National Health Act 1953

PHARMACEUTICAL BENEFITS DETERMINATION UNDER SUBSECTION 84C (7)

Part I—General

I, IAN JAMES MCNEIL, First Assistant Secretary, Health Care Access Division, Department of Community Services and Health and Delegate of the Minister of State for Community Services and Health, pursuant to subsection 84C (7) of the *National Health Act 1953*, hereby make the following Determination:

1. This Determination shall come into operation on the first day of October 1989.
2. The Determination under subsection 84C (7) of the Act made on 1 November 1986 with effect from 1 November 1986, as amended, is hereby revoked.
3. This Determination includes the appendices hereto and shall consist of the following parts:

Part I—General

Part II—Ready Prepared Pharmaceutical Benefits

Part III—Benefits other than Ready Prepared Pharmaceutical Benefits

4. In this Determination:

'approved price to pharmacists' has the same meaning as in subsection 98B (3) of the Act;

'approved supplier' has the same meaning as in subsection 84 (1) of the Act;

'the Act' means the *National Health Act 1953*;

'extemporaneously prepared pharmaceutical benefit' means a benefit other than a ready prepared pharmaceutical benefit;

'Standard Formulae List' means the list of those standard formulae, taken from formularies in common use, which are included as pre-priced extemporaneous preparations in the Schedule of Pharmaceutical Benefits for Approved Pharmacists published by the department. For each of those formulae, the agreed price shall be calculated at four monthly intervals by the department in accordance with paragraph 20. The resultant amount in each case is the agreed price for the respective Standard Formulae list item for the ensuing four months;

'exceptional prescription' means a prescription for an extemporaneously prepared pharmaceutical benefit which is not included in the Standard Formulae List and for which the price of the ingredients calculated in accordance with paragraphs 21 to 23 inclusive is twice or more than twice the average price of the ingredients calculated in accordance with paragraph 38.

5. In addition to the amount calculated in accordance with Part II of this Determination the agreed price shall include a dangerous drug fee of \$2.00 in respect of those ready prepared pharmaceutical benefits determined by the Minister under section 98C of the Act to be dangerous drugs for the purpose of payment of a dangerous drug fee. The fee shall also apply to those drugs prescribed by State legislation which are to be treated similarly to dangerous drugs.

5A. In addition to the amount calculated in accordance with Part II of this Determination the agreed price shall include:

- (a) A special fee of \$2.00 per prescription being payable to approved pharmacists on those occasions on which the pharmacist substitutes, with the approval of the prescriber, a generic drug in lieu of a brand name drug which has been prescribed and which was delisted on 1 April 1989, provided the pharmacist concerned adequately and properly counsels the patient about the substituted drug and its usage.
- (b) The special fee will be payable for a period of twelve months only on and from 1 April 1989.

6. For the purposes of this Determination, the manufacturers' packs of pharmaceutical benefits on which the approved prices to pharmacists are based are:

- (a) Standard packs—a standard pack for a benefit is the pack which contains a number of units equal to the number specified as the maximum quantity in the Determination by the Minister under paragraph 85A (2) (a) of the Act for that benefit;
- (b) Non-standard packs—a non-standard pack for a benefit is any pack of a ready prepared benefit, other than a standard pack, which is used for pricing purposes; and
- (c) For drugs used in extemporaneously prepared pharmaceutical benefits, the agreed purchase quantity is that agreed upon between the Secretary and the Pharmacy Guild of Australia.

7. Except in the case of the supply of a pharmaceutical benefit pursuant to subsection 88 (6) of the Act:

- (a) where the price for a general benefit prescription calculated in accordance with Part II or Part III of this Determination—
 - (i) exceeds \$12.00, the agreed price for the supply of that benefit shall be \$12.00; or
 - (ii) is less than \$5.50, the agreed price for the supply of that benefit shall be \$5.50; or
- (b) where the price for a concessional benefit prescription calculated in accordance with Part II or Part III of this Determination exceeds \$2.50, the agreed price for the supply of that benefit shall be \$2.50.

