Australian Government
Attorney-General's Department
Office of Legislative Drafting and Publishing

This Gazette is published by the Office of Legislative Drafting and Publishing (OLDP) on behalf of the Commonwealth of Australia.

OLDP is a specialist professional drafter and the pre-eminent drafter of Commonwealth subordinate legislation.

OLDP strives to maintain and enhance its reputation as a centre of drafting excellence. OLDP produces legislative and administrative instruments of the highest standard through the innovative use of plain English, current technology and rigorous quality assurance procedures.

Through its responsibility for maintaining the Federal Register of Legislative Instruments (FRLI), OLDP plays an important role in the legislative process for Commonwealth legislative instruments.

OLDP prepares compilations of a range of Commonwealth legislation, arranges publication of Commonwealth legislation and legislative materials in hard copy form, and provides online access to Commonwealth legislation and legislative materials via the ComLaw (www.comlaw.gov.au) and the FRLI (www.frli.gov.au) websites.

OLDP's responsibilities

- drafting
- advising about drafting and interpreting instruments created under a statutory power
- maintaining the Federal Register of Legislative Instruments, registering legislative instruments and lodging registered instruments for tabling in Parliament
- preparing compilations of Acts and select legislative instruments

- providing ready public access to the law through ComLaw (www.comlaw.gov.au) and the Federal Register of Legislative instruments (www.frli.gov.au)
- ensuring that printed copies of Acts, select legislative instruments and related legislative material are available in 'as made' and compiled form

Other assistance

OLDP can provide advice on:

- the basis and role of delegated legislation and other instruments made under a statutory power
- the requirements and procedures for lodgment, registration, disallowance and sunseting of legislative instruments
- sound techniques for developing efficient drafting instructions (important for efficient achievement of your legislative program).

Other OLDP services

OLDP can provide a range of other services on a billable basis, including:

- arranging gazettal and tabling of other OLDP drafted non-legislative instruments.
- preparing compilations of legislative and non-legislative instruments

THIS GAZETTE IS PRODUCED AS A CAMERA-READY PUBLICATION

QUALITY OF YOUR PUBLICATION

To maximise the quality of notices, all copy must be typewritten or typeset using a laser printer. Handwritten material will generally not be accepted. Other material may be accepted, however, the Attorney-General's Department will take no responsibility for the quality of production of these notices.

LODGMET RATES

A charge of \$143.00 per page will apply to the submission of notices for this Gazette.

CUSTOMER ACCOUNT NUMBERS must be clearly indicated on the covering sheet and submitted with your notice. Any notice submitted without this information will not be published.

CLOSING TIMES

Copy for inclusion in this Gazette will be accepted by the Gazette Office until 10.00 am on Friday in the week before publication, unless an earlier closing time has been advised.

INQUIRIES

All inquiries should be directed to (02) 6203 9009.

Variation of closing times

Australia Day — Issue of 31 January 2007 (GN 4)

As Friday 26 January 2007 is a public holiday in the Australian Capital Territory, closing time for lodgment of all notices for publication in GN 4 will be:

Thursday, 25 January 2007 at 10.00am.

General Information

GAZETTE INQUIRIES

Lodgment Inquiries: (02) 6203 9009
Subscriptions (Fax): (02) 6293 8388
Subscriptions (Tel): 1300 857 522

The **GOVERNMENT NOTICES GAZETTE** is published each Wednesday and contains a range of legislation and information about legislation as well as special information and government departments' notices. The Gazette is sold at \$6.40 each or on subscription for \$314.00 (50 issues). Prices are GST inclusive.

NOTICES FOR PUBLICATION and related correspondence can be lodged:

By hand: Gazette Office, 63 Denison Street, Deakin ACT 2600

By post: Gazette Office, Attorney General's Department, Cnr Kings Avenue and National Circuit, Barton ACT 2600.

By fax: (02) 6282 5140

By e-mail: gazettes@ag.gov.au.

Notices received before closing times will be accepted for publication in the next available issue of the *Gazette*, unless otherwise specified.

All notices lodged for publication must be accompanied by a covering note clearly setting out requirements. For the purposes of publication, electronic copy is preferred. However, publication of hard copy notices can be arranged. Further information is provided below.

Publication of hard copy notices

Where a notice for publication includes a signature or other handwritten material that must appear in the published notice, a hard copy of the notice will be accepted for publication. The notice must be either an original or a good copy. Print should be confined to one side of the paper and sheets must be A4 size and numbered consecutively. Dates, proper names and signatures are to be shown clearly. An electronic copy of the notice should also be e-mailed to the Gazette Office.

Publication of electronic notices

Where a notice for publication is provided in electronic form it should be provided in Word, RTF (Rich Text Format) or searchable PDF format.

For further information contact the Gazette Office on (02) 6203 9009. Information is also available from the following Internet site: <http://www.ag.gov.au/GNGazette/>.

CLOSING TIMES FOR LODGMENT

All notices for publication must be lodged by the following times (except at holiday periods for which special advice of earlier closing times will be given).

All *Government Notices Gazette* copy: Friday at 10.00 am in the week prior to publication.

Special Gazette Notices: by 9.30 am on the day of publication.

Periodic Gazettes: as agreed but generally 7 days prior to date of publication.

ADVERTISING RATES (GST inclusive)

Government Notices: \$143 per A4 page — minimum charge one page.

Special Gazette notices:

- during business hours: \$264 per page.
- outside normal business hours: \$396 per page for the first two pages and \$264 for each subsequent page.

Periodic Gazette notices: \$350 for the first page and \$50 for each subsequent page.

Other charges may apply, for further information please see the Lodging Notices section, More information at <http://www.ag.gov.au/GNGazette>

Additional copies of Special and Periodic Gazettes can be provided at a cost of 2.75 cents per page per copy — minimum charge: \$5.50.

Payment may be made by credit card, EFT, cheque, money order or customer account code (for account code customers only).

SUBSCRIPTIONS are payable in advance and are accepted for a maximum period of one year. All subscriptions are on a firm basis and refunds for cancellations will not be given. Rates include surface postage in Australia and overseas. For further information about subscriptions telephone 1300 857 522

AVAILABILITY

The *Gazette* may be purchased by mail order (Tel. 1300 857 522, Fax (02) 6293 8388) from CanPrint Communications, 16 Nyrang Street, Fyshwick ACT 2609. Over the counter sales are available from CanPrint Communications at the address above.

Over the counter sales are also available from the following outlets:

Canberra: CanPrint Communications

16 Nyrang Street

GAZETTES

When a *Special Gazette* is issued outside normal business hours, a copy of the Gazette will be posted on a noticeboard at the front entrance of the Attorney-General's Department, cnr Kings Avenue and National Circuit, Barton ACT 2600. Copies will be available on the next business day from CanPrint Communications, 16 Nyrang Street, Fyshwick ACT 2609.

ALL REMITTANCES should be made available to: Collector of Public Moneys, Attorney-General's Department.

Revised Publication Charges

On 22 September 2004 we announced an additional charge for notices that were supplied in hardcopy rather than in electronic form, but we have not actually imposed this charge so far.

From **31 January 2007**, the following charge will apply for publication of notices in the Gazette that are supplied in hardcopy.

\$22 per page GST inclusive.

This charge is in addition to all other publication charges.

Many clients provide hardcopy in the belief that signatures are required to be published with notices. There is no legal requirement for this and most notices are published without signatures. However, if you wish to continue to provide hardcopy for this or other reasons, the Gazette office will still accept it for publication. In these cases, it is necessary that we recoup some of the additional labour costs associated with publishing notices lodged in hardcopy format.

Further information is available by contacting the Gazette Office on (02) 6203 9009.

HUMAN RIGHTS AND EQUAL OPPORTUNITY COMMISSION

SEX DISCRIMINATION ACT 1984 (Cth), Section 44(1)

NOTICE OF GRANT OF A TEMPORARY EXEMPTION

By this instrument, the Human Rights and Equal Opportunity Commission ('the Commission') grants to Crisis Support Services Inc ('the Applicant') a temporary exemption pursuant to s 44(1) of the *Sex Discrimination Act 1984* (Cth) ('the SDA') in the terms set out below.

BACKGROUND

Nature of the application

Mr Roger Levy has made an application, on behalf of the Applicant, for an exemption from the SDA to allow the Applicant to:

- Advertise nationally for and recruit male counsellors to join their Graduate Trainee Program ('the Program'); and
- At the end of the Program, to offer employment to as many male counsellors who have completed the Program, as it considers appropriate.

About the Applicant

The Applicant is a non-profit organisation that provides a range of counselling and community support services.

One of the areas of community support that the Applicant offers is counselling for men, via both the Mensline Australia and Suicide Helpline services.

Applicant's reasons for requesting an exemption

The Applicant claims that the need for male counsellors has arisen, particularly in relation to their Mensline and Suicide Helpline services, due to increased use of these phone line counselling services by men who often request to speak to a male counsellor.

In particular, the Applicant states that men from culturally and linguistically diverse ('CALD') backgrounds often wish to speak to a male, rather than a female, counsellor for a variety of cultural and religious reasons.

The Applicant claims it has experienced a shortage of suitably trained and experienced male counsellors to meet this need.

VCAT exemption granted

The Applicant also sought an exemption under the *Equal Opportunity Act 1985* (Vic) from the Victorian Civil and Administrative Tribunal ('VCAT'). On 23 August 2006, that application was granted.

The Commission is not bound by the decision of VCAT and must exercise its discretion under section 44 of the SDA independently. However, the Commission has considered the reasons given by VCAT for granting the exemption to the Applicant.

Further information sought by the Commission

The Commission sought further information from the Applicant in relation to a range of matters relevant to its application.

This included information on:

- The average number of requests made by callers to Mensline to speak to a male counsellor;
- The gender-ratio of staff currently working at Mensline;
- The actual numbers of staff currently working at Mensline;
- Evidence that men prefer to speak to a male rather than a female counsellor;
- The potential impact of an exemption on the Applicant's recruitment and training of female counsellors; and
- Whether, under section 30 of the SDA, it is a 'genuine occupational requirement' to be male in order to perform the role of counsellor at Mensline.

REASONS FOR DECISION

The Commission has decided to grant the exemption for a period of one (1) year for the reasons set out below.

Arguable case of unlawful discrimination

The Commission concludes that the Applicant's proposal to advertise nationally for and to recruit male counsellors to join its Graduate Trainee Program does raise an arguable case of discrimination under the SDA.

This conclusion is a pre-condition for an exemption to be necessary. If the proposed activity does not raise an arguable case of discrimination, an exemption will not be necessary.

In this respect, the Commission notes Section 14(1) of the SDA which makes it unlawful for an employer to discriminate against a person on the ground of, amongst other things, sex in determining who should be offered employment.

It would appear that none of the permanent exemptions to the SDA, contained in Part II Division 4, apply to the present case.

Capacity of Mensline staff to accommodate requests to speak to a male counsellor

The Commission accepts that Mensline is currently unable to accommodate the number of requests made by callers to speak to a male counsellor.

The Commission has reached this conclusion by taking into account the gender-ratio of staff at Mensline, in conjunction with the actual number of staff, and the number of requests made by callers to speak to a male counsellor.

