Australian Government
Attorney-General's Department
Office of Legislative Drafting and Publishing

This Gazette is published by the Office of Legislative Drafting and Publishing (OLDP) on behalf of the Commonwealth of Australia.

OLDP is a specialist professional drafter and the pre-eminent drafter of Commonwealth subordinate legislation.

OLDP strives to maintain and enhance its reputation as a centre of drafting excellence. OLDP produces legislative and administrative instruments of the highest standard through the innovative use of plain English, current technology and rigorous quality assurance procedures.

Through its responsibility for maintaining the Federal Register of Legislative Instruments (FRLI), OLDP plays an important role in the legislative process for Commonwealth legislative instruments.

OLDP prepares compilations of a range of Commonwealth legislation, arranges publication of Commonwealth legislation and legislative materials in hard copy form, and provides online access to Commonwealth legislation and legislative materials via the ComLaw (www.comlaw.gov.au) and the FRLI (www.frli.gov.au) websites.

OLDP's responsibilities

- drafting
- advising about drafting and interpreting instruments created under a statutory power
- maintaining the Federal Register of Legislative Instruments, registering legislative instruments and lodging registered instruments for tabling in Parliament
- preparing compilations of Acts and select legislative instruments

- providing ready public access to the law through ComLaw (www.comlaw.gov.au) and the Federal Register of Legislative instruments (www.frli.gov.au)
- ensuring that printed copies of Acts, select legislative instruments and related legislative material are available in 'as made' and compiled form

Other assistance

OLDP can provide advice on:

- the basis and role of delegated legislation and other instruments made under a statutory power
- the requirements and procedures for lodgment, registration, disallowance and sunseting of legislative instruments
- sound techniques for developing efficient drafting instructions (important for efficient achievement of your legislative program).

Other OLDP services

OLDP can provide a range of other services on a billable basis, including:

- arranging gazettal and tabling of other OLDP drafted non-legislative instruments.
- preparing compilations of legislative and non-legislative instruments

Notice to submit publication for classification within three days

I am writing to advise you that I have reviewed the following publication and that you are now required to submit an application for classification of this publication within three business days.

Title: Club International
Date of issue: October 2008
Volume: Issue 10
Publisher/ Distributor: L.A Magazines
Address: PO Box 227 CURRUMBIN QLD 4223
Number of pages: 148
Country of origin: USA
ISSN: 0747-0819
Modifications/comments: No post print modifications, page 6 contains title 'The Write Stuff'

Under section 23 of the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (the Classification Act), if:

- (a) the Director has reasonable grounds to believe that a publication is a submittable publication; and
- (b) the publication is being published in the Australian Capital Territory, or the Director has reasonable grounds to believe that it will be published in the Australian Capital Territory;

the Director may, by notice in writing given to the publisher of the publication, require the publisher to submit an application for classification of the publication, or of subsequent issues of the publication, by the Board.

'Submittable publication' is defined in section 5 of the Classification Act to mean:

an unclassified publication that, having regard to section 9A or to the Code and the classification guidelines to the extent that they relate to publications, contains depictions or descriptions that:

- (a) are likely to cause the publication to be classified RC; or
- (b) are likely to cause offence to a reasonable adult to the extent that the publication should not be sold or displayed as an unrestricted publication; or
- (c) are unsuitable for a minor to see or read.

‘Publish’ is defined in section 5 of the Classification Act to include ‘sell, offer for sale, let on hire, exhibit, display, distribute and demonstrate’.

It is an offence in the ACT to sell or deliver submittable publications: subsection 28(1) of the *Classification (Publications, Films and Computer Games) (Enforcement) Act 1995* (ACT).

I have reasonable grounds to believe the above named publication is a submittable publication and I believe it has been published in the Australian Capital Territory.

I have therefore decided to issue this notice requiring the publisher to submit an application for classification of the publication.

Information about how to apply, including the application form and fees, is available at www.classification.gov.au. You may also wish to contact David Emery, the Applications Manager, on (02) 9289 7100 or david.emery@classification.gov.au.

It is an offence not to comply within three business days after receiving this notice.

A notice of my decision will be published in the Commonwealth Gazette.

Under section 23 of the *Classification (Publications, Films and Computer Games) Act 1995* (Cth) (the Classification Act), if:

- (a) the Director has reasonable grounds to believe that a publication is a submittable publication; and
- (b) the publication is being published in the Australian Capital Territory, or the Director has reasonable grounds to believe that it will be published in the Australian Capital Territory;

the Director may, by notice in writing given to the publisher of the publication, require the publisher to submit an application for classification of the publication, or of subsequent issues of the publication, by the Board.

'Submittable publication' is defined in section 5 of the Classification Act to mean:

an unclassified publication that, having regard to section 9A or to the Code and the classification guidelines to the extent that they relate to publications, contains depictions or descriptions that:

- (a) are likely to cause the publication to be classified RC; or
- (b) are likely to cause offence to a reasonable adult to the extent that the publication should not be sold or displayed as an unrestricted publication; or
- (c) are unsuitable for a minor to see or read.

‘Publish’ is defined in section 5 of the Classification Act to include ‘sell, offer for sale, let on hire, exhibit, display, distribute and demonstrate’.

It is an offence in the ACT to sell or deliver submittable publications: subsection 28(1) of the *Classification (Publications, Films and Computer Games) (Enforcement) Act 1995* (ACT).

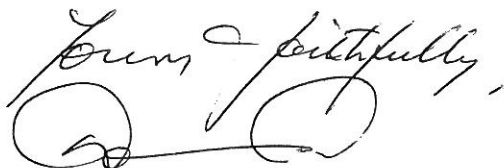

I have reasonable grounds to believe the above named publication is a submittable publication and I believe it has been published in the Australian Capital Territory.

I have therefore decided to issue this notice requiring the publisher to submit an application for classification of the publication.

NOTICE OF DECLARATION UNDER SUBSECTION 31(2)

Declaration that occupations carried on in two states are not equivalent

I, Douglas Humphreys, Registrar of the Administrative Appeals Tribunal, give notice pursuant to subsection 31(3) of the *Mutual Recognition Act 1992* that on 26 June 2009 the Administrative Appeals Tribunal made a declaration under subsection 31(2) of the *Mutual Recognition Act 1992* in the following terms:

Pursuant to section 31(2) of the *Mutual Recognition Act 1992* (Cth), as adopted in New South Wales by the *Mutual Recognition (New South Wales) Act 1992* and in Western Australia by the *Mutual Recognition (Western Australia) Act 2001*, the Tribunal hereby declares that the activities involved in the occupation of "orthodontist" in Victoria are not substantially the same as the activities involved in the occupation of "dentist" in New South Wales and Western Australia even with the imposition of conditions.

Broadband, Communications and the Digital Economy**NOTICE OF APPLICATION FOR RENEWAL OF LICENCE UNDER SECTION 90(2) OF THE *BROADCASTING SERVICES ACT 1992***

In accordance with sub-section 90(2) of the *Broadcasting Services Act 1992* (the Act), the Australian Communications and Media Authority (ACMA) hereby notifies that the companies listed below have lodged applications for the renewal of the following broadcasting service licences:

Community Radio Licensees	SL No	Service Area	State
Bowen Community Broadcasting Association Inc.	1150017	BOWEN RA1	QLD
Mabunji Aboriginal Resource Association Inc.	10149	BORROLOOLA RA1	NT
Ethnic Broadcasters Inc.	3074	ADELAIDE RA1	SA
Caboolture Community FM Radio Association Inc.	10350	CABOOLTURE RA1	QLD

ACMA is required to renew these licences unless it decides that an applicant is no longer a suitable licensee. A company is a suitable licensee if ACMA does not decide that sub-section 83(2) of the Act applies to the company.

ACMA may decide that sub-section 83(2) of the Act applies to a licensee if it is satisfied that allowing the licensee to provide or continue to provide either a commercial or a community broadcasting service under a licence would lead to a significant risk of: (a) an offence against the Act or the regulations being committed; (b) or a breach of the conditions of the licence occurring.

In deciding whether these sub-sections apply, ACMA is required by sub-section 83(3) of the Act, to take into account: (a) the business record of the company; and (b) the company's record in situations requiring trust and candour; and (c) (commercial) the business record of each person who is, or would be, if a licence were allocated to the applicant, in a position to control the licence; or (community) the business record of the chief executive and each director and secretary of the applicant; and (d) the record in situations requiring trust and candour of each such person; and (e) whether the company, or a person referred to in paragraph (c) or (d), has been convicted of an offence against this Act or the regulations.

Under sub-section 91(2A) of the Act, ACMA may also refuse to renew a community broadcasting licence if, having regard to matters in paragraphs 84(2)(a) to (f), it considers that it would not allocate such a licence if it were deciding whether to allocate the licence to the licensee.