8. Where, in accordance with subsection 88 (6) of the Act, a medical practitioner, instead of directing a repeated supply of a pharmaceutical benefit, directs the supply on one occasion of a quantity or number of units of the benefit, not exceeding the total quantity or number of units that could be prescribed if the medical practitioner directed a repeated supply, the agreed price for that supply shall include only one dispensing fee, one additional fee and the appropriate price for the container.

9. In the case of a supply of a pharmaceutical benefit pursuant to subsection 88 (6) of the Act:

- (a) where the price for a general benefit prescription calculated in accordance with paragraph 8 and Part II or Part III of this Determination—
 - (i) exceeds the product of \$12.00 and the number of supplies deemed to have taken place under subsection 84C (5) of the Act, the agreed price for the supply of that benefit shall be that product; or
 - (ii) is less than the product of \$5.50 and the number of supplies deemed to have taken place under subsection 84C (5) of the Act, the agreed price for the supply of that benefit shall be that product; or
- (b) where the price for a concessional benefit prescription calculated in accordance with paragraph 8 and Part II or Part III of this Determination exceeds the product of \$2.50 and the number of supplies deemed to have taken place under subsection 84C (5) of the Act, the agreed price for the supply of that benefit shall be that product.

Part II—Ready Prepared Pharmaceutical Benefits

10. The agreed price for a ready prepared pharmaceutical benefit shall be:

- (a) where a standard pack is available, the sum of:
 - (i) the approved price to pharmacists of that standard pack;
 - (ii) a dispensing fee of \$4.20 for each supply of benefits made, except in the case of benefits which involve the admixture of ready prepared ingredients and are determined as such by the Minister under section 98C of the Act in which case a dispensing fee of \$5.40 will apply; and
 - (iii) an additional fee of \$0.64 for each supply of benefits made, except in the case of benefits which involve the admixture of ready prepared ingredients and are determined as such by the Minister under section 98C of the Act in which case an additional fee of \$0.93 will apply;
- (b) where a quantity of a benefit which is ordered and supplied is less than the quantity in a standard pack or a non-standard pack, the sum of:
 - (i) the amount ascertained in accordance with paragraph 15;
 - (ii) a dispensing fee of \$4.20 for each supply of benefits made;
 - (iii) an additional fee of \$0.64 for each supply of benefits made; and
 - (iv) an amount for the supply of a container, based on the cost of a ready prepared container as ascertained in accordance with paragraph 13; or
- (c) where a quantity of a benefit is ordered and supplied, that is more than the quantity contained in the standard or non-standard pack, as applicable, the sum of:
 - (i) the approved price to pharmacists of each complete standard or non-standard pack, as applicable, contained in the quantity supplied;

- (ii) the amount ascertained, in accordance with paragraph 15 in respect of that remainder, if any, of the quantity supplied which is less than a standard or non-standard pack, as applicable;
- (iii) a dispensing fee of \$4.20 for each supply of benefits made, except in the case of benefits which involve the admixture of ready prepared ingredients and are determined as such by the Minister under section 98C of the Act, in which case a dispensing fee of \$5.40 will apply; and
- (iv) an additional fee of \$0.64 for each supply of benefits made, except in the case of benefits which involve the admixture of ready prepared ingredients and are determined as such by the Minister under section 98C of the Act, in which case an additional fee of \$0.93 will apply (an additional amount for a container is not included)

11. Where the prescription identifies the ready prepared pharmaceutical benefit to be supplied by reference to a particular brand, the agreed price shall be based on the approved price to pharmacists for that brand.

12. Where the prescription specifying the supply does not specify the ready prepared benefit to be supplied by reference to particular brand, the benefit shall be deemed to have been directed to be supplied by reference to the brand lowest in price specified in the current Schedule of Pharmaceutical Benefits for Approved Pharmacists published by the department which is available from a wholesale source in the capital city of the State in which the pharmaceutical benefit is supplied.