The Applicant has informed the Commission as follows:

- The current gender ratio of counsellors working at Mensline is **35: 65** (male: female);
- On average, the total number of counsellors at Mensline is eight (**8**) people; and
- **3%** of callers to Mensline (or around 105 callers per month) specifically request to speak to a male counsellor. This figure does not include the 40% of callers who hang up before a conversation has taken place.

Although the number of callers specifically requesting to speak to a male is small, the Commission accepts the Applicant's claim that its staff of 8 (of whom less than 3 are, on average, male) will not always be capable of facilitating callers' requests to speak to a male counsellor. For example, the Commission notes that Mensline's ability to meet such requests may fluctuate depending on rostering, staff absences or spikes in the number of requests.

The Commission also notes the Applicant's concerns that it is not reasonable for a caller, whose request for a male counsellor can not be accommodated, to leave their details for a return call to be made. In particular, the Commission acknowledges reasons of spontaneity, confidentiality and frequent situations of emergency, as arguments against this approach.

Evidence that males prefer male counsellors

While the Commission accepts that some men will request to speak to a male counsellor, evidence supporting the general preference of males to speak to a male counsellor in times of crisis is equivocal and inconclusive.

Further, as far as the Commission is aware, little research in this area has been conducted recently.

The Commission has considered the information provided by the Applicant of a recent study commissioned by the Applicant in June 2006. This study indicated that men from CALD backgrounds often wish to speak to a male, rather than a female, counsellor.

On the other hand, the Commission also notes the evidence that, in some circumstances (for example sexual assault), men prefer to speak to a female, rather than a male, interviewer or counsellor. In particular, the Commission refers to its decision in August 2005 to grant a temporary exemption from the SDA to the Australian Bureau of Statistics on this basis.

Based on the above evidence, the Commission notes that an individual male caller's preference to speak to either a male or female counsellor would seem to vary depending on the particular circumstances.

Given the inconclusive nature of the current evidence, and the fact that the Applicant proposes to research the impact of counsellor-gender on counselling in tandem with its proposed Graduate Trainee Program, the Commission has decided to grant the exemption for a shortened period of one year.

The Commission hopes that this more limited exemption will enable the Applicant to increase the number of male staff working for its counselling services to enable it to accommodate requests for male counsellors.

Summary: reasons for granting the exemption

On the evidence before it, the Commission is satisfied that the proposed activity raises an arguable case of unlawful discrimination under the SDA.

The Commission has considered the permanent exemptions to the SDA, contained in Part II Division 4, including the exemption of 'genuine occupational qualification'. It concludes that none of the permanent exemptions apply in the present case.

The Commission accepts that, based on the gender-ratio and small number of staff at Mensline, it is currently unable to accommodate the number of requests it receives from men to speak to a male counsellor.

The Commission also accepts that some men, particularly those from CALD backgrounds, have difficulty seeking assistance or counselling from a female in times of crisis. The Commission acknowledges that this is a problem.

For these reasons, and in the absence of stronger supporting evidence which might lead the Commission to consider granting the exemption for a longer period, the Commission grants the exemption for one year.

TERMS OF EXEMPTION

The Commission grants Crisis Support Services Inc an exemption from the operation of section 14(1) of the SDA for a period of one (1) year, commencing on 13 January 2007 and expiring on 12 January 2008.

This exemption operates for the purpose of enabling the Applicant to advertise nationally for and recruit male counsellors to join its Graduate Trainee Program and, at the end of the Program, to offer employment to as many male counsellors who have completed the Program as it considers appropriate.

APPLICATION FOR REVIEW

Subject to the *Administrative Appeals Tribunal Act 1975* (Cth), any person whose interests are affected by this decision may apply to the Administrative Appeals Tribunal for a review of the decision.

Dated this 12th day of January 2007

A handwritten signature in black ink, appearing to read 'John von Doussa', written in a cursive style.

Signed by the President, John von Doussa QC, on behalf of the Commission.

I, Margaret Stone, delegate of the Chief Executive Officer of AUSTRAC, for the purposes of subsection 17B(4) of the *Financial Transaction Reports Act 1988*, hereby declare that subsection 17B(3) does not apply to Sumitomo Mitsui Finance Australia Limited in respect of certain international funds transfer instructions (IFTIs), subject to the following conditions:

- (a) Sumitomo Mitsui Finance Australia Limited transmits or receives IFTIs on its own behalf, as set out in the application from Sumitomo Mitsui Finance Australia Limited dated 7 December 2006; and
- (b) the declaration is valid from 1 January 2007 to the earlier of the following dates:
 - (1) the date on which Division 4 of Part 3 of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (AML/CTF Act) commences to apply to Sumitomo Mitsui Finance Australia Limited; or
 - (2) the date on which the circumstances under which an IFTI is, or is to be, transmitted or received by Sumitomo Mitsui Finance Australia Limited are different to the matters outlined in paragraph (a) above.

A handwritten signature in black ink that reads "M Stone".

AUSTRALIAN COMMUNICATIONS AND MEDIA AUTHORITY

Telecommunications Act 1997

Subsection 56(3)

NOTIFICATION OF GRANT OF CARRIER LICENCE

The Australian Communications and Media Authority gives notice under subsection 56(3) of the *Telecommunications Act 1997* ('the Act') that on 18 January 2007 a carrier licence was granted to Unique Technology Solutions Pty Ltd, ACN 112 872 929 under subsection 56(1) of the Act.

Environment and Heritage

Draft Plan for the former HMAS Platypus site, Neutral Bay

The Sydney Harbour Federation Trust has been established to plan the future of seven Commonwealth lands around Sydney Harbour. A new addition to these is the former HMAS Platypus site, Neutral Bay.

The Trust advises that a Draft Plan for HMAS Platypus has now been prepared and will be on public exhibition from 18 January 2007 to 16 March 2007 at the following locations: North Sydney Council; Stanton Library, North Sydney; Kirribilli Neighbourhood Centre; Mosman Library; Lane Cove Council; Harbour Trust Offices, Mosman; and the Trust website on www.harbourtrust.gov.au

Submissions are invited until 5pm, 16 March 2007, addressed to:

HMAS Platypus - Submissions

Sydney Harbour Federation Trust

PO Box 607

Mosman NSW 2088

or by email to consulttrust@harbourtrust.gov.au

Submissions may be made public at the discretion of the Harbour Trust. If you require further information contact the Trust on (02) 8969 2100.

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant an approval to the organisations listed in Annexure 1, Tables 1 and 2.

Approval is granted subject to the conditions specified in section 17 of the Act and Annexure 2 of this approval.

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* (the Determination) in respect of supply by the approval holders or by other persons specified in Annexure 3 so that petrol with a lead content of more than 0.005g/L will be taken to comply with the lead parameter specified in the Determination.

The approval is granted for the period from the date of this approval until 31 December 2008.

Dated: 20 December 2006

A handwritten signature in black ink, appearing to read 'Ian Campbell', written over a dotted line.

Minister for the Environment and Heritage

Gene Cook Race Engines

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons:

1. The approval holders listed in Table 1 of Annexure 1 must:

- at the request of the Secretary to the Department of the Environment and Heritage (DEH), or any person authorised by him, return to DEH any issued or un-issued *leaded fuel passbooks*;
- maintain co-management agreements with the DEH which govern the management of leaded racing fuels for legitimate motor and water sports events; and
- report to DEH the total volumes of leaded fuel supplied to members during the 2007 calendar year.

2. The approval holders listed in Table 2 of Annexure 1 must:

- at the request of the Secretary of DEH, or any person authorised by him, return to DEH any *leaded fuel passbooks*; and
- present a leaded fuel passbook upon the purchase of leaded fuel from any of the suppliers listed in Annexure 3.

3. The regulated persons listed in Annexure 3 must:

- supply leaded fuel only to the holder of a *leaded fuel passbook* issued by an approval holder;
- record details of the purchase in the recipient's *leaded fuel passbook*; and
- not make a supply of leaded fuel to a passbook holder that will result in the passbook holder being supplied with more than 200 litres of leaded fuel in a week.

Interpretation

In these conditions:

“leaded fuel” means petrol containing more than 0.005g/L of lead.

“passbook” means a leaded fuel passbook that has been provided by DEH.

Annexure 3

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*:

MINISTER FOR THE ENVIRONMENT AND HERITAGE

NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR AN APPROVAL FOR A VARIATION OF THE *FUEL QUALITY STANDARD (PETROL) DETERMINATION 2001*

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to renew an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to those businesses and organisations listed at **Annexure 1**.

Period of operation

The period of operation of the approval is the date of the approval until 31 December 2008.

Details of the approved variation of the fuel standard

In respect of petrol supplied to the holders of the approval or a regulated person, this approval varies the *Fuel Standard (Petrol) Determination 2001* (the Determination) so that petrol with a lead content of more than 0.005gm/L of lead complies with the lead specification for petrol in the Determination.

Copies of the relevant approval instruments are attached to this Notice.

Background

The organisations listed require access to leaded fuel for eligible club members for legitimate motor sport activities.

The businesses listed require access to leaded fuel for the purposes of dynotuning and testing select vehicles.

Section 15 of the Act provides that I must have regard to the following when deciding whether or not to grant an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. The Committee considered these applications at its 28 November 2006 meeting and I had regard to the recommendation made by the Committee before signing the instrument granting the approval.

Findings on material questions of fact**(a) Protection of the environment**

I do not expect that significant environmental issues will be raised by these approvals. The motor and water sport approval applicants are required to enter into a co-management agreement with the Department of the Environment and Heritage (DEH) in relation to the supply of leaded fuel via the issue of a leaded fuel passbook to its eligible members.

The dynotuner applicants will continue to be issued with one passbook each, and will be limited to 200 litres per purchase (one purchase per day) once every seven days.

(b) Protection of occupational and public health and safety

I do not expect that significant occupational and public health and safety issues will be raised by this application.

(c) Interests of consumers

An approval can be granted under section 13 of the Act, and the note on this clause in the Fuel Quality Standards Bill 2000 Revised Explanatory Memorandum states that this provision is intended to cater to situations such as where a motor sports organisation applies for an approval for supply of non-compliant fuel on behalf of teams participating in an organised motor racing event.

(d) Impact on economic and regional development

Motor and water sport activities can contribute towards stimulating local economic and regional development.

Evidence or other material on which the findings were based

The approval applications and the recommendation of the Committee dated 28 November 2006.

Reasons for decision

The amount of leaded fuel that will be used by the approval applicants will be minimal. Conditions are attached to this approval.

The granting of this approval will not have a significant impact on the environment.

Minister for the Environment and Heritage

20 / 12 / 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL - SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Hi Tech Fuels Australia Pty Ltd (the approval holder).

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* in respect of supplies by the approval holder, or by another person specified in **Annexure 1**, of the following Elf Racing Fuels:

1. Elf WRF	4. Elf MITS 40/42
2. Elf ATMO Rally	5. MOTO 124
3. Elf Turbo Max	

so that petrol containing the following parameters:

- an Aromatic content of up to 60% volume by volume
- an Oxygen content of more than 2.7% mass by mass (petrol not containing ethanol), or 3.5% mass by mass (petrol containing ethanol);
- an Olefins content of up to 37% by volume;
- a Methyl tertiary-butyl ether (MTBE) content of up to 10% v/v;

will be taken to comply with the aromatic, oxygen, olefin and MTBE parameters specified in the Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

Approval is granted from the date of this approval until 31 December 2008.

