Proposal for a protection zone over the SEA-ME-WE3 submarine cable off City Beach, Perth

The Australian Communications and Media Authority (ACMA) has developed a proposal for a protection zone over a submarine cable off City Beach, Perth—the South East Asia, Middle East, Western Europe cable (SEA-ME-WE3 cable). ACMA now invites public submissions about this proposal.

Under Schedule 3A of the *Telecommunications Act 1997*, ACMA has the authority to declare protection zones within Australian waters over existing or proposed submarine cables of national significance. The SEA-ME-WE3 cable has been identified as being nationally significant.

Location and dimensions of the proposed protection zone

The proposed protection zone will extend one nautical mile either side of the SEA-ME-WE3 cable. The zone will commence at the low-water mark, and finish at a point corresponding to a water depth of 2,000 metres. Detailed information and maps of the proposed protection zone are located on the ACMA website (www.acma.gov.au/subcables).

Nominal location of the SEA-ME-WE3 cable off City Beach, Perth

The nominal location of the SEA-ME-WE3 cable off City Beach is represented by the following points (World Geodetic System 1984):

Latitude	Longitude
31° 55.515' S	115° 45.391' E

Activities to be prohibited in the protection zone

Within the protection zone, ACMA proposes to prohibit the following activities that involve a serious risk of damaging the SEA-ME-WE3 cable (hereafter, 'the Cable'):

1. the use of, or towing, operating, or suspending from a ship:
 - a. trawl gear that is designed to work at or near the seabed (for example, a demersal trawl);
 - b. a mid-water trawl;
 - c. a Danish or Scottish seine;

- d. a dredge;
 - e. any type of net, rope, chain, or any other thing used in fishing operations (other than for demersal line-fishing operations) that is capable of contacting the seabed in the water depth in which it is deployed;
 - f. a structure moored to the seabed with the primary function of attracting fish for capture (for example, a fish aggregating device);
2. establishing or maintaining a spoil ground or any other ocean disposal point;
 3. bottoming or attempting to bottom a submarine vessel;
 4. scuttling or attempting to scuttle a ship; and
 5. the use or disposal of explosive devices or military ordnance.

Activities to be restricted in the protection zone

Within the protection zone, ACMA proposes to impose the following restrictions on activities that involve a risk of damaging the SEA-ME-WE3 cable:

1. harvesting the benthos may not be carried out in waters beyond 500 metres from the low-water mark, other than by hand collection;
2. lowering, raising or suspending an anchor from a ship may not be carried out beyond 500 metres from the low-water mark;
3. the use of, or towing, operating, or suspending from a ship:
 - (i) a pot or trap; or
 - (ii) a net anchored to the seabed and kept upright by floats (for example, a demersal gillnet);may not be carried out in waters beyond 500 metres from the low-water mark;
4. the use of, or towing, operating, or suspending from a ship a fishing line that is designed to catch fish at or near the seabed (for example, a demersal line) may not be carried out:
 - (i) in the course of commercial fishing beyond 500 metres from the low-water mark;
 - (ii) in the course of recreational fishing beyond 500 metres from the low-water mark unless using circle hooks (of any size) or J-hooks with a gape of 16 millimetres or less (that is, size 4/0 and below); or
 - (iii) in fishing operations using wire mainline;
5. the use of, or towing, operating, or suspending from a ship a grapnel or other cable installation, maintenance, or repair devices may not be carried out other than by, or on behalf of, cable owners for the purposes of installing, maintaining, or repairing submarine cables;
6. exploring for or exploiting resources (other than marine species) may not be carried out unless:
 - (i) the activity does not, or is not likely to, involve physical contact with the seabed (other than in the installation of pipelines);
 - (ii) the activity does not, or is not likely to, cause any subsidence of the seabed; and
 - (iii) the entity responsible for seismic survey work has consulted with the Cable owner to accurately identify the physical location of the Cable so that any seismic work in waters less than 200 metres deep is not conducted closer than 500 metres from the Cable's submerged plant items;
7. (a) installing an electricity cable, an oil or gas pipeline, any like cables or pipelines, and any associated equipment may not be carried out unless:
 - (i) the entity responsible for installing the new cable or pipeline has provided the Cable owner with reasonable notice of the activities to be undertaken;
 - (ii) the entity responsible for installing the new cable or pipeline has consulted with the Cable owner to accurately identify the physical location of those submarine cables in the vicinity of the planned installation;

- (iii) the activity occurs in a manner that does not, and is not likely to, damage or impede the efficient operation, maintenance, or repair of the Cable;
 - (iv) the path across the protection zone followed by the new cable or pipeline is minimised to the greatest extent practicable; and
 - (v) the new cable or pipeline does not approach or cross the Cable any closer than 500 metres from the Cable's submerged plant items (as determined following consultation with the Cable owner);
- (b) maintaining or removing an electricity cable, an oil or gas pipeline, any like cables or pipelines, and any associated equipment may not be carried out unless:
- (i) the entity responsible for maintaining or removing the installation has provided the Cable owner with reasonable notice of the activities to be undertaken; and
 - (ii) the activity occurs in a manner that does not, and is not likely to, damage or impede the efficient operation, maintenance, or repair of the Cable;
8. (a) constructing or removing a navigational aid, an installation for the use of ships, or civil engineering work, may not be carried out unless:
- (i) the entity responsible for constructing or removing the navigational aid, installation or civil engineering work has consulted with the Cable owner to provide reasonable notice and details of the activities to be undertaken, and to accurately identify the physical location of the Cable; and
 - (ii) the activity occurs in a manner that does not, or is not likely to, damage or impede the efficient operation, maintenance, or repair of the Cable;
- (b) maintaining a navigational aid, an installation for the use of ships, or civil engineering work, may not be carried out unless that maintenance occurs in a manner that does not, and is not likely to, damage or impede the efficient operation, maintenance, or repair of the Cable.

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant an approval to the organisation listed below:

Shell Global Solutions (Deutschland) GmbH

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* (the Determination) so that petrol, with an MTBE content of 14.5% will be taken to comply with the MTBE parameter specified in the Determination where that petrol is supplied by the approval holder or by another person specified in Annexure 1 of this Approval.

Approval is granted subject to the conditions specified in Section 17 of the Act and in Annexure 2 of this Approval.

The approval is granted for the period from the date of this approval until 1 December 2006.

Dated 12 October, 2006

.....
Minister for the Environment and Heritage

Annexure 1

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*:

Shell Global Solutions (Deutschland) GmbH
PAE-Labor

TNT Logistics Netherlands
B.V. Showfreight

Annexure 2

This approval is subject to the following conditions:

- 1. The fuel is only to be supplied to members of WRC Rally teams for use in the Perth Telstra World Rally Championship 2006.**
- 2. The provision of the fuel specified in this approval must be accompanied by information to the user, in the form of specific safety data sheets relating to the fuels use and handling. This should include advice that all practical means are taken to prevent spillage of fuel to limit the possibility of the product entering the groundwater table.**
- 3. Any unused fuel imported into Australia and specified in this approval will be exported by the expiry of the approval.**

MINISTER FOR THE ENVIRONMENT AND HERITAGE

NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT TO GRANT AN APPROVAL FOR A VARIATION OF THE *FUEL STANDARD (PETROL) DETERMINATION 2001*

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant approvals under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holders

An approval has been granted to Shell Global Solutions (Deutschland) GmbH

Period of operation

The period of operation of the approval is from the date of the approval until 1 December 2006.

Details of the Approval

In respect of petrol supplied by the approval holder or the 'regulated person' listed at Annexure 1 of the approval, this approval varies the *Fuel Standard (Petrol) Determination 2001* so that petrol with an MTBE content of 14.5% complies with the MTBE specifications for petrol fuel in the Determination, subject to the conditions listed in the approval at Annexure 2.

A copy of the relevant approval instrument is attached to this Notice.

Background

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I had regard to the recommendation of the Committee prepared in October 2006 out of session.

Findings on material questions of fact

(a) The protection of the environment

MTBE was capped at 1% in the Fuel Standard (Petrol) Determination 2001 due to its potential to contaminate surface and ground water supplies. A condition of this approval is that the fuel is only supplied to members of WRC Rally teams for use in the Perth round of the World Rally Championship 2006 and that information to avoid spillage be provided.

Shell Racing Fuel FIA_WRC will be supplied in 200 litre containers and any remaining fuel will be collected and exported from Australia after the event.

(b) The protection of occupational and public health and safety

The distribution of data sheets to rally participants relating to the fuels use and handling is a condition of this approval.

It is not expected that permitting the supply of Shell Racing Fuel FIA_WRC for the Perth Telstra World Rally Championship will adversely impact on occupational and public health and safety.

(c) The interests of consumers

Shell Racing Fuel FIA_WRC is mandatory for race participants in the Perth Telstra World Rally Championship .

(d) The impact on economic and regional development

Motor sport activities can contribute towards stimulating local economic and regional development.

Reasons for recommendation

1. No significant effects on the environment, or on any other relevant matters, are likely to occur through the granting of this approval.
2. Any remaining fuel will be collected and exported from Australia by the expiry of this approval.
3. The Perth Telstra World Rally Championship event stimulates local business and contributes to the economy.

**Superannuation Act 1976 (Interest)
Determination No. 156**

I, STEPHEN PHILLIP GIBBS, Chief Executive Officer, PSS/CSS Boards, and Delegate of the CSS Board, pursuant to section 154A of the *Superannuation Act 1976*, and for the purposes of Division 2A of Part V, Part VIAA, paragraphs 110SN (b) and 130D (1) (b) and section 156A of that Act, make this Determination.

Dated 26 November 2004

S P Gibbs

Stephen Phillip Gibbs
Delegate of the CSS Board

Name of Determination

1. This Determination is the *Superannuation Act 1976 (Interest) Determination No. 156*.

Commencement

2. This Determination is taken to have taken effect as follows:
 - (a) on 28 December 2002 — clauses 1 to 11;
 - (b) on 1 July 2003 — clauses 12 to 15.

Principal Determination

3. In this Determination:
Principal Determination means the Determination relating to interest, as amended, in force under subsection 154A (4) of the *Superannuation Act 1976*.

Amendment of Principal Determination

Amendments taken to have commenced on 28 December 2002

4. The Principal Determination is amended by inserting the following definitions before the definition of “first day of interest” in clause 4:
 - “**accumulated basic contributions**” has the same meaning as in the Act.
 - “**accumulated contributions**” has the same meaning as in the Act.
 - “**accumulated employer contributions**” has the same meaning as in section 110Q of the Act.
 - “**accumulated supplementary contributions**” has the same meaning as in the Act.
 - “**associate deferred benefits**” has the same meaning as in Part IXB of the Act.
 - “**basic contributions**” has the same meaning as in the Act.
 - “**basic contributions component**” has the same meaning as in Part IXB of the Act.
 - “**employer contributions component**” has the same meaning as in Part IXB of the Act.”
5. The Principal Determination is amended by:
 - (a) deleting “that person.” from paragraph (j) of the definition of “first day of interest” in clause 4 and replacing it with “that person;”; and
 - (b) adding after paragraph (j) of the definition of “first day of interest” in clause 4 the following paragraph:
 - “(k) if the prescribed amount is a prescribed amount referred to in paragraph (z), (za), (zb) or (zc) of the definition of “prescribed amount” — the operative time for the relevant payment split.

Note If there is a later payment split, there will be a new operative time, for the purposes of paragraph (k), for the later payment split.”
6. The Principal Determination is amended by inserting the following definitions after the definition of “first day of interest”:
 - “**funded component**” has the same meaning as in Part IXB of the Act.
 - “**member spouse**” has the same meaning as in Part IXB of the Act.
 - “**non-member spouse**” has the same meaning as in Part IXB of the Act.
 - “**operative time**” has the same meaning as in Part IXB of the Act.
 - “**original interest**” has the same meaning as in Part IXB of the Act.
 - “**payment split**” has the same meaning as in Part IXB of the Act.”
7. The Principal Determination is amended by:
 - (a) deleting “the Act; and” from paragraph (x) of the definition of “prescribed amount” in clause 4 and replacing it with “the Act;”; and

-
- (b) deleting “the Act.” from paragraph (y) of the definition of “prescribed amount” in clause 4 and replacing it with “the Act;”; and
 - (c) adding after paragraph (y) of the definition of “prescribed amount” in clause 4 the following paragraphs:
 - “(z) for a non-member spouse in respect of whom associate deferred benefits apply as the result of a payment split — each of the amounts that are added together to create the funded component of the transfer amount in relation to the associate deferred benefits;
 - (za) for a later non-member spouse in respect of whom associate deferred benefits apply as a result of a payment split applying to the associate deferred benefits of another non-member spouse — each of the amounts that are added together to create the funded component of the transfer amount in relation to the later associate deferred benefits;

Note Paragraphs (z) and (za) establish the starting amount of the funded component of the transfer amount for a non-member spouse following a payment split applicable to a member spouse’s original interest (paragraph (z)) or to a non-member spouse’s associate deferred benefits (paragraph (za)).

- (zb) for a member spouse whose original interest is subject to a payment split — the amount calculated under subclause 5F (2) at the operative time for the payment split;
- (zc) for a non-member spouse whose associate deferred benefits are subject to a payment split — the amount calculated under subclause 5F (5) at the operative time for the payment split.

Note Section 146ME of the Act provides that the original interest of a member spouse that is the subject of a payment split is not reduced until the original interest becomes payable as a benefit. Section 146MF of the Act operates in a similar way for a non-member spouse’s associate deferred benefits.

In spite of sections 146ME and 146MF, paragraphs (zb) and (zc) establish the amount of the funded component of the member spouse’s original interest, or the non-member spouse’s associate deferred benefits, as if they had been reduced at the operative time for a payment split, and then deem those amounts to be prescribed amounts.”

8. The Principal Determination is amended by inserting the following definitions after the definition of “prescribed amount”:
 - “**section 110SL component**” has the same meaning as in Part IXB of the Act.
 - “**section 130B component**” has the same meaning as in Part IXB of the Act.
 - “**splitting agreement**” has the same meaning as in Part IXB of the Act.
 - “**supplementary contributions**” has the same meaning as in the Act.
 - “**supplementary contributions component**” has the same meaning as in Part IXB of the Act.”
9. The Principal Determination is amended by inserting, after “eligible employee,” in the definition of “termination day” in clause 4, the words “or in relation to a non-member spouse,”.

-
10. The Principal Determination is amended by inserting the following definition after the definition of “the Board”:
““**transfer amount**” has the same meaning as in Part IXB of the Act.”
11. The Principal Determination is amended by adding after clause 5D the following clauses:
- “5E. (1) If, for the purposes of clauses 5 to 5D, interest is required to be calculated at the operative time for a payment split, interest is to be calculated and applied in accordance with clause 6 and the Schedule even though:
- (a) a person may not have ceased to be a member, a preserved benefit member or a person with associate deferred benefits at that time; and
 - (b) a benefit may not have become payable at that time.
- 5F. (1) For the purposes of ascertaining the funded component of the transfer amount of a non-member spouse:
- (a) the Board must treat the member spouse’s original interest as if the benefits had become payable to the member spouse at the operative time for the payment split; and
 - (b) interest that is calculated in accordance with clause 6 and the Schedule must be applied to the prescribed amounts that comprise the member spouse’s original interest only to the operative time for the payment split.
- (2) The amount calculated under subclause (1), reduced by the funded component of the transfer amount for the non-member spouse at the operative time for the payment split, is deemed to be a prescribed amount for the member spouse at the operative time.
- (3) Subclauses (1) and (2) do not prevent the application of clause 6 and the Schedule to the calculation of the member spouse’s benefits that become payable after the operative time for the payment split.
- (4) For the purposes of ascertaining the funded component of the transfer amount of a non-member spouse following a payment split applying to associate deferred benefits of another non-member spouse (the **first non-member spouse**):
- (a) the Board must treat the associate deferred benefits of the first non-member spouse as if the benefits had become payable at the operative time for the later payment split; and
 - (b) interest that is calculated in accordance with clause 6 and the Schedule must be applied to the prescribed amount referred to in paragraph (z) of the definition of “prescribed amount” in clause 4 that comprises the first non-member spouse’s benefits only to the operative time for the later payment split.

-
- (5) The amount calculated under subclause (3), reduced by the funded component of the transfer amount at the operative time for the payment split, is deemed to be a prescribed amount for the first non-member spouse at the operative time.

- 5G. (1) For the purposes of ascertaining the associate deferred benefits payable to a member spouse whose original interest is subject to a payment split, interest is to be calculated, with respect to the original interest, in accordance with clause 6 and the Schedule as if a reference in clause 6 to an eligible employee were a reference to the member spouse, provided that, for the purposes of section 146ME of the Act:
- (a) the accumulated basic contributions in respect of the original interest are reduced by the sum of:
 - (i) the basic contributions component; and

Note 2 The amounts referred to in section 146ME of the Act, on which interest is to accrue with effect from the operative time, comprise the definition of **funded component** in Part IXB of the Act.

- 5H. (1) For the purposes of ascertaining the associate deferred benefits payable to a non-member spouse that are not subject to a payment split, interest is to be calculated with respect to the associate deferred benefits in accordance with clause 6 and the Schedule as if:
- (a) a reference in clause 6 to a prescribed amount were a reference to the amount referred to in paragraph (z) of the definition of “prescribed amount” in clause 4; and

- (2) Clause 6 applies to each amount that comprises the funded component of the transfer amount for the period beginning on the first day of interest and ending at the end of the termination day as if:
