**NOTICE OF APPLICATION FOR RENEWAL OF LICENCE UNDER SECTION 90(2) OF THE *BROADCASTING SERVICES ACT 1992***

In accordance with sub-section 90(2) of the *Broadcasting Services Act 1992* (the Act), the Australian Communications and Media Authority (ACMA) hereby notifies that the companies listed below have lodged applications for the renewal of the following broadcasting service licences:

<b>Community Radio Licensees</b>	<b>SL No</b>	<b>Service Area</b>	<b>State</b>
Toowoomba Christian Broadcasters Association Inc.	1150095	TOOWOOMBA RA2	QLD
Warwick Community FM Radio Association Inc.	1150093	WARWICK RA2	QLD
Kiewa Valley Community Radio Association Inc	1150015	MT BEAUTY RA1	VIC
Lightning Ridge Community Radio Inc.	10414	LIGHTNING RIDGE RA1	NSW

ACMA is required to renew these licences unless it decides that an applicant is no longer a suitable licensee. A company is a suitable licensee if ACMA does not decide that sub-section 83(2) of the Act applies to the company.

ACMA may decide that sub-section 83(2) of the Act applies to a licensee if it is satisfied that allowing the licensee to provide or continue to provide either a commercial or a community broadcasting service under a licence would lead to a significant risk of: (a) an offence against the Act or the regulations being committed; (b) or a breach of the conditions of the licence occurring.

In deciding whether these sub-sections apply, ACMA is required by sub-section 83(3) of the Act, to take into account: (a) the business record of the company; and (b) the company's record in situations requiring trust and candour; and (c) (commercial) the business record of each person who is, or would be, if a licence were allocated to the applicant, in a position to control the licence; or (community) the business record of the chief executive and each director and secretary of the applicant; and (d) the record in situations requiring trust and candour of each such person; and (e) whether the company, or a person referred to in paragraph (c) or (d), has been convicted of an offence against this Act or the regulations.

Under sub-section 91(2A) of the Act, ACMA may also refuse to renew a community broadcasting licence if, having regard to matters in paragraphs 84(2)(a) to (f), it considers that it would not allocate such a licence if it were deciding whether to allocate the licence to the licensee.

The Act does not require ACMA to hold an investigation or a hearing into whether a community licence should be renewed (sub-section 91(3)).

## AUSTRALIAN COMMUNICATIONS AND MEDIA AUTHORITY

ARN Broadcasting Pty Ltd	4143	MELBOURNE RA1	VIC
Commercial Television Licensees	SL No	Service Area	State
Regional Television Pty Limited	4285	REMOTE CENTRAL AND EASTERN AUSTRALIA TV2	VARIOUS

ACMA is required to renew these licences unless it decides that an applicant is no longer a suitable licensee. A company is a suitable licensee if ACMA does not decide that sub-section 41(2) of the Act applies to the company.

ACMA may decide that 41(2) of the Act applies to a licensee if it is satisfied that allowing the licensee to provide or continue to provide a commercial broadcasting service under a licence would lead to a significant risk of: (a) an offence against the Act or the regulations being committed; (b) or a breach of the conditions of the licence occurring.

In deciding whether the sub-section applies, ACMA is required by sub-section 41(3) of the Act, to take into account: (a) the business record of the company; and (b) the company's record in situations requiring trust and candour; and (c) the business record of the chief executive and each director and secretary of the applicant; and (d) the record in situations requiring trust and candour of each such person; and (e) whether the company, or a person referred to in paragraph (c) or (d), has been convicted of an offence against this Act or the regulations.

## MINISTER FOR THE ENVIRONMENT, HERITAGE AND THE ARTS

### NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR APPROVAL FOR A VARIATION OF THE FUEL STANDARD (PETROL) DETERMINATION 2001

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

#### **Name of approval holder**

Approval has been granted to ACB Group Pty Ltd.

#### **Period of operation**

The period of operation of the approval is from the date of the approval until 31 December 2010.

#### **Details of the approval**

This approval varies the Fuel Standard (Petrol) Determination 2001 (the Petrol Determination) so that leaded and unleaded petrol containing the following parameters:

leaded petrol:

- Lead up to 0.85g/L and

unleaded petrol:

- Aromatics up to 78 per cent v/v and/or
- Ethanol up to 20.0 per cent v/v and/or
- Oxygen up to 7.0 per cent m/m in petrol containing ethanol

will be taken to comply with the parameters specified in the Petrol Determination.

Approval is granted subject to the conditions specified in section 17 of the Act and in Annexure 2 of the approval.

#### **Background**

Section 15 of the Act provides that I must have regard to the following when deciding whether or not to grant or amend an approval:

- (a) the protection of the environment
- (b) the protection of occupational and public health and safety

- (c) the interests of consumers and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to the recommendations of, the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendations of the Committee made in January 2009.

### **Findings on material questions of fact**

#### **1 Protection of the environment**

The fuel subject to this approval is supplied and used in relatively small quantities for motor sport activities. In this context, higher levels of lead, aromatics and oxygenates are not expected to impact significantly on ambient air quality.

The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage. It is therefore not expected that permitting the supply of the fuels covered by this approval for motor sport activities will have an adverse effect on the environment.

#### **2 Protection of occupational and public health and safety**

These fuels are not likely to have any impact on the health and safety of users as the volume of fuel used is minimal and for specific events. The fuel will be used by a small number of competitors and no contact with the public is expected. Leaded and unleaded racing fuels are generally supplied in sealed containers of up to 205 litres capacity and are used in small quantities, primarily in off-road activities, and in widely dispersed locations. Safe handling information will be provided with the fuel. In consequence, any significant occupational and public health and safety risks are not expected to result from use of these fuels.

#### **3 Interest of consumers**

Leaded and unleaded racing fuels meet the needs of a niche market for specific classes of motor racing. The consumers using these fuels seek the performance and operability characteristics provided by these fuels. Without them, motor sport competitors may not be able to operate their vehicles effectively.

#### **4 Impact on economic and regional development**

Many racing venues are located outside major population areas. Motor sport events provide an ongoing financial benefit to these regional communities. A decision not to allow the continued and controlled supply of leaded and unleaded racing fuels may have an adverse impact on national motor sport competitions and the economic benefits that flow from them.

### **Reasons for the approval**

1. Petrol racing fuels are used in small quantities in motor sport activities and are supplied to regulated users. The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage.
2. Motor sport events provide an ongoing financial benefit to regional communities and it is not expected that use of small volumes of fuels which are the subject of these approvals

will have a significant effect on the environment or on occupational and public health and safety.

## MINISTER FOR THE ENVIRONMENT, HERITAGE AND THE ARTS

### NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR APPROVAL FOR A VARIATION OF THE FUEL STANDARD (PETROL) DETERMINATION 2001

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

#### **Name of approval holder**

Approval has been granted to ET Racing Fuels & Lubricants Pty Ltd.

#### **Period of operation**

The period of operation of the approval is from the date of the approval until 31 December 2010.

#### **Details of the approval**

This approval varies the Fuel Standard (Petrol) Determination 2001 (the Petrol Determination) so that leaded and unleaded petrol containing the following parameters:

leaded petrol:

- Lead up to 0.85g/L and

unleaded petrol:

- Aromatics up to 80 per cent v/v and/or
- Benzene up to 5 per cent v/v and/or
- Di-isopropyl ether (DIPE) up to 5 per cent v/v
- Ethanol up to 30 per cent v/v and/or
- Methyl tertiary butyl ether (MTBE) up to 51 per cent v/v and/or
- Olefins up to 40 per cent v/v and/or
- Oxygen up to 12.0 per cent m/m in petrol containing ethanol

will be taken to comply with the parameters specified in the Petrol Determination.

Approval is granted subject to the conditions specified in section 17 of the Act and in Annexure 2 of the approval.

#### **Background**

Section 15 of the Act provides that I must have regard to the following when deciding whether or not to grant or amend an approval:

- (a) the protection of the environment
- (b) the protection of occupational and public health and safety
- (c) the interests of consumers and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to the recommendations of, the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendations of the Committee made in January 2009.