Dated: 21st December 2006

Minister for the Environment and Heritage

Annexure 1

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*.

Motorsport Fuels and Lubricants Qld Pty Ltd Qld

Race Fuels Pty Ltd Vic

Bronte Rundel Performance Fuels SA

Devonport Performance Tyers Tas

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons.

This approval is subject to the following conditions:

1. The fuel specified in this approval may only be supplied for use in legitimate motor racing activities, and therefore the fuel may only be supplied:
 - a. to an individual who has been issued with and presents a valid and current four wheel or two wheel motor sport organisation licence and/or identification card; or
 - b. to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.
2. For the period of the approval, the approval holder will report the quantity of fuel supplied for each financial year. The report is to be provided by 30 September of the relevant financial year.
3. The use of any fuel containing greater than 1% MTBE is not to be used in watercraft for sport or recreational activities on fresh water lakes and waterways. Such fuel is only to be supplied to an individual that has been issued with and presents a valid and current four wheel or two wheel motor sport club identification licence and is only to be supplied in sealed containers of 20 or 200 litre capacity.
4. The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel.
5. The fuel is not to be directly dispensed from a bowser into the fuel tank of a road-registered vehicle.
6. If the approval holder becomes aware of a change in the composition of the fuel covered by the approval, it will, within two weeks of being made aware of the change, notify the Department of the Environment and Heritage.

MINISTER FOR THE ENVIRONMENT AND HERITAGE

NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR AN APPROVAL FOR A VARIATION OF THE *FUEL QUALITY STANDARD (PETROL) DETERMINATION 2001*

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to Hi Tech Fuels Australia Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the approval

This approval varies the fuel standard for petrol under the *Fuel Standard (Petrol) Determination 2001* (the Petrol Determination) in respect of supplies of the following Elf fuels:

1. Elf WRF
2. Elf ATMO Rally
3. Elf Turbo Max
4. Elf MITS 40/42
5. MOTO 124

so that petrol containing the following parameters:

- Aromatic content of up to 60% volume by volume
- Oxygen content of more than 2.7% mass by mass (petrol not containing ethanol), or 3.5% mass by mass (petrol containing ethanol);
- Olefins content of up to 37% by volume;
- Methyl tertiary-butyl ether (MTBE) content of up to 10% volume by volume;

will be taken to comply with the aromatic, oxygen, olefin and MTBE parameters specified in the Determination where the petrol is supplied by the approval holder, or by another person specified in Annexure 1 of the approval, and subject to the conditions listed in the approval at Annexure 2.

A copy of the approval Instrument is attached to this Notice.

Background

Hi Tech Fuels Australia Pty Ltd imports specialist racing fuels and products from Elf Racing Fuels and Lubricants (Elf) in France. Five of Elf's fuels supplied in Australia do not comply with parameters prescribed in the Petrol Determination - aromatics, oxygen, Methyl tertiary-butyl ether (MTBE) and/or olefins.

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact

(a) Protection of the environment

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). In this context, higher levels of olefins and aromatics are not expected to impact significantly on ambient air quality.

The consequences of even a small amount of MTBE contaminating water sources can be significant. Fuel containing MTBE above the limit in the Fuel Standard (Petrol) Determination is not permitted in activities occurring in fresh water lakes and waterways.

It is therefore not expected that permitting the supply of petroleum-based racing fuels for motorsport activities will have an adverse effect on the environment.

(b) Protection of occupational and public health and safety

Persons engaged in the use of these fuels may be exposed to relatively high levels of toxins. It is a condition of the approval that information be provided to the user, in the form of written safety information relating to the fuel's use and handling.

When relevant information is provided it is not anticipated that any significant occupational and public health and safety issues will be raised by these amendments.

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). They do not, therefore, pose a significant risk to the general public.

(c) Interests of consumers

An approval can be granted under section 13 of the Act, and the note on this clause in the Fuel Quality Standards Bill 2000 Revised Explanatory Memorandum states that this provision is intended to cater to situations such as where a motor sports organisation applies for an approval for supply of non-compliant fuel on behalf of teams participating in an organised motor racing event.

(d) Impact on economic and regional development

It is likely that a decision not to allow the continued supply of these specialist petroleum-based racing fuels would have an adverse impact on the running of significant internationally recognised motorsport events. Such events include the Australian Formula 1 Grand Prix, the Philip Island World Motorcycle Grand Prix and the Philip Island World Superbike motorcycle races.

These international events rely on using the same or similar fuel formulations for each race meeting, regardless of which country the event is held in. The fuels currently used at these events comply with regulations made by the FIA. FIA is the internationally recognised world controlling body for motor sport that sets the standards and guidelines for fuel within world championship motor sport.

Evidence or other material on which the findings were based

I have taken into account the Committee recommendation dated 28 November 2006.

Reasons for decision

The use of petroleum-based racing fuels that do not meet the requirements of the *Fuel Standard (Petrol) Determination 2001*, for legitimate motor sport activities, is supported until 31 December 2008.

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums).

The fuels subject to this approval are expensive compared with pump petrol available from bowzers, which is a strong disincentive for any waste or misuse. These fuels do not, therefore, pose a significant risk to the general public, either through direct handling of them or through exhaust emissions.

The use of fuels containing higher than standard levels of MTBE will not be permitted for use in water sport or recreational activities on fresh water lakes and waterways.

Conditions are attached to this approval that apply to the approval holder and regulated persons in relation to the supply of these fuels.

The granting of this approval is not expected to have an adverse impact on the environment.

Minister for the Environment and Heritage

20th

December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, under section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Martini Racing Products Pty Ltd. (the approval holder).

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* in respect of supplies by the approval holder of Martini Motorsport 110.

This approval varies the standard of petrol under the *Fuel Standard (Petrol) Determination 2001* with respect to the supply of Martini Motorsport 110 such that fuel with an:

- aromatic content of up to 78% volume by volume; and
- an oxygen content of more than 3.5% mass by mass (for petrol containing ethanol)

will be taken to comply with the aromatic and oxygen specifications in the Petrol Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in Annexure 1 of this approval.

Approval is granted from the date of this approval until 31 December 2008.

Dated: 20th December 2006

A handwritten signature in black ink, appearing to read 'Ian Campbell', written over a dotted line.

Minister for the Environment and Heritage

Annexure 1**Conditions of approval**

Conditions that apply to the approval holder and to the regulated persons.

This approval is subject to the following conditions:

1. The fuel specified in this approval may only be supplied for use in legitimate motor racing activities, and therefore the fuel may only be supplied:
 - a. to an individual who has been issued with and presents a valid and current four wheel or two wheel motor sport organisation licence and/or identification card; or
 - b. to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.
2. For the period of the approval, the approval holder will report the quantity of fuel supplied for each financial year. The report is to be provided by 30 September of the relevant financial year.
3. The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel.
4. The fuel is not to be directly dispensed from a bowser into the fuel tank of a road-registered vehicle.
5. If the approval holder becomes aware of a change in the composition of the fuel covered by the approval, it will, within two weeks of being made aware of the change, notify the Department of the Environment and Heritage.

MINISTER FOR THE ENVIRONMENT AND HERITAGE

NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR AN APPROVAL FOR A VARIATION OF THE *FUEL QUALITY STANDARD (PETROL) DETERMINATION 2001*

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to Martini Racing Products Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the approval

This approval varies the fuel standard for petrol under the *Fuel Standard (Petrol) Determination 2001* (the Petrol Determination) so that petrol with the following parameters:

- aromatic content of more than 78% volume by volume; and
- oxygen content of more than 3.5% mass by mass

will be taken to comply with the aromatic and oxygen parameters specified in the Determination subject to the conditions listed in the approval at **Annexure 1**.

A copy of the approval Instrument is attached to this Notice.

Background

Martini Racing Products Pty Ltd applied for approval to vary the aromatic and oxygen parameters for their locally manufactured, unleaded petroleum based racing fuel.

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact**(a) Protection of the environment**

The fuel subject to this approval application does not comply with the Determination with respect to aromatic content. The aromatic content of petrol is regulated because lower levels of aromatics enable a reduction in earlier catalyst light-off time for all vehicles. From 1 January 2005 the Determination set a maximum aromatic content of 45% volume by volume, with a 42% pool average over six months.

Martini Motorsport 110 is used in small quantities and supplied in 20 litre drums. In these circumstances, the higher aromatic and oxygen levels of the fuel are not expected to impact significantly on ambient air quality. The fuel is expensive compared with pump petrol available from bowzers which is a strong disincentive for any waste or misuse.

Permitting the supply of Martini Motorsport 110 for motorsport activities is not likely to adversely impact on the environment.

(b) Protection of occupational and public health and safety

Permitting the supply of Martini Motorsport 110 for motorsport activities will not adversely impact on occupational and public health and safety.

A condition of the approval is that the approval holder must supply written information relating to the safe handling of the fuel to users.

(c) Interests of consumers

An approval can be granted under section 13 of the Act, and the note on this clause in the Fuel Quality Standards Bill 2000 Revised Explanatory Memorandum states that this provision is intended to cater to situations such as where a motor sports organisation applies for an approval for supply of non-compliant fuel on behalf of teams participating in an organised motor racing event.

(d) Impact on economic and regional development

Motor sport activities can contribute towards stimulating local economic and regional development.

Reasons for decision

- Permitting the supply of Martini Motorsport 110 for motorsport activities will not adversely impact on the environment, or on any other relevant matters.
- Conditions are attached to the approval to ensure its proper handling and safe use.

Minister for the Environment and Heritage

20th December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to VP Racing Fuels Pty Ltd (the approval holder).

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* in respect of supplies by the approval holder, or by another person specified in Annexure 1, of the following VP Racing Fuels Pty Ltd fuels:

- | | |
|-------------------------|-------------------|
| 1. Performance Unleaded | 4. Motorsport 103 |
| 2. ROO-98 | 5. Motorsport 109 |
| 3. SV05 | 6. Roo 25. |

so that petrol containing the following parameters:

- Aromatic content of up to 66% volume by volume
- Oxygen content of more than 2.7% mass by mass (petrol not containing ethanol), or 3.5% mass by mass (petrol containing ethanol);
- a Di-isopropyl ether (DIPE) content of up to 1.7% volume by volume;
- a Methyl tertiary-butyl ether (MTBE) content of up to 10% v/v; or
- a Lead content of more than 0.005g/L.

will be taken to comply with the aromatic, oxygen, olefin, DIPE, MTBE and lead parameters specified in the Petrol Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in Annexure 2 of this approval.

Approval is granted from the date of this approval until 31 December 2008.

Dated: 21st December 2006

Minister for the Environment and Heritage

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons.

This approval is subject to the following conditions:

1. The fuel specified in this approval may only be supplied for use in legitimate motor racing activities, and therefore the fuel may only be supplied:
 - a. to an individual who has been issued with and presents a valid and current four wheel or two wheel motor sport organisation licence and/or identification card; or
 - b. to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.
2. For the period of the approval, the approval holder will report the quantity of fuel supplied for each financial year. The report is to be provided by 30 September of the relevant financial year.
3. The use of any fuel containing greater than 1% MTBE is not to be used in watercraft for sport or recreational activities on fresh water lakes and waterways. Such fuel is only to be supplied to an individual that has been issued with and presents a valid and current four wheel or two wheel motor sport club identification licence and is only to be supplied in sealed containers of 20 or 200 litre capacity.
4. The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel.
5. The fuel is not to be directly dispensed from a bowser into the tank of a road-registered vehicle.
6. If the approval holder becomes aware of a change in the composition of the fuel covered by the approval, it will, within two weeks of being made aware of the change, notify the Department of the Environment and Heritage.

