PO Box Q500
Queen Victoria Building NSW 1230www.acma.gov.au**OPINION ON CATEGORY OF BROADCASTING SERVICE**

Lost the Plot Productions (**the Applicant**) has applied to the Australian Communications and Media Authority (**ACMA**) under section 21 of the *Broadcasting Services Act 1992* (**the Act**) for an opinion as to which category of broadcasting service a proposed service falls into.

In forming its opinion, ACMA has taken into account information provided by the Applicant in its application received by ACMA on 19 March 2007, further information received from the Applicant on 28 March 2007 and other information known to ACMA.

The proposed service has the following features:

- the service will operate continuously and permanently;
- the service will be available to anyone with an FM radio in the town of Albany, Western Australia;
- the service will broadcast the ARIA Top 50 Chart Singles on a 4-hour pre-recorded looped service, which will be updated once per week; and
- music will take up 80% of airtime, with the remaining airtime being taken up by advertisements.

This opinion is given having regard to the criteria set down in sections 18 and 22 of the Act, and to the *Broadcasting Services Clarification Notice 2001* (**the Notice**) made pursuant to section 19 of the Act. The Notice clarifies the criteria specified in section 18 of the Act as they apply to an AM or FM radio broadcasting service that is not made available only on payment of subscription fees.

It is the opinion of ACMA that the service falls within the **open narrowcasting** category of service.

In reaching this opinion, ACMA has concluded that:

- ♦ reception of the service is not limited in any of the following ways:
 - ♦ by being targeted to special interest groups [s.18(1)(a)(i)]; or
 - ♦ by being intended only for limited locations, for example, arenas or business premises [s.18(1)(a)(ii)]; or

- ♦ by being provided during a limited period or to cover a special event [s.18(1)(a)(iii)]; or
- ♦ for some other reason [s.18(1)(a)(v); but that
- ♦ reception of the service is limited:
 - ♦ because, for the reasons set out below, it provides programs of limited appeal [s.18(1)(a)(iv)]:
 - ♦ the proposed service will be pre-recorded;
 - ♦ the whole of the material will be repeated after each broadcast;
 - ♦ each broadcast will be 4 hours in duration; and
 - ♦ the material will be updated only once per week.

In addition, in accordance with s.18 of the Act, the proposed service complies with a determination or clarification under section 19 of the Act in relation to open narrowcasting services, that is, the Notice.

Section 8 of the Notice provides that a broadcasting service that has the following characteristics is an open narrowcast service:

- ♦ the content of the broadcasting service consists solely of pre-recorded material;
- ♦ the whole of the material is repeated after each completed broadcast;
- ♦ there is not more than four hours of material in a completed broadcast; and
- ♦ the material is not updated or otherwise varied more than once in any week.

Section 21(5) of the Act provides that, if ACMA has given an opinion under this section to the provider of a broadcasting service, neither ACMA nor any other Government agency may, while the circumstances relating to the broadcasting service remain substantially the same as those advised to ACMA in relation to the application for the opinion:

- take any action against the provider of the service during a period of 5 years commencing on the day on which the opinion is given on the basis that the service falls into a different category, or different categories, of broadcasting service than that advised in the opinion; or
- unless ACMA has made a determination or clarification under section 19 of the Act after the opinion was given that places the broadcasting service in a different category or different categories - take any action against the

NOTICE OF PROPOSED DATA MATCHING PROGRAM

On 30th June 2007 Centrelink will complete a matching process of customer records with debts against the Australian Taxation Office (ATO) Taxpayer Records System.

The matching program will enable Centrelink to identify instances where a person with a debt is eligible for a payment from the ATO (e.g. a tax refund or available credit). Centrelink may then give a notice to the ATO requiring them to pay some, or all, of the amount to Centrelink in order to satisfy or partially satisfy a debt owed by the person to Centrelink. This debt recovery is known as “garnishee action” and falls under the debt recovery provisions of the *Social Security Act 1991*, *Family Assistance (Administration) Act 1999* or the *Student Assistance Act 1973*.

Up to 150,000 Centrelink records will be matched against ATO taxpayer records.

A document describing this program has been developed in consultation with the Office of the Privacy Commissioner. Copies of the document are available from:

Office of the Gene Technology Regulator

1 June 2007

**INVITATION TO COMMENT ON A RISK ASSESSMENT AND RISK
MANAGEMENT PLAN FOR GENETICALLY MODIFIED COTTON**

Australia's gene technology regulatory system is designed to protect the health and safety of people and the environment by identifying risks posed by, or as a result of, gene technology and managing those risks.

The Gene Technology Regulator is currently assessing licence application DIR 073/2007 from Deltapine Australia Pty Ltd to intentionally release genetically modified (GM) cotton into the environment.

The application proposes the limited and controlled release of up to four insect resistant and insect resistant/herbicide tolerant GM cotton lines over a three season period (2007-2010). The proposed trial would take place at up to 50 sites of no more than 10 hectares each (maximum total area of 500 hectares), in up to 20 shires in NSW and Queensland. The trial would involve early stage research to evaluate the agronomic performance and efficacy of the GM cotton lines; collect data for other regulatory approvals; breed, select, and test new cotton lines; and produce seed for further trials, subject to additional approvals.

The Regulator has prepared a risk assessment and risk management plan (RARMP) for the proposed release, and suggests a range of conditions (including containment measures) that would be imposed if a licence was issued.

The Regulator welcomes written submissions in order to finalise the RARMP, which will then form the basis of her decision on whether or not to issue the licence. The consultation RARMP and related documents can be obtained from the website <<http://www.ogtr.gov.au>> under 'What's New' or by contacting her Office. Please quote the application DIR 073/2007 in any correspondence.

Submissions should be received by close of business on **13 July 2007**.

In accordance with the *Student Assistance Act 1973*, and the *Social Security Act 1991*, at 1 June 2007 the indexation factor for all outstanding Student Financial Supplement Scheme loans is as follows:

Indexation factor for 2007

The effective percentage rate of indexation to be applied on 1 June 2007 is **3.4%**.

The indexation rate was published in the Commonwealth Government gazette on Wednesday 9 May 2007 by the Australian Taxation Office.

Calculation

The indexation factor is based on changes in the Consumer Price Index. It is the number worked out to 3 decimal places using the formula:

The sum of the index number for the March quarter in the relevant year and the index numbers for the 3 immediately preceding quarters

divided by

the sum of the index number for the March quarter in the year immediately before the relevant year and the index numbers for the 3 immediately preceding quarters.

The indexation factor for 1 June 2006 is worked out below.

Current 4 quarters	March	07	155.6
	December	06	155.5
	September	06	155.7
	June	06	154.3
Previous 4 quarters	March	06	151.9
	December	05	150.6
	September	05	149.8
	June	05	148.4

Calculation

$$\frac{155.6 + 155.5 + 155.7 + 154.3}{151.9 + 150.6 + 149.8 + 148.4}$$

$$621.1 \text{ divided by } 600.7 = 1.033960379$$

The gazetted indexation factor for 1 June 2007 is 1.034.

The percentage change in the debt after applying the factor is 'indexation factor *minus* 1 *multiplied* by 100'.

The effective percentage rate of indexation for 2007 is 3.4% (that is, 1.034 *minus* 1 *multiplied* by 100).
