**INITIATION OF AN INVESTIGATION  
INTO THE ALLEGED DUMPING OF  
COATED WOODFREE PAPER  
FROM AUSTRIA, BELGIUM/LUXEMBOURG, FINLAND, FRANCE,  
GERMANY, INDONESIA, ITALY, JAPAN, THE REPUBLIC  
OF KOREA, THE NETHERLANDS, SOUTH AFRICA,  
SWEDEN, SWITZERLAND AND TAIWAN**

NOTICE UNDER SECTION 269TC(4) OF THE CUSTOMS ACT 1901

I, Graham Edward Cruttenden, delegate of the Chief Executive Officer, have accepted an application which alleges that there are reasonable grounds to publish dumping duty notices in respect of coated woodfree paper exported from Austria, Belgium/Luxembourg, Finland, France, Germany, Indonesia, Italy, Japan, the Republic of Korea, The Netherlands, South Africa, Sweden, Switzerland and Taiwan.

The application was made under section 269TB(1) of the Customs Act by Australian Paper Ltd.

The goods covered by this notice are woodfree white papers coated both sides with kaolin or other inorganic substances (other than cast coated papers) of a nominal weight of 75-150 gsm ( $\pm$  5 gsm) in sheets. These goods are used for printing and publishing applications.

The tariff classification of the goods covered by the investigation is 4810.11.90 stat. code 28.

Customs is required by legislation to make a preliminary finding within 100 days as to whether there are sufficient grounds for the publication of dumping duty notices. In this case Customs will commence its investigation today and, to comply with the Government's administrative guidelines, make a preliminary finding within 85 days. (ie by 2 October 1997).

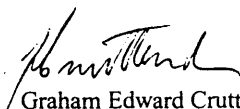

A positive preliminary finding - that there are sufficient grounds for the publication of dumping duty notices - may result in the imposition of securities under section 42 of the Customs Act for the period specified in subsection 45(2) of the Customs Act. These securities are intended to cover any interim dumping duty that may become payable on the importation of the goods in the period leading up to the Minister's decision on this matter.

A positive preliminary finding must be referred to the Anti-Dumping Authority for inquiry and report to the Minister, within 110 days, as to whether dumping duties should be imposed.

Australian Customs Dumping Notice 97/055 outlines the investigation procedures and it is in the interests of parties concerned to obtain a copy. Copies are available from the Publications Section, Customs House, Canberra, on telephone number (06) 275 5783; or from Customs Houses in each capital city.

Particulars of the reasons for the decision to initiate this investigation are detailed in a report held on the public file. The public file may be examined at Customs House, 5 Constitution Avenue, Canberra ACT. Appointments to view the public file can be made by contacting Dumping Office Management on telephone number (06) 275 6057. Copies can also be obtained from the public file. A small charge is made for providing this service.

Interested parties are invited to lodge written submissions no later than the close of business on 15 August 1996 with: the Director, Dumping Operations 3, Australian Customs Service, 5 Constitution Avenue, Canberra, ACT 2601, or using facsimile number (06) 275 6990. Inquiries about this Notice should be directed to Ray Cork, Assistant Director, Dumping Operations 3, on telephone (06) 275 6023.

**Deeming of Telecommunications Services:**

**A statement pursuant to section 39 of the Telecommunications (Transitional Provisions and Consequential Amendments) Act 1997.**

*Following is a copy of the summary of the Deeming of Telecommunications Services statement released by the Australian Competition and Consumer Commission on 30 June 1997. Copies of the full statement are available from the ACCC's Internet website <http://www.accc.gov.au>.*

Section 39 of the *Telecommunications (Transitional Provisions and Consequential Amendments) Act 1997* (the Transitional Act) provides for the Australian Competition and Consumer Commission to prepare a statement, in consultation with AUSTEL, specifying certain services to be deemed as declared services. The services which are eligible to be deemed under s.39 include certain services covered by registered access agreements between the three existing carriers and certain broadcasting carriage services.

This statement is the Commission's written statement under Section 39, and fulfils the Commission's obligation under s.39(1) and s.39(5) of the Transitional Act.

On or after 1 July 1997, carriers and service providers will be able to be provided with the deemed services and specified ancillary services, on request, from any carrier or carriage service provider supplying the services. The terms and conditions of access may be determined by commercial negotiation, an undertaking submitted by the access provider and which has been accepted by the Commission, or, in the event that the parties are unable to agree, by arbitration by the Commission.

The Commission in preparing this statement, published a draft and invited submissions in accordance with s.39(8). The Commission released a draft statement on 4 June 1997. Parties were provided with fourteen days to respond. Within that time the Commission met with many interested parties and received 22 written submissions. The Commission gave due consideration to all representations and submissions in relation to this matter in preparing the statement.