13. The cost of a ready prepared container is the arithmetic average of the prices for the particular container based on a quantity of one hundred as at the first day of January in each year as obtained from wholesalers or manufacturers as agreed between the Secretary and the Pharmacy Guild of Australia and that cost will apply from and including the first day of April in that year to and including the last day of March in the following year. The particular containers will be a 150 millilitres vial for use for injectibles and a 25 millilitres vial for other ready prepared benefits.

14. The price for a benefit or a container shall in each case be taken to the nearest cent, one half cent being counted as one cent.

15. Where a quantity of a benefit is ordered and supplied which is less than the quantity in a standard pack or a non-standard pack (i.e. a broken quantity), the amount referred to in subparagraphs 10 (b) and 10 (c) shall be ascertained by:

- (a) ascertaining the percentage that the number of units in the broken quantity bears to the number of units in the applicable pack;
- (b) selecting, in Column A of the table set out hereunder, the percentage ascertained in accordance with the last preceding subparagraph, or, where that percentage is not specified in that column, the nearest higher percentage so specified; and
- (c) taking the percentage set out in Column B of the table set out hereunder, immediately below the percentage so selected;

Column A				Column B			
5	30	55	80	10	44	66	86
10	35	60	85	18	50	70	90
15	40	65	90	26	54	74	94
20	45	70	95	32	58	78	98
25	50	75	100 per cent	38	62	82	100 per cent

- (d) taking the percentage so ascertained in subparagraph (c) of the approved price to pharmacists of the standard or non-standard pack, as the case may be.

16. Notwithstanding anything contained elsewhere in this Determination the agreed price in respect of the supply of a quantity of a ready prepared pharmaceutical benefit shall not exceed the agreed price for a greater quantity of that benefit.

17. Where a prescription calls for a quantity of one of the benefits determined by the Minister under section 98C of the Act as being a benefit, the complete pack of which should be supplied regardless of any lesser quantity ordered, the complete pack shall be supplied and the agreed price shall be calculated on the basis that the complete pack was supplied.

Part III—Benefits Other than Ready Prepared Pharmaceutical Benefits

18. In this Part:

‘wastage’ means the combined loss which arises from:

- (a) transferring drugs and chemicals from the package, in which they are delivered to the approved supplier to the dispensing package delivered to the customer;
- (b) deterioration; and
- (c) obsolescence.

19. The basic wholesale price of a drug used in the preparation of extemporaneously prepared pharmaceutical benefits shall be calculated as the arithmetic average of wholesale costs of the drug, in a purchase quantity agreed upon between the Secretary and the Pharmacy Guild of Australia and available from wholesale drug distributors. For this purpose the basic wholesale cost of a drug shall be ascertained and shall take effect in accordance with the following timetable:

Basic wholesale cost ascertained	Price takes effect for pharmaceutical benefits
As at 1 January	As at 1 April of same year
As at 1 May	As at 1 August of same year
As at 1 September	As at 1 December of same year

20. The agreed price in respect of an extemporaneously prepared pharmaceutical benefit, including benefits included in the Standard Formulae Lists, shall, subject to paragraph 34, be the sum of the following amounts:

- (a) the amount in respect of ingredients in the quantities supplied, ascertained in accordance with paragraphs 21 to 23 inclusive;
- (b) the amount in respect of the appropriate container as calculated in accordance with paragraph 29;
- (c) a dispensing fee of \$5.40; and
- (d) an additional fee of \$0.93.

21. For the purposes of paragraph 20 the amount in respect of an ingredient of an extemporaneously prepared pharmaceutical benefit where the quantity of the ingredient is equal to the agreed purchase quantity, shall be the sum of:

- (a) the basic wholesale price of the ingredient; and
- (b) an amount where applicable representing mark-up to cover wastage on (a) determined in accordance with Appendix A.