### **Findings on material questions of fact**

#### **1 Protection of the environment**

The fuel subject to this approval is supplied and used in relatively small quantities for motor sport activities. In this context, higher levels of aromatics, DIPE, lead, MTBE, olefins and oxygenates are not expected to impact significantly on ambient air quality.

The consequences of even a small amount of DIPE or MTBE contaminating water sources can be significant. Accordingly, I have made it a condition of the approval that fuel containing DIPE or MTBE above the limit specified in the Petrol Determination will not be supplied for use in watercraft on fresh water lakes and waterways.

The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage. It is therefore not expected that permitting the supply of the fuels covered by this approval for motor sport activities will have an adverse effect on the environment.

#### **2 Protection of occupational and public health and safety**

The fuel is not likely to have any impact on the health and safety of users as the volume of fuel used is minimal and for specific events. The fuel will be used by a small number of competitors and no contact with the public is expected. Leaded and unleaded racing fuels are supplied in sealed containers of up to 205 litres capacity and are used in small quantities, primarily in off-road activities, and in widely dispersed locations. Safe handling information will be provided with the fuel. In consequence, any significant occupational and public health and safety risks are not expected to result from use of these fuels.

#### **3 Interest of consumers**

Leaded and unleaded racing fuels meet the needs of a niche market for specific classes of motor racing. The consumers using these fuels seek the performance and operability characteristics provided by these fuels. Without them, motor sport competitors may not be able to operate their vehicles effectively.

#### **4 Impact on economic and regional development**

Many racing venues are located outside major population areas. Motor sport events provide an ongoing financial benefit to these regional communities. A decision not to allow the continued and controlled supply of leaded and unleaded racing fuels may have an adverse impact on national motor sport competitions and the economic benefits that flow from them.

### **Reasons for the approval**

1. Petrol racing fuels are used in small quantities in motor sport activities and are supplied to regulated users. The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage.
2. Motor sport events provide an ongoing financial benefit to regional communities and it is not expected that use of small volumes of fuels which are the subject of these approvals will have a significant effect on the environment or on occupational and public health and safety.

**DECLARATION OF SPECIAL CIRCUMSTANCES WHICH JUSTIFY AN  
INCREASE IN THE AMOUNT OF COMMONWEALTH GOVERNMENT  
SECURITIES ON ISSUE**

I, WAYNE MAXWELL SWAN, Treasurer of the Commonwealth, declare that, under section 5A of the *Commonwealth Inscribed Stock Act 1911*, there are special circumstances which justify an increase in the limit of Commonwealth Government stock and securities on issue.

The global financial crisis has driven almost all major advanced economies into recession. Advanced economies are expected to experience the sharpest collective decline in gross domestic product in the post-war period. The emerging economies of China and India are now expected to slow markedly. The global commodity boom which has provided significant stimulus to Australian growth and incomes over recent years is unwinding.

The global recession and unwinding of the commodity boom has also resulted in substantial downward revisions to government revenue. As a result of the deteriorating global economy and consequent falling tax revenues, it will be necessary to increase Government borrowing.

This declaration will come into force on the day on which it is published in the *Gazette*. Once in force, the limit imposed by section 5 on the total face value of stock and securities that may be on issue under the *Commonwealth Inscribed Stock Act 1911* and the *Loans Securities Act 1919* at any time is taken to be increased by \$125 billion.

Dated this 10<sup>th</sup> day of March 2009

Document ID: 168499

In this Notice

***financial sector company*** has the meaning given in section 3 of the Act.

*Note 1* Regulation 6 of the *Financial Sector (Transfers of Business) Regulations 1999* provides that, for subsection 43(4) of the Business Transfer Act, the provisions of the Act apply in relation to a transfer of business as if section 13A were inserted after section 13 of the Act. Section 13A provides that a financial sector company to which more than 15% of the gross assets and liabilities of another financial sector company (the ***transferring business***) is to be transferred under the Act, must apply to the Treasurer for approval to hold the transferring business and that Division 3 of Part 2 of the Act applies to the application as if the transferring business were a separate financial sector company.

*Note 2* Under section 14 of the Act, the Treasurer must give written notice of the approval to the applicant and arrange for a copy of the notice to be published in the *Gazette* and given to the Company.