MINISTER FOR THE ENVIRONMENT AND HERITAGE

NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR AN APPROVAL FOR A VARIATION OF THE *FUEL QUALITY STANDARD (PETROL) DETERMINATION 2001*

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to VP Racing Fuels Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the approval

This approval varies the fuel standard for petrol under the *Fuel Standard (Petrol) Determination 2001* (the Petrol Determination) in respect of supplies of the following VP fuels:

1. Performance Unleaded;
2. ROO-98;
3. SV05;
4. Motorsport 103;
5. Motorsport 109; and
6. Roo 25.

so that petrol with the following parameters:

- Aromatic content of up to 66% volume by volume
- Oxygen content of more than 2.7% mass by mass (petrol not containing ethanol), or 3.5% mass by mass (petrol containing ethanol);
- a Di-isopropyl ether (DIPE) content of up to 1.7% volume by volume;
- a Methyl tertiary-butyl ether (MTBE) content of up to 10% volume by volume; or
- a Lead content of more than 0.005g/L.

complies with the Aromatic, oxygen, olefins, DIPE, MTBE and lead parameters specified in the Petrol Determination, subject to the conditions listed in the approval at **Annexure 1**, and where the petrol is supplied by the approval holder, or by another person specified in **Annexure 2** of the approval.

A copy of the approval Instrument is attached to this Notice.

Background

VP Racing Fuels Pty Ltd imports specialist racing fuels and products from the USA. Six of these fuels supplied in Australia do not comply with the following parameters prescribed in the Petrol Determination; aromatics, oxygen, olefins, Di-isopropyl ether (DIPE), Methyl tertiary-butyl ether (MTBE) and Lead.

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact

(a) Protection of the environment

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). In this context, higher levels of olefins, aromatics and lead are not expected to impact significantly on ambient air quality.

The consequences of even a small amount of MTBE contaminating water sources can be significant. Fuel containing MTBE above the limit in the Fuel Standard (Petrol) Determination is not permitted in activities occurring in fresh water lakes and waterways.

It is therefore not expected that permitting the supply of petroleum-based racing fuels for motorsport activities will have an adverse effect on the environment.

(b) Protection of occupational and public health and safety

Persons engaged in the use of these fuels may be exposed to relatively high levels of toxics. It is a condition of the approval that information be provided to the user, in the form of written safety information relating to the fuel's use and handling.

When relevant information is provided it is not anticipated that any significant occupational and public health and safety issues will be raised by these amendments.

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). They do not, therefore, pose a significant risk to the general public.

(c) Interests of consumers

An approval can be granted under section 13 of the Act, and the note on this clause in the Fuel Quality Standards Bill 2000 Revised Explanatory Memorandum states that this provision is intended to cater to situations such as where a motor sports organisation applies for an approval for supply of non-compliant fuel on behalf of teams participating in an organised motor racing event.

(d) Impact on economic and regional development

It is likely that a decision not to allow the continued supply of these specialist petroleum-based racing fuels would have an adverse impact on the running of significant internationally recognised motorsport events. Such events include the Australian Formula 1 Grand Prix, the Philip Island World Motorcycle Grand Prix and the Philip Island World Superbike motorcycle races.

These international events rely on using the same or similar fuel formulations for each race meeting, regardless of which country the event is held in. The fuels currently used at these events comply with regulations made by the FIA. FIA is the internationally recognised world controlling body for motor sport that sets the standards and guidelines for fuel within world championship motor sport.

Evidence or other material on which the findings were based

I have taken into account the recommendation of the Committee at its meeting of 28 November 2006.

Reasons for decision

1. The use of petroleum-based racing fuels that do not meet the requirements of the *Fuel Standard (Petrol) Determination 2001*, for legitimate motor sport activities, is supported until 31 December 2008.
2. The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums).
3. The fuels subject to this approval are expensive compared with pump petrol available from bowlers, which is a strong disincentive for any waste or misuse. These fuels do not, therefore, pose a significant risk to the general public, either through direct handling of them or through exhaust emissions.
4. The use of fuels containing greater than 1% MTBE will not be supported for use in water sport or recreational activities on fresh water lakes and waterways.
5. Conditions are attached to this approval that apply to the approval holder and regulated persons in relation to the supply of these fuels.
6. The granting of this approval is not expected to have an adverse impact on the environment.

Minister for the Environment and Heritage

20 / December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL - SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Netaway Pty Ltd (the approval holder).

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* in respect of supplies by the approval holder, or by another person specified in **Annexure 1**, of the following Netaway Pty Ltd fuels:

1. Sunoco GT Plus with ethanol;
2. Sunoco GT with ethanol; and
3. Sunoco Supreme NOS

such that supplies of these fuels by the approval holder or those specified persons, which has the following properties:

- a **Methyl tertiary-butyl ether (MTBE)** content up to 3.6% volume by volume;
- an **Ethanol** content of up to 13% volume by volume;
- an **Oxygen** content of more than 3.5% mass by mass (petrol containing ethanol).

will be taken to comply with the MTBE, ethanol and oxygen parameters specified in the Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

Approval is granted from the date of this approval until 31 December 2008.

Dated: 20th December 2006

Minister for the Environment and Heritage

Annexure 1

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*:

Tas Independent Oils, Tasmania
VPW Australia, Vic
A1 Performance, WA
Sicpac, WA
Hi Octane, NSW
RX Engineering, NSW
Millenium Motorsports, Qld
Redcliffe Dyno, Qld

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons.

This approval is subject to the following conditions:

- 1. The fuel specified in this approval may only be supplied for use in legitimate motor racing activities, and therefore the fuel may only be supplied:**
 - a. to an individual who has been issued with and presents a valid and current four wheel or two wheel motor sport organisation licence and/or identification card; or**
 - b. to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.**
- 2. For the period of the approval, the approval holder will report the quantity of fuel supplied for each financial year. The report is to be provided by 30 September of the relevant financial year.**
- 3. The use of any fuel containing greater than 1% MTBE is not to be used in watercraft for sport or recreational activities on fresh water lakes and waterways. Such fuel is only to be supplied to an individual that has been issued with and presents a valid and current four wheel or two wheel motor sport club identification licence and is only to be supplied in sealed containers of 20 or 200 litre capacity.**
- 4. The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel.**
- 5. The fuel is not to be directly dispensed from a bowser into the fuel tank of a road-registered vehicle.**
- 6. If the approval holder becomes aware of a change in the composition of the fuel covered by the approval, it will, within two weeks of being made aware of the change, notify the Department of the Environment and Heritage.**

**MINISTER FOR THE ENVIRONMENT AND HERITAGE****NOTICE UNDER SECTION 17A OF THE FUEL QUALITY STANDARDS ACT 2000 CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR AN APPROVAL FOR A VARIATION OF THE FUEL QUALITY STANDARD (PETROL) DETERMINATION 2001**

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to Netaway Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the approval

This approval varies the fuel standard for petrol under the *Fuel Standard (Petrol) Determination 2001* (the Petrol Determination) in respect of supplies of the following fuels by the approval holder, or by another person specified in **Annexure 1**:

1. Sunoco GT Plus with ethanol;
2. Sunoco GT with ethanol; and
3. Sunoco Supreme NOS

so that petrol with the following parameters:

- a Methyl tertiary-butyl ether (MTBE) content up to 3.6% volume by volume;
- an Ethanol content of up to 13% volume by volume;
- an Oxygen content of more than 3.5% mass by mass (petrol containing ethanol);

will be taken to comply with the MTBE, ethanol and oxygen parameters specified in the Determination subject to the conditions listed in the approval at **Annexure 2**.

A copy of the approval Instrument is attached to this Notice.

Background

Netaway Pty Ltd imports Sunoco fuels, which are specialist racing fuels from the USA. Three of these fuels supplied in Australia do not comply with parameters prescribed in the Determination.

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact

(a) Protection of the environment

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). In this context, higher levels of olefins, aromatics and oxygen are not expected to impact significantly on ambient air quality.

The consequences of even a small amount of MTBE contaminating water sources can be significant. Fuel containing MTBE above the limit in the Fuel Standard (Petrol) Determination is not permitted in activities occurring in fresh water lakes and waterways.

It is therefore not expected that permitting the supply of petroleum-based racing fuels for motorsport activities will have an adverse effect on the environment.

(b) Protection of occupational and public health and safety

Persons engaged in the use of these fuels may be exposed to relatively high levels of toxics. It is a condition of the approval that information be provided to the user, in the form of written safety information relating to the fuel's use and handling.

When relevant information is provided it is not anticipated that any significant occupational and public health and safety issues will be raised by these amendments.

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). They do not, therefore, pose a significant risk to the general public.

(c) Interests of consumers

An approval can be granted under section 13 of the Act, and the note on this clause in the Fuel Quality Standards Bill 2000 Revised Explanatory Memorandum states that this provision is intended to cater to situations such as where a motor sports organisation applies for an approval for supply of non-compliant fuel on behalf of teams participating in an organised motor racing event.

(d) Impact on economic and regional development

It is likely that a decision not to allow the continued supply of these specialist petroleum-based racing fuels would have an adverse impact on the running of significant internationally recognised motorsport events. Such events include the Australian Formula 1 Grand Prix, the Philip Island World Motorcycle Grand Prix and the Philip Island World Superbike motorcycle races.

These international events rely on using the same or similar fuel formulations for each race meeting, regardless of which country the event is held in. The fuels currently used at these events comply with regulations made by the FIA. FIA is the internationally recognised world controlling body for motor sport that sets the standards and guidelines for fuel within world championship motor sport.

Evidence or other material on which the findings were based

I have taken into account the Committee recommendation dated 28 November 2006.

Reasons for decision

1. The use of petroleum-based racing fuels that do not meet the requirements of the *Fuel Standard (Petrol) Determination 2001*, for legitimate motor sport activities, is supported until 31 December 2008.
2. The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums).
3. The fuels subject to this approval are expensive compared with pump petrol available from bowzers, which is a strong disincentive for any waste or misuse. These fuels do not, therefore, pose a significant risk to the general public, either through direct handling of them or through exhaust emissions.
4. The use of fuels containing greater than 1% MTBE will not be permitted for use in water sport or recreational activities on fresh water lakes and waterways.
5. Conditions are attached to this approval that apply to the approval holder and regulated persons in relation to the supply of these fuels.
6. The granting of this approval is not expected to have an adverse impact on the environment.

.....
Minister for the Environment and Heritage

20th December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Just Fuel Petroleum Service Pty. Ltd (the approval holder).

This approval varies the fuel standard for petrol set out in the *Fuel Standard (Petrol) Determination 2001* (the Determination) in respect of suppliers by the approval holder, or by other persons specified in **Annexure 1**, so that petrol with an ethanol content of up to 20% and an oxygen content greater than 3.5% will be taken to comply with the ethanol and oxygen parameters in the Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

The approval is granted from the date of this approval until 31 December 2008.