22. For the purposes of paragraph 20 the amount in respect of an ingredient of an extemporaneously prepared pharmaceutical benefit where the quantity of the ingredient is less than the agreed purchase quantity, shall be ascertained as follows:

- (a) by ascertaining the basic pricing unit to be used for the quantity to be dispensed by reference to the table of basic pricing units in Appendix B;
- (b) by ascertaining the cost of the basic pricing unit by reducing the amount ascertained in accordance with paragraph 21 by the quantity factor or factors shown in Appendix B appropriate to the basic pricing unit required and rounding off the resultant amount to the nearest cent, one half cent being counted as one cent;
- (c) by multiplying the cost of the basic pricing unit by the fraction that the quantity to be dispensed bears to the quantity contained in the basic pricing unit except for:
 - (i) quantities up to 50 milligrams or 50 microlitres which shall be priced at the amount for 50 milligrams or 50 microlitres;
 - (ii) quantities exceeding 700 milligrams or 700 microlitres but not exceeding one gram or one millilitre which shall be priced at the amount for one gram or one millilitre;
 - (iii) quantities exceeding 7 grams or 7 millilitres but not exceeding 10 grams or 10 millilitres which shall be priced at the amount for 10 grams or 10 millilitres; and
 - (iv) quantities exceeding 80 grams or 80 millilitres but not exceeding 90 grams or 90 millilitres which shall be priced at the amount for 80 grams or 80 millilitres.

For the purposes of this paragraph the quantity of the ingredient shall be calculated to the next upward 50 milligrams or 50 microlitres.

23. For the purposes of paragraph 20 the amount in respect of an ingredient of an extemporaneously prepared pharmaceutical benefit where the quantity of the ingredient is greater than the agreed purchase quantity shall be ascertained as follows:

- (a) except in the case of drugs which are unstable or packed sterile, as determined by the Minister under section 98C of the Act, by dividing the quantity dispensed by the quantity contained in the agreed purchase quantity and multiplying by the basic wholesale price of the agreed purchase quantity;
- (b) where the ingredient is one of the drugs which are unstable or packed sterile, as determined by the Minister under section 98C of the Act, by multiplying the price of the agreed purchase quantity by the number of whole packs of the agreed purchase quantity required to dispense the quantity of the ingredient.

24. The agreed price in respect of an extemporaneously prepared pharmaceutical benefit which comprises a vehicle which is specified in the prescription under a particular name and an additional specified ingredient or ingredients, shall be calculated in accordance with the provisions of paragraph 25 or 26 as the case may be.

25. Where the vehicle is a single liquid ingredient and one or more other ingredients are added, displacement of the vehicle by solids (if any) shall be disregarded for pricing purposes and the agreed price for the pharmaceutical benefit as a whole shall be calculated in accordance with the provisions of paragraph 20.

26. Where the vehicle is compounded from two or more ingredients and one or more other ingredients are added, displacement of the vehicle by solids (if any) shall be disregarded for pricing purposes and the amounts for the respective ingredients shall be the sum of:

- (a) the price of each ingredient of the vehicle; and
- (b) the price for each of the ingredients which is added to the vehicle;

calculated in each case in accordance with the provisions of paragraph 21, 22 or 23 as the case may be.

27. The amount ascertained in respect of an ingredient in accordance with paragraph 21, 22 or 23 shall be taken to the nearest cent, one half cent being counted as one cent.

28. In calculating the amount in respect of an ingredient or the basic wholesale price of a basic pricing unit, the amount so calculated shall be taken to the nearest cent, one half cent being counted as one cent.

29. The price for each size and type of container for extemporaneously prepared pharmaceutical benefits shall be based on the average of wholesale costs for that container, in the purchase quantity agreed upon between the Secretary and the Pharmacy Guild of Australia and available from wholesale distributors in the capital city of the relevant State.

