation to be conducted within an enclosing competent silt filter curtain.
 - . All dredge spoil is to be removed from the Marine Park.
 - . Wet excavation of clay material is to be minimized as far as practicable.
 - . Dewatering of the marina basin and disposal of dredge tailwater to be by pumping to an agreed offshore location after settlement and filtering to remove suspended particles as far as practicable.
 - . The floor of the marina basin is to be stabilised to the Authority's satisfaction.
 - . Reflooding of the marina basin to be carried out in an agreed controlled manner over several tidal cycles prior to removal of temporary bundwalls.
 - . All works, including on-land works, to be carried out in a manner that ensures sediment laden material does not wash into the Marine Park.
- (f) The applicant has formally accepted these environmental safeguards.

- (g) The permit covers the construction of the marina and associated facilities only. One of the matters to be considered by the Authority in its consideration of an application for permission to operate the marina and associated facilities would be the Permittee's having met all the requirements of the Authority under permit G88/462, including the express conditions.

4. The Objectives of the Zone - (Regulation 13AC(4)(a))

4.1 The zone is General Use 'A'. The objective of that zone as specified in the Central Section Zoning Plan is: "To provide opportunities for reasonable general-use consistent with the conservation of the Great Barrier Reef Marine Park."

4.2 The Zoning Plan provides that the conduct of harbour works and the construction and conduct of mooring facilities for vessels may be undertaken in the General Use 'A' Zone with the written permission of the Authority or its delegate.

4.3 I considered that given the lower relative priority of the Nelly Bay fringing reef indicated by the least restrictive zoning of Nelly Bay as General Use "A" Zone in the Central Section Zoning Plan, a certain level of development is appropriate in the Marine Park in Nelly Bay. The proposed development is in principle compatible with that level of development.

5. The Need to Ensure the Orderly and Proper Management of the Marine Park (Regulation 13AC(4)(b))

5.1 In considering the orderly and proper management aspects of the proposal, I considered that given the lower relative priority of the Nelly Bay fringing reef indicated by the least restrictive zoning of Nelly Bay as General Use "A" in the Central Section Zoning Plan, a certain level of development would be appropriate in the Marine Park at Nelly Bay.

5.2 I considered that any development proposal for the Marine Park in Nelly Bay should include adequate environmental safeguards to ensure that potential downstream adverse environmental impacts upon Geoffrey Bay which is zoned Marine National Park "B" in the Central Section Zoning Plan would be minimised. I considered that the conditions imposed upon the permit issued should achieve this objective.

5.3 I considered that construction of a similar facility at the suggested alternative sites for the marina at either Picnic Bay or Cockle Bay would involve similar extensive dredging and reclamation and therefore would have adverse environmental impacts on the fringing reefs in those bays similar to those posed to fringing reefs by the proposed development.

5.4 Consideration of the whole of the development, including those parts not in the Marine Park, was undertaken by a coordinated intergovernmental working group comprised of representatives of all relevant State, Local and Commonwealth governmental agencies (including the Authority.) The individual members of the working group considered that Nelly Bay is a suitable site for the proposed development, including the parts in and out

of the Marine Park. I accepted their assessment in relation to considerations which the Authority is not required to take into account and I agreed with their judgement in relation to impacts of the development in the Marine Park and adjacent areas.

5.5 I considered that I should principally address the issue of environmental impacts of the proposed marina development at Nelly Bay and the overall impacts on the resources of the Marine Park.

5.6 I considered that the proposed development could proceed in a complementary manner to a proposed program of archaeological investigation of a large scatter of aboriginal stone artefacts in an area of Nelly Bay which would be affected by the proposed development.

