HUMAN RIGHTS AND EQUAL OPPORTUNITY COMMISSION
SEX DISCRIMINATION ACT 1984
SECTION 46(1)
NOTICE OF GRANT OF EXEMPTION
No. 2 of 1992

Notice is hereby given of a decision of the Human Rights and Equal Opportunity Commission pursuant to sub-section 44(1) of the Sex Discrimination Act (the Act) in the following terms:

The Human Rights and Equal Opportunity Commission hereby agrees to grant to the Queensland Government for and on behalf of Women's Infolink, Women's Policy Unit of the Office of the Cabinet of Queensland, an unconditional exemption from the operation of section 22 of the Act in respect of the Family Law Seminar to be conducted on 9 April, 1992.

- (A) The Human Rights and Equal Opportunity Commission's findings on material questions of fact relating to the application were as follows:
- (i) Section 22 of the Act renders unlawful discrimination in the provision of goods, services and facilities on the ground of a person's sex, marital status or pregnancy.
 - (ii) On 24 February 1992 the Commission granted the Queensland Government for and on behalf of Women's Infolink, Women's Policy Unit of the Office of the Cabinet of Queensland, an unconditional exemption from the operation of section 22 of the Act in respect of a Family Law Seminar conducted on 28 February 1992. A second Family Law seminar is to be held on 9 April 1992.
 - (iii) The second seminar is also directed to women to inform women of their rights with respect to Family Law. It is designed to enable participants to express their personal concerns and experiences with respect to Family Law. It is being held as a result of contact by women to Women's Infolink during its first year of operation - such contact reflecting a large information gap for women.
- (B) These findings were based on the following evidence:
- (i) Application for Exemption dated 13 March, 1992.
 - (ii) Previous application for exemption dated 21 February, 1992.
 - (iii) Notice of Grant of Exemption No 1 of 1992.
- (C) The Commission's reasons for granting an exemption are as follows:
- (i) The Seminar will provide an appropriate forum to enable women to be advised and informed of their rights and obligations with respect to Family Law.
 - (ii) The Seminar will provide an appropriate forum to enable women to canvass and discuss issues affecting them in relation to Family Law.

Subject to the Administrative Appeals Tribunal Act 1975, application may be made to the Administrative Appeals Tribunal for review of this decision - on behalf of any person or persons whose interests are affected by it.

NATIONAL FOOD AUTHORITY

FOOD STANDARDS

Notice pursuant to section 16 of the National Food Authority Act 1991

The National Food Authority has before it an application dated 15 July 1991 from the Ice Cream Manufacturers' Federation of Australia to amend the Food Standards Code to vary Standard L1 - Ice Cream and Ice Confection and Related Products - and Standard A8 - Artificial Sweetening Substances - to permit the addition of aspartame to reduced fat ice cream and to low fat ice cream.

The application was submitted prior to the commencement of the National Food Authority Act and continues in force by virtue of section 71 of the Act.

The Authority has decided to omit to invite submissions in relation to a full assessment. This action is taken because of:

- . the accepted safety of aspartame;
- . current approvals granted by the Food Standards Code for the use of aspartame;
- . the technical need for the use of an artificial sweetening substance to replace sweetness in foods which have had their sugar content reduced to produce low energy variants;
- . the permission to use aspartame in ice confections - products which can be of similar nature and character to reduced fat and low fat ice creams; and
- . the previous possibility of categorising reduced fat and low fat ice creams as ice confection before development of their specific standards of identity in Standard L1.

The Authority has completed the full assessment of the application, has prepared draft variations to Standard L1 - Ice Creams and Ice Confection and Related Substances - and Standard A8 - Artificial Sweetening Substances - and will now conduct an inquiry to consider these drafts.

To assist in this process the Authority invites written submissions on matters relevant to the purposes of the inquiry.

Any submissions received will be placed on the public register of the Authority unless a claim of commercial confidentiality (either in respect of all or a part of the submission) is made and justified.

All submissions should be forwarded to the address shown below, to be received by 10 June 1992. Any correspondence or submissions on this matter should quote Application No 81.

Further information can be obtained by writing to:

NATIONAL FOOD AUTHORITY

FOOD STANDARD

Notice pursuant to section 22 of the
National Food Authority Act 1991

The National Food Authority has before it a proposal to amend the Food Standards Code to develop a new standard for foods for special medical purposes.

The Authority has adopted the recommendation of the Working Party on Therapeutic Goods and Food of the Commonwealth Department of Health, Housing and Community Services, that a standard for foods for special medical purposes be developed, based on the draft standard of the same name, of the Codex Alimentarius Commission.

Foods to be covered by the proposed new standard would include:

- . special infant formulae,
- . enteral feeding formulae,
- . special medical supplements, e.g. of amino acids, fat, carbohydrate,
- . very low energy diets for weight reduction.

The Authority will make a full assessment of this proposal. To assist in this process, the Authority invites written submissions on matters relevant to this proposal.

Any submissions received will be placed on the public register of the Authority unless a claim of commercial confidentiality (either in respect of all or a part of the submission) is made and justified.

All submissions should be forwarded to the address shown below, to be received by 29 July 1992. Any correspondence or submissions should quote Proposal No 49.

INITIATION OF AN INQUIRY INTO THE ALLEGED DUMPING
OF TRIFLURALIN TECHNICAL FROM THE UNITED STATES OF AMERICA

CUSTOMS ACT 1901
NOTICE UNDER SUB-SECTION 269 TC(4)

I, Anthony McDonald, delegate of the Comptroller-General of Customs have accepted an application made under sub-section 269TB(1) of the Customs Act 1901, which alleges that there are reasonable grounds to initiate an inquiry into the dumping of exports of trifluralin technical from the United States of America.

Trifluralin technical is classified within subheading 2921.43.10 (statistical code 22) in Schedule 3 to the Customs Tariff Act 1987. The general rate of duty is 10 per cent.

The application identifies Nufarm Limited as the sole Australian producer of like goods.

In accordance with Customs Regulation 183AB a preliminary finding will be made within 100 days after the publication of this notice as to whether there are sufficient grounds for the publication of a dumping duty notice in respect of the goods the subject of the application.

A preliminary finding that there are sufficient grounds for the publication of a dumping duty notice may result in the imposition of provisional measures including the taking of securities under section 42 of the Customs Act 1901 for the period specified in sub-section 45(2) of the Customs Act 1901 in respect of dumping duty that may become payable on the importation of the goods the subject of the application.

A preliminary finding that there are sufficient grounds for the publication of a dumping duty notice would be referred to the Anti-Dumping Authority for further investigation and report to the Minister (within 120 days) on whether dumping duties should be imposed.

Australian Customs Notice (ACN) No. 92/68 outlines the procedures for the Customs inquiry. It is in the interest of parties concerned with this inquiry to obtain a copy of the ACN. Copies are available from the Publications Section, Customs House, Canberra or Customs Houses in each capital city.

All interested parties are invited to lodge written submissions with Mr Christopher Briggs, Dumping Operations, Australian Customs Service, Customs House, 5 Constitution Avenue, Canberra, ACT 2601, by no later than 8 June 1992.

ANTI-DUMPING AUTHORITY

FINAL FINDING ON DRIED EGG WHITE FROM THE NETHERLANDS AND SWEDEN

The Anti-Dumping Authority has completed its inquiry following a complaint that dried egg white has been exported to Australia at dumped and subsidised prices and that the dumping and subsidisation had caused material injury to the Australian industry producing dried egg white.

In its report, the Authority concluded that:

- dried egg white has been imported from the Netherlands at subsidised prices and from Sweden at dumped prices;
- the Australian industry has suffered material injury;
- imports of DEW at subsidised prices from the Netherlands have caused material injury to the local industry producing DEW; and
- imports of DEW at dumped prices from Sweden have not caused material injury to the local industry producing DEW.

In the light of these conclusions the Authority recommended to the Minister for Small Business, Construction and Customs that countervailing action be taken against exports of dried egg white from the Netherlands but that no action be taken against exports from Sweden.

The Minister has accepted the Authority's recommendation.

Copies of the non-confidential version of the Authority's Report No. 67 will be available in due course. Enquiries for copies should be addressed to Margaret McLeod at the Authority by telephoning (06) 276 1742.

duties. The relative suitability of applicants will be assessed having regard to educational qualifications, experience, interview performance and referee reports. However, referee reports may be a sensitive issue for outside applicants and they should be assured that references from current employers will not be sought unless the applicant agrees or there is a high possibility of selection.

Officers selected for training are promoted or transferred under section 50 of the Public Service Act. **Both promotions and transfers** to training offices are appealable by unsuccessful applicants and must be notified in the Gazette in the 'Promotions' section, with an accompanying footnote:

Unsuccessful officer applicants may appeal against promotions or transfers to any of the offices listed above. Guidance on lodging appeals is in the preamble to the Promotions section of this Gazette.

All appeals against promotions or transfers to training offices should be sent to the Convenor, Promotion Appeal Committee, M.P.R.A.. 65-67 Constitution Avenue, Campbell, A.C.T., 2601 by 4.51 pm on the fourteenth day after publication.'

Departments should allow sufficient time between notification of promotions and transfers to training offices and the start of courses for any appeals to be resolved before training begins.

In cases where officers are transferred to training offices, their previously held positions cannot be filled until either

- . the appeal period closes and there are no appeals, or
- . any appeals have been determined or have become inoperative.

Where there is a successful appeal against a transfer to a training office, the unsuccessful transferee will be automatically transferred back to the substantive position from which he/she was transferred.

In the event that sufficient higher offices are not available in departments at the time trainees successfully complete their training, those trainees are immediately advanced "unattached" at the higher level and receive the relevant higher salary. "Unattached" trainees will be placed in relevant higher offices as positions become available.

THE ARGENTINE REPUBLIC AND
THE FEDERATIVE REPUBLIC OF BRAZIL**

The Anti-Dumping Authority has completed its review of the Australian Customs Service negative Preliminary Finding on phthalic anhydride from the Argentine Republic and the Federative Republic of Brazil.

In its report, the Authority concluded that:

- phthalic anhydride exported from the Argentine Republic and the Federative Republic of Brazil has been dumped;
- the Australian industry producing phthalic anhydride has suffered material injury;
- dumped imports of phthalic anhydride have caused material injury to the Australian industry; and
- the dumping of phthalic anhydride from the Argentine Republic and the Federative Republic of Brazil has contributed to the material injury suffered by the Australian industry.

The Authority has, therefore, revoked the Preliminary Finding by Customs.

Copies of the non-confidential version of the Authority's Report No. 69, will be available in due course. Enquiries for copies should be addressed to Margaret McLeod at the Authority by telephoning (06) 276 1742.

In terms of paragraph 269TF(3) of the Customs Act 1901 this matter is now referred to the Authority for a final finding. The Authority will conduct this inquiry concurrently with its inquiry into phthalic anhydride from Israel and the Republic of Korea, as notified in Commonwealth of Australia Gazette No. GN 8 of 26 February 1992. The commencement date for the inquiry is 23 April 1992 and the Authority will report to the Minister by 19 June 1992.

Interested parties are invited to make submission to the Authority as soon as possible, but certainly no later than 1 June 1992.
