DUMPING OF EXPANDABLE POLYSTYRENE  
FROM FRANCE, THE REPUBLIC OF KOREA, THE KINGDOM OF SAUDI ARABIA,  
SINGAPORE, TAIWAN PROVINCE AND THE UNITED KINGDOM.

CUSTOMS ACT 1901  
NOTICE UNDER SUBSECTION 269 TC(4)

I, Peter Ludwig Carl Kittler, delegate of the Comptroller-General of Customs, have accepted an application made under subsection 269TB(1) of the Customs Act 1901, which alleges that there are reasonable grounds to initiate an inquiry into the dumping of exports of expandable polystyrene from France, the Republic of Korea, the Kingdom of Saudi Arabia, Singapore, Taiwan Province and the United Kingdom.

The goods the subject of this notice are expandable polystyrene beads of a diameter of 0.35mm and greater, not integrally coloured, for processing by the "steam moulding" process. The goods are classified within 3903.11.00 (statistical code 12) in Schedule 3 to the Customs Tariff Act 1987. The rate of duty is 15 per cent general and 10 per cent for developing countries.

The application was lodged by Chemplex Sales (Australia) Pty Ltd on behalf of the Australian industry, comprising the applicant and BASF Australia Ltd.

In accordance with Customs Regulation 183AB a preliminary finding will be made within 100 days after the publication of this notice as to whether there are sufficient grounds for the publication of a dumping duty notice in respect of the goods the subject of the application.

A preliminary finding that there are sufficient grounds for the publication of a dumping duty notice may result in the imposition of provisional measures including the taking of securities under section 42 of the Customs Act 1901 for the period specified in subsection 45(2) of the Customs Act 1901 in respect of dumping duty that may become payable on the importation of the goods the subject of the application.

A preliminary finding that there are sufficient grounds for the publication of a dumping duty notice would be referred to the Anti-Dumping Authority for further investigation and report to the Minister (within 120 days) on whether dumping duties should be imposed.

Australian Customs Notice (ACN) 92/30 outlines the procedures for the Customs inquiry. It is in the interest of parties concerned with this inquiry to obtain a copy of the ACN. Copies are available from the Publications Section, Customs House, Canberra or Customs Houses in each capital city.

All interested parties are invited to lodge written submissions with Mr Phillip Anderson, Dumping Operations, Australian Customs Service, Customs House, 5 Constitution Avenue, Canberra, ACT 2601 by no later than 30 March 1992.

ANTI-DUMPING AUTHORITY

FINAL FINDING

INQUIRY INTO CANNED PEACHES FROM SPAIN,  
GREECE AND CHINA AND CANNED PEARS FROM SPAIN

The Anti-Dumping Authority has completed its inquiry into canned peaches and canned pears from the above mentioned countries.

In its report, the Authority concluded that:

- canned peaches imported from Spain, Greece and China and canned pears from Spain have been dumped;
- canned peaches from Spain and Greece and canned pears from Spain have been subsidised;
- the Australian industry producing canned peaches and canned pears has suffered material injury;
- the dumping of canned peaches from Spain, Greece and China has caused material injury to the Australian industry;
- subsidised canned peaches from Spain and Greece have caused material injury to the Australian industry;
- subsidised canned pears from Spain have not caused material injury to the Australian industry; and
- if anti-dumping and countervailing action is not taken, the industry is likely to continue to suffer material injury.

The Authority recommended to the Minister for Small Business, Construction and Customs that countervailing action be taken under Section 269TJ of The Customs Act 1901 against exports of canned peaches from Spain and Greece. Action was also recommended to the Minister that anti-dumping action be taken under Section 269TG of The Customs Act 1901 against exports of canned peaches from Greece and China.

The Minister has accepted the Authority's recommendations.

Copies of the non-confidential version of the Authority's report, No.57, will be available in due course. Requests for copies should be directed to Margaret McLeod at the Authority on (06) 276 1742.

ANTI-DUMPING AUTHORITY

FINAL FINDING  
TRIETHANOLAMINE  
FROM  
THE FEDERATIVE REPUBLIC OF BRAZIL AND  
THE UNITED STATES OF AMERICA

The Anti-Dumping Authority has completed its inquiry into triethanolamine from the Federative Republic of Brazil and the United States of America.

In its report the Authority concluded that:

- triethanolamine has been imported from the Federative Republic of Brazil and the United States of America at dumped prices;
- the Australian industry has suffered material injury; and
- there is a causal link between the material injury suffered and exports of triethanolamine by each of the companies under inquiry.

In light of these conclusions the Authority recommended to the Minister for Small Business, Construction and Customs that anti-dumping duties be imposed on exports of triethanolamine from Oxiteno S.A. Industria E Comercio of the Federative Republic of Brazil and Dow Chemical Company of the United States of America.

The Authority also recommended to the Minister that no formal action be taken in relation to exports from Occidental Chemical Corporation and Union Carbide Chemicals and Plastics Company Inc of the United States of America.

The Minister has accepted the Authority's recommendations.

Copies of the non-confidential version of the Authority's report No.55 will be available in due course. Inquiries for copies should be addressed to Margaret Mcleod at the Authority by telephoning (06) 276 1742.

Customs Act 1901

DECLARATION PURSUANT TO SUBSECTION 269TG(1)

I, DAVID PETER BEDDALL, Minister for Small Business, Construction and Customs, pursuant to subsection 269TG(1) of the Customs Act 1901, am satisfied that in respect of triethanolamine, pure and in admixture with other ethanolamines (hereinafter referred to as the "goods"), exported from the United States of America by Dow Chemical Company to Australia:

- (a) the amount of the export price of the goods is less than the amount of the normal value of those goods; and
- (b) by reason thereof:

security has been taken under section 42 in respect of any duty that may become payable on the goods under section 8 of the Anti-Dumping Act - material injury to an Australian industry producing like goods would or might have been caused if the security had not been taken.

and therefore, hereby DECLARE that section 8 of the Customs Tariff (Anti-Dumping) Act 1975 applies to those goods.
