OLDP has experience over more than half a century as the specialist professional drafter of Commonwealth subordinate legislation.

OLDP strives to maintain and enhance its reputation as a centre of drafting excellence. We produce legislative and administrative instruments of the highest standard through the innovative use of plain English, current technology and rigorous quality assurance procedures.

NOTICE OF APPLICATION FOR REGISTRATION OF AGREEMENT COUNTRY GEOGRAPHICAL INDICATIONS

Opportunity to object based on pre-existing trade mark rights

Australia is currently finalising a revised Agreement with the European Union. Under this Agreement the EU is seeking protection for approximately 725 geographical indications that were not protected in the 1994 Agreement. These GIs are from countries that have joined the EU since 1994 and new GIs from Germany, France, Italy, Greece, Spain, Portugal and the United Kingdom.

The purpose of this notice is to ensure that in deciding to provide protection of these additional geographical indications due consideration is given to pre-existing trade mark rights. Part B, paragraph 3 of the Administrative Guideline – Process for registration for geographical indications of Agreement Countries - sets out the grounds whereby the owner of a trade mark can object to the registration of a geographical indication. The owner of a registered trade mark, a trade mark that is the subject of an application for registration or a trade mark that has been used but is not registered may object on a relevant ground. Please note that the grounds of objection are complex. Any prospective objector should therefore check the actual grounds provided in the Administrative Guideline, which is available online at: http://www.awbc.com.au/library/AdminGuidelineRegistration_07-2005.pdf

Objectors should file a written objection to the registration of a geographical indication set out in the notice, stating the grounds of objection, with the Registrar of Trade Marks. The objections should be addressed to:

THE REGISTRAR OF TRADE MARKS
(Attention Terry Williams)
P.O. BOX 200
WODEN ACT 2606

A filing fee of \$500 is required and the objection must be received by the Registrar of Trade Marks by 19 October 2005. This time limit is not extendable and will be strictly applied.

In the event that any party objects to the determination, the Registrar of Trade Marks will write to all the parties, inviting them to file relevant evidence within six weeks of the date of the invitation to lodge evidence.

For further information about making an objection, contact Terry Williams, Trade Marks Hearing Officer on 02 62832913 or email tmhearings@ipaaustralia.gov.au

HUMAN RIGHTS AND EQUAL OPPORTUNITY COMMISSION AGE DISCRIMINATION ACT 2004 (Cth) Section 44(1)

NOTICE OF REJECTION OF APPLICATION FOR EXEMPTION

By this instrument, the Human Rights and Equal Opportunity Commission ('the Commission') declines to grant to Plus 40 Pty Limited ('Plus 40') a temporary exemption pursuant to s 44(1) of the *Age Discrimination Act 2004* (Cth) ('ADA').

1. EXEMPTION APPLICATION

1.1 By letter dated 5 July 2005, Plus 40 applied to the Commission for a temporary exemption from s 24(1) of the ADA ('the exemption application').

1.2 The Commission derives its power to grant temporary exemptions from s 44 of the ADA and accordingly it is under that section that the exemption application has been considered.

1.3 Plus 40 is described in the exemption application as a new web-based employment and training service established specifically to service the needs of unemployed and employed people who are over 40 years of age. Plus 40 aims to actively promote:

1.3.1 the re-employment of experienced workers;

1.3.2 the opportunity to improve the employment status of experienced workers; and

1.3.3 the re-skilling of experienced workers;

where those 'experienced' workers are over 40 years of age. Plus 40 stated in the exemption application that it intends to establish 40 years of age as the minimum age required to utilise its services.

1.4 Section 24(1) of the ADA relevantly provides as follows:

24 Employment agencies

(1) It is unlawful for an employment agency to discriminate against a person on the ground of the person's age:

(a) by refusing to provide the person with any of its services; or

(b) in the terms or conditions on which it offers to provide the person with any of its services; or

(c) in the manner in which it provides the person with any of its services.

1.5 Plus 40 stated in the exemption application that the activities of Plus 40 may fall within the s 33 permanent exemption to the ADA for positive discrimination. Plus 40 provided the following reasons:

1.5.1 There is an invisible use by date for people over 40 years of age in industry that leaves many experienced workers either under employed or unemployed. Plus 40 will be specifically marketing the value and experience that the over 40 worker can bring to any organisation.

1.5.2 Services abound to promote youth employment and re-skill the long term unemployed, many of whom are under 40 years of age. Plus 40 will focus its efforts exclusively on workers over 40 who have not received the appropriate support from the workplace to date.

1.5.3 The Federal Government has recognised the shortage of services for (mature aged) experienced workers and has recently announced future funding packages to address the needs for this demographic. Plus 40 will be providing services to promote the employment prospects of experienced workers.

1.6 By letter dated 4 August 2005, Plus 40 provided the following further information to assist the Commission in assessing the application:

- 1.6.1 The Australian Bureau of Statistics (ABS) publication '*Australian Social Trends - Work - Mature Age Workers, June 15 2004*' contends that there are lower labour force participation rates for men and women from their forties and fifties onwards. The ABS publication also mentions that although the unemployment rate for workers over 45 is lower than the general population, mature workers constitute a higher proportion of unemployed looking for full time work and have almost double the rate of long term unemployment compared to the total labour force.
- 1.6.2 The Council of Ageing found in 2002 that 'the extent of mature age unemployment is masked by large numbers leaving the workforce'.
- 1.6.3 A June 2000 report to the House of Representatives entitled '*Age Counts*' noted that 'the greatest difficulty for the mature aged unemployed is the reluctance of employers to hire or promote older workers.'
- 1.6.4 The Drake White Paper '*The Age Chasm*' noted that 'employers are more likely to invest training resources in younger people than older people'.
- 1.6.5 Plus 40 stated that 'numerous reports, media articles and publications support our contention that there is a shortage of **effective** employment and training services for the people over 40 years of age.'

2 FINDINGS ON MATERIAL QUESTIONS OF FACT

- 2.1 Based on the evidence referred to in paragraphs 1.3 – 1.6 above, the Commission makes the following findings on material questions of fact in relation to this application:
 - 2.1.1 Plus 40 is an employment and training service.
 - 2.1.2 Plus 40 has been established to service the needs of unemployed and employed people who are over 40 years.
 - 2.1.3 40 years will be the minimum age required to utilise the services of Plus 40.
 - 2.1.4 Plus 40 has formed the view that many people over 40 years of age are either under employed or unemployed.
 - 2.1.5 Plus 40 has formed the view that there is a shortage of effective employment and training services for the people over 40 years.
 - 2.1.6 Plus 40 will be providing services intended to promote the employment prospects of people over 40 years.

3 REASONS FOR DECLINING TO GRANT A TEMPORARY EXEMPTION

- 3.1 In considering an application for a temporary exemption, the Commission will have regard to whether the activities in respect of which the exemption is sought might constitute discrimination under the ADA. In particular, the Commission will consider whether any of the permanent exemptions to the ADA may apply. If the circumstances are not at least arguably discriminatory within the terms of the ADA, then there is no need for the Commission to grant an exemption.
- 3.2 For the reasons set out below, the Commission is of the view that the exemption application does not demonstrate an arguable case that the proposed activities of Plus 40 constitute unlawful discrimination under the ADA.
- 3.3 The Commission notes that the permanent exemption for positive discrimination at s 33 of the ADA is relevant to the application. Section 33 relevantly provides:

33 Positive discrimination

This Part does not make it unlawful for a person to discriminate against another person, on the ground of another person's age, by an act that is consistent with the purposes of this Act, if:

- (a) ...
- (b) the act is intended to meet a need that arises out of the age of persons of a particular age; or

Example: Young people often have a greater need for welfare services (including information, support and referral) than other people. This paragraph would therefore cover the provision of welfare services to young homeless people, because such services are intended to meet a need arising out of the age of such people.

(c) the act is intended to reduce a disadvantage experienced by people of a particular age.

Example: Older people are often more disadvantaged by retrenchment than are other people. This paragraph would therefore cover the provision of additional notice entitlements for older workers, because such entitlements are intended to reduce a disadvantage experienced by older people.

3.4 The explanatory memorandum to s 33 of the ADA states as follows:

The legislation exempts "positive discrimination", which refers to three different types of beneficial age-based treatment (which may in some circumstances overlap):

- (a) ...
- (b) measures intended to meet age-related needs. This aspect of the positive discrimination provision recognises and permits measures that seek to address the needs of particular ages that are different to or more acute than the needs of people of other ages...
- (c) measures intended to reduce disadvantage. This aspect of the positive discrimination provision recognises and permits measures that seek to overcome age-related disadvantage...For example, where older people experience longer periods of unemployment, extra assistance to help them find work would be permitted.

3.5 In order for an act to fall within the s 33 exemption it must be consistent with the purposes of the ADA. The objects of the ADA are set out at s 3 of the Act and relevantly (for the purposes of this application) include:

- (e) to respond to demographic change by:
 - (i) removing barriers to older people participating in society, particularly in the workforce; and
 - (ii) changing negative stereotypes about older people...

3.6 In the Commission's view, the s 33(b) and/or 33(c) permanent exemption applies to the activities of Plus 40. The activities of Plus 40 are intended to:

- 3.6.1 meet an age related need. Plus 40 has formed the view that there is a shortage of effective employment and training services for the people over 40 years (s 33(b)); and/or
- 3.6.2 reduce a disadvantage experienced by people over 40. Plus 40 has formed the view that many people over 40 years of age are either under employed or unemployed (s 33(c)).

3.7 Plus 40 will be providing employment and training services intended to promote the employment prospects of people over 40 years.

3.8 The Commission is also of the view that the activities of Plus 40 appear to be consistent with the objects of the ADA and in particular s 3(e).

3.9 As there is not, in the view of the Commission, an arguable case of discrimination disclosed in the present application, a temporary exemption under s 44(1) is unnecessary. The Commission refuses the application by Plus 40 for a temporary exemption.

Dated this 30th day of August 2005

Signed by the President, John von Doussa QC, on behalf of the Commission.

NOTICE OF INVESTIGATION

The Repatriation Medical Authority (the Authority) gives notice under section 196G of the *Veterans' Entitlements Act 1986* ['the VEA'] that it intends to carry out an investigation under section 196B(4) of the VEA to find out whether a Statement of Principles may be determined in respect of **seborrhoeic keratosis**.

- any person eligible to make a claim for pension under Part II or Part IV of the *Veterans' Entitlements Act 1986*;
- any person eligible to make a claim for compensation under section 319 of the *Military Rehabilitation and Compensation Act 2004* ['the MRCA'];
- an organisation representing veterans, Australian mariners, members of the Forces, members of the Peacekeeping Forces, members within the meaning of the MRCA, or their dependants;
- the Repatriation Commission or the Military Rehabilitation and Compensation Commission; and

NOTICE UNDER SECTION 275

CALL FOR PUBLIC COMMENT

Under the *Environment Protection and Biodiversity Conservation Act 1999*, the Minister for the Environment and Heritage is empowered to make or adopt threat abatement plans for key threatening processes. A threat abatement plan must provide for the research, management and other actions necessary to reduce the key threatening process concerned to an acceptable level in order to maximise the chances of the long-term survival in nature of native species and ecological communities affected by the process.

The incidental catch (or bycatch) of seabirds during oceanic longline fishing operations was listed as a key threatening process on 24 July 1995 and a threat abatement plan approved by the Minister for the Environment on 2 August 1998. This plan expired in August 2003, necessitating a review under subsection 279(2) of the EPBC Act. A revised threat abatement plan has been prepared to coordinate national action to alleviate the impact of longline fishing activities on seabirds in Australian waters.

The proposed revised *Threat Abatement Plan for the Incidental Catch (or Bycatch) of Seabirds During Oceanic Longline Fishing Operations* will be available for public comment for a period of three months, closing on 9 December 2005. At the end of this period the plan will be revised, taking into consideration any comments received. An electronic copy of the proposed plan may be viewed on the internet at <http://www.aad.gov.au/default.asp?casid=20587>.

Written comments in relation to the proposed threat abatement plan are invited. These should be emailed, faxed or posted to:

GRANTING OF TRADE SECRET STATUS TO AN INGREDIENT IN EYEBROW AND EYELASH TINTING PRODUCTS SUPPLIED BY CHEMPCORP PTY LTD

I, Chris Pearce, Parliamentary Secretary to the Treasurer, pursuant to Regulation 7 of the *Trade Practices (Consumer Product Information Standards) (Cosmetics) Regulations 1991*, being satisfied that revealing the name of an ingredient would prejudice a trade secret and that the inclusion of that ingredient in eyebrow and eyelash tinting cosmetic products is unlikely to be harmful to a consumer, **HEREBY GIVE PERMISSION** for an ingredient, identified and described in an application from Chemcorp Pty Ltd dated 13 July 2005, when used in eyebrow and eyelash tinting products imported and packed in Australia by Chemcorp Pty Ltd, to be shown in the list of the ingredients in those products as an "other ingredient" for a period of five years from the date hereof.

The effect of this instrument is to permit Chemcorp Pty Ltd to supply eyebrow and eyelash tinting cosmetic products without having to reveal the name of a particular ingredient, as to do so would prejudice a trade secret. The ingredient will be listed as an "other ingredient".

Consumer Protection Notice No. 5 of 2005

WARNING NOTICE TO THE PUBLIC

I, Chris Pearce, Parliamentary Secretary to the Treasurer, pursuant to section 65B of the *Trade Practices Act 1974*, hereby WARN of possible risks involved in the use of goods of the kind specified below.

Particulars of Goods

Rubber hot water bottles.

Possible Risks

Hot water bottles can be hazardous if they split or leak and can cause severe burns or scalds. There has been one reported death in Australia of an elderly person, apparently resulting from severe scalding when a hot water bottle burst.

Advice to Consumers

Consumers should take the following precautions when using hot water bottles:

Extreme care should be taken when filling hot water bottles, particularly when expelling air from the bottle;

Hot water bottles should not be filled with boiling water directly from a kettle;

Hot water bottles should be filled over/in a sink or other receptacle, rather than in close vicinity to the body;

Make sure the top, stopper or plug of the hot water bottle is properly fitted/sealed to prevent leaking;

Placing undue weight and pressure on a hot water bottle, particularly with your body, can cause the bottle to split and burst;

Be vigilant in the use of hot water bottles, particularly around young children and the elderly; and

Store hot water bottles in an appropriate manner and discard old/perished hot water bottles.