Dated: 20th December 2006

A handwritten signature in black ink, appearing to read 'Ian Campbell'.

Minister for the Environment and Heritage

Annexure 1

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*.

**Winton Raceway
Benalla, VIC
Mathew Ronk Ph (03) 5766 4235**

**Calder Park Raceway
Calder Park, VIC
Ian Craven Ph (03) 9217 8800**

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons.

This approval is subject to the following conditions:

1. The fuel specified in this approval may only be supplied for use in legitimate motor racing activities, and therefore the fuel may only be supplied:
 - a. to an individual who has been issued with and presents a valid and current four wheel or two wheel motor sport organisation licence and/or identification card; or
 - b. to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.
2. For the period of the approval, the approval holder will report the quantity of fuel supplied for each financial year. The report is to be provided by 30 September of the relevant financial year.
3. The fuel specified in this approval is only to be supplied in sealed containers of 20 or 200 litre capacity.
4. The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel.
5. The fuel is not to be directly dispensed from a bowser into the fuel tank of a road-registered vehicle.
6. If the approval holder becomes aware of a change in the composition of the fuel covered by the approval, it will, within two weeks of being made aware of the change, notify the Department of the Environment and Heritage.

**MINISTER FOR THE ENVIRONMENT AND HERITAGE****NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000*
CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT TO GRANT AN
APPROVAL FOR A VARIATION OF THE *FUEL STANDARD (PETROL)*
DETERMINATION**

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant approval under section 13 of the *Fuel Quality Standards Act 2000* (the FQS Act).

Name of approval holder

Approval has been granted to Just Fuel Petroleum Service Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the Approval

In respect of the unleaded fuel supplied by the approval holder or the 'regulated persons' listed at **Annexure 1** of the approval, this approval varies the *Fuel Standard (Petrol) Determination 2001* so that petrol with the following parameters:

1. Ethanol content up to 20%
2. Oxygen content over 3.5%

complies with the ethanol and oxygen content specifications for petrol in the Determination, subject to the conditions listed in the approval at **Annexure 2**.

A copy of the approval is attached to this Notice.

Background

Just Fuel Petroleum propose to supply E20 for vehicles that require 100 RON or higher, such as custom built racing vehicles involved in circuit and drag racing. The engines in these vehicles are regularly re-built, and accordingly these vehicles - which are not road-registered - are not covered by vehicle warranties. E20 will provide an alternative to leaded fuels such as Avgas and BP100 Racing Fuel, and specialist unleaded racing fuels containing MTBE (Methyl tertiary-butyl ether).

Issues

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact

(a) Protection of the environment

The fuels subject to this approval are used in small quantities in motor sport activities and are supplied in small quantities (i.e. 25, 40 and 200 litre drums). In this context they are not likely to be damaging to the environment.

The use of ethanol as an octane enhancer may be less damaging to the environment than other similar octane enhancing products.

(b) Protection of occupational and public health and safety

No significant occupational and public health and safety issues are raised by the granting of this approval.

(c) Interests of consumers

The supply of an E20 blend to motor sport vehicles provides an environmentally preferable alternative to leaded and Methyl tertiary-butyl ether (MTBE) enhanced racing fuels.

The engines in high performance vehicles used in motor sports are individually built to one-off specifications. Vehicles of this type are not covered by vehicle warranties and are unlikely to experience material incompatibility problems.

(d) Impact on economic and regional development

Motor sport activities can contribute towards stimulating local economic and regional development.

Reasons for decision

- There will be no significant effects on the environment as a result of granting this approval.
- The use of E20 for use in legitimate motor sport activities provides an alternative to leaded racing petrol, and to specialist unleaded racing fuels that contain MTBE.
- Conditions are attached to this approval ensuring consumers are aware of the composition of the fuel and that it will not enter the mass fuel market.

.....
Minister for the Environment and Heritage

20th December 2006

**MINISTER FOR THE ENVIRONMENT AND HERITAGE****FUEL QUALITY STANDARDS ACT 2000****GRANT OF APPROVAL – SECTION 13**

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to BP Refinery (Bulwer Island) Pty Ltd (the approval holder).

In respect of diesel fuel produced by the approval holder and supplied by the holder of the approval or another person specified in **Annexure 1**, this approval varies the *Fuel Standard (Automotive Diesel) Determination 2001* ('the Determination') so that diesel with a minimum density level of 810 kg/m³ complies with the density specification for diesel fuel in the Determination.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

Approval is granted for the period from the date of this approval until 31 December 2008.

Dated: 20th December 2006

A handwritten signature in black ink, appearing to read 'Ian Gordon Campbell', followed by a dotted line.

MELBOURNE VIC 3000
ABN 53 004 085 616**

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons

This approval is subject to the following conditions:

- BP Bulwer Island providing quarterly progress reports to the Department of the Environment and Heritage on the quantity of low density diesel covered by this approval and supplied to the market; and
- that by 30 June 2007, BP provide the Department of the Environment and Heritage with a strategy for ensuring the fuel meets the fuel standard by the end of 2008.

**MINISTER FOR THE ENVIRONMENT AND HERITAGE
NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS
ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT
ACT TO GRANT AN APPROVAL FOR A VARIATION OF THE *FUEL
STANDARD (AUTOMOTIVE DIESEL) DETERMINATION 2001***

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

The approval has been granted to BP Refinery (Bulwer Island) Pty Ltd (BP).

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2008.

Details of the Approval

In respect of diesel fuel produced by BP and supplied by the holder of the approval or a regulated person listed at Annexure 1, this approval varies the *Fuel Standard (Automotive Diesel) Determination 2001* (the Determination) so that diesel with a minimum density of 810 kg/m³ will be taken to comply with the density parameter.

A copy of the approval Instrument is attached to this Notice.

Background

BP has been granted four consecutive approvals permitting the supply of diesel with a minimum density of 810 kg/m³. The BP Refinery at Bulwer uses a modern hydro-cracking process unique in Australia, to produce low sulphur diesel fuel.

Issues

The Committee makes its recommendation having taken into account the considerations specified in subsection 15(1) of the Act, as follows.

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant. Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact**(a) Protection of the environment**

The diesel fuel produced at Bulwer Island Refinery is of high quality, but is of a lower density than is required by the Determination. The hydro-cracker technology uses hydrogen at a high temperature and pressure to convert heavy oils to diesel and at the same time reduce sulfur content.

The results of the NSW Roads Transport Authority Fuel Testing Program show that, when used, the fuel reduces emissions of smoke, particulate matter, oxides of nitrogen, hydrocarbons and carbon monoxide and that there is no measurable impact on carbon dioxide (CO₂) emissions, brake specific fuel consumption and power.

(b) Protection of occupational and public health and safety

The reduction in some emissions as a result of the use of this lower density diesel may contribute to the protection of occupational and public health and safety.

(c) Interests of consumers

Technical studies on the effects on density levels on emissions and engine performance have indicated that there are advantages for efficient engine performance in specifying a narrow range (or upper and lower limit) for density values. This is because the volumetric injection of fuel in diesel engines is affected by variations in density, with large variations affecting efficient combustion. Efficiency, in turn, influences emissions performance.

(d) Impact on economic and regional development

The production of low sulfur diesel by BP's hydro-cracking unit results in diesel that does not meet the minimum density parameter in the Diesel Determination. The refinery then has to re-blend the product in order to meet the density specification, which, BP states, would lead to the sub-optimal operation of its refinery.

Reasons for decision

1. The lower density diesel produced at the Bulwer Island Refinery is high quality in other respects and meets all the other regulated parameters.
2. Tests indicate that there is little or no reduction in vehicle operability from this fuel and emissions are lower for most pollutants.

.....
Minister for the Environment and Heritage

20th December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, under section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to IOR Energy Pty Ltd (IOR).

This approval varies the fuel standard for diesel set out in the *Fuel Standard (Automotive Diesel) Determination 2001* in respect of supplies by the approval holder, or by another person specified in **Annexure 1**, so that diesel containing the following parameters:

- Sulphur up to 85 parts per million will be taken to comply with the sulphur parameter specified in the Determination until 31 December 2007; and
- Sulphur up to 125 ppm in Eromanga Underground Mining Fuel will be taken to comply with the sulphur parameter specified in the Determination until 30 June 2007.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

Dated: 20th December 2006

Annexure 2

Conditions of approval

Conditions that apply to the approval holder and to the regulated persons

This approval is subject to the following conditions:

- users are to be informed at the point of sale that the fuel varies from the standard;
- that the fuel is only supplied under contract to commercial users and arrangements are in place to ensure it does not enter the retail market;
- that IOR provides the Department of the Environment and Heritage with a plan for meeting the 10ppm sulphur limit by 2009 and that this is provided by 30 June 2007; and
- that IOR provides quarterly reports on the amount of fuel sold which varies from the diesel specifications.

**MINISTER FOR THE ENVIRONMENT AND HERITAGE****NOTICE UNDER SECTION 17A OF THE FUEL QUALITY STANDARDS ACT 2000
CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT TO GRANT AN
APPROVAL FOR A VARIATION OF THE FUEL STANDARD (DIESEL)
DETERMINATION 2001**

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

Approval has been granted to IOR Energy Pty Ltd (IOR).

Period of operation

Approval is granted for a variation of the sulphur parameter for automotive diesel of 85ppm for the period from the date of this approval until 31 December 2007.

Approval is granted for a variation of the sulphur parameter for automotive diesel of 125ppm for Eromanga Underground Mining Fuel for the period from the date of this approval until 30 June 2007.

A copy of the approval Instrument is attached to this Notice.

Details of the Approval

In respect of the diesel fuel supplied by the approval holder, or a regulated person listed at **Annexure 1** of the Instrument, this approval varies the *Fuel Standard (Diesel) Determination 2001* so that diesel containing the following parameters:

- a **sulphur** content of up to 85 parts per million for automotive use; and
- a **sulphur** content of up to 125 parts per million for underground mining use;

will be taken to comply with the sulphur parameter specified in the *Fuel Standard (Automotive Diesel) Determination 2001*.

Approval is granted subject to the conditions specified in Section 17 of the Act and in **Annexure 2** of this approval.

Background

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval I consulted with the Committee and had regard to the recommendation made at its meeting on 28 November 2006.

Findings on material questions of fact

(a) Protection of the environment

The diesel supplied by IOR appears to be of a high environmental quality with low aromatics and high cetane. It seems to be a relatively clean fuel that would contribute to reducing some toxic emissions and the protection of the environment, albeit in remote rural areas.

The region does not currently have an air quality problem, and as such the impacts on the environment as a result of the approval are expected to be minimal.

Higher levels of sulphur in diesel increase emissions of particulates into the atmosphere. A number of studies have indicated that diesel particles are mutagenic and carriers of compounds which are suspected of contributing to the rise in cancer cases in city areas with large fleets of diesel vehicles.

The approval for diesel fuel with sulphur content of 125ppm is granted for a period of six months only until evidence can be collected of its environmental benefits in underground mining situations.

(b) Protection of occupational and public health and safety

It is not expected that there will be any adverse impacts on occupational and public health and safety from the approval where the fuel is used for automotive purposes. However it is possible that underground miners may be adversely affected by the higher sulphur fuel. This will be investigated more fully.