The Act does not require ACMA to hold an investigation or a hearing into whether a community licence should be renewed (sub-section 91(3)).

**MINISTER FOR THE ENVIRONMENT, HERITAGE AND THE ARTS****NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000*
CONCERNING A DECISION UNDER SUBSECTION 33(3) OF THE *ACTS
INTERPRETATION ACT 1901* TO VARY APPROVALS GRANTED UNDER
SECTION 13 OF THE *FUEL QUALITY STANDARDS ACT 2000***

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts provide the following information concerning my decision to vary two approvals granted under section 13 of the *Fuel Quality Standards Act 2000* (the Act) pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*.

Name of approval holder

A variation has been granted to IOR Energy Pty Ltd (IOR) for approvals granted on 13 September 2007 and 20 November 2008 (the Approvals). The Approvals vary the Fuel Standard (Automotive Diesel) Determination 2001 (the Diesel Determination) so that diesel with a sulphur content of up to 125 mg/kg for underground mining use will be taken to comply with the sulphur parameter in the Diesel Determination.

Period of operation

The period of operation of the variations to the Approvals is from the date of signing until 31 December 2013.

Details of the approval variation

The purpose of the variation is to add two regulated persons (as set out in the instrument of variation) to the Approvals.

Background

Pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*, I must have regard to the matters set out in section 15 of the Act before deciding whether or not to vary the Approvals:

- (a) the protection of the environment
- (b) the protection of occupational and public health and safety
- (c) the interests of consumers and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*, I must also consult, and have regard to the recommendations of, the Fuel Standards Consultative Committee (the Committee) before deciding to vary an approval granted under section 13 of the Act as

required by section 24A of the Act. Before signing the instrument granting the variations to the Approvals, I consulted with the Committee and had regard to the recommendations it made in May 2009.

Findings on material questions of fact

1 Protection of the environment

The addition of two regulated persons to IOR's approvals is unlikely to add to the volume of fuel to be supplied under the approvals and therefore is unlikely to have any additional effect on the environment.

2 Protection of occupational and public health and safety

Monitoring of emissions in underground mines is undertaken to ensure the health of all workers in confined mine environments is protected. Equipment and vehicles using IOR's Eromanga Underground Mining Fuel in underground mining applications must meet State emission standards.

3 Interest of consumers

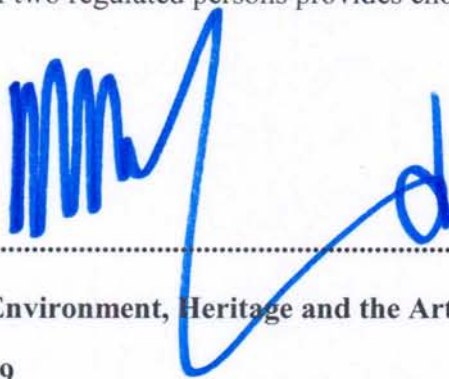

The addition of two regulated persons to IOR's approval increases the options for fuel supply to consumers.

4 Impact on economic and regional development

Two regional companies will benefit from their listing as IOR's regulated persons supporting employment in regional areas of New South Wales and Queensland.

Summary of reasons for recommendation

1. The volume of fuel to be supplied under this approval is unlikely to increase with additional regulated persons and therefore no additional effect on the environment is expected.
2. IOR contributes to regional development in New South Wales and Queensland.
3. The addition of two regulated persons provides choice for consumers.

MINISTER FOR THE ENVIRONMENT, HERITAGE AND THE ARTS

**NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000*
CONCERNING A DECISION UNDER SUBSECTION 33(3) OF THE *ACTS*
INTERPRETATION ACT 1901 TO VARY AN APPROVAL GRANTED UNDER
SECTION 13 OF THE *FUEL QUALITY STANDARDS ACT 2000***

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts provide the following information concerning my decision to vary an approval granted under section 13 of the *Fuel Quality Standards Act 2000* (the Act) pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*.

Name of approval holder

A variation has been granted to the National Biofuels Group Pty Ltd (NBG) for an approval granted on 26 February 2009 (the Approval). The Approval varies the Fuel Standard (Automotive Diesel) Determination 2001 (the Diesel Determination) so that diesel containing more than 5 per cent but no greater than 20 per cent biodiesel will be taken to comply with the biodiesel parameter in the Diesel Determination.

Period of operation

The period of operation of the variation to the Approval is from the date of signing until 1 March 2011.

Details of the approval variation

The purpose of the variation is to add three regulated persons (as set out in the instrument of variation) to the Approval.

Background

Pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*, I must have regard to the matters set out in section 15 of the Act before deciding whether or not to vary the Approval:

- (a) the protection of the environment
- (b) the protection of occupational and public health and safety
- (c) the interests of consumers and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Pursuant to subsection 33(3) of the *Acts Interpretation Act 1901*, I must also consult, and have regard to the recommendations of, the Fuel Standards Consultative Committee (the Committee) before deciding to vary an approval granted under section 13 of the Act as

required by section 24A of the Act. Before signing the instrument granting the variation to the Approval, I consulted with the Committee and had regard to the recommendations it made in May 2009.

Findings on material questions of fact

1 Protection of the environment

The addition of three regulated persons to NBG's approval is unlikely to significantly add to the volume of fuel to be supplied under the approval and therefore is unlikely to have any additional effect on the environment.

2 Protection of occupational and public health and safety

No additional effect on occupational and public health and safety is expected from the addition of three regulated persons to NBG's approval.

3 Interest of consumers

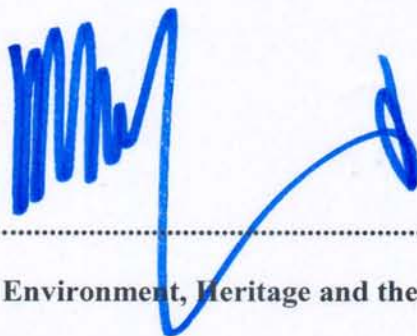

The addition of three regulated persons to NBG's approval increases the options for fuel supply to consumers.

4 Impact on economic and regional development

Three regional companies will benefit from their listing as NBG's regulated persons. This should help support employment in regional areas of New South Wales and Queensland.

Summary of reasons for variation of approval

1. The volume of fuel to be supplied under the approval is unlikely to increase with additional regulated persons and therefore no additional effect on the environment is expected.
2. The addition of three regulated persons to NBG's approval provides additional choice to consumers for the supply of this fuel.
3. NBG contributes to regional economies in New South Wales and Queensland.

Fuel Quality Standards Act 2000

Section 13

GRANT OF APPROVAL

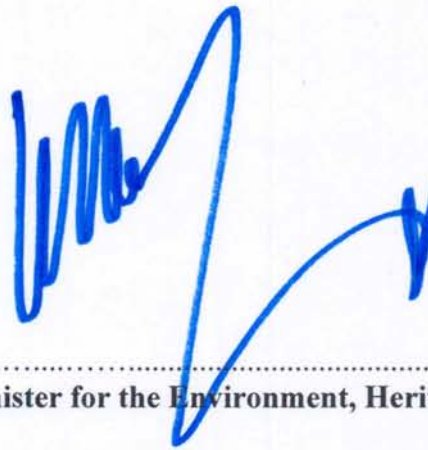

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts, pursuant to section 13 of the *Fuel Quality Standards Act 2000* (the Act), having consulted with the Fuel Standards Consultative Committee as required by section 24A of the Act, hereby grant this approval to Race Fuels Pty Ltd (the approval holder).

This approval varies the fuel standard for petrol set out in the Fuel Standard (Petrol) Determination 2001 (Determination) such that petrol containing: aromatics up to 54.9 per cent v/v; lead up to 1.65 g/L; methyl tertiary-butyl ether (MTBE) up to 36.0 per cent v/v; olefins up to 36.2 per cent v/v; oxygen up to 18.0 per cent m/m in petrol not containing ethanol, will be taken to comply with the aromatics, lead, MTBE, olefins and oxygen parameters specified in the Determination where that petrol is supplied by the approval holder or by a regulated person specified in Annexure 1 of this approval to an individual who has been issued with and presents a valid and current motor sport organisation licence and/or identification card, or to an individual for the purpose of testing or tuning an engine used in legitimate motor racing activities.

This approval is granted subject to the conditions specified in section 17 of the Act and the conditions specified in Annexure 2 of this approval.

This approval comes into force on the date this instrument is signed and remains in force until 31 December 2010.

Dated: 17 June 2009

Annexure 2

Conditions of approval

This approval is subject to the following conditions:

- 1) The approval holder will annually report the quantity of fuel supplied from the date of the approval until the end of the approval period to the department by the end of February in each year following the year of supply
- 2) The fuel may only be supplied in sealed containers of up to 205 litres capacity
- 3) Fuel containing greater than one per cent MTBE is not to be supplied for use in watercraft on fresh water lakes and waterways
- 4) The fuel specified in this approval must be accompanied by written information relating to the safe handling of the fuel, including the information that fuel containing greater than one per cent MTBE is not to be used in watercraft on fresh water lakes and waterways.

**MINISTER FOR THE ENVIRONMENT, HERITAGE AND THE ARTS****NOTICE UNDER SECTION 17A OF THE *FUEL QUALITY STANDARDS ACT 2000* CONCERNING A DECISION UNDER SECTION 13 OF THAT ACT FOR APPROVAL FOR A VARIATION OF THE FUEL STANDARD (PETROL) DETERMINATION 2001**

I, Peter Robert Garrett, Minister for the Environment, Heritage and the Arts provide the following information concerning my decision to grant an approval under section 13 of the *Fuel Quality Standards Act 2000* (the Act).

Name of approval holder

Approval has been granted to Race Fuels Pty Ltd.

Period of operation

The period of operation of the approval is from the date of the approval until 31 December 2010.

Details of the approval

This approval varies the Fuel Standard (Petrol) Determination 2001 (the Petrol Determination) so that petrol containing the following parameters:

- aromatics up to 54.9 per cent v/v;
- lead up to 1.65 g/L;
- methyl tertiary-butyl ether (MTBE) up to 36.0 per cent v/v;
- olefins up to 36.2 per cent v/v;
- oxygen up to 18.0 per cent m/m in petrol not containing ethanol,

will be taken to comply with the parameters specified in the Petrol Determination.

Approval is granted subject to the conditions specified in section 17 of the Act and in Annexure 2 of the approval.

Background

Section 15 of the Act provides that I must have regard to the following when deciding whether or not to grant or amend an approval:

- (a) the protection of the environment
- (b) the protection of occupational and public health and safety
- (c) the interests of consumers and
- (d) the impact on economic and regional development.

I may also have regard to any other matters I consider relevant.

Section 24A of the Act provides that I must consult, and have regard to the recommendations of, the Fuel Standards Consultative Committee (the Committee) before granting an approval under section 13. Before signing the instrument granting the approval, I consulted with the Committee and had regard to the recommendations of the Committee made in June 2009.

Findings on material questions of fact

1 Protection of the environment

The fuel subject to this approval is supplied and used in relatively small quantities for motor sport activities. In this context, higher levels of aromatics, lead, MTBE, olefins and oxygenates are not expected to impact significantly on ambient air quality.

The consequences of even a small amount of MTBE contaminating water sources can be significant. Accordingly, I have made it a condition of the approval that fuel containing MTBE above the limit specified in the Petrol Determination will not be supplied for use in watercraft on fresh water lakes and waterways.

The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage. It is therefore not expected that permitting the supply of the fuels covered by this approval for motor sport activities will have an adverse effect on the environment.

2 Protection of occupational and public health and safety

The fuel is not likely to have any impact on the health and safety of users as the volume of fuel used is minimal and for specific events. The fuel will be used by a small number of competitors and no contact with the public is expected. Leaded and unleaded racing fuels are supplied in sealed containers of up to 205 litres capacity and are used in small quantities, primarily in off-road activities, and in widely dispersed locations. Safe handling information will be provided with the fuel. In consequence, any significant occupational and public health and safety risks are not expected to result from use of these fuels.

3 Interest of consumers

Leaded and unleaded racing fuels meet the needs of a niche market for specific classes of motor racing. The consumers using these fuels seek the performance and operability characteristics provided by these fuels. Without them, motor sport competitors may not be able to operate their vehicles effectively.

4 Impact on economic and regional development

Many racing venues are located outside major population areas. Motor sport events provide an ongoing financial benefit to these regional communities. A decision not to allow the continued and controlled supply of leaded and unleaded racing fuels may have an adverse impact on national motor sport competitions and the economic benefits that flow from them.

Reasons for the approval

1. Petrol racing fuels are used in small quantities in motor sport activities and are supplied to regulated users. The fuel is expensive compared with normal fuels available to the public and the price provides a strong disincentive for any waste, misuse or spillage.
2. Motor sport events provide an ongoing financial benefit to regional communities and it is not expected that use of small volumes of fuels which are the subject of these approvals will have a significant effect on the environment or on occupational and public health and safety.

**COMMONWEALTH OF AUSTRALIA***Environment Protection and Biodiversity Conservation Act 1999***DECLARATION OF AN APPROVED WILDLIFE TRADE OPERATION**

I, NIGEL ROUTH, Assistant Secretary, Marine Biodiversity Policy Branch, as Delegate of the Minister for the Environment, Heritage and the Arts, have considered in accordance with section 303FN of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) the application from the Western Australia Department of Fisheries and advice on the ecological sustainability of the operation. I am satisfied on those matters specified in section 303FN of the EPBC Act. I hereby declare the operations for the harvesting of specimens that are, or are derived from, fish or invertebrates, other than specimens of species listed under Part 13 of the EPBC Act, taken in the Northern Developmental Blue Swimmer Crab Fishery, as defined in the management regime made under the *Western Australia Fish Resources Management Act 1994* to be an approved Wildlife Trade Operation, in accordance with subsection 303FN (2) and paragraph 303FN(10)(d), for the purposes of the EPBC Act.

Unless amended or revoked, this declaration:

- a) is valid until 8 July 2012 and;
- b) is subject to the conditions applied under section 303FT specified in the Schedule (dated July 2009).

Under the *Administrative Appeals Tribunal Act 1975*, a person whose interests are affected by this decision may apply for a statement of reasons and for independent review of the decision. An application for a statement of reason may be made in writing to Department of the Environment, Water, Heritage and the Arts within 28 days of the date of the declaration. An application for independent review may be made to the Administrative Appeals Tribunal on payment of the relevant fee within 28 days of the date of the declaration, or if reasons are sought, within 28 days of receipt of reasons. Further information may be obtained from the Director, Sustainable Fisheries Section.

SCHEDULE

Declaration of the Harvest Operations of the Northern Developmental Blue Swimmer Crab Fishery as an approved Wildlife Trade Operation, July 2009.

ADDITIONAL PROVISIONS (section 303FT)

Relating to the harvesting of fish specimens that are, or are derived from, fish or invertebrates, other than specimens of species listed under Part 13 of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act), taken in the Northern Developmental Blue Swimmer Crab Fishery, as defined in the management regime made under the *Western Australia Fish Resources Management Act 1994*.

1. Operation of the fishery will be carried out in accordance with the Northern Developmental Blue Swimmer Crab Fishery (NDBSCF) management regime made under the *WA Fish Resources Management Act 1994*.
2. The Department of Fisheries Western Australia (DFWA) to inform the Department of the Environment, Water, Heritage and the Arts (DEWHA) of any intended amendments to the NDBSCF management arrangements that may affect the assessment of the fishery against the criteria on which EPBC Act decisions are based.
3. DFWA to produce and present reports to DEWHA annually as per Appendix B to the *Guidelines for the Ecologically Sustainable Management of Fisheries 2nd Edition*.

Some public notifications on the Internet and in the Gazette relating to the processing of referrals for approval under Chapter 4 of the *Environment Protection and Biodiversity Conservation Act 1999* may occasionally be missed in processing by the Department of the Environment, Water, Heritage and the Arts, or may not meet timeframes for notification. The Department of the Environment, Water, Heritage and the Arts has implemented systems and ongoing quality assurance procedures to minimise any risk of missing a notification within the required timeframe. Where a missed notification is identified the practice will be to notify these even though the timeframe for notification has lapsed. This will ensure that the history of notifications for each referral is available to the public. The Department of the Environment, Water, Heritage and the Arts regrets any inconvenience that may be caused by a missed notification. Please note that late notifications have not affected subsequent processing of referrals or assessments and they do not affect decisions made.

2008/4646	Botanic Gardens Trust/Natural resources management/Sydney/NSW/Relocation of Grey-Headed Flying-Fox Colony	Public environment report	16-Feb-2009

* If the Assessment Approach is an Accredited Assessment Process the process must also be identified

Some public notifications on the Internet and in the Gazette relating to the processing of referrals for approval under Chapter 4 of the *Environment Protection and Biodiversity Conservation Act 1999* may occasionally be missed in processing by the Department of the Environment, Water, Heritage and the Arts, or may not meet timeframes for notification. The Department of the Environment, Water, Heritage and the Arts has implemented systems and ongoing quality assurance procedures to minimise any risk of missing a notification within the required timeframe. Where a missed notification is identified the practice will be to notify these even though the timeframe for notification has lapsed. This will ensure that the history of notifications for each referral is available to the public. The Department of the Environment, Water, Heritage and the Arts regrets any inconvenience that may be caused by a missed notification. Please note that late notifications have not affected subsequent processing of referrals or assessments and they do not affect decisions made.