30. For the purposes of this Part, the wholesale costs of the particular containers shall be ascertained and shall take effect in accordance with the following timetable:

<i>Basic wholesale costs ascertained from wholesalers</i>	<i>Prices take effect for pharmaceutical benefits</i>
As at 1 April	As at 1 August of the same year
As at 1 August	As at 1 December of the same year
As at 1 December	As at 1 April of the following year

31. Where a wholesale distributor will not supply containers of a particular size or type in the purchase quantity agreed to by the Secretary and the Pharmacy Guild of Australia, the price of the purchase quantity shall be calculated by multiplying the price of the smallest quantity, above the purchase unit, in which the wholesaler will supply containers of that size and type by the fraction that the quantity in the agreed purchase quantity bears to the quantity in which the wholesaler will supply.

32. In the case of bulk powders the price for the container shall be the price for a screw cap jar which is nominally rated to hold at least double the quantity prescribed.

33. Where the prescription orders a quantity of a pharmaceutical benefit in excess of the capacity of the largest size container of the appropriate type for which provision is made, the price for the container shall be calculated as if the pharmaceutical benefit had been supplied in more than one of the containers for which provision is made.

34. Notwithstanding anything contained elsewhere in this Determination the agreed price in respect of supply of a quantity of an extemporaneously prepared pharmaceutical benefit shall not exceed the agreed price for a greater quantity of that benefit.

35. Notwithstanding anything contained elsewhere in this Determination in calculating the price in respect of supply of a quantity of an ingredient of an extemporaneously prepared pharmaceutical benefit, that price shall not exceed the price of a greater quantity of that ingredient.

36. A medicinal preparation which is a variation of a formula included in the Standard Formulae List, due to the addition or deletion of an ingredient or to variation of the dose, shall be deemed not to be included in the Standard Formulae List.

37. A medicinal preparation which is a combination of preparations set out in the Standard Formulae List shall be deemed not to be included in the Standard Formulae List.

38. Extemporaneously prepared pharmaceutical benefits which are not included in the Standard Formulae List shall be classified for pricing purposes according to the type of preparation in accordance with the Second Schedule to the Determination made by the Minister under section 85 of the Act. Except in the case of exceptional prescriptions or where the approved supplier has made an election in accordance with paragraph 39, the agreed price for such a pharmaceutical benefit shall be calculated as follows:

- (a) On the sixteenth day of the month or as near as practicable thereto the total number of grams or millilitres, as the case may be, priced during the previous four weeks or period as near as practicable thereto, for each type of preparation in the Standard Formulae List will be ascertained, together with the total amount (exclusive of container costs and dispensing fees) paid for each total quantity.
- (b) The total amount paid (exclusive of container costs and dispensing fees) ascertained in accordance with (a) above for each type of preparation, shall be divided by a number equal to one-tenth of the number of grams or millilitres, as the case may be, for that type of preparation ascertained in accordance with (a) above.
- (c) The agreed price shall be the average ten grams or ten millilitres rate ascertained in accordance with (b) above calculated at about the sixteenth day of the month prior to the month of supply for the particular type of preparation, multiplied by one-tenth of the number of grams or millilitres, plus the container cost, a dispensing fee of \$5.40 and an additional fee of \$0.93.
- (d) On the sixteenth day of each month or as near as practicable thereto, if no prescriptions have been priced during the previous four weeks or period as near as practicable thereto for any of the formulae listed for a type of preparation, the agreed price will be ascertained by taking the average ten grams or ten millilitres rate (exclusive of container costs and dispensing fees) of all the formulae listed multiplied by one-tenth of the number of grams or millilitres, plus the container cost, a dispensing fee of \$5.40 and an additional fee of \$0.93.
- (e) The amount payable for a benefit ascertained in accordance with (c) or (d) above shall in each case be taken to the nearest cent, one half cent being counted as one cent.

39. An approved supplier may elect to calculate agreed prices of extemporaneously prepared pharmaceutical benefits which are not included in the Standard Formulae List in accordance with the provisions of paragraph 20 instead of calculating agreed prices in accordance with paragraph 38. An election made in pursuance of this paragraph shall be in writing and shall remain in force for a period of not less than three months from and including the date of election, but may be revoked in writing at any time after the expiration of that period.

