Customs Act 1901 - Part XVB

Geosynthetic clay liners

Federal Republic of Germany

Finding in relation to an investigation into alleged dumping

Notice under section 269TG(1) and section TG(2)

The Australian Customs and Border Protection Service (Customs and Border Protection) has completed its investigation into the alleged dumping of geosynthetic clay liners comprising one or more geotextile layers and one or more layers of bentonite clay, classified to tariff subheading 6815.99.00, statistical code 09, in Schedule 3 of the *Customs Tariff Act 1995* exported to Australia from Germany (the goods).

In Trade Measures Report No. 145 Customs and Border Protection recommended the publication of a dumping duty notice in respect of the goods. The report outlines the investigations carried out by Customs and Border Protection, a statement of the reasons for the recommendations contained in the report, material findings of fact or law on which Customs and Border Protection's recommendations were based and particulars of the evidence relied on to support the findings.

Particulars of the dumping margins established for each of the exporters and an explanation of the methods used to compare export prices and normal values to establish those dumping margins are set out in the following table:

Exporter	Dumping Margin	Method to establish dumping margin
Naue GmbH & Co. KG	26.7%	Weighted average export prices for each grade exported to Australia were compared with weighted average corresponding normal values over the investigation period in terms of subsection 269TACB(2)(a) of the <i>Customs Act 1901</i> . A weighted average dumping margin for GCLs exported to Australia in the investigation period was then calculated.

Customs and Border Protection had regard to all information available in establishing variable factors relevant to the calculation of interim dumping duty for all other exporters.

Trade Measures Report No. 145 should be read in conjunction with this notice and is available on request from the Trade Measures Office, Australian Customs and Border Protection Service, Canberra, telephone (02) 6275 6547 or on the Internet at www.customs.gov.au.

I, BRENDAN O'CONNOR, Minister for Home Affairs, have considered, and accepted, the recommendations of Customs and Border Protection, the reasons for the recommendations, the material findings of fact on which the recommendations are based and the evidence relied on to support those findings. I am satisfied, as to the goods exported to Australia, that the amount of the export price of the goods is less than the normal value of those goods and because of that, material injury to the Australian industry producing like goods would or might have been caused if securities had not been taken. Therefore under s.269TG(1) of the *Customs Act 1901*, I DECLARE that section 8 of the *Customs Tariff (Anti-Dumping) Act 1975* applies to:

- the goods; and
- like goods that were exported to Australia after 8 May 2009 (when the CEO made a Preliminary Affirmative Determination under section 269TD(4)(a) of the *Customs Act 1901* that there appeared to be sufficient grounds for the publication of a dumping duty notice) but before publication of this notice;

to the extent permitted by s.269TN of the *Customs Act 1901*.

I am also satisfied that the amount of the export price of like goods that have already been exported to Australia is less than the amount of the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods and because of that, material injury to the Australian industry producing like goods has been caused. Therefore under s.269TG(2) of the *Customs Act 1901*, I DECLARE that section 8 of the *Customs Tariff (Anti-Dumping) Act 1975* applies to like goods that are exported to Australia after the date of publication of this notice.

This declaration applies in relation to all exporters of the goods and like goods from Germany.

The considerations relevant to my determination of material injury to the Australian industry caused by dumping are the size of the dumping margins, the effect of dumped imports on prices in the Australian market in the form of price undercutting, price depression and price suppression and the consequent impact on the Australian industry including loss of sales volume, loss of profits and reduced profitability. In making my determination I have considered whether any injury to the Australian industry is being caused or threatened by a factor other than the exportation of dumped goods, and have not attributed injury caused by other factors to the exportation of those dumped goods.

Interested parties, as defined by subsection 269T(1) of the *Customs Act 1901*, may seek a review of this decision by lodging an application with the Trade Measures Review Officer, in accordance with the requirements in Division 9 of Part XVB of the *Customs Act 1901*, within 30 days of the publication of this notice.

Particulars of the export prices, non-injurious prices, and normal values of the goods as ascertained will not be published in this notice as they may reveal confidential information.

Enquiries concerning this notice may be directed to the case manager on telephone number (02) 6275 6701, fax number (02) 6275 6990 or email tmops3@customs.gov.au.
