COMMONWEALTH OF AUSTRALIA

HEALTH INSURANCE ACT 1973

Statement Under Section 106AA

On the fourteenth day of August 1991, I, Brian Howe, Minister of State for Health, Housing and Community Services, determined under section 106 of the Health Insurance Act 1973, that Dr Michael George PAPPS of 13 Semaphore Road, Semaphore in South Australia, provided excessive services and that he be reprimanded, counselled by medical officers of the Health Insurance Commission and repay \$14,532.10 to the Commonwealth of Australia for services found to be not medically necessary for the adequate medical care of the patients concerned.

Reasons for Determination

The determination was made by me on the basis of recommendations made under section 105 of the Act by the Medical Services Committee of Inquiry for the State of South Australia, after its inquiry into the practises of Dr Papps.

The Committee consisted of five medical practitioners appointed after consultation with the Australian Medical Association. After an extensive inquiry where oral evidence was taken over 14 hearings, the Committee concluded that 1,175 services provided to 25 individuals over a 12 month period were not reasonably medically necessary. In the main, these excessive services were caused by Dr Papps' routine claim for longer consultations than necessary, poor planning and review of prescribed medications for his patients, excessive use of pathology and claims for after hours provided at his own convenience.

I thank the Committee for the work undertaken in the inquiry.

Comments

The Government is seriously concerned by the practice of practitioners like Dr Papps who provide services which are not reasonably necessary for the adequate medical care of the patients concerned. Excessive services are a drain on public funds and every effort is being made to reduce the magnitude of the problem.

Dated this 3rd day of November, 1991.

Clients must register at or before the time their first claim is lodged. Subsequent claims must show client ID's, where required. Drawback Client Registration Forms are available from Customs capital city offices.

2. PAYMENT OPTIONS. There are three options available:

- (a) **OPTION A:** Payment made by Electronic Funds Transfer to the *claimant's Australian account* which the claimant nominated when registering as a Drawback Client.
- (b) **OPTION B:** Payment made by Electronic Funds Transfer to an *Australian account other than the claimant's* which the claimant's payee nominated when registering as a Drawback Client.

Claimants using Option B **MUST** formally transfer their entitlements to the other payee (forms are available from Customs capital city offices). When the transfer has been completed claimants will be advised of the Standing Authority No. to be quoted on their claims.

3. METHODS OF ASSESSING DRAWBACK

ENTITLEMENTS. Claimants are allowed to self assess their drawback entitlements, provided they do not overclaim. There are basically three methods of assessment:

- (a) **METHOD A: *Shipment by Shipment***, where the claim amount is calculated from the import documents which directly relate to the export consignment.
- (b) **METHOD B: *Representative Shipment***, which covers a variety of assessment methods in which a representative, rather than the actual, import shipment is used.
- (c) **METHOD C: *Imputation***, is the method of assessment by which Claimants unable to obtain import documents from their suppliers can use formulas set out in the Customs Regulations to "impute" their entitlements. Imputation may be used only for imports not further processed in Australia.

4. CLAIM SIMPLIFICATION. Claim lines based on Methods A or B may omit the particulars from the columns marked "(Note 4)" IF the particulars required in those columns cannot reasonably be provided.

ANTI-DUMPING AUTHORITY

DRIED EGG WHITE FROM ITALY

On 4 December 1991 the Anti-Dumping Authority received a request under sub-section 269TF of the Customs Act 1901 for a review of the Australian Customs Service negative Preliminary Finding on the alleged dumping and subsidisation of imports of dried egg white from Italy.

The Authority must undertake a review and, under provisions of the Anti-Dumping Authority Act 1988, shall:

1. Within 60 days after the finding is referred to it
 - . confirm the finding; or
 - . reject the negative finding and substitute its own finding.

The 60-day limit ends on 3 February 1992.

2. Take account only of information that was available to the Australian Customs Service at the time it made its Preliminary Finding. That is, the Authority cannot take into consideration any information that was not in the possession of the Australian Customs Service at the time of the Comptroller's decision.

Should you have any queries regarding this review please contact Russell Phillips on telephone number (06) 276 2012.

ANTI-DUMPING AUTHORITY

NOTICE OF INQUIRY INTO

DRIED EGG WHITE FROM THE NETHERLANDS AND SWEDEN

The Australian Customs Service (ACS) has made a preliminary finding that there are sufficient grounds for the publication of a countervailing duty notice in respect of dried egg white from the Netherlands and dumping duty notices in respect of dried egg white from the Netherlands and Sweden.

The ACS, acting under paragraph 269TD(2)(b) of the Customs Act 1901, has now referred to the Authority the question of whether the publication of these dumping and countervailing duty notices is so justified. The commencement date for the inquiry is 12 December 1991 and the Authority will report to the Minister no later than 2 April 1992.

Interested parties are invited to make submissions to the Authority as soon as possible, but certainly no later than 20 January 1992. Preferably, submissions should address specific matters raised in the ACS preliminary finding report. Copies of that report can be obtained from the Office Manager, Dumping Control, ACS, Canberra, by telephoning (06) 275 6060.

Following receipt of submissions, it is possible that a meeting of parties will be arranged to explore issues raised. Should such a meeting take place, a further opportunity will be afforded parties to make submissions to the Authority on those issues.

The Authority has adopted the "public file" system used by the ACS and explained in Australian Customs Notices 87/169 and 89/162. Briefly, this means that a submission containing confidential material should be accompanied by another version, omitting the confidential material but containing a non-confidential summary, which can be made available to other parties to the inquiry. Three copies of each version are required.

The Authority's address for submissions is GPO Box 9839, Canberra, ACT 2601.

For further information regarding this inquiry, please telephone Russell Phillips on (06) 276 2012.

COMMUNITY PUBLIC RADIO LICENCE GRANT**BLUE MOUNTAINS****PUBLIC SUBMISSIONS INVITED**

The Australian Broadcasting Tribunal is conducting a public inquiry into the grant of a community public radio licence to serve the Blue Mountains.

A community service is defined as a broad-based service, designed to serve a geographic area as its community of interest, and providing for the participation in programming and management by a variety of community groups and interests in that area.

The Tribunal has received one application for the licence, from:

Blue Mountains Public Broadcasting Society Incorporated

THE ISSUES TO BE CONSIDERED

The issues to be considered in the inquiry arise from the criteria set out in section 83C of the Broadcasting Act 1942. They include:

- (a) whether the applicant is a fit and proper person to hold the licence;
- (b) whether the applicant has the financial, technical and management capabilities necessary to provide the service;
- (c) whether the applicant is capable of complying with the conditions of the licence;
- (d) the need for the commercial viability of other overlapping services;

- (e) the undesirability of a person being in a position to exercise control of more than one public licence;
- (f) the undesirability of the Commonwealth, a State or the Northern Territory or a statutory authority of the Commonwealth, a State or a Territory, or a political party being in a position to exercise control of the licence;
- (g) the undesirability of the licence being held by a corporation whose operations pursuant to the licence will be conducted, either wholly or substantially, for the purpose of the acquisition by another person of profit or gain;
- (h) the desirability of members of the community to be served being in a position to exercise control of the licence;
- (j) the need to encourage members of the community to be served to participate in the operations of the licensee and the selection and provision of programs;
- (k) where there are two or more suitable applicants, which of the applicants is the most suitable.