- Findings on Material Questions of Fact:

- (a) the Central Section Zoning Plan provides guidance for the long-term management of the Marine Park to meet the objects of the Great Barrier Reef Marine Park Act 1975.
- (b) Geoffrey Bay which is zoned Marine National Park "B" is located in close proximity to Nelly Bay.
- (c) A number of public submissions suggested that Picnic Bay or Cockle Bay are more suitable sites for a marina. At either location the construction of a marina would require extensive dredging of fringing reef and reclamation of breakwalls.
- (d) Early consideration of the proposed development was undertaken through a coordinated intergovernmental working group comprising representatives from relevant State, local and Commonwealth government agencies. The Authority was represented on that working group.
- (e) Approval in principle to the development was given by the working group members because they considered that on the whole the development at that site had a number of advantages. The individual members of the working group addressed a wide variety of aspects, including such things as being centrally located on the island, adjacent to the major population centre, provision of services, traffic management, availability of suitable land, protection afforded to the marina from inclement weather, and the conservation values of the development site.
- (f) The proposed development site encompasses an extensive scatter of stone artefacts. A program of archaeological investigation including collection of the artefacts has been proposed by archaeologists based at James Cook University and has been subject to expert review.

- (g) Both the Queensland Department of Community Services and the Commonwealth Department of Aboriginal Affairs have advised that the conduct of the program of archaeological investigation as proposed is appropriate and would satisfy the objects of their legislation.
- (h) The review of the proposed program of archaeological investigation by those agencies and other experts indicated that the collection of the artefacts should proceed with some haste to ensure that the artefacts are not lost due to theft or due to storm events.
- (i) Condition (12)(b) of permit G88/462 requires the Permittee to comply with the "archaeological requirements" of the Department of Community Services and the Department of Aboriginal Affairs.

6. The Likely Effect of granting Permission on Future Options for the Marine Park (Regulation 13AC(4)(c))

6.1 I considered that the proposed development would result in a reduction in the more exposed type of fringing reef habitat which exists in Nelly Bay. This may result in an increased need to restrict the uses of other bays on the eastern side of Magnetic Island to conserve fringing reef of that type.

6.2 I considered that the conservation of the fringing reef habitat of the type found in Nelly Bay has been adequately provided for by the Marine National Park 'B' zoning in Geoffrey Bay and the Marine National Park 'A' zoning in Florence Bay.

- Findings on Material Questions of Fact:

- (a) Approximately one-quarter (29.8 hectares of which 16.1 hectares is in the Marine Park, the remainder being inter-tidal) of the reef area in Nelly Bay is incorporated into the Land Administration Commission (LAC) development lease area. The LAC lease area also incorporates approximately 25% of the area containing living coral reef in Nelly Bay.
- (b) I considered that the proposed development as approved would result in:
 - . Destruction of the existing natural environment within most of the proposed lease area (25% of Nelly Bay).
 - . Some stress (unquantified) to adjacent reefal areas in up to approximately one third of the remaining reefal areas in Nelly Bay during construction as a result of increased suspended and deposited sediments;
 - . Some increased risk of localised water pollution (in the marina, adjoining parts of Nelly Bay and southern Geoffrey Bay) as a result of vessel and marina activities (hydrocarbons in bilgewater and from fuel spills;

nutrients from sewage and bilgewater discharged from vessels, terrestrial freshwater and high nutrient runoff or seepage; and heavy metals from anti-fouling on vessels).

7. The Conservation of the Natural Resources of the Marine Park (Regulation 13AC(4)(d))

7.1 I considered that the fringing reef of Nelly Bay represents a well developed fringing reef of scientific and conservational significance.

7.2 I considered that the proposed development as approved would result in:

- . Destruction of the existing natural environment within most of the proposed lease area (25% of Nelly Bay).
- . Some stress (unquantified) to adjacent reefal areas in up to approximately one third of the remaining reefal areas in Nelly Bay during construction as a result of increased suspended and deposited sediments;
- . Some increased risk of localised water pollution (in the marina, adjoining parts of Nelly Bay and southern Geoffrey Bay) as a result of vessel and marina activities (hydrocarbons in bilgewater and from fuel spills; nutrients from sewage and bilgewater discharged from vessels, terrestrial freshwater and high nutrient runoff or seepage; and heavy metals from anti-fouling on vessels).

7.3 I considered that the Nelly Bay fringing reef habitat which will be affected by the proposed development is not critical to rare marine biota.

7.4 The marina is being designed to maximise flushing and I considered that this in addition to the adoption of appropriate marina management practices can reasonably be expected to ensure that water quality remains within acceptable limits.

7.5 I considered that one of the management practices to be adopted should be a water quality monitoring program which would provide a suitable means of identifying any water quality concerns in sufficient time to take appropriate management actions.

7.6 I considered that the measures to be adopted as outlined in paragraphs 7.4 and 7.5 together with the conditions imposed on the permit issued were adequate to meet the requirements of this criterion.

7.7 I considered that the conservation of the fringing reef habitat, of the type found in Nelly Bay has been adequately provided for by the Marine National Park 'B' zoning in Geoffrey Bay and the Marine National Park 'A' zoning in Florence Bay.

- Findings on Material Questions of Fact:

(a) I concluded that the development as approved would result in:

- . Destruction of the existing natural environment within most of the proposed lease area (25% of Nelly Bay).

- . Some stress (unquantified) to adjacent reefal areas in up to approximately one third of the remaining reefal areas in Nelly Bay during construction as a result of increased suspended and deposited sediments;
- . Some increased risk of localised water pollution (in the marina, adjoining parts of Nelly Bay and southern Geoffrey Bay) as a result of vessel and marina activities (hydrocarbons in bilgewater and from fuel spills; nutrients from sewage and bilgewater discharged from vessels, terrestrial freshwater and high nutrient runoff or seepage; and heavy metals from anti-fouling on vessels).

8. The Nature and Scale of the Proposed Use in Relation to the Existing Use and Amenity, and the Desirable Future Use and Amenity, of the Relevant Area and of Nearby Areas (Regulation 13AC(4)(e))

8.1 In considering this criterion, I regarded myself as being limited to considering the impacts of the proposed development on existing and future use and amenity within the Marine Park and in the contiguous intertidal Queensland marine park area.

8.2 I considered that the attitudes of the local community in relation to the proposed development is fairly evenly divided between those who oppose it and those who support it.

8.3 I considered that the main points of concern raised by objectors in relation to the amenity related to the impacts which that part of the proposal outside of the Marine Park would have on them, and that any such impacts would not be affected by my decision.

8.4 I considered that the whole character of Nelly Bay will be altered but that the over-all opportunity for recreational uses within the Marine Park, such as swimming, boating, sailboarding, fishing, diving, spearfishing and collecting would not be significantly altered by the proposed development. Within Nelly Bay there would be reduced opportunities for collecting, diving and spearfishing but the marina would provide increased opportunities for vessel access and mooring and consequently, for boating and associated activities in the Marine Park. Opportunities for swimming would be different but not materially increased or decreased.

8.5 I considered that the existing commercial use of Nelly Bay within the Marine Park is light and would be unlikely to be significantly affected by the proposed development.

8.6 I considered that the existing use of Nelly Bay for educational visits would be affected by the proposed development. Although more distant from the school and recreation camps at Nelly Bay, accessible reef flat areas would still be available for educational visits at Nelly Bay, Geoffrey Bay and Picnic Bay.

8.7 I considered that the existing use of Nelly Bay for scientific research would be affected by the proposed development. Although the focus of research may change, Nelly Bay would continue to provide substantial opportunities for scientific research.

8.8 I considered that the marina development would provide a number of substantial benefits, including a protected all-tide and all-seasons public swimming beach, an all-tide public boat ramp, a vastly improved ferry access facility and barge ramp for Magnetic Island and an all-weather protected harbour for up to 150 small craft.

8.9 The question of future use and amenity of Nelly Bay, including the development in the Marine Park, has been considered by the relevant local and State agencies, and in particular the Townsville City Council. The proposal has been supported by all relevant State and local government authorities and advice available indicates that those agencies generally conclude that the whole character of Nelly Bay will be different if the development proceeds, but that the net result will be a benefit to the local community. In terms of the use and amenity issues, I agreed with that conclusion, and taking into account the zoning of Nelly Bay I concluded that the development of a marina and associated facilities there would be a desirable future use of the area.

- Findings on Material Questions of Fact:

- (a) The proposal has been the subject of considerable objection from residents of Townsville and Magnetic Island and, in particular, residents of Nelly Bay. Public submissions were received from interested persons. A number of attitudinal surveys were carried out by concerned citizens and the proponent.
- (b) On the basis of the attitudinal survey reports and public submissions and on the basis of staff advice I found that a substantial part of the local community is against major resort developments at Magnetic Island. A proportion of that group would like to see a small marina and ferry terminal developed at an appropriate site. I also concluded that a substantial proportion of the local community is in favour of the Magnetic Quay development. The local community appears to be fairly evenly divided on the issue.
- (c) The main points of concern of interested parties related to amenity associated with the part of the development which is in the Marine Park and which have been raised by objectors are:
 - . changed residential outlook;
 - . changes to lifestyle of existing residents of Nelly Bay;
 - . loss of waterfront character of lands; and
 - . diminished recreational opportunities.

- (d) I found no evidence that the major part of the development which is outside the Marine Park, and was the major area of public concern relating to amenity impacts raised in submissions on the May PER, will not proceed. On the contrary I was advised that the proposal has received unanimous support in principle from relevant Queensland and local government agencies.
- (e) Current recreational use of Nelly Bay is focused mainly on the beach and the extensive drying reef flat which is in the intertidal area outside the Marine Park. It includes such activities as walking and swimming, beach games and relaxing. At low tide water based recreation takes place off the reef edge or in the southern one third of the Bay.
- (f) Educational visits and scientific research are two significant reasons for people to visit Nelly Bay, although again these activities are mainly focused on the intertidal area outside the Marine Park.
- (g) Opportunities for educational groups would be diminished as the development would remove approximately 35% of the area of regularly drying reef flat. Accessible drying reef flat areas will remain outside the development. While somewhat more distant from the school and recreation camps at Nelly Bay, Geoffrey Bay and Picnic Bay also provide alternative sites for those groups.
- (h) The amenity and the use of Nelly Bay, as it relates to residents, recreational visitors, educational groups and the scientific community, would be altered by the development. That part of the development that is in the Marine Park will affect that amenity to a lesser degree than the resort and commercial development proposed in adjacent areas.
- (i) Increased opportunities for mooring and launching vessels and for associated activities would be provided by the development.

9. The Means of Transport for Entry Into, Use Within or Departure from the Zone or Designated Area and the Adequacy of Provisions for Aircraft or Vessel Mooring, Landing, Taking Off, Parking, Loading and Unloading (Regulation 13AC(4)(g))

9.1 I considered that in view of the principal objective of the proposed development, the expected application of standard and tested engineering practices, the review and supervision by the Construction Group of the Commonwealth Department of Administrative Services, all aspects of the proposed development in relation to this criterion would be acceptable.

- Findings on material Questions of Fact

- (a) the principal objective of the proposed development in the Marine Park is to provide a safe all-weather port and harbour for Magnetic Island.

- (b) the final design of the facilities will apply standard and tested engineering practices.
- (c) the final design and the construction would be subject to review and supervision by the Construction Group of the Commonwealth Department of Administrative Services.

10. In Relation to Any Structure, Landing, Area, Farming Facility, Vessel or Work to Which the Proposed Use Relates, the Health and Safety Aspects Involved, Including the Adequacy of Construction (Regulation 13AC(4)(h)(i))

10.1 In relation to the safety aspects, I considered that as both the construction and the operation of the proposed marina would be subject to Queensland legislation, the safeguarding of human life would be adequately provided for.

10.2 I considered that management controls and dilution should be adequate to ensure that pollutants do not build up to critical levels. However, if water quality is such that it poses a risk to health then a number of actions are available, including closing the area to swimming and fishing and closing of the marina until the problems can be resolved.

10.3 I considered that the design of the marina to maximise flushing in addition to the adoption of appropriate marina management practices can reasonably be expected to ensure that water quality remains within acceptable limits.

10.4 I considered that the implementation of a water quality monitoring program as part of the Environmental Monitoring Program to be implemented pursuant to Condition (2) of the permit issued should provide a suitable means of identifying any water quality concerns in sufficient time to take appropriate remedial action.

- Findings on Material Questions of Fact:

- (a) the construction and operation of the proposed marina will be subject to Queensland law.
- (b) a water quality monitoring program will be included in the Environmental Monitoring Program to be established by the Authority in respect to the proposed marina which should enable the Authority to detect at an early stage any deterioration in the water quality.
- (c) if water quality problems arise steps can be taken to prevent or minimise risks to health including closing the area for particular activities such as swimming and fishing and closing the marina.