Table A specifies the services deemed as declared services under s.39. The approach employed by the Commission in determining which eligible services to deem, on the basis of the legislative criteria relating to the promotion of the long-term interests of end-users, is outlined in the statement. Attachments A and B contain more detailed service descriptions of the services specified in this statement. The Commission has adopted service descriptions developed by the TAF for those deemed services where they have been available and are considered appropriate. The service descriptions in the attachments outline the elements and features of the service and provide guidance to access providers and access seekers in negotiating the terms and conditions under which the service will be provided.

The Commission raised in its draft deeming statement its interest in ensuring that additional eligible services, for which early access is considered important, are considered for declaration either by the TAF or the Commission under s.152AL of

the *Trade Practices Act*. On the basis of comments received, the Commission intends to announce a public inquiry into the declaration of additional services soon after the commencement of the new regime.

3

**Industry development plan**

5. The licensee must:
- (a) within 90 days after a carrier licence is granted to the licensee:
    - (i) give a current industry development plan to the Industry Minister; and
    - (ii) obtain the Industry Minister's approval of the plan; and
  - (b) comply with clauses 8, 9, 10, 11, 12, 13 and 14 of Schedule 1 to the Act as if the plan was an industry development plan under Part 2 of Schedule 1 to the Act.

**Compliance**

6. The licensee must comply with its obligations under clauses 7, 8, 9 and 10 to the extent made possible by the information provided by carriage service providers under clause 10 of Schedule 2 to the Act.

**Operator services**

7. The licensee must make operator services available to the end-users of standard telephone services supplied by the licensee.

**Directory assistance services**

8. The licensee must make directory assistance services available to the end-users of standard telephone services supplied by the licensee.

**Alphabetical public number directory**

9. (1) The licensee must produce an alphabetical public number directory:

- (a) annually; and
- (b) on substantially the same basis as the licensee produced and distributed a directory in 1997; and
- (c) in volumes by geographic area; and
- (d) subject to subclause (7)—that includes all customers of carriage service providers supplied with a standard telephone service, regardless of who supplies them with that service.

(2) The licensee must arrange to publish and distribute the directory to its own customers and the customers of other carriage service providers (or the nominees of the customers).

(3) The licensee must not charge a customer of a carriage service provider for 1 standard entry.

4 ***Carrier Licence Conditions (Telstra Corporation Limited)  
Declaration 1997***

**(4) A standard entry must include:**

- (a) a name and address; and
- (b) 1 public number that is:
  - (i) if requested by the customer—the customer's mobile phone number; or
  - (ii) the customer's geographic number.

[NOTE: The ACA may give written directions to the licensee under section 581 of the Act about complying with this subclause (eg promotion of a customer's choice, if the customer receives multiple services, in the identification of the entry that is to be treated as a standard entry).]

**(5) The licensee must include in the directory a customer's facsimile number if asked by the customer.**

**(6) The licensee must provide entries in the directory, and services for not including details of a customer in the directory, for a customer of another carriage service provider on conditions that are no less favourable than for a customer of the licensee.**

**(7) The licensee must ensure, to the greatest extent practicable, that the directory does not include details of a customer whose number is an unlisted number.**

**(8) The licensee must ensure, to the greatest extent practicable, that it does not promote the licensee's carriage services or other goods and services unrelated to the directory entry during any contact it has with a customer of another carriage service provider for purposes related to the provision of services in a directory.**

**(9) The directory must be provided without charge to a customer:**

- (a) as a book; or
- (b) if the customer agrees—in another form.

[NOTE: It is intended to make sure the licensee maintains an updated version of the current White Pages directory and makes it available to its own customers and the customers of other carriage service providers (or the nominees of the customers) on substantially the same basis as the White Pages have been produced and distributed before the licence came into force.]

**Integrated public number database**

**10. (1) The licensee must establish and maintain an industry-wide integrated public number database to provide information for purposes connected with the following activities:**

- (a) providing directory assistance services;
- (b) providing operator services or operator assistance services;
- (c) publishing public number directories;
- (d) providing location dependent carriage services;

*Carrier Licence Conditions (Telstra Corporation Limited)*  
*Declaration 1997*

5

- (e) the operation of emergency call services or assisting emergency services under Part 12 of the Act;
- (f) assisting enforcement agencies or safeguarding national security under Part 14 of the Act;
- (g) any other activities specified by the ACA by written notice to the licensee.

[NOTE: A public number directory includes classified business directories like the Yellow Pages and specialist trade directories.]

(2) The licensee must comply with subclause (1) before:

- (a) 1 July 1998; or
- (b) if an earlier date is specified by the ACA in the *Gazette*—that date.

(3) The licensee may use the database, and any information derived from it, only for the purposes mentioned in subclause (1).