(c) Interests of consumers

A sulphur level of 85ppm is not expected to have adverse impacts on the operability of the types of vehicles specified in the approval and where the consumer is informed of the quality of the fuel.

(d) Impact on economic and regional development

If the approval to extend the minimum sulfur standard was denied, there would be an adverse impact on economic and regional development. IOR provides significant economic benefits to the remote and regional areas in which it operates by providing a competitive and independent local fuel supply. IOR refineries and plants also provide employment opportunities for the local community.

Reasons for decision

- There are currently no air quality problems in the region that would be impacted by the granting of the approval for automotive use.
- Where the fuel is used for underground mining a limited approval has been given until further information on its environmental benefits can be ascertained.
- All customers receiving fuel which is the subject of this approval will be provided with information on the sulphur content of the diesel fuel.
- The approval is conditional on IOR Energy putting in place a strategy to reach compliance with future diesel standards.

.....
Minister for the Environment and Heritage

20TH December 2006

MINISTER FOR THE ENVIRONMENT AND HERITAGE

FUEL QUALITY STANDARDS ACT 2000

GRANT OF APPROVAL – SECTION 13

I, Ian Gordon Campbell, Minister for the Environment and Heritage, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Stuart Petroleum Limited.

This approval varies the fuel standard for automotive diesel set out in the *Fuel Standard (Automotive Diesel) Determination 2001* (the Determination) so that automotive diesel, with a minimum density of 790kg/m³ will be taken to comply with the density parameter specified in the Determination where that automotive diesel is supplied by the approval holders or by another person specified in Annexure 1 of this Approval.

Approval is granted subject to the conditions specified in Section 17 of the Act and in Annexure 2 of this Approval.

The approval is granted from the date of this approval until 31 December 2011.

Dated: 20th December 2006

.....
Minister for the Environment and Heritage

Annexure 1

The following are regulated persons under paragraph 13(1)(b) of the *Fuel Quality Standards Act 2000*:

Scotts Agencies
PO Box 10
MOUNT GAMBIER SA 5290

Annexure 2

This approval is subject to the following condition:

- 1. Information on the density parameters of the approved diesel fuel will be supplied by the approval holder or the regulated person supplying the fuel, to all third parties, to make them aware of the characteristics of the fuel and its impact on vehicle operability.**

**MINISTER FOR THE ENVIRONMENT AND HERITAGE****NOTICE UNDER SECTION 17A OF THE FUEL QUALITY STANDARDS ACT
2000 CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT TO
GRANT AN APPROVAL FOR A VARIATION OF THE FUEL STANDARD
(AUTOMOTIVE DIESEL) DETERMINATION 2001**

I, Ian Gordon Campbell, Minister for the Environment and Heritage, provide the following information concerning my decision to grant approvals under section 13 of the *Fuel Quality Standards Act 2000* (the FQS Act).

Name of approval holders

An approval has been granted to Stuart Petroleum Limited.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2011.

Details of the Approval

In respect of automotive diesel supplied by the approval holder or the 'regulated person' listed at Annexure 1 of the approval, this approval varies the *Fuel Standard (Automotive Diesel) Determination 2001* so that automotive diesel with a minimum density of 790kg/m³ complies with the density specifications for diesel fuel in the Determination, subject to the conditions listed in the approval at Annexure 2. This overrides a previous approval granted to Stuart Petroleum Limited on 13 July 2006 for a variation of the density parameter.

A copy of the relevant approval Instrument is attached to this Notice.

Background

Section 15 of the Act provides that the Minister must have regard to the following when deciding whether or not to grant, or amend, an approval:

- (a) the protection of the environment;
- (b) the protection of occupational and public health and safety;
- (c) the interests of consumers; and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to, the recommendations of the Fuel Standards Consultative Committee before granting an approval under section 13. Before signing the instrument granting the approval, I had regard to the recommendation of the Committee at its meeting of 24 May 2006.

Findings on material questions of fact

(a) Protection of the environment

Low density diesel is unlikely to have any negative impact on the environment.

(b) Protection of occupational and public health and safety

It is not expected that there will be any adverse impacts on occupational and public health and safety from low density diesel beyond that already attributable to diesel fuel.

(c) Interests of consumers

Low density diesel generally has less energy than diesel which meets the legislated standard and consumers will need to use more fuel per kilometre. However because the variation is minimal and a condition has been imposed on the approval that requires information about the impact of the fuel on vehicle operability to be passed on to consumers, consumers will be able to make an informed choice to use the fuel.

(d) Impact on economic and regional development

The development of a new refinery in regional South Australia using indigenous crude oil feedstock is likely to have a number of economic and regional benefits. The building and operation of the plant and distribution of the fuel will create local employment and will ensure a constancy of supply, or a backup to supplies coming from the coast. This is likely to be important as diesel prices rise as world demand for diesel increases. The supply of local diesel may also help to insulate local business and industry from some of the worst price fluctuations associated with the supply of oil from abroad.

Reasons for decision

1. No adverse environmental impacts will result from the use of the low density diesel fuel.
2. The operability impacts of the fuel will be minimal and information will be supplied to consumers allowing them to make an informed choice.
3. The development of a refinery in regional South Australia is likely to have a positive impact on economic and regional development.

Department of the Environment and Heritage

**NOTICE OF APPLICATION RECEIVED UNDER THE *HAZARDOUS WASTE
(REGULATION OF EXPORTS AND IMPORTS) ACT 1989***

Pursuant to Section 33 of the *Hazardous Waste (Regulation of Exports and Imports) Act 1989*, notice is given that an application has been received from Basell Australia Pty Ltd, Refinery Road, Corio, VIC 3214 for renewal of a special permit to export 80,000kg of a mixture of metal alkyls compounds in hydrocarbons to Akzo Nobel Chemicals bv, MAE plant-Botlek site, Welplaatweg 12, NL 3197 KS Rotterdam, the Netherlands. for D14 (repacking) and D15 (storage) operations.

The waste would be transported in dedicated 20m³ ISO tanks which comply with the Type 7, UN Class 4.2 requirements by road and loaded onto a ship at the port of Melbourne, in Australia to be offloaded at Rotterdam in the Netherlands. From there, it would be transported by road to the holding facility at Akzo Nobel Chemicals plant. Following the repackaging and storage operations, the waste, under a permit issued by the Netherlands authorities, will be transported to Germany for final disposal by incineration.

The waste would transit Adelaide and Fremantle in Australia, Singapore, Tanjung Pelepas in Malaysia, Colombo in Sri Lanka, Jeddah in Saudi Arabia, Damietta and Suez Canal in Egypt, La Spezia in Italy, Tilbury and Felixstowe in the United Kingdom, and Hamburg in Germany, on its sea voyage to Rotterdam in the Netherlands.

The export would take place in twelve (12) shipments over a period of twelve months commencing from the date of the permit, if granted.

Dr Barry Reville
Assistant Secretary
Environment Protection Branch
January 2007

Australian Government

Department of the Environment and Heritage

NOTICE OF DECISION TO GRANT A PERMIT UNDER THE *HAZARDOUS WASTE (REGULATION OF EXPORTS AND IMPORTS) ACT 1989*

Pursuant to Section 33 of the *Hazardous Waste (Regulation of Exports and Imports) Act 1989*, notice is given that on 21 December 2006 a permit was granted to BP Refinery (Kwinana) Pty Ltd (Australian Business Number 54 008 689 763), Mason Road, Kwinana, Western Australia 6167, (telephone (08) 9419 9483, facsimile (08) 9419 9836), to export up to 600 tonnes of spent cobalt/molybdenum and nickel/molybdenum catalyst for recycling/reclamation of metals and metal compounds at Moxba-Metrex BV, Sourethweg 13, 6422 PC Heerlen, Netherlands (telephone +31 546 577 400, facsimile +31 546 577 600).

The waste will be packed in sealed 205-litre drums, transported in containers by road and loaded onto a ship at the port of Fremantle, Australia to be offloaded at the port of Rotterdam in the Netherlands, and then transported by road to the disposal facility for recycling/reclamation of metals and metal compounds.

The movement may transit through, Singapore, Port Kelang in Malaysia and the Suez Canal in Egypt.

The export will take place in thirty five (35) shipments between 21 December 2006 and 1 November 2007.

Barry Reville
Assistant Secretary
Environment Protection Branch

Subject to the *Administrative Appeals Tribunal Act 1975*, a person or persons whose interests are affected by this decision may, within 28 days, make an application in writing to the Department of the Environment and Heritage requesting the reasons for the decision.

An application for independent review of the decision may be made to the Administrative Appeals Tribunal on payment of the relevant fee by the applicant within 28 days of receipt of the reasons for the decision, or within 28 days of this notice if the reasons for the decision are not sought. Applications should be made to the Deputy Registrar, Administrative Appeals Tribunal in your capital city, see under Commonwealth Government Section in the White Pages. Further information or enquiries should be directed to:

Director, Hazardous Waste Section

Australian Government
Department of the Environment and Heritage

**NOTICE OF DECISION TO GRANT A PERMIT UNDER THE *HAZARDOUS WASTE
(REGULATION OF EXPORTS AND IMPORTS) ACT 1989***

Pursuant to Section 33 of the *Hazardous Waste (Regulation of Exports and Imports) Act 1989*, notice is given that on 8 December 2006 a permit was granted to GHD Pty Ltd, 180 Lonsdale St, Melbourne, Vic 3000, to import 1,300kg of pesticides and 200kg of PCBs from the Ministry of Environment, Land and Agriculture Development, Government of Kiribati, PO Box 234, Tarawa, Kiribati to BCD Technologies, 2 Krypton Street, Narangba, Qld 4504.

The waste will be packaged in drums according to the requirements of the UN Dangerous Goods Code in a class A shipping container for the trip from Kiribati to the Port of Brisbane. The shipment will transit Majuro, Marshall Islands. The waste will be off-loaded at the Port of Brisbane and transported by road to the Patrick Distribution Pty Ltd storage facility, if short-term storage is needed, and then to BCD Technologies. Any transport by road will be on a route approved by the Queensland Environment Protection Agency for the transport of dangerous goods.

The import will take place in one (1) shipment between 8 December 2006 and 31 December 2006.

Dr Barry Reville
Assistant Secretary
Environment Protection Branch

Subject to the *Administrative Appeals Tribunal Act 1975*, a person or persons whose interests are affected by this decision may, within 28 days, make an application in writing to the Department of the Environment and Heritage requesting the reasons for the decision.

An application for independent review of the decision may be made to the Administrative Appeals Tribunal on payment of the relevant fee by the applicant within 28 days of receipt of the reasons for the decision, or within 28 days of this notice if the reasons for the decision are not sought. **NOTICE OF VARIATION TO A PERMIT
GRANTED UNDER THE
*HAZARDOUS WASTE (REGULATION OF EXPORTS AND IMPORTS) ACT 1989***

Pursuant to Section 33 of the *Hazardous Waste (Regulation of Exports and Imports) Act 1989*, notice is given that a variation has been made to a permit that has been granted to GHD Pty Ltd, 180 Lonsdale St, Melbourne, Vic 3000, Australia (telephone (03) 8687 8738, facsimile (03) 8687 8111) to import 1,300kg of pesticides and 200kg of PCBs from the Ministry of Environment, Land and Agriculture Development, Government of Kiribati, PO Box 234, Tarawa, Kiribati to BCD Technologies, 2 Krypton Street, Narangba, Qld 4504.

