Some public notifications on the Internet and in the Gazette relating to the processing of referrals for approval under Chapter 4 of the Environment Protection and Biodiversity Conservation Act 1999 may occasionally be missed in processing by the Department of the Environment and Water Resources, or may not meet timeframes for notification. The Department of the Environment and Water Resources has implemented systems and ongoing quality assurance procedures to minimise any risk of missing a notification within the required timeframe. Where a missed notification is identified the practice will be to notify these even though the timeframe for notification has lapsed. This will ensure that the history of notifications for each referral is available to the public. Australian Fisheries Management Authority

Fisheries Management Act 1991

EASTERN TUNA AND BILLFISH FISHERY

DECLARATION OF INTENTION TO GRANT STATUTORY FISHING RIGHTS

I, MARGOT LIESELOTTE SACHSE, Manager, Quota Management of the Australian Fisheries Management Authority (AFMA), as a delegate of AFMA under section 92 of the *Fisheries Administration Act 1991*, make the following declaration under subsection 24(1) of the *Fisheries Management Act 1991*.

Signed, Margot Sachse

Dated 11 May 2007
Australian Fisheries Management Authority

AFMA intends to grant Statutory Fishing Rights (SFRs) under the *Eastern Tuna and Billfish Fishery Management Plan 2005* (as amended by the *Eastern Tuna and Billfish Fishery Management Plan Amendment 2007 (No. 1)*) (the Management Plan). The Management Plan is the management plan in force under the *Fisheries Management Act 1991* (the Act) for the Eastern Tuna and Billfish Fishery.

In accordance with sections 24 & 25 of the Act, AFMA invites interested persons to apply to be registered as eligible for a grant of SFRs under the Management Plan. An application must be made in the approved form (see below) and must be received by AFMA within the notice period. The notice period is the period from the date of this notice to (and including) **12 June 2007** (the notice period).

The Eastern Tuna and Billfish Fishery Management Plan

The Eastern Tuna and Billfish Fishery (the ETBF) is defined in Schedule 1 to the Management Plan. Under the Management Plan, pelagic longline and minor line (trolling, rod and reel and handline or pole) SFRs will allow the holder to expend the level of fishing effort attached to

those SFRs, as determined by reference to the total allowable effort (TAE) for both types of effort SFRs. The TAE will be set before each fishing season for both types of SFRs.

Registration as an eligible person

The conditions for registration as an eligible person are specified in sections 25 and 26 of the Management Plan.

Longline SFRs

A person may be eligible for the grant of one or more longline SFRs if, on **30 November 2002**, the person held an old longline permit which forms part of a sequence of old longline permits; and the person applied for registration in the approved form before the end of the notice period.

If the person is not eligible on that basis, the person may be eligible if the person used an Australian boat to engage in pelagic longline fishing in the high seas zone between 1 January 1992 and 10 December 2001 (inclusive); the person submits evidence of that fishing activity; during that period the person did not engage in pelagic longline fishing in the AFZ (other than by carrying of fish taken in the high seas zone); and the person applied for registration in the approved form before the end of the notice period.

Minor line SFRs

A person may be eligible for the grant of one or more minor line SFRs if, on **30 November 2002**, the person held an old minor line permit, which forms part of a sequence of old minor line permits; and the person applied for registration in the approved form before the end of the notice period.

If the person is not eligible on that basis, the person may be eligible if the person used an Australian boat to engage in commercial minor line fishing in the high seas zone between 1 January 1992 and 10 December 2001 (inclusive); the person submits evidence of that fishing activity; during that period the person did not engage in commercial minor line fishing in the AFZ (other than by carrying of fish taken in the high seas zone); and the person applied for registration in the approved form before the end of the notice period.

A *sequence* of permits is defined in section 4A of the Management Plan.

As soon as practicable after the first SFRs come into effect under the Management Plan, AFMA will grant boat permits in accordance with section 37 of the Management Plan and section 32 of the Act.

How to apply to be registered

You may register as eligible for a grant of SFRs by completing the approved application form and returning it to AFMA by **12 June 2007**. An application must be in the approved form (section 26 of the Act).

There is no fee for applying to be registered, or for the grant of SFRs. Application forms are available through the contact details below.

AFMA will assess your application against the criteria for eligibility set out in the Management Plan. If you satisfy the eligibility criteria, AFMA will register you as an eligible person for a grant of SFRs (section 26 of the Act). All applicants will be advised in writing if they have been registered or not. If you are dissatisfied with AFMA's decision you may apply for a review by AFMA. You also have the right to review by the Administrative Appeals Tribunal (AAT), if dissatisfied with the outcome of the review by AFMA (section 165 of the Act).

The process for granting Statutory Fishing Rights

Once any applications for review to AFMA or AAT have been concluded, and the number of eligible persons has finally been determined, AFMA will proceed to make a **provisional** grant of SFRs.

If you have been registered as eligible for the grant of SFRs, AFMA will determine the number of SFRs available to be granted to you in accordance with the formulae specified in, and other requirements of, the Management Plan (Part 4, Division 4.5), and will make a provisional grant to you. You will be advised of the provisional grant in writing. All provisional grants will also be advertised in the *Gazette* (section 23 of the Act). If you are dissatisfied with AFMA's decision you have a right to review by the Statutory Fishing Rights Allocation Review Panel (SFRARP) under section 143 of the Act.

AFMA cannot grant any SFRs until all requests for review by SFRARP have been dealt with or otherwise disposed of (section 23 of the Act).

An SFR granted under the Management Plan will be valid for the life of the Management Plan (unless the SFR is surrendered, cancelled or otherwise ceases to have effect under a provision of the Act or the Management Plan, or a condition on the certificate evidencing the grant).

Other information

Anyone fishing in the ETBF must comply with the conditions attached to SFRs and any requirements under the Management Plan. The Management Plan may be amended from time-to-time to impose new requirements. The Management Plan also gives AFMA the power to make Directions and Determinations that may restrict fishing activity in the fishery.

Management and research costs for the ETBF will be fully recovered from the fishery. These costs are necessary for the ongoing management of the fishery and will be recovered through annual levies on SFRs.