[NOTE: The ACA may give written directions to the licensee under section 581 of the Act about complying with this subclause (eg how it will control transfer of information to and from the database and restrictions it will place on access by its employees).]

(4) The database must include, for each public number of a customer of each carriage service provider:

- (a) the public number; and
- (b) the name of the customer; and
- (c) the address of the customer; and
- (d) the service location, if practicable; and
- (e) the name of the carriage service provider that provides:
  - (i) services for originating or terminating carriage services to the customer; or
  - (ii) public mobile telecommunications services to the customer; and
- (f) whether the telephone is to be used for government, business, charitable or private purposes, if practicable; and
- (g) any other information required by the ACA by written notice to the licensee.

(5) The database must show if a telephone number is an unlisted number.

(6) The database must include, for each payphone, its public number and location.

(7) If a carriage service provider asks for access to information from the database, the licensee must give access only for the purpose of helping the provider:

- (a) to provide its own directory assistance services; or
- (b) to provide its own operator services or operator assistance services; or

6 *Carrier Licence Conditions (Telstra Corporation Limited)  
Declaration 1997*

- (c) to produce a public number directory; or
- (d) to provide its own location dependent carriage services; or
- (e) to provide information for the operation of emergency call services or assisting emergency services under Part 12 of the Act; or
- (f) to provide information for assisting enforcement agencies or safeguarding national security under Part 14 of the Act; or
- (g) to provide services connected with the matters mentioned in paragraphs (a), (b), (c) and (d); or
- (h) to undertake any other activities specified by the ACA by written notice to the licensee.

(8) The licensee must give information from the database, about its own customers and customers of other carriage service providers, that is required under subsection 313 (3) or (4) of the Act.

[NOTE: Section 314 of the Act deals with conditions that apply when information is given.]

(9) Access under subclause (7) is subject to:

- (a) conditions:
  - (i) agreed between the parties; or
  - (ii) if the parties do not agree—determined by an arbitrator appointed by the parties; or
  - (iii) if the parties do not agree on the appointment of an arbitrator—determined by the ACCC; and
- (b) Part 13 of the Act.

(10) For a determination of price or price-related conditions under subparagraph (9) (a) (ii) or (iii), an arbitrator or the ACCC must consider only:

- (a) the direct costs (including labour and direct administration costs) incurred by the licensee in complying with subclause (7); and
- (b) a reasonable contribution to a normal return on the capital expended in establishing and maintaining the integrated public number database.

(11) A request under subclause (7) may be:

- (a) a single request; or
- (b) part of a continuing arrangement between the licensee and the provider.

(12) A request under subclause (8) may be:

- (a) a single request; or
- (b) part of a continuing arrangement between the licensee and the officer or authority that makes the request.

*Carrier Licence Conditions (Telstra Corporation Limited)*  
*Declaration 1997*

7

**Differential charging conditions**

11. (1) If the licensee supplies a rental telephone handset with a standard telephone service, the licensee must differentiate between:

- (a) its charge for initial supply of the telephone handset; and
- (b) its charge for a connection of the telephone handset at the customer's premises; and
- (c) its charge for connecting the standard telephone service; and
- (d) its annual charge for supplying the telephone handset; and
- (e) its annual service charge for supplying the standard telephone service.

(2) If the licensee provides a customer with a standard telephone service, but does not supply a rental telephone handset for use with the service, the licensee's charge to the customer must be:

- (a) for an annual charge for providing the standard telephone service—at least \$30 less than the licensee's usual annual charges for:
  - (i) supplying the standard telephone service; and
  - (ii) supplying a rental telephone handset for use with the standard telephone service; or
- (b) for a new service connection charge—at least \$43 less than the licensee's usual charge for:
  - (i) connecting a standard telephone service; and
  - (ii) initial supply of a rental telephone handset; and
  - (iii) connection of a rental telephone handset at the customer's premises with the standard telephone service.

**Digital data capability**

12. The licensee must be in a position to make available, within 90 days of a request, a carriage service that provides a digital data capability broadly comparable to that provided by a data channel with a data transmission speed of 64 kilobits per second supplied to end-users as part of the designated basic rate ISDN service:

- (a) by 1 July 1997—to at least 93.4% of the Australian population; and
  - (b) by 31 December 1998—to at least 96% of the Australian population.

**Network rollout**

6. Before 1 January 1998, to the extent technically practicable, the licensee must have offered and be able to supply domestic and international long distance services to everyone in Australia who is supplied with a standard telephone service by the licensee or the universal service provider in complying with its universal service obligation.

**Obligation to provide carriage services for certain users**

7. (1) The licensee must provide carriage services through satellite-based facilities or equivalent services ("**the required carriage services**") to the following users:

- (a) Australian Broadcasting Corporation—for its Homestead and Community Broadcasting Satellite Service;