40. Where an approved supplier who has not made an election in accordance with paragraph 39 supplies an extemporaneously prepared pharmaceutical benefit and no preparation of the type supplied is included in the Standard Formulae List (and an average price is therefore not available), the agreed price shall be calculated in accordance with paragraph 20.

41. Where the preparation comprises a preparation included in the Standard Formulae List plus an additive, and the approved person has not made an election in pursuance of paragraph 39, the agreed price for the preparation shall be either the agreed price calculated in accordance with paragraph 38 or the agreed price for the Standard Formulae preparation without the additive calculated in accordance with paragraph 20, at the option of the approved supplier.

42. Notwithstanding the provisions of paragraph 38 an approved supplier who has not elected to calculate agreed prices in accordance with paragraph 39 may calculate the agreed price for an exceptional prescription in accordance with the provisions of paragraph 20.

Dated this 15th day of September 1989.

- 3B. A person who is a member of the staff of the Legal Aid Commission (A.C.T.) established by the *Legal Aid Ordinance* 1977 of the Australian Capital Territory shall, for the purposes of these Rules, be deemed to be an officer of the Australian Public Service.
- 3C. A person who is an employee of the Australian Institute of Criminology established by the *Criminology Research Act* 1971, shall, for the purposes of these Rules, be deemed to be an officer of the Australian Public Service.
- 3D. A person who is an employee of the Law Reform Commission established by the *Law Reform Commission Act* 1973 shall, for the purposes of these Rules, be deemed to be an officer of the Australian Public Service.

4 - The Industry

The Industry in and in connection with which the Association is formed is the industry of the employment of persons in the Australian Public Service or the Public Service of the Northern Territory or the Australian Capital Territory in legal duties of a professional nature.

7 - Eligibility

- (1) A person who is eligible for admission as a member if he or she:
- (a) is an officer or employee of:
- (i) the Australian Public Service;
- (ii) a body established by a law of the Commonwealth or of the Australian Capital Territory;
- (iii) the Public Service of the Northern Territory; or
- (iv) an approved authority within the meaning of the Superannuation Act 1976 as amended from time to time.
- (b) is ordinarily engaged in:
- (i) legal duties of a professional nature; or
- (ii) duties that require legal qualifications or training for their proper and efficient performance; and
- (c) is of good character.
- (2) A former member of the Association who retires from his or her employment is eligible to retain, or to be admitted to, membership of the Association, as the case requires.

78 - Cessation of Membership

Unless the Executive Council otherwise approves, a member of the Association who ceases -

- (a) to be an officer or employee of the Australian Public Service or an employee of the Public Service of the Northern Territory; or
- (b) to be ordinarily engaged in legal duties of a professional nature, shall cease to be a member.

Information concerning the application concerning the nature and effect of the proposed alteration is as follows:

- Rule 4 allows for the industry to include employees of the Australian Capital Territory Public Service.
- Rule 7(1)(b)(ii) avoids any possible doubt which might exist as to the interpretation of Rule 7(1)(b)(i). For example, such a doubt might arise as to the coverage of persons who are employed prior to their being eligible for admission to practice but with the intention that they undergo a course of training in a legal workshop, and who have traditionally been within the Association's coverage.
- Rule 7(1)(a)(iv) enables coverage of legal personnel in relevant commonwealth and Territory bodies without having to refer to the formal basis of establishment of such bodies. There is some overlap in what is covered by sub-rules (ii) and (iv), but neither cover the same field and are both germane to the industry of the Association.
- Rule 7(2) enables retired members to retain their membership and therefore their membership rights.

Any interested organisation, registered under the Industrial Relations Act, association or person who desires to object to the application may do so by lodging in the Industrial Registry a notice of objection accompanied by a written statement within thirty-five (35) days after the publication of this advertisement and by serving on the organisation whose address for service is: Box E307, Queen Victoria Terrace, A.C.T. 2600, within seven (7) days after the notice of objection has been lodged, copies of the notice of objection and written statement so lodged.