Under the original permit the waste was to transit Majuro, Marshall Islands only.

The variation notifies that the waste will now also transit Port Villa, Vanuatu on its way to Brisbane, Australia.

The waste will be packaged in drums according to the requirements of the UN Dangerous Goods Code in a class A shipping container for the trip from Kiribati to the Port of Brisbane. The shipment will transit Majuro, Marshall Islands and Port Villa, Vanuatu. The waste will be off-loaded at the Port of Brisbane and transported by road to the Patrick Distribution Pty Ltd storage facility, if short-term storage is needed, and then to BCD Technologies. Any transport by road will be on a route approved by the Queensland Environment Protection Agency for the transport of dangerous goods.

The import will take place in one (1) shipment between 8 December 2006 and 31 December 2006.

COMMONWEALTH OF AUSTRALIA
Antarctic Treaty (Environment Protection) (Environmental Impact Assessment) Regulations
NOTICE OF AVAILABILITY IN AUSTRALIA OF A DRAFT COMPREHENSIVE
ENVIRONMENTAL EVALUATION

I, ANTHONY JAMES PRESS, Delegate of the Minister for the Environment and Heritage, in accordance with Regulation 10 of the Antarctic Treaty (Environment Protection) (Environmental Impact Assessment) Regulations, give notice that I have received a draft comprehensive environmental evaluation of the proposed activity:

“New Indian Research Base at Larsemann Hills, Antarctica”

The evaluation was prepared under the jurisdiction of India.

A copy of the evaluation may be obtained from Mr Ewan McIvor, Senior Environmental Policy Officer, Environmental Policy and Protection Section, Australian Government Antarctic Division, 203 Channel Highway, Kingston, Tasmania 7050, or by phoning (03) 6232 3413.

An electronic copy of the evaluation is available on the internet at the following address:

<http://www.aad.gov.au/default.asp?casid=29012>

Interested persons may submit their comments on the evaluation to the Director of the Australian Government Antarctic Division, Channel Highway, Kingston, Tasmania 7050 or by email to **eia@aad.gov.au** by close of business on 23 February 2007.

AJ Press
Delegate of the Minister for the
Environment and Heritage

Adoption of recovery plans

I, IAN GORDON CAMPBELL, Minister for the Environment and Heritage, hereby give notice that I have, under section 269A of the EPBC Act, adopted the following recovery plans prepared by the Victorian Government (or agencies of the Victoria Government):

National Recovery Plans for Victorian species Adopted by the Minister:

1. *Acacia caerulea* (Limestone Blue Wattle)
2. *Babingtonia crenulata* (Fern-leaf Baeckea)
3. *Boronia galbraithiae* (Aniseed Boronia)
4. *Callistemon kenmorrisonii* (Betka Bottlebrush)
5. *Carex paupera* (Dwarf Sedge)
6. *Cassinia rugata* (Wrinkled Cassinia)
7. *Daviesia laevis* (Grampians Bitter-pea)

Some public notifications on the Internet and in the Gazette relating to the processing of referrals for approval under Chapter 4 of the *Environment Protection and Biodiversity Conservation Act 1999* may occasionally be missed in processing by the Department of Environment and Heritage, or may not meet timeframes for notification. The Department of the Environment and Heritage has implemented systems and ongoing quality assurance procedures to minimise any risk of missing a notification within the required timeframe. Where a missed notification is identified the practice will be to notify these even though the timeframe for notification has lapsed. This will ensure that the history of notifications for each referral is available to the public. The Department of the Environment and Heritage regrets any inconvenience that may be caused by a missed notification. Please note that late notifications have not affected subsequent processing of referrals or assessments and they do not affect decisions made.

Finance and Administration

Superannuation Act 1976 (Interest) Determination No. 335

I, Stephen Phillip Gibbs, Chief Executive Officer and Delegate of Australian Reward Investment Alliance as trustee of the Commonwealth Superannuation Scheme, make this Determination under section 154A of the *Superannuation Act 1976*.

Dated this twenty third day of November 2006

SP Gibbs

Delegate of Australian Reward Investment Alliance

1 Name of Determination

This Determination is the *Superannuation Act 1976 (Interest) Determination No. 335*.

2 Commencement

This Determination takes effect on the day on which it is made.

3 Arrangements relating to the Superannuation Act 1976 (Interest) Determination

The Superannuation Act 1976 (Interest) Determination, being the Determination relating to interest in force under subsection 154A (4) of the *Superannuation Act 1976*, is taken to have applied in a period:

- (a) starting on the date mentioned in column 2 of an item of the table; and
 - (b) ending at the end of the date mentioned in column 3 of the item;
- as if Schedule 2 to the Determination had specified the daily compounding interest rate mentioned in column 4 of the item.

Note The effect of this provision is to increase the interest rates that have been inserted and then omitted in the Determination by a series of amending instruments.

Section 1

1 Name of Delegation

This Delegation is the *Lands Acquisition Delegation 2007*.

2 Commencement

This Delegation commences on gazettal.

3 Revocation

The instrument of delegation of the Minister's powers and functions, made under section 139 of the Act on 20 April 2006, is revoked.

4 Definitions

In this Delegation:

Act means the *Lands Acquisition Act 1989*.

Agency has the meaning given by section 7 of the *Public Service Act 1999*.

Note Section 7 of the *Public Service Act 1999* defines *Agency* as being a Department, Executive Agency or Statutory Agency. *Department*, *Executive Agency* and *Statutory Agency* are also defined in section 7 of that Act.

Category A position means the position mentioned or identified by position title of any of the following positions in the Department:

- (a) Secretary of the Department;
- (b) General Manager, Asset Management Group;
- (c) Division Manager, Shareholder and Asset Sales Division; and
- (d) Branch Manager, Special Claims and Land Policy Branch, Shareholder and Asset Sales Division.

Category B position means the position mentioned or identified by position title or number of any of the following positions in the Department:

- (a) Finance and Administration Executive Level 2, Director, Land Operations and Public Works, Special Claims and Land Policy Branch; and
- (b) Finance and Administration Executive Level 1, Assistant Director, Land Operations and Public Works, Special Claims and Land Policy Branch.

Department means the Department of Finance and Administration.

5 Delegation

- (1) The power or function of the Minister under a provision of the Act mentioned in Schedule 1 is delegated to the person for the time being holding, occupying, or performing the duties of, the positions specified.
- (2) A delegate may exercise the power or function mentioned in item 20 of Schedule 1 only if:
 - (a) the delegate has discussed the proposed amount of the final offer with the claimant; and
 - (b) the claimant has indicated in writing that he or she will accept the amount offered.

Section 5

6 Acquisition and disposal of land — delegation (Act, ss 40 and 119)

The following powers of the Minister are delegated to the person for the time being holding, occupying, or performing the duties of, a position mentioned, or identified by a position number, in Schedule 2:

- (a) the power of the Minister under subsection 40 (1) of the Act to authorise the acquisition by agreement of a leasehold interest in land, other than land in a public park, if the interest to be acquired is available in the market, within the meaning of subsection 40 (5) of the Act and the term of the lease is for a period of 22 years or less;
- (b) the power of the Minister under subsection 40 (1) of the Act to authorise the acquisition by agreement of an interest in land, other than land in a public park, if the interest to be acquired:
 - (i) is available in the market, within the meaning of subsection 40 (5) of the Act; and
 - (ii) is for residential accommodation for persons engaged or employed to perform services in an Agency;
- (c) the power of the Minister under subsection 119 (1) of the Act:
 - (i) to authorise the disposal of an interest in land by sub-letting, assigning or terminating a lease, or an interest in a lease, on the land; and
 - (ii) to authorise the disposal of an interest in land acquired or used for residential accommodation for persons engaged or employed to perform services in an Agency.

7 Interests in overseas land — delegation (Act s 125)

- (1) The power of the Minister under subsection 125 (3) of the Act to authorise, in writing, the acquisition or disposal of an interest in overseas land by an acquiring authority is delegated to the person for the time being holding, occupying, or performing the duties of, a Category A position.
- (2) The power of the Minister under subsection 125 (3) of the Act to authorise, in writing, the acquisition or disposal of a leasehold interest in overseas land for residential accommodation is delegated to the person for the time being holding, occupying, or performing the duties of, a position mentioned in Schedule 3.
- (3) The power of the Minister under subsection 125 (3) of the Act to authorise, in writing, the acquisition or disposal of a leasehold interest in overseas land for office accommodation is delegated to the person for the time being holding, occupying, or performing the duties of, a position mentioned in Schedule 4.

8 Exercising power to acquire or dispose of land

- (1) This section applies to a person who:
 - (a) has been delegated the Minister's power under section 40, 119 or 125 of the Act to authorise the acquisition or disposal of land or an interest in land; and
 - (b) exercises that power to authorise the acquisition or disposal of land or an interest in land.

Section 8

- (2) The person must give a written statement about the acquisition or disposal of the land, or the interest in the land, to the appropriate person in the Department who is responsible for matters related to the Act not later than 14 days after the person acquires or disposes of the land or the interest.

9 Restriction on delegations

Nothing in this Delegation allows the Minister to delegate any of his or her powers or functions under the Act to a person who:

- (a) has not been appointed or engaged under the *Public Service Act 1999*; or
(b) does not have executive authority in relation to the affairs of the Commonwealth authority in which the person's delegation may be exercised

Delegations

Schedule 1

Schedule 1 Delegations

(section 5)

Item	Provision	Summary of power or function (for information only)	Position

THERAPEUTIC GOODS ACT 1989

THERAPEUTIC GOODS REGULATIONS 1990

DESIGNATION OF ARTESUNATE INJECTION AS AN ORPHAN DRUG

I, Leonie Hunt, delegate of the Secretary for the purposes of 16J of the *Therapeutic Goods Regulations 1990* ("the Regulations"), acting under subregulation 16J(2) of the Regulations, designated artesunate injection solution as an orphan drug on January 2007 for the treatment of severe malaria including cerebral malaria and as a second line treatment in chloroquine resistant malaria cases.

The dose form for artesunate injection for this indication is solution for injection.

The sponsor of artesunate injection is Link Pharmaceuticals trading at Link Medical Products Pty Ltd.

COMMONWEALTH OF AUSTRALIA

THERAPEUTIC GOODS ACT 1989

SECTION 14 and 14A NOTICE

On 12 December 2006, the delegate of the Secretary of the Department of Health and Ageing for the purposes of subsection 14 and 14A of the *Therapeutic Goods Act 1989* (“the Act”) gave his consent for Genrx Pty Ltd, Suite 2B, Level 3, Building A, 11 Talavera Road, North Ryde, N.S.W. 2113 (“the Company”) to supply Cephalexin [as monohydrate] (Chemart Cephalexin) 250mg Capsules [AUST R 33229], which are exempt from the compliance with Therapeutic Goods order No 69 (TGO 69) “General requirements for labels for medicines”, specifically that the excipients hydrochloric acid for pH adjustment and water for injection omitted.

The conditions for this consent under section 15(1) of the Act are all of the following:

1. The exemption applies to 29,000 units of batch 1711015.
2. The exempted labels are those supplied with your application.
3. No other changes have been made to the product.

