NATIONAL FOOD AUTHORITY

FOOD STANDARDS

Notice pursuant to section 24 of the National Food Authority Act 1991 (the Act)

The National Food Authority has before it a proposal to amend the Food Standards Code to develop a new Standard C6 - Game Meat and Game Meat Products.

The draft standard defines game meat and game meat products, permits the use of specified additives in certain game meat products, and sets out labelling requirements for the information of consumers. It also prohibits the sale or use of game meat offal as food. A draft standard covering game meat and game meat products is needed to ensure that these products meet quality and labelling requirements appropriate for supply for human consumption.

The proposal was prepared by the National Health and Medical Research Council (NH&MRC) prior to the commencement of the Act, and continues in force by virtue of subsection 71(1A) of the Act. Having regard to what has been done by the NH&MRC in relation to the proposal, the Authority has decided pursuant to subsection 71(2) of the Act to omit to invite public submissions in relation to a full assessment of the proposal and to omit to make a full assessment of the proposal.

The Authority has prepared a draft Standard C6 - Game Meat and Game Meat Products - and will hold an inquiry to consider this draft. To assist in this process the Authority invites written submissions on matters relevant to the proposal.

Any submission received will be placed on the public register of the Authority unless a claim of commercial confidentiality (either in respect of all or a part of the submission) is made and justified.

All submissions should be forwarded to the address shown below, to be received by 8 April 1992. Any correspondence or submissions on this matter should quote Proposal No 91.

Further information about the proposal and the draft Standard C6, can be obtained by writing to:

NATIONAL FOOD AUTHORITY FOOD STANDARDS

Notice pursuant to section 36 of the National Food Authority Act 1991 (the Act)

The National Food Authority has accepted for consideration under section 13 of the Act an application dated 7 June 1991 from the Council of Australian Food Technology Associations to amend the Food Standards Code by varying Standard K3 - Confectionery - to standardise the print size of identical label statements regarding alcohol content in confectionery. The application was submitted prior to the commencement of the National Food Authority Act 1991 and continues in force by virtue of section 71 of the Act.

The application points out that a package of confectionery containing any spirit, liqueur or alcoholic cordial must carry a statement of the minimum percentage alcohol content in type of 1.5mm, and that a package of confectionery containing alcoholic flavourings must carry an identical statement but in type of 3mm. The application seeks to standardise the print size to 1.5mm. The Authority considered that the statements relating to the alcohol content of confectionery containing any spirit liqueur, alcoholic cordial or alcoholic flavourings is an information statement rather than a warning statement.

The Authority has decided pursuant to section 36 of the National Food Authority Act 1991 to omit to do the following matters:

- . invite public submissions in relation to a full assessment of the application; and
- . make a full assessment of the application.

The Authority is satisfied that the application raises issues of minor significance and complexity only, and that to omit to do the specified matters in relation to the application will not adversely affect the interests of any person or body.

Section 63 of the Act provides that, subject to the Administrative Appeals Tribunal Act 1975, an application may be made to the Administrative Appeals Tribunal for a review of the Authority's decision to omit to do the specified matters.

The Authority has prepared a draft variation to paragraph (6)(c) of Standard K3 to vary the print size of the label statement regarding alcohol content in confectionery to 1.5 mm height and will hold an inquiry to consider the draft.

To assist in this process, the Authority invites written submissions on matters relevant to the inquiry. Any correspondence or submissions on this matter should quote Application No 74.

Any submission received will be placed on the public register of the Authority unless a claim of commercial confidentiality (either in respect of all or a part of the submission) is made and justified.

All submissions should be forwarded to the address shown below, to be received by 8 April 1992.

Further information about the application, the Authority's decision under section 36, and the draft variation to Standard K3, may be obtained by writing to:

NATIONAL FOOD AUTHORITY

FOOD STANDARDS

Notice pursuant to section 36 & 26 of the National Food Authority Act 1991 (the Act)

The National Food Authority has prepared pursuant to section 21 of the Act a proposal to amend the Food Standards Code by varying standard E1 - Eggs, Liquid Eggs and Liquid Egg Products - to update the referenced methods for the microbiological examination of eggs and egg products to ensure consistency with the current Australian standard methods. The Australian standard referred to currently in Standard E1 is AS1142, Methods of the Microbiological Examination of Eggs and Egg Products. AS1142 has been withdrawn and the relevant methods are now located in AS1766, Methods for the Microbiological Examination of Food.

The Authority has decided pursuant to section 36 of the National Food Authority Act 1991 to omit to do the following matters:

- . invite public submissions in relation to a full assessment of the proposal;
- . make a full assessment of the proposal; and
- . hold an inquiry into the draft standard.

The Authority is satisfied that the proposal raises issues of minor significance and complexity only, and that to omit to do the specified matters in relation to the proposal will not adversely affect the interests of any person or body. The technical amendment proposed by the Authority simply substitutes the current Australian standard method for the previous one which has been withdrawn.

Section 63 of the Act provides that, subject to the Administrative Appeals Tribunal Act 1975, an application may be made to the Administrative Appeals Tribunal for a review of the Authority's decision to omit to do the specified matters.

The Authority has prepared a draft variation to standard E1 - Eggs, Liquid Eggs and Liquid Egg Products - to amend the referenced methods for the microbiological examination of eggs and egg products. The Authority has decided to recommend to the National Food Standards Council (the Council) that it adopt the draft variation.

Further information about the Authority's decision, and the reasons for the recommendation to the Council, may be obtained by writing to:

NATIONAL FOOD AUTHORITY

FOOD STANDARDS

*Notice pursuant to sections 36 & 14 of the
National Food Authority Act 1991 (the Act)*

The National Food Authority has accepted for consideration under section 13 of the Act an application received on 9 September 1991 from the Council of Australian Food Technology Associations to amend the Food Standards Code by varying Standard N2 - Jam and Related Products - to permit the addition of sulphur dioxide to fruit and fruit products used in the manufacture of jam and related products.

The application seeks to restore what had been interpreted as a permission to add sulphur dioxide to fruit and fruit products for use in jam and related products. This alleged permission which was consistent with industry practice was removed when a revised standard for jam and related products was introduced in Amendment Series 11 to the Food Standards Code (gazetted on 14 August 1991). The application notes that an overall carryover limit of 10 mg/kg of sulphur dioxide in the final product irrespective of source would continue to apply.

In relation to one aspect of this matter (restoring permission to use sulphur dioxide in citrus peel for use in jam and related products), the Authority on the understanding that the matter was simply a technical oversight in Amendment Series 11 decided, pursuant to section 36 of the Act, to omit to:

- . invite public submissions;
- . make a full assessment of the application; and
- . hold an inquiry.

Upon further consideration in light of comments received in relation to its earlier decision, the Authority has agreed to revoke its earlier decision and will consider the application according to the procedure laid down in Part 3 of the Act.

The Authority will now make a full assessment of the application. To assist in this process, the Authority invites written submissions on matters relevant to the application. Any submission received will be placed on the public register of the Authority unless a claim of commercial confidentiality (either in respect of all or a part of the submission) is made and justified.

All submissions should be forwarded to the address shown below, to be received by 8 April 1992. Any correspondence or submissions on this matter should quote Application No 70.

ANTI-DUMPING AUTHORITY

REVIEW OF THE AUSTRALIAN CUSTOMS SERVICE
NEGATIVE PRELIMINARY FINDING ON
LOW VOLTAGE, AERIAL, BUNDLED,
CROSS LINKED POLYETHYLENE CABLE
FROM THE REPUBLIC OF KOREA

The Anti-Dumping Authority has completed its review of the above finding by Customs.

On 13 December 1991, the Australian Customs Service (Customs) made a negative Preliminary Finding on an application by the Australian Electrical and Electronic Manufacturers' Association, on behalf of its member companies, MM Cables, Olex Cables and Pirelli Cables Australia Limited, through its consultant ITC (Australia) (ITC), for anti-dumping action against exports of low voltage, aerial, bundled, cross linked polyethylene cable (LV ABC) from the Republic of Korea (Korea).

On 13 December 1991, ITC, on behalf of the Australian industry, asked the Authority to review the Customs negative finding on LV ABC from Korea.

Following its review of Customs' negative finding, the Authority has concluded that:

- . there has been no dumping of the goods under review from Korea.

The Authority has therefore confirmed the negative Preliminary Finding made by Customs.

Copies of the non-confidential version of the Authority's report No. 59 will be available in due course. Inquiries for copies should be addressed to Margaret McLeod at the Authority by telephoning (06) 276 1742.

ANTI-DUMPING AUTHORITY

NOTICE OF INQUIRY INTOPHTHALIC ANHYDRIDE FROM ISRAEL
AND THE REPUBLIC OF KOREA

The Australian Customs Service (ACS) has made a preliminary finding that there are sufficient grounds for the publication of dumping duty notices sought in respect of phthalic anhydride from Israel and The Republic of Korea.

The ACS, acting under paragraph 269TD(2)(b) of the Customs Act 1901, has now referred the question of whether the publication of the dumping duty notices is so justified to the Authority. The commencement date for the inquiry is 27 February 1992 and the Authority will report to the Minister no later than 19 June 1992.

Interested parties are invited to make submissions to the Authority as soon as possible, but certainly no later than 6 April 1992. Preferably, submissions should address specific matters raised in the ACS report on its preliminary finding. Copies of that report can be obtained from the Office Manager, Dumping Control, ACS, Canberra, by telephoning (06) 275 6060.

Following receipt of submissions, it is possible that a meeting of parties will be arranged to explore issues raised. After that meeting, a further opportunity will be afforded parties to make submissions to the Authority on those issues.

The Authority has adopted the "public file" system used by the ACS and explained in Australian Customs Notices 87/169 and 89/162. Briefly, this means that a submission containing confidential material should be accompanied by another version, omitting the confidential material but containing a non-confidential summary, which can be made available to other parties to the inquiry. Three copies of each version are required.

The Authority's address for submissions is GPO Box 9839, Canberra, ACT 2601.

For further information regarding this inquiry, please telephone Chris Vincent on (06) 276 1741.

BROADCASTING ACT 1942

JOINT SHARE TRANSACTION AND LICENCE RENEWAL COMMERCIAL TELEVISION SERVICE MTN GRIFFITH

NOTICE OF INQUIRY PUBLIC SUBMISSIONS INVITED

The Australian Broadcasting Tribunal has commenced an inquiry into the acquisition of all the issued capital of Lochfield Consultants Pty Ltd, licensee of commercial television service MTN Griffith, by Votrant No 620 Pty Ltd (Votrant).

Applications for approval of the transaction have been lodged by Votrant and other persons indirectly acquiring a prescribed interest in the licence.

The Tribunal has previously invited submissions relating to the renewal of the MTN licence, and advised that the issues to be considered during this inquiry are whether, having regard to the criteria in s.86AA of the Act, the Tribunal should renew the MTN licence (refer Public Inquiry File IL/90/106). The Tribunal has decided that this share transaction inquiry will be considered jointly with the present licence renewal inquiry.

The new issues to be considered in this joint inquiry derive from the criteria for the transfer of a commercial licence which are set out in s.89A(8) of the Broadcasting Act 1942. The issues are whether the Tribunal should refuse consent having particular regard to:

- (a) whether the applicant has given an undertaking to comply with the conditions of the licence, to provide an adequate and comprehensive service pursuant to the licence, to encourage the provision of Australian programs and to use and encourage the use of Australian creative resources;
- (b) whether the giving of consent would be contrary to a provision of the Act;
- (c) whether it would be advisable in the public interest, because the Tribunal is not satisfied that:
 - (i) the applicant is a fit and proper person to hold the licence;

- (ii) the applicant has the financial, technical and management capabilities necessary to provide an adequate and comprehensive service;
- (iii) the applicant is otherwise capable of complying with the conditions of the licence.
- (d) whether if consent was given, contraventions of s.90C (limitations of interests), s.90F (limitations of directorships), s.90G (foreign ownership provisions), s.92JB (limitations of cross media interests), or s.92JD (limitations of cross media directorships) would occur.

In particular the Tribunal will be considering the apparent contravention of s.92JB (cross media ownership provisions) by Broadcast Media Group Pty Ltd and its associated shareholders and the apparent contravention of s. 92JD (cross media directorship provisions) by Mr W R Gamble.
- (e) such other matters relevant to the inquiry as the Tribunal see fit.

If you would like to give your views on these or other relevant matters, you can make submissions to the Tribunal by close of business 10 April 1992.

Before you lodge a submission you may wish to inspect the relevant inquiry files (File No: IL/90/106 and IO/92/14) containing the applications, other useful background information and the Tribunal's pamphlet called A Guide to Submitters. Information papers relating to the transaction may be obtained and inquiry files can be inspected during business hours at the following addresses:

PUBLIC SUBMISSIONS INVITED

JOINT INQUIRY INTO THE GRANT OF A COMMERCIAL AND A SUPPLEMENTARY FM RADIO LICENCE TO SERVE

THE SALE AREA OF VICTORIA

The Australian Broadcasting Tribunal is conducting a joint inquiry into whether to grant licences for new commercial FM radio services in the Sale area.

In a notice dated 13 November 1991, the Minister for Transport and Communications invited persons to apply to the Tribunal for the grant of a commercial FM radio licence. The Tribunal received one application from FM GIPPSLAND PTY LIMITED.

Further, the Minister has referred to the Tribunal an application by SOUTHERN CROSS BROADCASTING AUSTRALIA LIMITED, the licensee of 3TR Sale, for the grant of a supplementary FM radio licence to serve the same area. The Tribunal is considering both applications simultaneously.

THE ISSUES TO BE CONSIDERED IN THE INQUIRY

The issues to be considered in this inquiry arise from the criteria set out in sections 83A and 83B of the Broadcasting Act 1942.

The issues that are relevant to the inquiry are:

Generally:

1. whether only one additional licence should be granted;

As regards each of the applications:

2. whether the applicant is a fit and proper person to hold the licence;
3. whether the applicant has the financial, technical and management capabilities necessary to provide an adequate and comprehensive service;
4. whether the applicant is capable of complying with the conditions of the licence;

5. the need to avoid undue concentration of influence;
6. the policy that, whenever practicable, the number of broadcasting services provided to the public should be increased;
7. if the holder of an existing radio or television licence serving an overlapping area satisfies the Tribunal that its service would not be commercially viable after the grant of an independent commercial licence and/or a supplementary licence, the Tribunal must have regard to the need for that service's commercial viability;
8. whether a radio licence of the kind contemplated in the Minister's notice should be granted;

As regards the applicant for an independent commercial licence:

9. whether there would be a contravention of the ownership and control provisions of the Broadcasting Act;
10. if there is more than one suitable applicant for the licence, the Tribunal must decide which of the applicants is the most suitable.

SUBMISSIONS AND THE INQUIRY FILE

If you would like to give us your views on any or all of these matters, you can make a submission to the Tribunal by 10 April 1992.

PUBLIC SUBMISSIONS INVITED**JOINT INQUIRY INTO THE GRANT OF A COMMERCIAL AND
A SUPPLEMENTARY FM RADIO LICENCE TO SERVE****THE BUNDABERG AREA OF QUEENSLAND**

The Australian Broadcasting Tribunal is conducting a joint inquiry into whether to grant licences for new commercial FM radio services in the Bundaberg area.

In a notice dated 13 November 1991, the Minister for Transport and Communications invited persons to apply to the Tribunal for the grant of a commercial FM radio licence. The Tribunal received one application from ROCKWORTH PTY LIMITED.

Further, the Minister has referred to the Tribunal an application by BUNDABERG BROADCASTERS PTY LIMITED, the licensee of 4BU Bundaberg, for the grant of a supplementary FM radio licence to serve the same area. The Tribunal is considering both applications simultaneously.

THE ISSUES TO BE CONSIDERED IN THE INQUIRY

The issues to be considered in this inquiry arise from the criteria set out in sections 83A and 83B of the *Broadcasting Act 1942*.

The issues that are relevant to the inquiry are:

Generally:

1. whether only one additional licence should be granted;

As regards each of the applications:

2. whether the applicant is a fit and proper person to hold the licence;
3. whether the applicant has the financial, technical and management capabilities necessary to provide an adequate and comprehensive service;
4. whether the applicant is capable of complying with the conditions of the licence;

5. the need to avoid undue concentration of influence;
6. the policy that, whenever practicable, the number of broadcasting services provided to the public should be increased;
7. if the holder of an existing radio or television licence serving an overlapping area satisfies the Tribunal that its service would not be commercially viable after the grant of an independent commercial licence and/or a supplementary licence, the Tribunal must have regard to the need for that service's commercial viability;
8. whether a radio licence of the kind contemplated in the Minister's notice should be granted;

As regards the applicant for an independent commercial licence:

9. whether there would be a contravention of the ownership and control provisions of the Broadcasting Act;
10. if there is more than one suitable applicant for the licence, the Tribunal must decide which of the applicants is the most suitable.

SUBMISSIONS AND THE INQUIRY FILE

If you would like to give us your views on any or all of these matters, you can make a submission to the Tribunal by 10 April 1992.

If you would like to make a submission about issues 1 and 7 above, the Tribunal has prepared a draft economic and financial framework which you should look at before making your submission.

To assist you in making a submission, pamphlets entitled *A Guide To Submitters* and *Inquiry Procedures* have been prepared by the Tribunal. Copies of these pamphlets and the economic and financial framework are available by writing to the Tribunal at the North Sydney address below, or by phoning (02) 959 7811.

You may also want to look at the public inquiry files (file nos: IL 92/26 and IL 92/27) which contain the applications, the Minister's Notices and other relevant information. The inquiry files will be updated progressively and will contain all material, including submissions, on which the Tribunal will rely in reaching its decisions.