11. In Relation to Any Structure, Landing Area, Farming Facility, Vessel or Work to Which the Proposed Use Relates: The Arrangements for Making Good Any Damage Caused to the Marine Park by the Proposed Activity (Regulation 13AC(4)(h)(ii))

11. I considered that condition (8) imposed on the permit issued together with the conditions applicable to the bond adequately addressed this criterion.

11.2 I considered that the condition imposed in the permit issued that the proponent provide a bond of \$500,000 would be appropriate to ensure that the project would be carried out in an appropriate manner. The bond is to provide for unforeseen circumstances and I considered that it would be adequate to cover maintenance of the facilities to acceptable standards and removal of structures other than breakwalls. In setting the value of the bond I considered that the removal of the breakwalls is not a viable option.

11.3 I considered that the Authority's requirements as set out in 11.1 and 11.2 are reinforced by the requirement that the proponent provide a bond to the Land Administration Commission and to the Townsville Port Authority to ensure that the construction of the proposed development is carried out to their satisfaction.

- Findings on Material Questions of Fact

- (a) The Deed to be executed by the proponent pursuant to condition (8) of the permit issued will include a requirement that a contract of insurance be entered into for an amount adequate to meet any expenses which may be incurred in effecting the removal of facilities from the Marine Park.
- (b) A bond of \$500,000 would be adequate to meet any expense likely to be incurred in respect to maintenance of facilities to an acceptable standard and/or removal of those facilities excluding the breakwalls.
- (c) In the event that facilities are to be removed from the Marine Park, it would not be feasible to consider removal of the breakwalls.

12. The Arrangements for Making Good any Damage Caused to the Marine Park by the Proposed Activity (Regulation 13AC(4)(i))

12.1 I considered that condition (8) and the conditions relating to the bond contained in the permit issued would be adequate to allow the Authority to require the proponent to make good any damage caused to the Marine Park by the proposed development. In the event that the proponent should fail to comply with such requirement, the Authority is empowered to

carry out such remedial work and the cost of such work will be met by the proponent or from the bond provided by the proponent and/or pursuant to the contract of insurance entered into in accordance with condition (8) of the permit issued.

- Findings on Material Questions of Fact:

- (a) The Code of Environmental Practice to be established by the Authority and supervision of the construction of the marina by an on-site supervisor appointed by the Authority should lead to detection of any damage to the Marine Park.
- (b) the amount of the bond to be provided by the proponent should be adequate to cover the cost of any likely repair and rehabilitation of the Marine Park including the stabilisation and landscaping of the breakwalls and the cost of continued environmental monitoring.

13. Other Findings on Material Questions of Fact

13.1 Magnetic Island is located within the outer boundaries of the Central Section of the Marine Park.

13.2 Magnetic Island is a high continental island, roughly triangular in shape, with 40 km of coastline. The centre of the island is steep and rugged, virtually untouched.

13.3 Lease and freehold allotments for commercial and residential purposes make up less than half of the total area; the major land tenure area is National Park. Residential settlements are located at Horseshoe Bay, Alma Bay, Nelly Bay, Picnic Bay, Bolger Bay and West Point, on the eastern and southern sides of the island.

13.4 The island has a permanent resident population in the order of 1400 persons. It is a suburb of Townsville, a retirement centre, a resort and a low-cost holiday centre. In addition, the island is entering a period of expansion in tourist activity.

13.5 Nelly Bay is a residential community on the southeast of Magnetic Island. The bay itself extends between two rocky headlands, Bright Point to the northeast and Hawkings Point to the south. The settlement is enclosed in an amphitheatre of granite hills, with Gustav Creek being the main drainage line.

13.6 The northeast end of the bay is protected from the worst of the north and northeast cyclonic wave action and the proposed development to be constructed in that area of the bay.

13.7 The proposed development site comprises a Queensland Lands Administration Commission (LAC) and Townsville Harbour Board development lease area situated in Nelly Bay, and adjoins vacant freehold land on Bright Point owned by the proponent.

13.8 The LAC lease area impinges on a portion of the Central Section of the Great Barrier Reef Marine Park, zoned General Use 'A'. The boundary of the Great Barrier Reef Marine Park is defined by mean low water. The lease area also impinges on the Townsville/Whitsunday State Marine Park which extends to highest astronomical tide and which applies General Use 'A' zoning in the intertidal area adjacent to the Great Barrier Reef Marine Park.

13.9 The area of the proposed development which is in the Marine Park comprises part of an extensive reef platform which has developed in a moderately protected environment. Approximately one-quarter of the reef area in Nelly Bay (29.8 hectares - includes reef flat, slope and intertidal areas) is incorporated into the LAC development lease area.

13.10 In accordance with the Central Section Zoning Plan which was prepared by the Authority in pursuance to Section 32 of the Act, and which came into effect on 1 October 1987, the area Nelly Bay, Seaward of Mean low water mark, forms part of a zone designated General Use "A" Zone.

13.11 An application by Magnetic Keys Limited, dated 13 April 1987 and further information provided in the reports by McIntyre and Associates comprising a PER of May 1988 and further information reports of August 1988, applying to the Authority for permission to construct a marina in the Marine Park at Nelly Bay complied with the requirements of Regulations 13 AC(1) and (2) of the Regulations.

13.12 The marina development is to be part of a larger co-ordinated resort complex with tourist and retail facilities to be developed by Magnetic Keys Limited on the land contiguous to the marina.

13.13 The excavation work and marina facilities to be developed within the Marine Park are as follows:

- . Reclamation of two island breakwaters and including beaches
- . Dredging of marina basin and channel
- . Access bridges to breakwaters
- . Floating marina berths for 150 vessels
- . A barge ramp
- . A fuel and boat service pontoon
- . A ferry terminal
- . A public boardwalk
- . A swimming enclosure
- . Navigational markers/beacons

13.14 The marina is being designed to be a suitable harbour for vessels in the event of a cyclone in the area. According to the design criteria waves within the marina at the boat pens should be less than 0.6 metres in a 50 year return cyclonic event and less than 1.0 metres in a 250 year return cyclonic event. The marina berths are to be designed to withstand forces from boat moorings during cyclonic winds.

13.15 It is proposed to form a protective harbour by construction of two island breakwaters. Breakwaters are being designed to allow some displacement of armour rock and acceptable overtopping by waves in very severe cyclonic storm events. A factor of 0.3 metres is proposed to accommodate predicted sea level rises associated with the "greenhouse effect".

Construction of the breakwalls is likely to take four months to complete and is to be undertaken in the following manner, subject to any alterations approved by the Authority and/or additional requirements of the Authority:

- . Using excavated material from the Bright Point resort development to provide the required armour rock, filter rock and core material.
- . Placing the core material, within sediment entrapping screening of a form yet to be finalised, in various depths of water depending on tide (with a maximum depth of water at low tides of 2.4 metres and a maximum of 6 metres at high tides) first using dump trucks and pushing it to profile by dozer.
- . Placing filter rock protection by excavator on the seaward face of the core to protect against scour from wave action, and to restrict release of sediments into the water.

13.16 Construction of the marina basin is likely to take about four months to complete and will be carried out in the following manner, subject to any alterations approved by the Authority and/or additional requirements of the Authority:

- . Isolation of the proposed marina basin area by the construction of temporary bund walls at either end of the major breakwater and pumping the area dry.
- . Channelling seepage into sump pits containing filter mediums to remove heavy sediments and pumping the filtered water to a location at least 100 metres off shore from Bright Point.
- . The excavation of the marina basin once it is dry by dozers and excavators.
- . The transportation of the spoil to required locations within the reclamation areas which are located within the LAC lease area but outside of the Marine Park.

13.17 Channel excavation through the fringing reef is likely to take about three weeks to complete and will be carried out in the location indicated on Figure 2.6 in McIntyre and Associates (August 1988) and in the following manner, subject to any alterations approved by the Authority and/or any additional requirements of the Authority:

- . Excavation of a marina access channel approximately 250 metres long and 45 metres wide to a depth of 4 metres by use of an excavator or clam-bucket grab mounted on a barge or cutter suction dredge.
- . Disposal of the spoil by placing it into trucks on a barge and transporting it to the foreshore for use in the reclamation area outside of the Marine Park, or, if a cutter suction dredge is used, pumping the spoil behind the marina breakwater for drainage prior to loading into trucks for transportation to the reclamation areas as above.

13.18 After completion of the construction of the marina basin and the excavation of the channel through the fringing reef, the marina will be flooded and the temporary bund walls will be removed over a period of about 17 days in the following manner, subject to any alterations approved by the Authority and/or any additional requirements of the Authority:

- . Flooding the marina basin through a pipe (or pipes) placed within the temporary bund wall at about low water level.
- . Removal of the temporary bund wall across the marina access by means of an excavator, and at greater depth by means of an excavator or clam-bucket mounted on a barge. The spoil removed is to be loaded into dump trucks for transportation to the reclamation area outside the Marine Park.
- . Removal of the remaining temporary bund walls in a similar manner.

13.19 Construction of the resort complex facilities on the land contiguous to the Marine Park is to be carried out in accordance with the building requirements of the relevant State and Local authorities. Magnetic Keys Limited anticipates that the facilities will be completed within twelve months of the date of completion of the marina basin and land fill areas.

C. Evidence and Other Materials Referred to:

In making the findings on material questions of fact, I relied upon the evidence and other material set forth in the documents listed hereunder:

1. The Great Barrier Reef Marine Park Central Section Zoning Plan.
2. The application by Magnetic Keys Limited, including:
 - . Letter dated 13 April 1987 from C Rasmussen of McIntyre and Associates making application on behalf of Magnetic Keys for permission to construct and operate a marina at Nelly Bay, Magnetic Island, in the Great Barrier Reef Marine Park.
 - . Public Environment Report, Magnetic Quay, Nelly Bay, Magnetic Island, May 1988.
 - . Public Environment Report Summary of Further Information, Magnetic Quay, Nelly Bay, Magnetic Island, August 1988.
 - . Public Environment Report Summary of Further Information - Detailed Background Reports, Magnetic Quay, Nelly Bay, Magnetic Island, August 1988.
3. Draft Register of Responses to Additional Information - Magnetic Quay.
4. Environment Assessment Report, Magnetic Quay Proposal - Nelly Bay, by the Department of the Arts, Sport, the Environment, Tourism and Territories, July 1988.
5. Letter of 12 July 1988 from the Minister for the Arts, Sport, the Environment, Tourism and Territories to me as Chairman conveying advice and recommendations on the Public Environment Report.

6. 15 Scientific Reviewers' Reports on the Public Environment Report Summary of Further Information (including the Detailed Background Reports), August 1988.
7. 25 Public Submissions on the Public Environment Report Summary of Further Information (including the Detailed Background Reports), August 1988.
8. Draft Assessment Report, Magnetic Quay Marina Proposal, GBRMPA October 1988.
9. Raggatt, P. (1988) unpublished report of a survey of community attitudes towards tourist development at Nelly Bay, Magnetic Island.
10. Letters of 25 June 1986 and 31 August 1988 from the Attorney-General's Department to me as Chairman conveying legal advice."

THE PARLIAMENT OF THE COMMONWEALTH OF AUSTRALIA

HOUSE OF REPRESENTATIVES

DATE OF MEETING

Parliament House,
Canberra, 15 December 1988

IN PURSUANCE of the Resolution of the House of Representatives of 1 December 1988 I hereby fix 21 December 1988 as the day on which the House of Representatives shall meet, at 10.15 a.m.

JOAN CHILD
Speaker of the House
of Representatives

PROCLAMATION

Commonwealth of
Australia
N. M. STEPHEN
Governor-General

By His Excellency the
Governor-General of
the Commonwealth of
Australia

I, SIR NINIAN MARTIN STEPHEN, Governor-General of the Commonwealth of Australia, acting with the advice of the Federal Executive Council and under subsection 2 (1) of the *Bankruptcy Amendment Act 1987*, hereby fix 3 January 1989 as the day on which paragraph 4 (1) (f), sections 9, 10, 11, 19, 24 to 29 (inclusive), 31, 32, 34 to 37 (inclusive), 46, 47, 53 to 58 (inclusive), 97, 98, 101, 103 and 105 of that Act shall come into operation.