Australian Government
Department of Health and Ageing

COMMONWEALTH OF AUSTRALIA

THERAPEUTIC GOODS ACT 1989

SECTION 14 and 14A NOTICE

On 13 December 2006, the delegate of the Secretary of the Department of Health and Ageing for the purposes of subsection 14 and 14A of the *Therapeutic Goods Act 1989* (“the Act”) gave his consent for Mayne Pharma Pty Ltd, Level 6, 390 St Kilda Road, Melbourne VIC (“the Company”) to supply Ketamine(as hydrochloride)(Ketalar) injection 200mg in 2mL vial, (AUST R 70073) which are exempt from the requirements of Therapeutic Goods Order No. 69 (TGO.69) “General requirements for labels for medicines”.

For the purposes of subsection 15 of the Act, the Company must adhere to the following conditions in supplying the product.

1. The exemption applies specifically only to batches S019713, S1079713AA, S119713AA and S149713AA only, as detailed in your letter of application.
2. Your company will pay the normal fee that applies for an application to make this change
3. No other changes have been made to the product.
4. The labels to be used for the above batches of product are those currently approved for the previous sponsor of the product, Pfizer Australia Pty Ltd, who has given Mayne Pharma authority to use their labels and has agreed to forward any complaints, enquires and reports of adverse events to your company (Pfizer letter of 7 December 2006 refers.)

Maritime Transport and Offshore Facilities Security Regulations 2003

EXEMPTION FROM DISPLAYING AND CARRYING MARITIME SECURITY IDENTIFICATION CARDS FOR PERSONS ENTERING THE WANDOO A/B OFFSHORE FACILITY

I, John Anthony Kilner, General Manager, Maritime Security Branch, Office of Transport Security, Department of Transport and Regional Services, under regulation 6.07M of the *Maritime Transport and Offshore Facilities Security Regulations 2003* (the Regulations), give all persons in the class of persons described below an exemption from displaying and carrying an MSIC in accordance with the requirements set out in Part 6 of the Regulations:

- All Vermilion Oil and Gas Australia Party Ltd personnel and contractors working on the Wandoo A/B Offshore Facility.

This exemption operates from the date of this notice and ceases on 1 January 2008.

The exemption is given subject to the following conditions:

- This is an exemption from the requirement to display and carry only – the Regulations must still be adhered to with regards to the requirement to hold MSICs.
- Control arrangements in support of this exemption are to be included in the relevant Maritime Security Plan for Wandoo A/B Offshore Facility on its next review.

Dated 15th January 2007

Delegate of the Minister for Transport
and Regional Services

CONDITIONS SUBJECT TO WHICH THIS PERMIT IS ISSUED

1. That the Operations Centre is notified, within 14 days after every sailing, of the date of the voyage and the cargo carried by the ship.
2. This Permit covers the period 30/01/2007 to 29/04/2007.
3. This permit is issued on condition that the ship named in the permit leaves Australia and travels to a port outside Australia at least once in any three (3) month period.
4. Dry Bulk Cargo only may be carried.
5. The cargo may only be carried from: Sydney to Melbourne and Brisbane, Melbourne to Brisbane
6. If there is a change in schedule the Operations Centre must be advised before the vessel sails.
7. This permit is issued on condition that the ship named in the permit complies with all the standards of safety and marine environment protection of international conventions and agreements to which Australia is party.
8. This permit must be produced to Customs for clearance at each port of loading or discharge, prior to taking on board or discharging any cargo or passengers carried under permit.
9. This permit is subject to the condition that coastal cargo is carried by the permit holder only if:
(a) there is no licensed ship available for that carriage; or
(b) the service offered by an available licensed ship is, in the opinion of the Minister or the Minister's delegate, not adequate for the proposed carriage; and
in the opinion of the Minister's delegate, it is in the public interest for the permit holder to carry the coastal
10. The permit holder must check the availability of relevant licensed vessels on routes serviced by licensed operators with those operators before accepting coastal cargo for those routes, and before each sailing must send to the Department documentary evidence that it has done so. Contact details of relevant licensed operators are available on request from the Operations Centre.

FINANCIAL SECTOR (SHAREHOLDINGS) ACT 1998

APPROVAL TO HOLD A STAKE IN A FINANCIAL SECTOR COMPANY OF MORE THAN 15 PER CENT

Since:

1. Suncorp-Metway Limited ACN 010 831 722 (Suncorp) and each of its associates listed in the Schedule (the applicants) have applied for an approval under section 14 of the *Financial Sector (Shareholdings) Act 1998* (the Act) to hold a 100 per cent stake in Promina Group Limited ACN 000 746 092 (Promina) and each of the following subsidiaries of Promina (each entity being a financial sector company):
 - 1.1. Australian Alliance Insurance Company Limited ACN 006 471 709 (AAI);
 - 1.2. Australian Associated Motor Insurers Limited ACN 004 791 744 (AAMI);
 - 1.3. Vero Insurance Limited ACN 005 297 807 (Vero); and
 - 1.4. Asteron Life Limited ACN 001 698 228 (Asteron);
2. the applicants have also applied for an approval under section 14 of the Act to hold a 50 per cent stake in RAC Insurance Propriety Limited ACN 094 685 882 (RACI) (a financial sector company); and
3. I am satisfied that it is in the national interest for the applicants to be granted approval to hold:
 - 3.1. a 100 per cent stake in Promina, AAI, AAMI, Vero and Asteron; and
 - 3.2. a 50 per cent stake in RACI;

I, PETER CRAIG DUTTON, Minister for Revenue and Assistant Treasurer, under subsection 14(1) of the Act, APPROVE Suncorp and each of its associates listed in the Schedule holding a 100 per cent stake in Promina, AAI, AAMI, Vero and Asteron and holding a 50 per cent stake in RACI.

This approval remains in force indefinitely.

Note: The terms 'associate', 'stake' and 'financial sector company' have the same meanings as they do in the Act.

Date: 10 / 01 / 2007

Commissioner of Taxation NOTICE OF A DATA MATCHING PROGRAM

The Australian Taxation Office (the Tax Office) will request and collect business names and addresses from NT WorkSafe. These will be electronically matched with certain sections of Tax Office data holdings to identify non-compliance with registration, lodgment and payment obligations under taxation law. Records relating to approximately 1,000 entities registered with NT WorkSafe will be matched under this program.

This program is called the NT WorkSafe Data Matching Project and it enables the Tax Office:

- To identify people outside the taxation system
- To verify the accuracy of information provided by taxpayers
- To address non-compliance with lodgment and debt payment; and
- To be more strategic in its approach to Tax Office business activities.

A document describing this program has been prepared in consultation with the Office of the Privacy Commissioner. A copy of this document is available from:

ABN Compliance Team
Australian Taxation Office
GPO Box 200
Adelaide SA 5001

Telephone: (08) 7422 2310

The Tax Office complies with the Privacy Commissioner's *Guidelines on Data Matching in Commonwealth Administration*, which includes standards for data matching to protect the privacy of individuals.

COMMISSIONER OF TAXATION

The Commissioner of Taxation, Michael D'Ascenzo, gives notice of the following Rulings, copies of which can be obtained from Branches of the Australian Taxation Office or at <http://law.ato.gov.au>.

NOTICE OF RULINGS		
Ruling Number	Subject	Brief Description
PR 2007/1	Income tax: Agriwealth 31 March 2007 Radiata Pine Project	This Ruling applies to Growers who were accepted to participate in the Project on or after 24 January 2007 and on or before 31 March 2007 and who entered into the scheme as specified in the Ruling for the commercial growing and cultivation of <i>Pinus radiata</i> trees for the purpose of harvesting and selling the timber. This Ruling applies from 24 January 2007.
PR 2007/2	Income tax: Bioforest Sustainable Timber and Biofuel Project 2007	This Ruling applies to Growers who were accepted to participate in the Project on or after 24 January 2007 and on or before 30 June 2007 and who entered into the scheme as specified in the Ruling for the commercial growing and cultivation of Silky Oak (<i>Grevillea robusta</i>), and She-oak (<i>Casuarina cunninghamiana</i>), for the purpose of harvesting and selling the produce. This Ruling applies from 24 January 2007.

TRADE PRACTICES ACT 1974

Consumer Protection Notice No. 1 of 2007

UNSAFE GOODS NOTICE

I, CHRIS PEARCE, Parliamentary Secretary to the Treasurer, pursuant to sub-section 65C(5) of the *Trade Practices Act 1974*, hereby DECLARE that goods of the kind specified below are unsafe goods, in that it appears to me the goods will or may cause injury to a person.

The effect of this declaration is to ban the supply of these goods for a period of 18 months.

Particulars of Goods:

Toys, novelties, ornaments or similar items containing brightly coloured small red and black seeds known as *Abrus precatorius* (common names include crab's eyes, rosary pea, jequirity bean, precatory bean, gidgee-gidgee).

Summary of reasons:

The seeds are described in numerous scientific references as highly toxic and capable of causing death if ingested.

Dated this

COMMONWEALTH OF AUSTRALIA

TRADE PRACTICES ACT 1974

Consumer Protection Notice No. 2 of 2007

**CERTIFICATION FOR PUBLICATION WITHOUT DELAY OF A NOTICE
DECLARING UNSAFE GOODS**

I, CHRIS PEARCE, Parliamentary Secretary to the Treasurer, pursuant to section 65L(1) of the *Trade Practices Act 1974*, hereby CERTIFY that a notice under section 65C of the *Trade Practices Act 1974* in relation to goods of a kind specified below should be published without delay, as it appears to me that such goods create an imminent risk of death or serious injury.

Particulars of Goods:

Toys, novelties, ornaments or similar items containing brightly coloured small red and black seeds known as *Abrus precatorius* (common names include crab's eyes, rosary pea, jequirity bean, precatory bean, gidgee-gidgee).

The seeds are described in numerous scientific references as highly toxic and capable of causing death if ingested.

TRADE PRACTICES ACT 1974

Consumer Protection Notice No. 3 of 2007

INVITATION TO REQUEST THE AUSTRALIAN COMPETITION AND CONSUMER COMMISSION TO HOLD A CONFERENCE IN RELATION TO THE DECLARATION OF UNSAFE GOODS

I, CHRIS PEARCE, Parliamentary Secretary to the Treasurer, pursuant to section 65M(1) of the *Trade Practices Act 1974*, INVITE any person who has supplied or proposes to supply goods of a kind specified below to notify the Australian Competition and Consumer Commission (ACCC) in writing at the address shown below within a period of ten (10) days commencing on the day on which this notice is published in the Gazette or within such a longer period as the ACCC allows, whether that person wishes the ACCC to hold a conference in relation to the publication of a notice under section 65C(5) of the *Trade Practices Act 1974*.

Particulars of Goods:

Toys, novelties, ornaments or similar items containing brightly coloured small red and black seeds known as *Abrus precatorius* (common names include crab's eyes, rosary pea, jequirity bean, precatory bean, gidgee-gidgee).

The seeds are described in numerous scientific references as highly toxic and capable of causing death if ingested.

Note: The section 65C(5) notice referred to above bans the supply of the above goods for a period of eighteen months. This notice provides suppliers or potential suppliers of toys, novelties, ornaments or similar items containing *abrus precatorius* with the opportunity to request a conference to be held by the ACCC in relation to the ban.

Address for notification to the Australian Competition and Consumer Commission:
