OPINION ON CATEGORY OF BROADCASTING SERVICE

On 27 November 1997 the Australian Broadcasting Authority (ABA) considered an application by Mr Myles Anderson under section 21 of the *Broadcasting Services Act 1992* (the Act) for an opinion to be formed by the ABA in relation to the category of the proposed *Red Dust Radio* service.

The proposed service is to be provided only to remote mines in Western Australia where employees are flown in and out of the work site. It will operate continuously and permanently and consist of a music driven format broken into day shift and night shift programming blocks.

The applicant contended that the proposed service would fall within the open narrowcasting category of broadcasting service.

It is the Authority's opinion that the service falls within the **open narrowcasting** category. This opinion is given having regard to the criteria set down in sections 18, and 22 of the Act. Matters considered by the ABA in reaching this opinion include:

that reception of the service will not be limited in any of the following ways:

- by being targeted to special interest groups [subpara. 18(a)(i)]; or
- by being provided during limited period or to cover a special event [subpara. 18(a)(iii)]; or
- because it provides programs of limited appeal [subpara. 18(a)(iv)]; or
- for some other reason [subpara 18(a)(v)];

but will be limited:

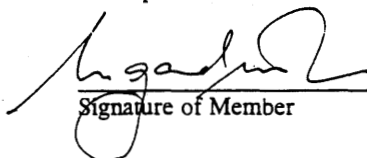

- by being intended only for limited locations, for example, arenas or business premises [subpara. 18(a)(ii)];

Under subsection 21(5)(a) of the Act, this opinion is binding for five years while the circumstances relating to the broadcasting service remain substantially the same as those advised to the ABA in relation to the application for the opinion.

AUSTRALIAN DRINKING WATER GUIDELINES

AN INVITATION TO MAKE SUBMISSION

The National Health and Medical Research Council (NHMRC), with the Agriculture and Resource Management Council of Australia and New Zealand (ARMCANZ) intends to commence a rolling revision of the 1996 NHMRC/ARMCANZ *Australian Drinking Water Guidelines*. In 1998/99 the review will examine the guidelines for the following water quality criteria:

- | | | |
|--------------------|------------------|-------------------|
| • Giardia | • Monochloramine | • Chlorfenvinphos |
| • Cryptosporidium | • Nitrate | • Boron |
| • Radionucleotides | • Atrazine | • Algal Toxins |

You are invited to make a submission to the Council about the revision of these guidelines.

To assist in the preparation of submissions, a copy of the terms of reference of the relevant Working Parties may be obtained free of charge from

Mr Phil Callan
Project Manager
Health Advisory Unit (MDP 50)

E-mail: philip.callan@health.gov.au.

How to make your submission

Your submission should be made in writing or on audio tape, and include your name and an address or phone number at which we can contact you. Please send submissions to Mr Phil Callan at the address given above.

Closing date

The closing date for submissions is 28 August 1998.

Further information

This notice is given under subsection 12(3) (a) of the *National Health and Medical Research Council Act 1992*.

Previous consultation on this document took place during 1996. An invitation to make further comment will be mailed directly to those who made submissions during that consultation.

The draft guidelines include specific advice on reclaimed water applications in terms of type of reuse; level of treatment; reclaimed water quality; reclaimed water monitoring; and controls.

The guidelines deal with effluent from municipal wastewater plants treating mainly domestic and some industrial wastes. These guidelines do not deal with reclaimed water from individual household systems.

If you would like your submission to be treated as confidential, please indicate this clearly (for example, by marking your written submission "CONFIDENTIAL"). Submissions may be subject to release under the Freedom of Information Act 1982.

CONSUMER PRODUCT SAFETY STANDARD

Consumer Protection Notice No. 4 of 1998

PORTABLE FIRE EXTINGUISHERS

I, WARREN ERROL TRUSS, Minister for Customs and Consumer Affairs, pursuant to section 65E (1) of the *Trade Practices Act 1974*, hereby:

a) REVOKE the consumer product safety standards in respect of portable fire extinguishers published in Gazette No GN 5, of 9 February 1994; and

b) DECLARE that:

I. In respect of each of the goods specified in Division 1 of the Schedule to this Notice, those standards approved by the Standards Association of Australia specified in Division 2 of the Schedule amended by the variations specified in Division 3 of the Schedule, are consumer product safety standards for the purposes of section 65C of the *Trade Practices Act 1974*; and

II. This standard will expire on 31 December 2002.

Note:

- a) Versions of Standards Australia standards pre-dating 1997 are included to allow time for existing stocks of extinguishers to be sold. These will be deleted from this product safety standard effective 31 December 1999. Manufacturers and importers are therefore strongly advised to ensure that their product range complies with the most recent version of Standards Australia standards listed in this product safety standard.
- b) Where more than one standard is specified for a particular class of goods, the goods need only comply with one of the standards so specified.

ANTI-DUMPING AUTHORITY

Notice of inquiry into certain wound/skin closure strips from France, the Federal Republic of Germany and the United States of America

The Australian Customs Service (Customs) has made a preliminary finding that there are sufficient grounds for the publication of a dumping duty notice in respect of certain wound/skin closure strips exported to Australia from France, the Federal Republic of Germany and the United States of America.

In its preliminary finding report, Customs identified the following companies as the exporters of the dumped wound/skin closure strips that had caused injury to the Australian industry:

- Smith & Nephew SA in France;
- BDF Beiersdorf AG in the Federal Republic of Germany; and
- 3M Health Care in the United States of America.

Customs, acting under paragraph 269TD(2)(b) of the *Customs Act 1901*, has now referred the matter to the Anti-Dumping Authority for final inquiry. The subject of the Authority's inquiry is the question of whether the publication of a dumping duty notice in relation to certain wound/skin closures strips exported from the companies listed above is justified. At the conclusion of its inquiry, the Authority will recommend to the Minister what (if any) action he should take.

During its inquiry, the Authority will address the allegations made by Surgi Supplies International, the only Australian manufacturer of wound/skin closure strips, that wound/skin closure strips have been exported to Australia from the above companies at dumped prices and that this dumping has caused, and is threatening to cause, material injury to the Australian industry through price undercutting, price depression, price suppression, lost sales and market share, loss of profits and reduced capacity utilisation.

The Authority will examine importations into Australia of wound/skin closure strips entered for home consumption after 1 May 1996. The Authority will endeavour to report to the Minister by 9 November 1998.

You are invited to make a submission to the Authority as soon as possible, but not later than 2 September 1998. Submissions should, preferably, address specific matters raised in Customs' preliminary finding report. Copies of that report can be obtained from the Office Manager, Office Management Group, Australian Customs Service, Canberra by telephoning (02) 6275 6057.

Any person proposing to lodge a submission with the Authority should first obtain a copy of the information sheet prepared for this inquiry. Copies of the information sheet can be obtained by contacting Ms Margaret McLeod, Information Officer, on ph (02) 6213 6754 or by email MMCLEOD@dist.gov.au.

The Authority's address for submissions is GPO Box 9839, Canberra ACT 2601.
Submissions may also be sent by facsimile to (02) 6213 6761.

Submissions containing confidential information should be accompanied by another version omitting the confidential material but containing a non-confidential summary. All non-confidential submissions will be placed on the public record for this inquiry together with a copy of all relevant correspondence between the Authority and other persons and the full public record of the preceding investigation by Customs. The public record will be held at the offices of the Authority. Arrangements can be made to inspect material held on the public record by telephoning Ms Margaret McLeod.

Should you have any questions about this inquiry, please contact Mr Jeremy Salvage, Project Manager, on ph (02) 6213 6757 or by email JSALVAGE@dist.gov.au.
